Hi Fausto,

Given that an additional variance is required the application will require adjournment to facilitate public notice. No additional fees will be incurred as you were not made aware of the issue prior to the Notice being mailed.

In light of the required new variance, please make arrangements to revise application as soon as possible. We will need to send out public notice today for the March 7 hearing date.

I will confirm revised Building comments with Lindsay and forward you a copy.

Please confirm adjournment of the application to the March 7 hearing date.
