

Watermain, sanitary sewer and road improvements

Woodbridge Avenue | Newsletter #3 | March 2022

Improvements are coming to Woodbridge Avenue

The City of Vaughan is undertaking important municipal infrastructure improvements along Woodbridge Avenue, from Kipling Avenue to Islington Avenue, including watermain replacement, sanitary sewer enhancements and road improvements.

In addition to the underground infrastructure improvements, the City will also be reconstructing the road, providing parking lay-bys, traffic signals, roadway and pedestrian lighting and surface enhancements with streetscaping and landscape features.

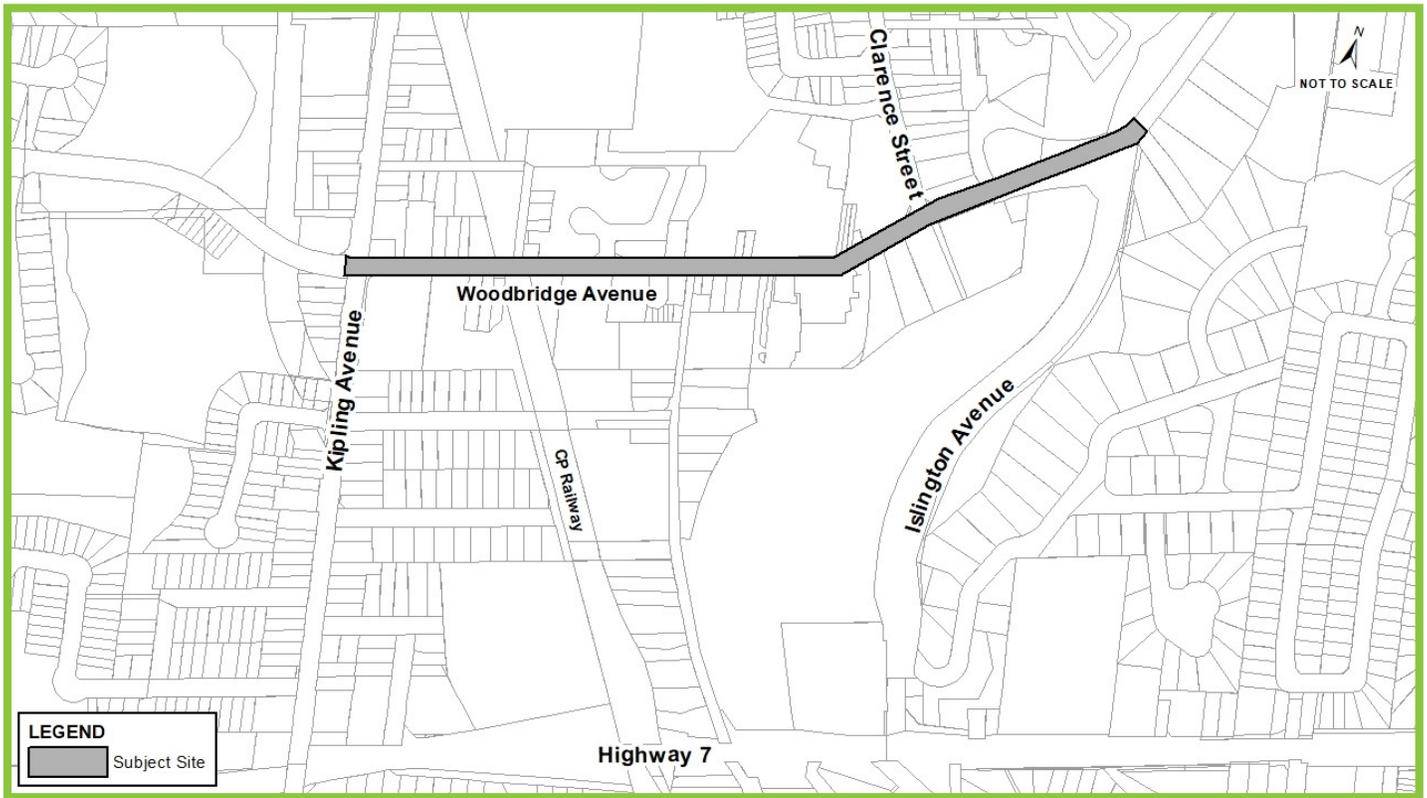

These enhancements support the City's continued commitment to ensuring long-term sustainability of municipal infrastructure.

Construction Timelines

The Design Phase of the project is now complete, with construction anticipated to start the week of April 4, 2022 and be completed by summer 2023.
