

# Grade Separation Drilling Activities

Late March – Summer 2021

## The local project

Metrolinx contractors continue work on a new 6-storey parking structure with 1,200 net-new spaces and a new integrated station building at Rutherford GO Station.

## Construction notice

Metrolinx's contractor will be drilling caissons at the grade separation site on Rutherford Road late March through to late April 2021. Upon completion of this work, tie back drilling will commence and continue for approximately 3 months through to July 2021.

## What this means for you

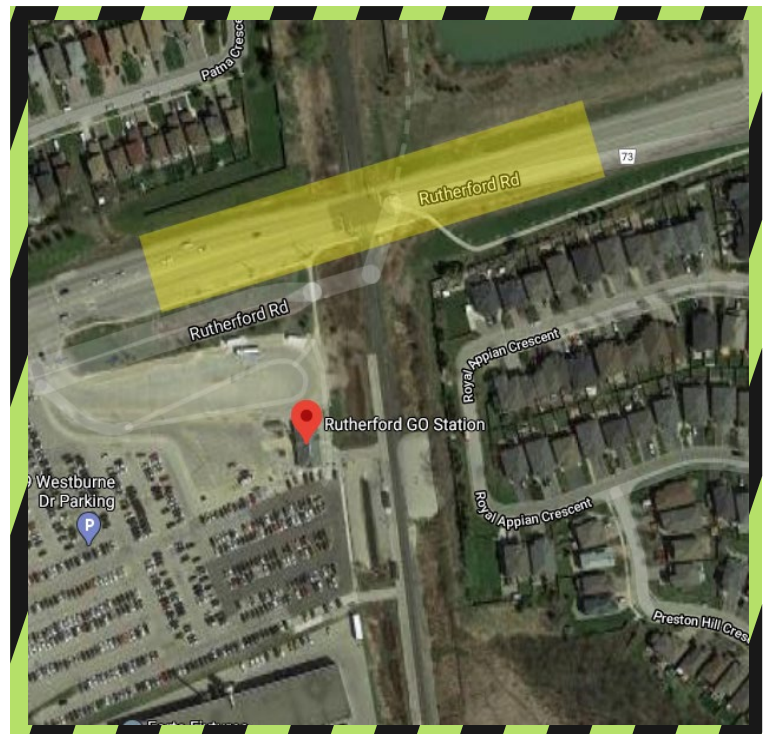

Working hours will be 7:00 a.m. to 11:00 p.m. with occasional overnight shifts to minimize disruption to train service as required. Residents may experience minimal noise from construction machinery, vehicles and crews. Should site lighting be required, it will be pointed away from households and windows.

We apologize in advance for any inconvenience, and we'll make every effort to minimize disruption as much as possible.

## Questions

If you have any questions or concerns about this work, please contact us any time at [YorkRegion@metrolinx.com](mailto:YorkRegion@metrolinx.com).
