

MASK CREATION

Find or make some masks out of craft materials. They can be animal masks, cartoon character masks, or masks from a fairy tale or a favorite story. If you are making them from scratch you can find a template online and then trace and cut out the mask using whatever supplies are available to you: cardboard, foam, a hat, pipe cleaners, googly eyes, puff balls, foam shapes, etc. The mask can be decorated in any way shape or form by painting, coloring or using craft materials. Put a small hole on either side of the mask at eye level and then add ribbon to tie the mask.

Pick or write a short story or skit that is based on the masks that have been created. Everyone puts their mask on and then acts out the story as their character. Think about how each masked character would move, talk, gesture—based on the action or events in the story or skit.

Film your performance so that you can watch it after and see what you did!

DON'T FORGET TO SAY, "BREAK A LEG" WHICH IS THE THEATRE TERM FOR "GOOD LUCK"!

There are mask templates attached that can be used. Or you can draw your own!
