

## NOTICE OF STUDY COMPLETION

### **VAUGHAN METROPOLITAN CENTRE – BLACK CREEK RENEWAL MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT**

The City of Vaughan has completed the Municipal Class Environmental Assessment (EA) Study for the **Vaughan Metropolitan Centre (VMC) Black Creek Renewal** to establish the preferred alignment and configuration of the Black Creek through the southeast quadrant of the VMC Secondary Plan Area. The study area is shown on the key map. The study was conducted in accordance with Schedule 'C' of the Municipal Class Environmental Assessment process.

The study process evaluated a range of alternative alignments and physical forms for the Black Creek within the Study Area and established a renewal plan for the Black Creek.

The preferred renewal plan includes the construction of a new wider Black Creek corridor between Regional Road 7 and Highway 407. The new corridor will be aligned next to Jane Street between Regional Road 7 to Interchange Way then gradually bend south-easterly leading to the existing culvert crossing under Highway 407.

An Environmental Study Report (ESR) for the Black Creek Renewal has been prepared that includes the evaluation of alternative alignments and the preliminary design of the preferred alignment. A new storm water management (SWM) strategy was also established for the south-east quadrant of the VMC as part of this ESR which supersedes the strategy identified in the VMC Municipal Servicing Master Plan, dated March 2013. The ESR is available for public review at the following locations during regular business hours and on the project website at: <http://www.vaughan.ca/blackcreek>

Interested persons with outstanding concerns may provide written comments to the City and/or City's consultant during the review period, **August 9<sup>th</sup>, 2018 to September 7<sup>th</sup>, 2018**.

**Jennifer Cappola-Logullo, P.Eng.**

If the concern raised cannot be resolved with the City during the review period, the interested person or party may request the Minister of Environment and Climate Change to order the City to comply with Part II of the *Environmental Assessment Act* (Part II Order), which refers to individual environmental assessments. Requests for a Part II Order must be submitted to the Minister of Environment, Conservation and Parks and a copy of the request must be received by the City and sent to the addresses below:

**Minister of the Environment,  
 Conservation and Parks**  
**77 Wellesley St. West, 11<sup>th</sup> Floor**  
**Toronto, ON M7A 2T5**

**Minister of the Environment,  
 Conservation and Parks**  
**Environmental Approvals Branch**  
**135 St. Clair Ave. West, 1<sup>st</sup> Floor**  
**Toronto, ON M4V 1P5**

If no Part II Order requests are received by **September 7<sup>th</sup>, 2018**, the City will proceed to the detail design and construction stage of the project.

*Please note that ALL personal information included in a Part II Order submission – such as name, address, telephone number and property location – is collected, maintained and disclosed by the Ministry of the Environment, Conservation and Parks for the purpose of transparency and consultation. Personal information you submit will become part of a public record that is available to the general public unless you request that your personal information remain confidential. For more information, please contact the ministry's Freedom of Information and Privacy Coordinator.*
