

BATHURST CLARK RESOURCE LIBRARY

In 2016, Vaughan Public Libraries’ (VPL) Administration and Business Offices moved from the Bathurst Clark Resource Library (BCRL) to the new Civic Centre Resource Library, allowing BCRL to reclaim space for their customers. This created an opportunity to renovate the facility and add approximately 3,000 square feet to the existing children’s area.

The expanded children’s area will have a feature entrance from the main lobby, a multi-purpose space and an area dedicated to digital learning called the “Learn-It Lab”. Within the library, the existing study rooms will be converted into a multi-purpose room. In addition, the existing washrooms have been re-designed to meet current Accessibility for Ontarians with Disabilities Act (AODA) standards. The refresh will also include painting, carpet and a new exterior book return.

Construction is well underway.

ADDRESS: 900 Clark Ave. West
PROJECT LEAD: Dennis Yip
CONSULTANT: ward99
CONTRACTOR: Massive Devcon

UPDATES

- Phase 1 of construction was complete on October 23rd, 2018 and the main library area has been reopened
- New café-style countertops in the lobby area have been installed
- Construction of the expanded children’s area is well underway.
