AGENDA ITEM

#15

COMMITTEE OF ADJUSTMENT

307 Forest drive photos, A009/17.

Good afternoon, Lenore,

As we talked yesterday I am sending you some pictures. You were advising to print those pictures in color.

One picture is showing how the frontage was looking before. There are few more pictures of the existing frontage.

I believe the new frontage looks very nice now and makes that little part of the city much more beautiful than before.

I hope the pictures may help.

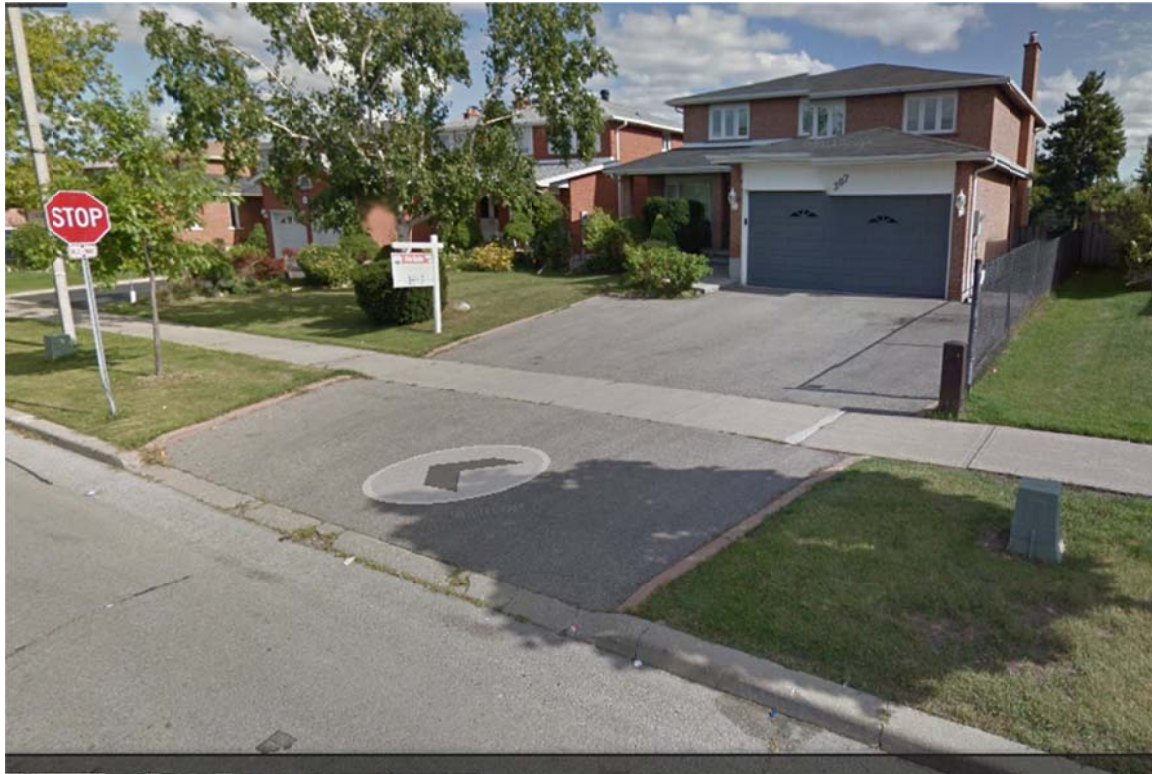

I also have sent the pictures to the planning department. Could you please print in color the picture before and the pictures after if they are not in the file.

Thank you very much in advance.

Kind regards,

Anastasia Shamuelova
