Notice of Open House #1 Concord GO Centre Secondary Plan Review Concord GO Centre Transportation Master Plan Concord GO Centre Storm Drainage Master Plan

NOTICE

The Concord GO Centre area is poised for transformation. The City of Vaughan is advancing three studies – the Concord GO Centre Secondary Plan Review, the Concord GO Centre Transportation Master Plan and the Concord GO Centre Storm Drainage Master Plan – to guide growth and infrastructure in the area around a potential GO Station.

Get involved

Please join us at our Open House #1 to learn more about the studies, existing conditions in the area, alternatives to be considered and next steps in the process. Here are the details:

Date: Wednesday, April 15, 2026

Time: Drop in at any time from 6 p.m. to 8 p.m.

Location: Dufferin Clark Community Centre (1441 Clark Ave. W.)

If you are unable to attend in person, the materials from the Open House and online surveys will be available at vaughan.ca/ConcordGO to provide comments from Wednesday, April 15, 2026 to Sunday May 3, 2026. The Open House materials will continue to remain on the website beyond the comment period for reference.

About the studies

- The **Concord GO Centre Secondary Plan Review** will align with the Vaughan Official Plan 2025, respond to provincial legislative changes and guide ongoing and future development in the area. Once complete, it will provide updated policies for housing options, employment, transit, retail and public spaces that would support the development around a potential GO Station.
- The **Concord GO Centre Transportation Master Plan** will make recommendations for a multi-modal transportation network. This includes developing street and active transportation networks, integrating regional and local transit, and addressing connectivity to the surrounding existing and planned networks to support the anticipated growth.
- The **Concord GO Centre Storm Drainage Master Plan** will provide a comprehensive assessment of flooding and drainage issues in the study area. It will evaluate potential solutions to reduce or mitigate flooding in the future. The study is being completed in accordance with the Municipal Class Environmental Assessment process to meet the requirements of a Schedule B project.

Please note that your property may be impacted by one or more of the three studies being discussed at this Open House.

To learn more about these studies, please visit vaughan.ca/ConcordGO.

Contact us

If you have any questions or comments, or would like to be placed on one of the study's mailing lists to receive further information, please contact the applicable project team(s):
