

2026 Pavement Management Program

WARD 5 | JANUARY 2026 | NEWSLETTER #2

Dear resident,

The City of Vaughan is restoring community roads and repairing curbs and sidewalks in your community as part of the **2026 Pavement Management Program**.

The following roads will be impacted:

- Bayhampton Crescent
- Briarcliffe Crescent
- Chelwood Drive
- Highcliffe Drive
- Judith Avenue
- Samuel Oster Avenue
- Westcroft Avenue

Construction timelines

Roadwork is expected to begin by May 2026 and is anticipated to be completed by fall 2026.

Construction impacts

- Roads will remain open to vehicles and pedestrians during construction.
- To complete the work safely and efficiently, temporary lane restrictions will be required.
- Access to private and commercial driveways and entrances will occasionally be impacted.
- If you have limited mobility and require accommodation to access your property during construction activities, please contact the City's Infrastructure Delivery department.

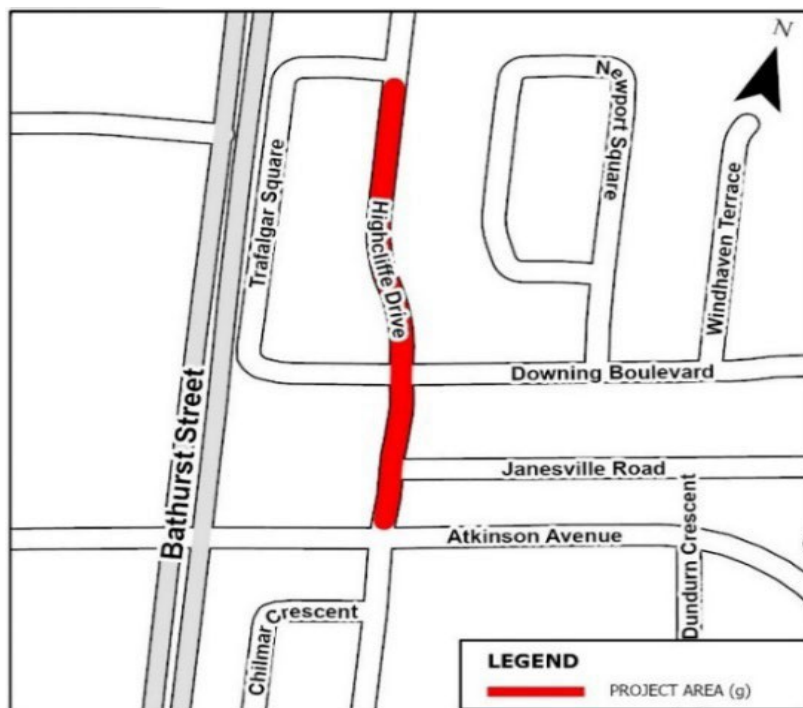

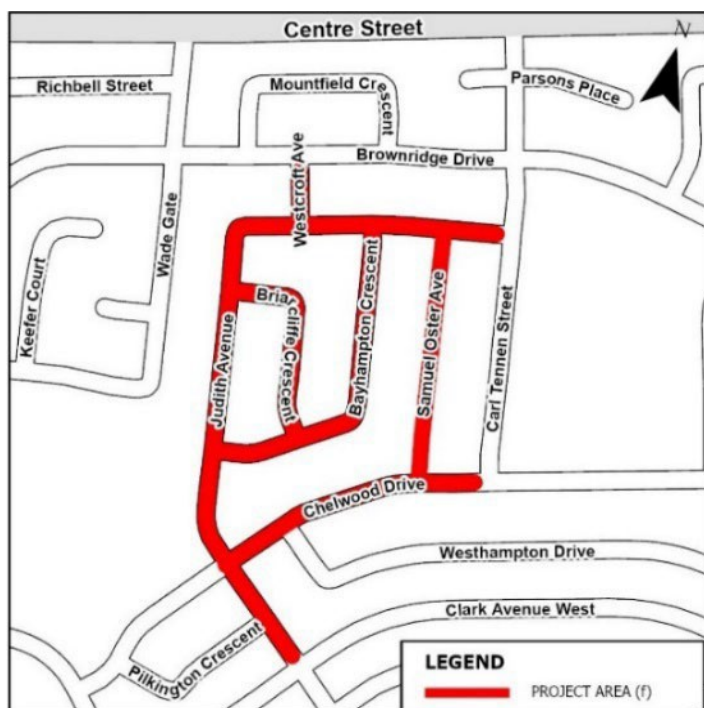

Reminders for property owners

- Under the Road Allowance By-Law 126-2024, the City is not responsible for damage that may occur during construction to privately-owned items located on City property, including underground systems like lawn sprinklers, heated driveways and landscaping.
- Removing privately-owned underground systems, at the owner's expense, is recommended before work begins.
- If you have landscape or driveway work planned for 2026, please contact the City's Infrastructure Delivery department to learn how the scheduled work could impact your property.
