

# Disruption Alert

## Trail Closures — North Maple Regional Park | winter 2021 to spring 2022

**December 23, 2021**

Please be advised that trail upgrades at North Maple Regional Park (NMRP), located at 11085 Keele Street, will continue to be in-progress over the winter (weather permitting), with expected completion by spring 2022.

Upgrades include paving existing trails, more seating, planting, signage and replacing the Nevada Park Bridge (101 Nevada Crescent).

During construction, access to some trail areas will be restricted and site conditions may be affected. Please refer to the construction map below for specific work areas:

**We please ask that all park visitors exercise caution and respect the construction signage, fencing and barriers, and avoid entering areas under construction.**

**Please Note: winter maintenance/operations will not occur for trails under construction.**

The park and designated toboggan area (by the NMRP pavilion and parking lot), including trails south of the trail improvement area, will remain open for public use.

We apologize for any inconvenience.

Trail Project updates and information about the upcoming Phase 2 Park Development are available at [vaughan.ca/NMRP](http://vaughan.ca/NMRP).

For more information, please contact Access Vaughan at 905-832-2281. After hours, please call the dispatch office at 905-832-2281 and press 0.
