

## Sewer System Improvements: Dufferin Street and Kirby Road Area

### PLANNED PROJECT WORK

In the summer of 2021, the City of Vaughan is planning to undertake improvements to the existing sanitary sewer system infrastructure in your neighbourhood, as shown on the map and images. In preparation of these works, the City has engaged an engineering consulting firm to assist in the design and implementation of this project.

### PRE-CONSTRUCTION FIELD WORK

In preparation for the project work, the City's consultant, under the direction of the Infrastructure Delivery department, will be carrying out preliminary survey and investigative activities to inform the design. These activities may include topographic and/or legal surveys, geotechnical boreholes and other field investigation works. To identify any conflicts, the various underground utilities (i.e. gas, telephone and hydro) will be identified in advance by different coloured paint markings.

### TRAFFIC IMPACT

All roads will remain open to traffic during the field investigation work.

### MORE DETAILS TO FOLLOW

Newsletter No. 2 will be issued prior to construction commencing, which will provide further details including approximate construction start and end dates.

In the meantime, should you have any questions or require further information about the infrastructure improvements, please contact the Project Lead.

### LOCATION:

Southwest Quadrant – Dufferin Street and Kirby Road (Block 20)

### PROJECT LEAD:

Peter Chan, P.Eng.  
Project Manager, Infrastructure Delivery  
Infrastructure Development  
T: 905-832-8585 ext. 8188  
E: peter.chan@vaughan.ca

### CONSULTANT:

Andrew Ostler, P.Eng.  
Project Manager  
Chisholm Fleming & Associates.  
T: 905-474-1458 ext. 227
