

Road Resurfacing and Restoration Improvements

Bathurst Street/Atkinson Avenue area | Newsletter #1 | September 2022

Planning is underway for improvements

The City of Vaughan is undertaking important municipal infrastructure improvements to various locations in the Bathurst Street and Atkinson Avenue area, including road resurfacing and restoration.

As part of the Road Resurfacing and Rehabilitation project, the City is planning to rehabilitate community roads and carry out the needed repairs to existing curbs and sidewalks. These enhancements support the City's continued commitment to ensuring long-term sustainability of municipal infrastructure.

Construction is scheduled to begin in spring 2023 with anticipated completion by winter 2023.

Pre-construction Field Investigation Work

Field investigation work is underway and will continue into the fall of 2022, with City-retained engineering consultants in your neighbourhood conducting investigation activities for the project which include topographic and/or legal surveys, geotechnical boreholes and other field investigation works. The various underground utilities (i.e., gas, telephone and hydro) are identified by different coloured paint markings.

Traffic Impacts

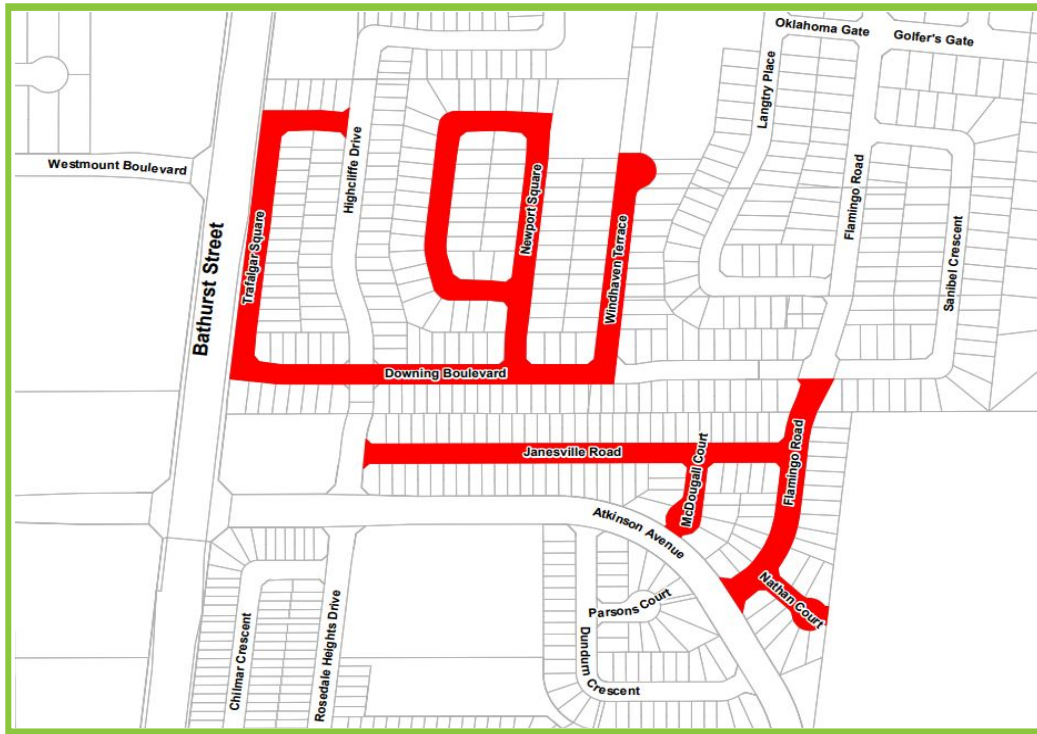

All roads in the project area will remain open to traffic while the field investigation work is being carried out by the consultant, under the direction of the City's Infrastructure Delivery department.

Locations:

Downing Boulevard, Flamingo Road, Janesville Road, McDougall Court, Nathan Court, Newport Square, Trafalgar Square, and Windhaven Terrace.

Project Updates

Newsletter #2 will be issued prior to construction to provide further details including approximate construction start and end dates. For project updates, visit vaughan.ca/InfrastructureProjects.
