

Fitness Node

Proposed Location Options

Possible locations for a Fitness Node.

Trekfit Mobile Application

Site signage will direct users to demonstration videos that provide examples of ways users of different skills and interests can participate.

Below are some examples from the Trekfit mobile app. The application provides various functions including:

1. Locating nearest Trekfit Park
2. Identifying list of equipments available in Trekfit Parks
3. Offers training videos based on your goals and fitness level
