

# Watermain Improvements

Highway 7 area | Newsletter #1 | March 2022

## Planning Underway for Improvements

The City of Vaughan is undertaking important municipal infrastructure improvements on Highway 7, from Creditstone Road to North Rivermede Road, including watermain replacement and rehabilitation. The project also includes improvements to the watermain on Centre Street, from Highway 7 to Dufferin Street, and on Doney Crescent.

In addition to watermain improvements, a multi-use path and bike paths will be installed within the area.

These enhancements support the City's continued commitment to ensuring long-term sustainability of municipal infrastructure.

Construction is expected to start in spring 2023.

## Construction Scope

Construction will include the replacement or rehabilitation of the existing watermains as identified in the areas of the red, blue and yellow lines on the enclosed maps. The existing watermains are approaching the end of their effective service life and as a result, these metallic watermains are susceptible to cracks and corrosion which may lead to watermain breaks and service interruptions.

Works will also include new bike lanes, from Bowes Road to approximately 110 metres north on North Rivermede Road, to interconnect existing cycle tracks.

## Field Investigation Work

In spring 2022, City-retained consultants will be undertaking investigation activities for the project which include topographic and/or legal surveys, geotechnical boreholes and other field investigation works.

All roads in the project area will remain open to traffic while the field investigation work is being carried out by the consultant, under the direction of the City’s Infrastructure Delivery department.

## Project Updates

Newsletter #2 will be issued prior to construction to provide further details including approximate construction start and end dates.
