KLEINBURG-NASHVILLE HERITAGE CONSERVATION DISTRICT STUDY AND PLAN

TABLE OF CONTENTS

The Kleinburg-Nashville Heritage District documents are published in two volumes. This volume contains a report on the Study, which establishes the district Boundary, and the Plan, which addresses the goals, policies, administration, and design guidelines for the District. The Inventory of Buildings, which includes photographs, descriptions, and recommendations for desirable repair and restoration of every building in the District is too lengthy to be included in this volume, and is bound separately.
