

# DRAMATIZE YOUR STORY!!

---

**Choose a favorite story** for everyone to practice acting out. You can choose a short story, chapter or event from a bigger story to recreate.

**Make up the lines or choose a narrator** to read the story. Everyone plays a character from the story.

**Choose a director** and have him/her review the story with the actors before the rehearsal takes place! Think about how to bring your character to life! With facial expressions, movement, a voice that projects and is expressive!

**Make it your own production!** You can add costumes and props, make tickets and set up an actual performance time after you've had a rehearsal! Have someone photograph the performance for memories!
