Council resolved:

1. That Council receive this report; and,

2. That Council approves the Safe Community Centres Policy.

Economic Impact
The economic impact to implement the public education program for the Safe Community Centres Policy is $3,500.00 and has been included in the Recreation and Culture and Building and Facilities 2005 operating budget.

Purpose
The purpose of this report is to provide a policy that promotes safety, respect and civility for users of city-operated community centre facilities.

Background - Analysis and Options
The City of Vaughan encourages residents to participate and enjoy the many city-operated community centre facilities, programs and services that are provided by the municipality. The City of Vaughan strives to ensure greater safety and protection of its users and employees while they participate or work in city-operated community centre facilities. In addition, the cost of repairing city-operated community centre facilities that have been vandalized or damaged through violence should not be the responsibility of responsible users, or the general public, but should be the responsibility of the offender(s).

In an effort to foster and promote safety, respect and civility, the City of Vaughan has developed a new policy for users of city-operated community centre facilities. The policy will assist to create a better understanding and expectation of the appropriate behaviour that is expected by users who access city-operated community centre facilities. City of Vaughan staff will also have additional tools in how to deal with incidents of harassment, violence, abuse or vandalism in city-operated community centre facilities.

Many municipalities in the GTA have recently developed policies and public education programs to address a growing increase in vandalism, violence and inappropriate behaviour in city-operated community centre facilities. In preparation of this report, research was collected and analyzed from other municipalities such as Markham, Mississauga and Toronto.

Recreation and Culture staff also met with representatives from the Human Resources – Health and Safety, Building and Facilities, Legal and Enforcement Services departments to obtain input in the development of this policy.
Definition of City-Operated Community Centre Facilities

City-operated community centre facilities as they relate to this policy, include all community centres, indoor/outdoor pools, heritage buildings, theatres, arenas, outdoor sports fields, and leased program space for city-operated programs.

Goals of the Safe Community Centres Policy

1. To provide a safe environment for users to enjoy the amenities and programs offered in city-operated community centre facilities.

2. To provide all employees working in city-operated community centre facilities with the information and tools to deal with incidents of harassment, violence, abuse (including verbal) or vandalism.

3. To eliminate acts of harassment, violence, abuse or vandalism in city-operated community centre facilities.

4. To increase awareness and promote the importance of positive behaviors in city-operated community centre facilities.

5. To work in cooperation with other agencies and the general public to foster and support prevention of harassment, violence, abuse or vandalism in city-operated community centre facilities.

Types of Incidents

The Safe Community Centres Policy (Attachment 1) identifies three (3) classifications of incidents that may occur in city-operated community centre facilities. They include but are not limited to the following type of incidents:

Level 1 – Smoking in city-operated community centre facilities, foul/abusive language, horseplay causing injury, misuse of emergency exits, inappropriate or obscene gestures that are non-sexual and non-threatening, not following rules and regulations for programs offered in city-operated community centre facilities.

Level 2 – Escalation of level one incidents/failure to cease and desist Level 1 incidents, verbal assault, racial or ethnic remarks, sexual harassment, threatening language or gestures, repeat Level 1 offences, deliberate damage to facility, defacing of city-operated community centre facilities or graffiti, trespassing, refusal to leave.
Level 3 – Illegal activities governed by criminal code, physical assault causing bodily harm, violent throwing of articles causing injury of property damage, sexual assault, robbery/theft, possession of, or under the influence of drugs and/or alcohol, possession of alcohol out of licensed area, possession of weapons.

Incidents involving minors under 16 years of age will require staff to contact the parent(s) and/or guardian as well.

Action and Follow-up to Incidents
The Safe Community Centres Policy outlines a summary of the types of incidents that could occur and the action steps staff will be required to take in dealing with various incidents (Attachment 1, pages 4-8). In all situations staff is required to complete an Incident Report Form (Attachment 1, Appendix 3) that records the incident and the appropriate follow-up that is required. In situations where physical bodily harm takes place an Accident Report Form (Attachment 1, Appendix 4) is completed which records all appropriate medical information.

Consequence to Offenders
The Safe Community Centres Policy outlines in the charts the follow-up that is required when dealing with an offender. Appropriate steps based on the Level 1-3 incidents determine what type of steps will be taken.

Staff Training and Development
Management is expected to ensure that employees are aware of the policy and to remind them of its contents as deemed necessary. The policy information should be included as part of safety training for new and existing staff.

All employees working in city-operated community centre facilities are expected to be familiar with the policy and act accordingly as outlined in the policy section entitled Handling Incidents of Violence, Harassment, Abuse and Vandalism and deal directly with their immediate supervisor/manager for guidance.

Public Education
It is important the public and community groups are aware and understand the Safe Community Centres Policy. To create public awareness, it is recommended that the Safe Community Centres Policy be posted on the City’s website, that new signage be placed within all community centres, and that an information pamphlet be created and distributed to all community groups and facility users that use community centre facilities. Information signage will include the Code of Conduct (see Policy Attachment 1, Appendix 1), the City of Vaughan Declaration of Citizens’ Rights and Responsibilities approved by Council on February 28, 2005 (see Policy Attachment 1, Appendix 2). The cost for the public education
program includes signage in the community centres and an information pamphlet. The cost of the program has been identified in the 2005 Recreation and Culture and Building and Facilities budget.

Relationship to Vaughan Vision 2007
This report is in keeping with the Vaughan Vision 2007 as it strives to identify and implement improvements to existing City facilities to optimize community safety and to review the level of enforcement, compliance and monitoring of regulations related to public safety.

The policy is also in keeping with the new City of Vaughan Declaration of Citizens’ Rights and Responsibilities, developed and approved in February 28, 2005 by Vaughan Council.

This report is consistent with the priorities previously set by Council and the necessary resources have been allocated.

Conclusion
The City of Vaughan requires a Safe Community Centres Policy that fosters and promotes safety, respect and civility for users of city-operated community centre facilities. The intent of the policy is to ensure the safety of users along with appropriate action to deal with inappropriate behaviour, violence and vandalism, including recovery of costs. A training program for full and part-time staff will be implemented to review the policy and how to deal with various incidents. In addition, a public education program will be created to include the posting of the Safe Community Centres Policy and general information on the City of Vaughan’s website, signage in community centres and an information pamphlet to facility users and groups. The cost of the public education program is $3,500.00 and has been included in the Recreation and Culture and Building and Facilities 2005 operating budget.
