**Biography:** Born Mary Isabel Hollingshead on 14 September 1908, to Charles and Isabel Hollingshead (nee Duncan), Mary Wood was best known as “Woodbridge’s Unofficial Historian,” an appellation she well deserved.

A life-long Vaughan/Woodbridge resident, she attended Weston Collegiate, graduating in 1923. She married James Alvin Wood in 1931 and worked from this point to March 1944 on the family dairy farm located on Lot 2, Concession 8. At a latter date, various circumstances conspired to force the Woods to liquidate their farm’s assets; they then moved to Woodbridge proper.

Mary Wood was an extraordinarily civic and community-minded individual. She was a member of the Woodbridge Horticultural Society, the Woodbridge Senior Citizens, Burwick Women’s Institute, and the King-Vaughan Support Services; additionally, Mrs. Wood was a member of the Woodbridge Branch of the Canadian Red Cross and the Canadian Cancer Society, receiving, respectively, 20 and 25 year service certificates. Moreover, as noted by her grandson, Jim Wood, “she was... a main driving force in a lot of community programs.”

Notwithstanding the above, it was to the task of preserving her community’s past that Mary Wood dedicated much of her effort. She was a charter member of the Vaughan Township Historical Society (formed in 1971), and a member of the Tweedsmuir Committee of the Burwick Women’s Institute; the Tweedsmuir Committee was responsible for compiling and maintaining a history of the locality which it represented (Woodbridge in this case).

Moreover, Mary Wood played a significant role in the compilation of the books by G. Elmore Reaman *A History of Vaughan Township* (1971, reprinted in 2004) and C. Macfarlane and P. Somerville eds. *A History of Vaughan Township Churches* (1984). In 1984 she authored *Pictorial Woodbridge*. Indeed, much of the graphic material in the Mary Wood Collection was utilized in the compilation of *Pictorial Woodbridge*.

Mrs. Wood’s contributions to her community were so significant that in 1986 she received the provincial award of Senior Citizen of the Year from Lieutenant-Governor Lincoln Alexander in recognition thereof.

Mary Wood died on 22 Feb. 1989, aged 81.

**Custodial History:** The collection of Mary Wood grew out of the former’s life-long fascination with the history of Vaughan. The material constituting this body of records was, with small exception, collected by Mrs. Wood from a multitude of sources, local and otherwise. The first accession of the Mary Wood Collection was received in 1987, with another arriving in the Archives in 1990. The collection was fully arranged and described in August 1993.

**Access Restrictions:** None.

**Copyright, Use and Reproduction:** Copyright for this collection lies with the City of Vaughan Archives. Credit must be accorded the latter in the event of any portion of this collection being utilized in the written, audio-visual, or digital format. The following citation is acceptable: City of Vaughan Archives, Mary Wood Collection, M990-30, MG-10, sous fonds and series name, and number or letter (as applicable).

**Scope and Content:** The Mary Wood Collection spans the years 1820-1989, with the bulk of the material documenting the period 1900-1984.

The collection is divided into two sous fonds: the Wood/Hollingshead family fonds, 1896-1964; and Mary Wood collected matter, 1820-1989, predominantly 1900-1984. The collection reflects the activities and principal areas of interest of Mrs. Wood and to a lesser extent provides evidence on the Wood and Hollingshead families. Accordingly, collected material relating to the history of Vaughan Township, with a special emphasis on Woodbridge, predominates.

The core of the collected materials sous fonds is the scrapbook series, which provides a wealth of information on a wide range of subjects relating to Vaughan's past. Equally significant are the graphic materials series, which provide extensive visual evidence pertaining to Vaughan. The remainder of the collected materials sous fonds consists of essays and articles, school text books, local government records, and the records of certain local businesses.

The Wood/Hollingshead family papers sous fonds, in addition to elucidating upon the said families, provides evidence of early education in Vaughan Township through the school records of Alvin Wood.

The collection, upon receipt of the City of Vaughan Archives, was discovered to be in relatively good order. Therefore, with minor exception, constituent series were identified and the existing file arrangement merely refined to enhance accessibility. Also, where possible, Mrs. Wood's original subject terminology has been utilized in description. Thus, arrangement and description by the Archives reflect Mary Wood's eclectic conception of these topics, events, persons, places, etc. constituting the history of the Vaughan area, and all significant internal relationships between the records, insofar as was possible, have been preserved.

#### **Sous fonds A: Wood/Hollingshead Family Fonds, 1896-1964.**

12 cm. of textual records.

ca. 119 photoprints.

**Biography:** Mary Wood, whose biographical sketch is recorded earlier, was a descendant of the Hollingshead family, United Empire Loyalists who took an active part in the defense of Upper Canada against the American onslaught during the War of 1812.

The Hollingsheads originated in King Township, but moved to Vaughan by the mid-19<sup>th</sup> century. Charlie Hollingshead (Mary's father) was the local grave digger in Pine Grove. Mary's brother Albert and sister Beverley were long-time Woodbridge residents. Albert (Ab) served the Woodbridge Community as a Village Councilor from 1950-1959.

The Woods make their initial appearance in Woodbridge history in 1905 when John William Wood married Mary Brown and acquired a farm located on Lot 2, Concession 8. They had two sons, James Alvin, born on 11 Nov. 1906, and Henry Douglas, born on 1 Oct. 1910. James Alvin married Mary Isabel Hollingshead in 1931.

**Scope and Content:** The papers generated by the Hollingsheads and Woods are small in terms of extent and fragmentary in nature.

Mary Wood maintained the Wood/Hollingshead Papers as an integral part of her larger collection, hence their forming part of the latter instead of a separate fonds.

his educational experiences in Vaughan Township through test answer sheets and notebooks for arithmetic, composition, geography, grammar, history, hygiene, writing, literature, etc. Also present is Alvin's drawing book; as well as Beverley Hollingshead's nature studies notebook. These records provide evidence of Vaughan and Woodbridge education systems during the 1920s. Also in this series are Mary Wood's autograph book, the Wood family's taxation records, awards and certificates awarded to the Mary and Alvin Wood, and various legal documents of the Wood and Hollingshead families. A few items pertain to the Hollingsheads. The series is useful in terms of its provision of visual evidence of a typical mixed farming operation ca. 1920-1950 in the Vaughan area.

The series includes a number of images of period farm equipment: tractors, threshers, etc.; also work scenes using power-saws [ca. 1930] are of interest.

### **Sous fonds B: Mary Wood Collected Matter, 1820-1889, predominant 1900-1984.**

2.48 m of textual material.

ca. 315 photographs, most b & w.

1118 slides, most colour, 35 mm.

6 microfiches (239 frames), 16 mm.

**Scope and Content:** The bulk of the Mary Wood Collection is, as the term implies, material collected and organized by Mrs. Wood. Much of the collection was utilized in researching and illustrating Mary Wood's *Pictorial Woodbridge* (1984). The focus of the collection, while centering to a considerable extent on Woodbridge, is the history and development of Vaughan as a whole.

The collection reflects Mrs. Wood's conception of those topics, events, persons, places, etc. constituting the history of the Vaughan area.

Researchers are advised to consult the collection in conjunction with *Pictorial Woodbridge*, as informational gaps in the former are sometimes addressed in Mrs. Wood's monograph. This is particularly the case with respect to a number of photographs and slides which are not identified and/or lack dates; many of these may be found with descriptive captions and dates in the aforementioned work.
