

## Survival Game:

Please come up with your most creative and correct answer.

### Scenario:

You were doing a solo around the world cruise on your sailboat when a storm comes out of nowhere and causes your sailboat to capsize. The boom knocks you unconscious but thankfully you were wearing your lifejacket and when you wake up you find yourself stranded on a tropical island. You remember that you were able to activate your emergency signal switch before you went down but you do not know when help will arrive. You remember the basic survival lessons that you saw on shows like *Man vs Wild*, *Survivor* and *Naked and Afraid*. You search the island to gather supplies that will help you survive. You find the following items:

Item	Explanation
A bottle of coke,	
10 paper clips,	
Crayons,	
A bag of chips	
Steel wool	
9 Volt battery	
Your broken cell phone	
How do you know what is safe to eat	

You must now figure out how to use these materials to survive until help arrives. Your task is to write next to the item how each of the items can be used to survive.

Submit your answers to the Emergency Planning program in hard copy or by email:

[Sharon.Walker@vaughan.ca](mailto:Sharon.Walker@vaughan.ca) or [Nathan.Yiu@vaughan.ca](mailto:Nathan.Yiu@vaughan.ca)

Answers will be reviewed and those submissions with the most correct and/or inventive responses will be entered into a draw for an emergency preparedness prize pack.
