

## NEWSLETTER No. 2:

### Hanlan Road Area- Road Rehabilitation and Watermain Replacement

May 2, 2019

Beginning June 2019, the City of Vaughan will be undertaking work to improve the existing road and watermain infrastructure in the Hanlan Road Area.

#### PLANNED CONSTRUCTION WORK

The scope of work under this contract includes the replacement of existing 300mm ductile iron watermain with new 300mm diameter PVC watermain on Hanlan Road, Gaudaur Road, Scholes Road and Pearce Road including replacement of all service connections to the property (right-of-way) line.

In addition, the work also includes rehabilitating these roads, concrete curb replacement, miscellaneous sidewalk replacement and all other associated work.

Before construction begins, the underground utilities, including sewers, gas, hydro and telephone lines, will be marked to avoid potential issues when digging. The watermain replacement work is scheduled to begin in early June 2019 and to be completed by end of 2019.

The road work component is scheduled to begin in spring 2020 and to be completed by end of summer 2020.

**Property owners are reminded that underground systems such as lawn sprinklers, heated driveways and electrical conduits etc. may be within the City-owned boulevard or property limits and may be impacted by the proposed construction work. The City will not be responsible for damage to any privately-owned items that are within the City-owned boulevard or property limits (Encroachment By-law no. 034-2017).**

**If you are planning to repave your driveway, please contact us.**

#### CONSTRUCTION IMPACT ON BUSINESSES AND TRAFFIC

- Roads will remain open to vehicular and pedestrian traffic during construction. Temporary lane, traffic diversions and driveway access restrictions will be required at times to allow construction to be undertaken in a safe and efficient manner.
- Access to industrial and commercial driveways will be impacted during construction works. Work at the industrial and commercial entrances will be staged to maintain continued access during normal business hours.

## NEWSLETTER No. 2:

### Hanlan Road Area- Road Rehabilitation and Watermain Replacement

May 2, 2019

- Some construction activities will be undertaken in the evenings and during the night to mitigate disruptions to the businesses and public.
- There will be intermittent disruptions to the water supply during the installation and commissioning of the new watermain.
- On street parking will be affected during certain phases of construction. Please refrain from parking on the street when major road works is underway, such as the watermain installation and pavement removal and replacement operations. Notification will be provided to the various businesses on the roads when on street parking will be affected.

The City appreciates your co-operation and patience as we work to upgrade the infrastructure in the Hanlan Road Area as quickly and efficiently as possible. Should you have any questions or concerns regarding this project, please contact us.
