

CONSTRUCTION NOTICE

INTERCHANGE WAY/ EXCHANGE AVENUE

Effective Monday September 30, 2019 to Friday June 28, 2020

As part of the work to facilitate future development within the Vaughan Metropolitan Center (VMC), a new trunk sanitary sewer will be constructed along the Interchange Way and Exchange Avenue corridors. The work will commence on approximately September 30, 2019 and will proceed until approximately June 28, 2020. During that time, construction will be phased on a street-by-street basis to ensure both pedestrian and vehicular access is maintained at all times. Traffic control signage and detour routes will be in place to guide pedestrians and motorists. Any changes to the project schedule and/or lane restrictions will be reported in advance and on an ongoing basis to keep residents and other stakeholders informed.

During construction, access to all residences and local businesses within the construction area will be open and maintained. Access for emergency services (Police, Fire, and Ambulance), as well as post-delivery and waste collection will remain unaffected during this time.

We thank you for your patience and understanding for the duration of the project.

Questions and concerns should be directed to:
