

# Pool Check-in:

**\*Please note your swim/aquafitness session will include check-in time, use of the pool and departure.**

In order to reduce the spread of COVID-19, we have implemented many changes to our pools to ensure your health and safety.

Prior to arriving at the facility, we ask that all pool users complete the Provincial Public Health self-assessment.

Recreational and length swimming is open to pool plan holders and fitness members; pre-paid single visits are also accepted. Aquafitness classes are available to aquafitness plan holders and fitness members. Pre-registration is required for swim and aquafitness. Fitness members planning to use both the fitness centre and pool during their visit, must book a workout session as well as the coinciding swim or aquafitness class.

Register at [vaughan.ca/RecOnline](https://vaughan.ca/RecOnline). To obtain your barcode and PIN number in order to book an appointment, email [RecCSD@vaughan.ca](mailto:RecCSD@vaughan.ca) or call Access Vaughan at 905.832.2281.

## **Here is what the check in process will look like when arriving for your swim session:**

1. The designated entry point will be the main entrance into the facility.
2. Aquatics staff will welcome you and assist in completing the check-in process. The check-in process will include a temperature check.
  - If a temperature is above 37.8 Celsius, another check will be done 10 minutes later. If it is still above 37.8 Celsius, you will not be able to enter the facility. Proof of a medical note/negative COVID-19 test results will be required to be provided to the aquatics staff before returning to the facility.
3. Masks are required upon entry, exit and when travelling throughout the facility. Masks must be worn while travelling on the deck.
4. A hand sanitizer station will be available before you proceed into the pool area.
5. Signage and floor markers will indicate the physical distancing requirements.
6. Doors will be open for up to 15 minutes after the start of your booking time. For your safety, doors will be locked after this time.
