

NEWSLETTER No. 2:

CROFTERS AREA - ROAD RESURFACING

April 12, 2019

In early May 2019, the City will be undertaking road resurfacing work in the Crofters Area as shown on the map.

PLANNED CONSTRUCTION WORK

The scope of work under this 2019 Contract includes the road resurfacing, reconstruction of the damaged curb & gutter and sidewalk including all associated restoration works. Before construction begins, the underground utilities, including watermain, sewers, gas, hydro and telephone lines, will be marked to avoid potential issues when digging. This road rehabilitation is scheduled to begin in early May 2019 and be completed in October 2019.

Property owners are reminded that underground systems such as lawn sprinklers, heated driveways and electrical conduits etc. may be within the City-owned boulevard or property limits and may be impacted by the proposed construction work. The City will not be responsible for damage to any privately-owned items that are within the City-owned boulevard or property limits (Encroachment By-law no. 034-2017). If you are planning to repave your driveway, please contact us.

CONSTRUCTION IMPACT ON TRAFFIC

- Roads will remain open to traffic during construction. Temporary lane and driveway access restrictions will be required at times to allow construction to be undertaken in a safe and efficient manner.
- Access to driveways / entrances will be impacted during construction.
- Your waste collection day will not change during construction. Waste containers should be set out prior to 7:00 a.m. on your designated collection day.
- On street parking will be affected during certain phases of construction. Please refrain from parking on the street when major road work is underway, such as during asphalt removal or paving operations. The City will provide advanced notice to the residents when you may be affected.

The City appreciates your co-operation and patience as we work to upgrade the infrastructure in your neighborhood as quickly and efficiently as possible. Should you have any questions or concerns regarding this project, please contact us.

QUESTIONS?

Please Contact:
City of Vaughan
Infrastructure Delivery Department
