

Disruption Alert

Phase 2 Expansion of Parking Lot — Vaughan City Hall and Civic Centre Resource Library

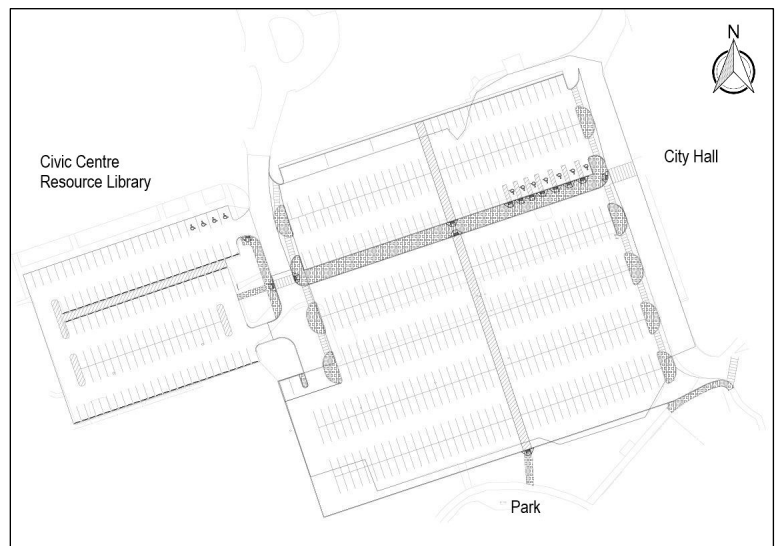

April 13, 2022 (Update)

Please be advised that construction at the west parking lot of Vaughan City Hall, located at 2141 Major Mackenzie Dr., will begin over the next few weeks, with expected completion by the end of summer 2022. Given recent provincial COVID-19 directives, Vaughan City will reopen to the public on May 2, 2022 and will remain open during construction.

Construction, which began last September, continues at the parking lot of Civic Centre Resource Library, located at 2191 Major Mackenzie Dr. The [Civic Centre Resource Library](#) remains open during construction.

The purpose of the construction is to further expand and enhance the parking lot at City Hall and the Civic Centre Resource Library. With the completion of Phase 2, the project will provide 500 parking spaces combined, and include various enhancements, such as:

- upgraded stormwater management infrastructure
- new pavement surfacing
- upgraded lighting and security system
- a new pedestrian walkway
- landscaping (tree planting)
- accommodation for future electric vehicle (EV) charging stations

The construction will be rolled out in stages to minimize disruption. Please note the following:

- There will be a nominal, temporary reduction of parking spaces throughout the course of construction.
- There may be temporary interruptions to access routes within the parking lot during construction, including the main driveway and the driveway adjacent to the Civic Centre Resource Library. The City asks that all visitors exercise caution and respect the construction signage, fencing and barriers where present.
- The number of designated visitor parking spaces will be maintained during construction.

We apologize for any inconvenience.
