Subject: RE: re Minor Variance application A139/13

Hello Todd,

Please note that I met with Sal (the homeowner) last night to review our concerns with drainage and lot grading. I was assured by Sal that our issues would be addressed and they will take all necessary measures to ensure that our lot will not be adversely affected.

Based on our discussion at this point I am satisfied our concerns will be properly attended to and have no further objections.

Thanks
Ray
