

NOTICE OF CLOSURE KING-VAUGHAN ROAD UNDERPASS BRIDGE STRUCTURE

KING-VAUGHAN ROAD FROM WESTON ROAD TO JANE STREET
REGION OF YORK, CITY OF VAUGHAN AND TOWNSHIP OF KING
MINISTRY OF TRANSPORTATION CONTRACT 2017-2001

The Ontario Ministry of Transportation (MTO) is undertaking the demolition and reconstruction of the King-Vaughan underpass bridge structure to accommodate the widening and reconstruction of Highway 400 from Major Mackenzie Drive to King Road in the City of Vaughan and Township of King within the Regional Municipality of York.

The closure of King-Vaughan Road between Weston Road and Jane Street is expected to commence as early as March 23rd 2018. During this time, only construction traffic and local access to private properties on King-Vaughan Road within the closure will be permitted.

The King-Vaughan Underpass Bridge Structure demolition and new construction will be completed by Dufferin Construction Company. A temporary full closure of Highway 400 Northbound and Southbound between King Road and Teston Road is required to facilitate the demolition of the existing King-Vaughan Road bridge structure.

Please note that there may be periodic night time and possibly weekend construction work outside the permitted hours in the City of Vaughan Noise By-Law and Township of King Noise By-Law to avoid substantial traffic disruption if conducted solely during the hours specified in the by-laws.

For construction work conducted outside the permitted hours, MTO has secured an exemption from the subject municipal by-laws. Construction noise levels will be based upon a variety of factors such as time and location of operation, size and concurrent use of equipment and staging of construction. Standard noise mitigation measures pertaining to equipment maintenance and operation will be implemented as part of the contract.

Should you require further information on this project please contact Mr. Michael Pappas, the Site Contract Administrator at 905-597-5819 or 2017-2001@aecom.com
