WSP Canada Inc.

Introduction

The technical volumes are part of the comprehensive planning documentation developed for the North Maple Regional Park (NMRP) Master Plan, an initiative undertaken by the City of Vaughan to transform 364 hectares (900 acres) of former landfills and open space into a nationally significant signature park and legacy project for future generations. The Master Plan establishes a framework for the park's ongoing and long-term development, programming, and management under three guiding principles: Restore, Engage, and Play.

The Master Plan suite consists of one public-facing master plan document and seven supporting technical volumes that provide detailed engineering, environmental, cultural, and operational guidance. Each technical volume provides the foundation and implementation details necessary to realize the Master Plan vision.

Table of Contents

Volume 2: Landfill Restoration Engineering

Volume 2: Appendix 1: Landfill Plan

Volume 3: Civil Engineering

Volume 3: Appendix 1: Figures

Volume 3: Appendix 2: Calculations

Volume 3: Appendix 3: Stormwater Management Calculations

Volume 4: Transportation

Volume 4: Appendix 1: Future Priorities Spreadsheet

Volume 5: Cultural Heritage Research Report

Volume 6: Ecological Framework Plan

Volume 6: Appendix 1: Ecological Restoration Planting Zones

Volume 6: Appendix 2: Ecological Framework

Volume 6: Appendix 3: Target Wildlife Habitat Restoration and Preservation

Volume 6: Appendix 4: Complete Planting Zone List with Descriptions

Volume 7: Business Plan

Volume 7: Appendix 1: Full Recommended Staffing Estimates

Volume 7: Appendix 2: Capital Cost Order of Magnitude Estimate

Volume 8: Management and Operations Plan

Volume 8: Appendix 1: Recommended Operations and Maintenance Tasks and Hours

Volume 8: Appendix 2: Estimated Annual Operations and Maintenance Hours

Volume 8: Appendix 3: Operations and Maintenance Budget
