

FAIRY TALE WALK

- Find a space where there is room to walk and choose a narrator for this activity.
- Tell the actors that they will be walking through a big forest to a magical castle and that they will have to listen to the narrator's instructions for their journey!
- Once they are ready to begin, the narrator calls out different things they must walk through —or things that will accompany them on their walk.

Here are some ideas—walking through snow, ice, a windstorm, mud, jello, honey, walking with a wand, with a sword, galloping on a horse, walking next to a fire breathing dragon. This is a great opportunity for the participants to really use their imaginations!
