Project Summary

Project Number:	BF-8278-16	Approval Year:	2016
Project Title:	Chancellor Community Centre - Gym Locker Replacements	Scenario Active:	Yes
Asset Type:	BFS010 Recreation Buildings & Facilities	TCA:	Yes
Department:	Facility Maintenance Services		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 3		
Project Type:	Infrastructure Replacement		

Project Description				Project Timelines				
Replace the lockers in the male and female change rooms at Chancellor Community Centre. The gym lockers are approximately eleven years old and are in poor condition. Over the years due to frequent use doors have been damaged and corrosion has occurred in the bottom portions of the lockers. Repairs have been conducted in the past but further repairs are not feasible due to the extent of damage. The proposal is to replace a total of 78 lockers in the male and female change rooms.

Project Summary

Project Number:	BF-8318-14	Approval Year:	2016
Project Title:	Woodbridge College Park - Electrical Cabinet Replacement	Scenario Active:	Yes
Asset Type:	VHE002 Equipment - Replacement	TCA:	Yes
Department:	Facility Maintenance Services		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 2		
Project Type:	Equipment Replacement		

Project Description				Project Timelines				
Replace parks main electrical service cabinets. The electrical pad mounted cabinets located in the park houses the primary incoming electrical services that powers up the lighting and other park amenities. Some installations are old, corroding and the cabinets have been vandalized where safety is a concern due to the high voltage service inside the cabinets. It is proposed to replace the cabinet with updated unit at Woodbridge College Park soccer field.

Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 2		
Project Type:	Infrastructure Replacement		

Project Description				Project Timelines				
Install capping on the bleacher seating in the west and east arenas. The bleacher seating in the east and west arenas are worn, chipped and sliver damaged in sections from the heavy usage at this facility. Maintenance has been done over the years but further repairs are not reasonable. The poor appearance of the seating can be overcome with the installation of a highly durable plastic capping material installed on top of the seating. The color of the plastic is continuous penetration, therefore painting is eliminated and slivering does not occur.

Project Description				Project Timelines			
Replace walkway lighting in Chancellor District Park. The walkway lighting on the path that leads through the park requires replacement. Many of the first generation poles that were installed in the parks have corroded at the bases and are not structurally or electrically sound. Corrosion has occurred due to metal breakdown and as a result of winter deicing methods. It is proposed to replace the walkway using new weather durable concrete poles and energy efficient luminaries.

Project Type:	Infrastructure Replacement		

Project Description				Project Timelines				
Woodbridge Arena, Replace Arena Boards. The wood constructed arena boards are from 1992 and are currently in poor condition. Due to the age and heavy use of the arena over the years are showing signs of splits, cracks and sections that have wood rot present. Many repairs to maintain the boards have been conducted over the years but further repair expenditures are no longer viable. It is proposed to replace the wood boards with steel frame work and plastic board material. The existing glass will be reused. (Canada 150 CIP project)

Project Summary

Project Number:	BF-8471-16	Approval Year:	2016
Project Title:	Merino Centennial Centre - Parking Lot Expansion	Scenario Active:	Yes
Asset Type:	BFS006 Other Buildings & Facilities	TCA:	Yes
Department:	Facility Maintenance Services		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 1		
Project Type:	New Infrastructure		

Project Description				Project Timelines				
The lack of adequate parking at 8 Merino Rd. currently forces the patrons of Merino Centennial Centre to park on the street within the neighborhood. This project will provide additional parking spots to mitigate the ongoing issue.

Project Summary

Project Number:	CD-1986-16	
Project Title:	Sidewalk on Basaltic Road and Planchet Road - Langstaff Rd to Cul-de-sac/ 220 Basaltic Road	
Asset Type:	RDS004 Sidewalks, Pathways & Guiderails	
Department:	Infrastructure Delivery	
Budget Year:	2016	Approval Year: 2016
Scenario Name:	Main	Scenario Active: Yes
Project Stage:	Current Year Approved/ Future Years Recognized	TCA: Yes
Regions:	Ward 4	
Project Type:	New Infrastructure	

Project Description				Project Timelines				
The design and construction of the missing sidewalk link on Basaltic Road from 220 Basaltic Road to Planchet Road and on Planchet Road from Langstaff Road to the Cul-de-sac.				2016 - Perform preliminary design, detail design, surveying and geotechnical investigation works 2016 - Construction				
Scenario Description				Other Dept Impact				
The sidewalk installation will support the completion of a pedestrian link to the approved 2012 Pedestrian & Bicycle Network Master Plan and Green Directions Vaughan Objective 3.1: To develop and sustain a network of sidewalks, paths and trails that supports all modes on non-vehicular transportation. In addition, this new link will tie into the 2020 scheduled reconstruction of Langstaff Road by York Region and VIVA's transit way reconstruction of Highway 7 in 2015/2016. Formerly known as EN-1986-16

Project Summary

Project Number:	CD-2003-15	Approval Year:	2016
Project Title:	Culvert Replacement on King-Vaughan Road	Scenario Active:	Yes
Asset Type:	STM001 Piped Infrastructure (STM)	TCA:	Yes
Department:	Infrastructure Delivery		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 1		
Project Type:	Infrastructure Replacement		

Project Description				Project Timelines				
Replacement of a 975 mm Corrugated Steel Pipe Culvert at 6550 King-Vaughan Road just east of Huntington Road. The existing corrugated steel pipe has collapsed and a large amount of debris has settled in the pipe, hampering the ability of the pipe to convey the desired storm water.				2015 - Perform preliminary design, detail design, surveying and geotechnical investigation works 2016 - Construction				
Scenario Description				Other Dept Impact				
Additional funding is required due to a change in scope during preliminary design. Design / Construction Funding in the amount of \$215,270 approved in 2015.

Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Studies		

Project Description				Project Timelines				
Two separate decisions of the Ontario Municipal Board effectively compel the City of Vaughan to conduct a ward boundary review in sufficient time for implementation of boundary changes prior to the next general municipal election (2018). An arm's-length facilitator is required to conduct public consultations and produce a recommended ward configuration for the consideration of Council.				Commencement would occur as early as possible in 2016 to all sufficient time for the process to occur, for Council to consider the outcome, and for the hearing of any appeals to the Ontario Municipal Board that may result.

Project Type:	Studies		

Project Description				Project Timelines				
In a refresh of the Vaughan Vision, six service excellence strategic initiatives have been identified. These initiatives will guide the organizational decision making process and set out the strategic priorities for the City. Engage consulting services to work with City project teams to further develop these initiatives. Project funds may be used for investment in technology solutions to support more streamlined solutions

Project Title:	Jackson Street Storm Sewer	
Asset Type:	STM001 Piped Infrastructure (STM)	
Department:	Develop. Eng & Infra. Planning Serv	
Budget Year:	2016	Approval Year: 2016
Scenario Name:	Main	Scenario Active: Yes
Project Stage:	Current Year Approved/ Future Years Recognized	TCA: Yes
Regions:	Ward 1	
Project Type:	New Infrastructure	

Project Description				Project Timelines				
Detail design and construction of a storm sewer on Jackson Street from Major Mackenzie Drive to the outlet in Ramsey Atmitage Park (Naylon Street). The Jackson Street storm sewer will be sized to accommodate the ultimate storm tributary area which will include the proposed development at the northeast corner of Jackson Street and Church Street. The City will repay Development for a portion of the oversizing cost.				Timing for implementation is development driven and is anticipated in 2016				
Scenario Description				Other Dept Impact				
Design and construction of this project will be facilitated through the Terms & Conditions of the development agreement.

Project Description				Project Timelines				
Determine and implement appropriate rehabilitation and/or replacement strategy for the Nort Johnson District Park South Pedestrian Bridge (Hwy 7 north sidewalk over the Humber River). Bridge Rehabilitation was identified in the City of Vaughan biennual Municipal Structure Inspection and Reporting study, dated July 5, 2012, under structure number MS04. Overall, the structure is in very poor condition with an aggregate condition index of 54.8.				2014 - Perform preliminary design, detail design, surveying and geotechnical investigation works 2016 - Construction				
Scenario Description				Other Dept Impact				
Design approved in 2014 in the amount of \$72,600. Investing in Ontario Sign Required.

Project Summary

Project Number:	EP-0084-16	Approval Year:	2016
Project Title:	Communications System for Alternate EOC	Scenario Active:	Yes
Asset Type:	VHE001 Equipment - New	TCA:	Yes
Department:	Emergency Planning		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Technology		

Project Description				Project Timelines				
This project involves procuring and maintaining a mobile communications system for the alternate emergency operations systems. The system requires no wiring for telecommunications, is portable - can be used any where in the City and operates on existing telecommunication infrastructure including WiFi, satellite and land line. The system has a back up battery allowing it to operate in a power outage.				Procurement, positioning and testing of the system to be completed Q3-2016.				
Scenario Description				Other Dept Impact				
The EOC Function Review Report and the After Action Report for Exercise Mayhem identified operating gaps and vulnerabilities particularly relating to the need for a telephone system in the alternate emergency operations centre at Pierre Berton Resource Library.				Pierre Berton Resource Library will be the primary location of the system and all departments with representatives on the Emergency Management Team will benefit by having access to telephone systems at the alternate EOC. Due to the portability of the system, in the event of a telecommunications failure, the system can be redeployed rapidly to any location to function as the telephone system.

Project Number:	EV-2087-16	Approval Year:	2016
Project Title:	Pump/Booster Stations – Condition Assessment	Scenario Active:	Yes
Asset Type:	WWS003 Studies & Master Plans (WWS)	TCA:	No
Department:	Environmental Services		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Studies		

Project Description				Project Timelines				
The City of Vaughan owns, operates and maintains 12 'critical infrastructure' stations, summarized as: 11 sewage pumping stations and 1 water booster station. As these stations age the major equipment components including electrical, instrumentation and controls will deteriorate. A condition assessment of the pumping stations will involve assessing physical condition of identified components, performing functionality and performance reviews of pumps and major equipment and developing a capital replacement/repair program.				It is anticipated that each station could be completed within a 4 week timeframe. Therefore the entire project should be completed within 48 weeks.				
Scenario Description				Other Dept Impact				
A recently completed third party audit of the City of Vaughan's Drinking Water Quality Management System recommended that the City address potential infrastructure issues at the water booster station. The condition assessment would help address this recommendation.

Project Summary

Project Number:	EV-2088-16	Approval Year:	2016
Project Title:	Force main – Condition Assessment	Scenario Active:	Yes
Asset Type:	WWS003 Studies & Master Plans (WWS)	TCA:	No
Department:	Environmental Services		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Studies		

Project Description				Project Timelines				
A force main is a pressure line used to convey pumped sewage within the wastewater collection system. The City of Vaughan's wastewater collection system has four older force mains (Sevilla, Camlaren, Kerwood and Pine Grove) made up of ferrous pipe. In order to prevent deterioration and failure of the wastewater system a force main condition assessment is required. The essential components of a condition assessment include the collection of data through direct inspection, followed by analysis to determine the asset's physical condition, operational status and estimated remaining service life.				Once the works have been awarded, the project could be completed within 6 months provided that the work could be scheduled to minimize operational impact.				
Scenario Description				Other Dept Impact				
The City of Vaughan continues to implement an Asset management strategy. Wastewater infrastructure is a key component of the City's assets. Analysis of the wastewater assets would help advance asset management initiatives.

Project Type:	New Equipment		

Project Description				Project Timelines				
On May 26, 2014 the Finance Administration and Audit Committee received a report entitled: “Employee Business Expenses”, from the Director of Internal Audit. Item 3 of the Report spoke to improving oversight and control over mileage and were specifically targeted to address concerns within the Building Standards Department.				The purchasing plan will be completed in 3 years; purchasing 4 and replacing 4 in both 2015 and 2016 and purchasing 8 in 2017.				
Scenario Description				Other Dept Impact				
The department currently has eight City vehicles that are 8-12 years in age and the norm is 7 years. The department decided to look at options to provide 24 vehicles (16 new and 8 replacement).

Project Summary

Project Number:	FL-5520-16	Approval Year:	2016
Project Title:	Bldg Stds- Replace 4 vehicles in 2016	Scenario Active:	Yes
Asset Type:	VHE005 Vehicles - Replacement	TCA:	Yes
Department:	Fleet Management		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Equipment Replacement		

Project Description				Project Timelines				
On May 26, 2014 the Finance Administration and Audit Committee received a report entitled: “Employee Business Expenses”, from the Director of Internal Audit. Item 3 of the Report spoke to improving oversight and control over mileage and were specifically targeted to address concerns within the Building Standards Department.				The purchasing plan will be completed in 3 years; purchasing 4 and replacing 4 in both 2015 and 2016 and purchasing 8 in 2017.				
Scenario Description				Other Dept Impact				
The department currently has eight City vehicles that are 8-12 years in age and the norm is 7 years. The department decided to look at options to provide 24 vehicles (16 new and 8 replacement).

Project Number:	FR-3630-16	Approval Year:	2016
Project Title:	Fire Master Plan - 2016 Update	Scenario Active:	Yes
Asset Type:	DEV002 Studies & Master Plans (DEV)	TCA:	No
Department:	Fire and Rescue Services		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Studies		

Project Description				Project Timelines				
The original fire service master plan was created in 2007 and was intended to address the growth that had occurred and expected growth over the next decade. An update to the fire master plan is required and will support the next DC study scheduled for 2017. Based on the findings, the MFP will recommend the appropriate fire safety programs and initiatives needed to address the needs of the City of Vaughan.				Q4-16				
Scenario Description				Other Dept Impact				
The City of Vaughan is expected to see continued growth over the next 10 years in the form of intensification in central areas (Highway 7 corridor and VMC) as well as along Highway 400. The review shall ensure our present initiatives are meeting the strategic goals of the City of Vaughan, pursuing service delivery excellence.				In addition to FUS this master plan will be based on the standards of the National Fire Protection Association (representing best practices for fire service delivery) as well as the Ontario Fire Marshal.

Project Type:	Equipment Replacement		

Project Description				Project Timelines				
Fire station 72 is in need of replacement racking for the storage of bunker gear. The existing gear room is not sufficient to accommodate the firefighting gear assigned to the firefighters in the station. The existing location (size) creates a safety hazard and housekeeping issue. Senior Command is proposing relocating space in the station for gear storage. To achieve this goal we will require metal racking to store bunker gear.				Q4-2016

Project Number:	IT-3016-13	
Project Title:	Personal Computer (PC) Assets Renewal	
Asset Type:	VHE002 Equipment - Replacement	
Department:	Information & Technology Mgmt.	
Budget Year:	2016	Approval Year: 2016
Scenario Name:	Main	Scenario Active: Yes
Project Stage:	Current Year Approved/ Future Years Recognized	TCA: Yes
Regions:	City-Wide	
Project Type:	Technology	

Project Description				Project Timelines				
Personal Computers and associated peripherals are used by all City departments to deliver municipal services. There are approximately 1,200 PC's deployed. A systematic PC replacement program over a 4-year period ensures efficient operation of the PC assets and enables user departments to maintain a consistent level of service. For the PC replacement program to be effective, the oldest 25% of PC assets need to be replaced every year.

Project Number:	IT-9542-16	Approval Year:	2016
Project Title:	City Hall A.V. Equipment	Scenario Active:	Yes
Asset Type:	ITS004 Technology Infrastructure	TCA:	No
Department:	Information & Technology Mgmt.		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Technology		

Project Description				Project Timelines				
Install Audio/Visual equipment in multi-purpose room (MPR) and other multi-function areas of City Hall to accommodate A/V needs for various events.								
Scenario Description				Other Dept Impact				
The basic A/V capabilities in the City Hall MPR are not conducive for effective hosting of various events that require enhanced A/V capabilities. As a result, some events need to be hosted off-site, hosted events are not effectively supported with A/V which reduces effectiveness of such events, and additional resources need to be expended to rent additional A/V equipment. By enhancing A/V capabilities in the MPR, more events can be hosted in-house while improving the effectiveness of the events and minimizing A/V rentals.

Project Summary

Project Number:	LI-4552-16	Approval Year:	2016
Project Title:	Maple Feasibility Study	Scenario Active:	Yes
Asset Type:	SNI003 Studies	TCA:	No
Department:	Vaughan Libraries		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 1		
Project Type:	Studies		

Project Description				Project Timelines				
The 2013 Active Together Master Plan for Parks, Recreation and Libraries recommended that further study and monitoring of usage of Maple Library to determine if changes to its function and services are required. In addition, VPL's 2013 Strategic Position Paper contains a Building Plan that relates to future facility development. The objective of the study would be to assess whether there is a need to repurpose the existing facility into a specialized type of library facility that would have a scope different from services provided at the Civic Centre Resource Library; and/or if there is a need to retain or reduce the footprint of the current facility.				The Building Plan recommends that after the Civic Centre Resource Library is opened that an in-depth study of services provided by the Maple Library be undertaken.				
Scenario Description				Other Dept Impact				
Maple Library has been a topic of discussion about its future since 2003 when plans were first approved to develop the Civic Centre Resource Library as it is located 0.9 km. from the new facility. The library is a 13,000 sq. ft. building that opened in 1991, co-located within the Maple Community Centre. Maple Library is by far the busiest Community Library within Vaughan and has 23 staff.

Project Summary

Project Number:	PL-9550-16	Approval Year:	2016
Project Title:	Municipal Comprehensive (Official Plan) Review	Scenario Active:	Yes
Asset Type:	SNI003 Studies	TCA:	No
Department:	Policy Planning & Environmental Sustainability		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Growth/Studies		

Project Description				Project Timelines				
To fulfill the requirements of the Planning Act by conducting the City's 5-year Statutory Review to update the Official Plan to maintain compliance with the Provincial Plans and Policies and the York Region Plan, which is currently undergoing its Municipal Comprehensive (Official Plan) Review; and implement Amendment No. 2 to the Provincial Growth Plan.				In July 2015 the Ministry of Municipal Affairs and Housing advised that all Municipal Official Plans must be amended by no later than June 2018. In order to meet the Provincial deadline, work on the City Plan will need to commence in Q1-2016.				
Scenario Description				Other Dept Impact				
This is a growth related capital project, which will involve the retention of consulting services to conduct the MCR (OP) review and potentially contract staff to assist in the administration of the review.				Most other City departments will play a role in the 5-year review through the updating of their respective Master Plans and/or participating as members of a staff advisory committee. The updating of the Master Plans will serve to inform the preparation of the Municipal Comprehensive Review and will ultimately support the implementation of the resulting Official Plan Amendment.

Project Summary

Project Number:	PL-9551-16	Approval Year:	2016
Project Title:	Concord GO Centre Secondary Plan Mobility Hub Study	Scenario Active:	Yes
Asset Type:	SNI003 Studies	TCA:	No
Department:	Policy Planning & Environmental Sustainability		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 4, Ward 5		
Project Type:	Growth/Studies		

Project Description				Project Timelines				
To conduct a Mobility Hub Study, in accordance with the Concord GO Centre Secondary Plan (CGCSP) and the Metrolinx Mobility Hub Guidelines, to provide the basis for locating GO Rail Station in the Plan Area. The Mobility Hub Study will also resolve deferrals adopted by Regional Council when approving the CGCSP.				By commencing the study in 2016, it will be coincident with the Metrolinx Regional Express Rail Study, which is looking to implement 2-way all day service on Barrie GO Line by 2024. This will allow the City's work to inform the Metrolinx Study and signal the City's intention to support the station. It is expected that the studies' duration would be approximately 3 years from the date of commencement (2016-2018).				
Scenario Description				Other Dept Impact				
This study is strategic, supporting the City's objective of locating a GO Rail Station in the Concord GO Centre Secondary Plan Area. This will be pursued through a study to address requirements set out in the Metrolinx Mobility Hub Guidelines.				Development Engineering/Infrastructure Planning will be conducting two studies, which should proceed concurrently with the Mobility Hub study. This includes a Feasibility Study for a road connection from Bowes Road over the rail line to the Phase 1 Area of Secondary Plan; and a Comprehensive Transportation Study, which will provide for the implementation of Phase 2 of the Secondary Plan.

Project Type:	Health & Safety		

Project Description				Project Timelines				
Project will update the previous Aquatic Safety Audit conducted in 2011. The purpose of the aquatic safety audit is intended to maximize the safety of participants in the City's aquatic facilities. The audit will identify steps necessary to reduce the risk of drowning or serious water-related injuries. The audit will include, but not be limited to, on-site safety inspection of each facility, interviews with management staff, review of current policies and procedures, and a final report outlining findings and recommendations. Project Title:	City Playhouse Theatre Lobby Carpet Replacement	
Asset Type:	BFS010 Recreation Buildings & Facilities	
Department:	Recreation Services	
Budget Year:	2016	Approval Year: 2016
Scenario Name:	Main	Scenario Active: Yes
Project Stage:	Current Year Approved/ Future Years Recognized	TCA: No
Regions:	Ward 5	
Project Type:	Infrastructure Replacement	

Project Description				Project Timelines				
The City Playhouse Theatre is turning 20 years old in 2016 and the theatre lobby carpeting has not been replaced since the building's construction. Continuous usage, wear and tear has worn out the carpet and created stains that can no longer be removed with cleaning. Replacing the carpet with high quality tile will greatly improve the look of the City Playhouse main lobby area and will create a positive experience for the customer. The hard surface should also give a longer life cycle than replacing with another carpet.				Q1-Q4

Project Type:	Infrastructure Replacement		

Project Description				Project Timelines				
As City owned and maintained fences deteriorate and age, they are identified for repair & replacement as per the department replacement strategy and evaluation/ranking program. City owned & maintained fences are located throughout Vaughan on municipal and regional R.O.W.'s. In 2014, 1295 Lm of fencing have been identified for repair and/or replacement.				Work takes place between April and December each year.

Project Summary

Project Number:	RP-6756-15	Approval Year:	2016
Project Title:	Traffic Signs Reflectivity Inspection and Testing	Scenario Active:	Yes
Asset Type:	RDS006 Traffic Control	TCA:	No
Department:	Trans Serv and Parks & Forestry Ops		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Legal/Regulatory		

Project Description				Project Timelines				
Inspection of all traffic signs within the municipal road allowance to ensure proper day/ night reflectivity for the health and safety of all road users. There is a legal requirement under the Highway Traffic Act to ensure that reflectivity standards are inspected and maintained for all traffic signs. This is ongoing multi-year program with a total annual cost of approximately \$50K.				2015/ 2016 - Prepare RFP, tender, award, review report, prepare work orders for replacement.				
Scenario Description				Other Dept Impact				
In consideration of the strategic priorities related to Vaughan Vision 2020, the traffic sign inspection and maintenance will promote community safety, health and wellness for both drivers and pedestrians.

Project Description				Project Timelines				
Planting of new trees to replace trees removed due to ice storm, insect, disease, storm damage, vehicular accidents, etc. To maintain the City's Urban Forest Canopy as directed by Council. FA&A Communication Item in March 2015 identified the tree backlog due to increased mortality due to EAB infestation and 2013 ice storm, with a proposal to annually plant 2,125 until 2021 to catch-up with the backlog.				Tree planting takes place annually from May - July and Sept - November.				
Scenario Description				Other Dept Impact				
Capital project for additional 2,125 trees per year as identified in Finance, Administration & Audit Committee Report 6 Item 1 Communication 3

Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 1		
Project Type:	New Infrastructure		

Project Description				Project Timelines				
Design and construction of a Public Square, Underground Parking Structure and Outdoor Rink. The civic square will be the main public outdoor space of the Civic Centre. It will be closely linked to the programming of the City hall. The square will include a reflective pool in the summer and an ice rink in the winter. Under the square will include two levels of underground parking, connected to the city hall, resource library and a future building to the north. The cost includes excavation and construction of approx. 500 parking spaces (250 per level), ice rink refrigeration, a Zamboni building, elevator to access the parking and all mechanical and electrical systems. The sale of MNR lands will offset some of the project costs.

Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide, Ward 1, Ward 2, Ward 3, Ward 4, Ward 5		
Project Type:	Growth/Studies		

Project Description				Project Timelines				
To undertake a comprehensive review and prepare a new City-wide consolidated Zoning By-law along with zoning maps. To retain qualified expertise to undertake a comprehensive review and develop a city wide consolidated zoning bylaw.				Multi Year Project Commencing 2016 Q2. It is anticipated that the new zoning bylaw review will be completed in a three year period ending 2019 Q2.				
Scenario Description				Other Dept Impact				
The funding of this project will be shared through taxation, Development Charges and Building Permit Fees reserves. A consultant will be retained and they will be responsible for a final terms of reference, work plan and communication plan. The next stage will be background data research and analysis. There will be stakeholder meetings for public consultations regarding the draft zoning bylaw and maps. The final draft of the zoning bylaw and maps will be presented to Council for final approval.				The consultant will be engaging staff from Development Planning, Policy Planning, Legal Department, ITM, By-law and Compliance and Building Standards Department at different stages of the Zoning Bylaw Review.

Project Type:	Growth/Development		

Project Description				Project Timelines				
The construction of new sidewalk and street lighting along Major Mackenzie Drive from Islington Avenue to the CPR by York Region on behalf of the City. In addition, the City's watermain is being extended from Islington Avenue to Highway # 27 by York Region on behalf of the City under Capital project DE-7123-15. The City's works will be completed in conjunction with York Region's reconstruction and widening.				This York Region project is currently in the detailed design phase and construction is anticipated in 2016/ 2017.				
Scenario Description				Other Dept Impact				
2013 Development Charges Background Study - Appendix H, Table3, Sidewalk and Streetlighting item # 56, 75 & 77.				In conjunction with the Development Engineering & Infrastructure Planning & Services Department.

Project Description				Project Timelines				
The construction of new sidewalk on Highway 27 from Royalpark Way to Martin Grove Road by York Region on behalf of the City. The City's works will be completed in conjunction with York Region's CPR bridge replacement.				This York Region project is currently in the detailed design phase and construction is anticipated in 2016.				
Scenario Description				Other Dept Impact				
2013 Development Charges Background Study - Appendix H, Table3, Sidewalk and Streetlighting item # 53 & 72. The sidewalk installation will support the completion of pedestrian links as per the approved 2012 Pedestrian & Bicycle Network Master Plan and Green Directions Vaughan Objective 3.1: To develop and sustain a network of sidewalks, paths and trails that supports all modes on non-vehicular transportation.

Project Description				Project Timelines				
In a refresh of the Vaughan Vision, six service excellence strategic initiatives have been identified. These initiatives will guide the organizational decision making process and set out the strategic priorities for the City. Engage consulting services to work with City project teams to further develop these initiatives. Project funds may be used for investment in technology solutions to support more streamlined solutions

Project Description				Project Timelines				
Project designed to enhance public awareness and understanding of the benefits of sustainable transportation in accordance with Green Directions Vaughan and the Council approved Transportation Master Plan. Programs and activities will include promotional campaigns, materials and Vaughan Cycling Forum . Monitoring to include sustainable transportation(example. modal shift to walking, cycling transit and car-pooling).				All programs and activities to be established following completion of the Vaughan TDM Policy(2013) and TMP Communications Plan(2013). Costs for the overall project will be refined following the completion of these studies in 2013. All programs and activities to be ongoing from 2013-2016.

Scenario Name:	Main	Approval Year: 2017
Project Stage:	Current Year Approved/ Future Years Recognized	Scenario Active: Yes
Regions:	City-Wide	TCA: Yes
Project Type:	Growth/Development	

Project Description				Project Timelines				
School Travel Planning measures for pilot school, including infrastructure improvement to slow traffic, pedestrian improvements, new signs, pavement markings and educational materials. School Travel Planning aims to get more children walking and cycling to/from school which includes the identification of barriers. The top reasons for parents driving their children to school are typically safety issues. The implementation of School Travel Planning measures is identified in the Council approved TMP Action Plan.				Pilot school to be consulted in Q3/ A4 of 2012 and implementation of measures is expected to be completed in Q1/Q2 of 2013. Report to Council with results in Q4 of 2013. 2014 to 2016 will be determined based on the pilot school.				
Scenario Description				Other Dept Impact				
2013 City-Wide Development Charge Study, Appendix H Table 2 Other Transportation Related Works Item 4				Engineering Services will be implementing the school Travel Planning measures in coordination with the School Boards, Development Transportation Engineering and Recreation Department.

Project Description				Project Timelines				
Class Environmental Assessment Study in support of Highway 400 interchange connection(s) as identified in the transportation policies of OPA 637. To serve future Highway 400 North Employment area and new community areas and improve network connectivity and the effectiveness of the existing network. To identify the preferred location, configuration and alignment for the interchange connections which will connect GTA Corridor to the arterial road system.				In accordance with Ontario Municipal Board Minutes of Settlement - PL 100850 dated July 20, 2011 - Schedule "I" to the Amendment No. 637 and Schedule "C" to the Minutes of Settlement. The scope of the Region / City EA and timing will depend upon MTO's response to the City of Vaughan Council Resolution of June 28, 2011 and Stage 2 of the GTA West Corridor EA. The study will be joint study between the City and the Region of York.

Scenario Name:	Main	Scenario Active: Yes
Project Stage:	Current Year Approved/ Future Years Recognized	TCA: No
Regions:	City-Wide	
Project Type:	Growth/Studies	

Project Description				Project Timelines				
This project is for preliminary work and final completion of the City Wide Development Charges Study and associated by-laws to be passed in 2018. This includes retaining an external consultant(s) to complete the study, inclusive of verifying service level inventories, calculation of new DC rates, public/stakeholder consultations, presentations to Council and defense of the by-law at the OMB. It also includes updating any existing SAC by-laws. The City Wide by-law and existing SACs expire in 2018 and are mandated by legislation to be updated every 5 years.				This project will be completed over the 4 year period between 2015 capital budget approval and finalization of the new DC by-law in mid-2018. Finalization of the new DC by-law and settlement/hearing of any related OMB appeals is anticipated for 2018/2019.				
Scenario Description				Other Dept Impact				
This project is related to the following two DC items: 1.2.10 (General Government - Growth Related Studies) and Appendix H - Table 2 - Page 4 - Item 1 - Engineering Growth Related Studies				This study will affect all Departments receiving funding from DC reserves and will require coordination with those departments for the creation and defense of the study.

Project Summary

Project Number:	DP-9526-17	Approval Year:	2017
Project Title:	Yonge Street / Steeles Corridor Urban Design Streetscape & Open Space Masterplan	Scenario Active:	Yes
Asset Type:	SNI001 Master Plans	TCA:	No
Department:	Development Planning		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 5		
Project Type:	Growth/Studies		

Project Description				Project Timelines				
The Yonge Street / Steeles Corridor Urban Design Streetscape Master Plan will prescribe the layout and detailed design of the public and private streetscape spaces, pedestrian and bicycle connections, public amenities and open spaces, provide criteria for building locations, forms, heights and massing in relation to the public realm.				Spring 2015 start date The plan will create a comprehensive public realm for this area that will provide an attractive framework to promote private sector investment.				
Scenario Description				Other Dept Impact				
This Masterplan must be completed to allow for possible cost sharing with the Region under the Municipal Streetscape Partnership Program. (2013 DC Appendix B Item 1.2.14)				Engineering and Parks Development will be key stakeholders in the Study.

Department:	Emergency Planning		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Equipment Replacement		

Project Description				Project Timelines				
This project involves renovation of the primary emergency operations centre located at the JOC and equipping both the primary and alternate emergency operations centres (Pierre Berton Library) with appropriate technology and telecommunications to ensure an effective and efficient response to emergency situations.				Primary EOC Renovations, telecommunications wiring and installation of equipment Q3-2016, Telecommunications Wiring and Equipping Alternate EOC Q2-2016, Installation of sliding whiteboards in the primary EOC Q2-2017.				
Scenario Description				Other Dept Impact				
The EOC Functional Review Report identified operating gaps and vulnerabilities in the emergency operations centre that this capital project will address that will build our operating capacity and level of resilience.				Buildings and Facilities, Information and Technology Management and VPL-Pierre Berton Library will be involved in the project with the renovations, wiring and equipping of the EOC facilities.

Project Description				Project Timelines				
To replace the City's 14 year old property tax billing and collection system. The current Vendor Vailtek is not supporting the system adequately and given the age of the system it is time to secure a more robust and functional software application. The current property tax billing of approx \$750million is dependant on this outdated software and given the issues of support a new system should now be purchased.				2017 purchase a server and software licensing for Oracle (Apex)

Department:	Financial Services		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Technology		

Project Description				Project Timelines				
The City currently does not have a City Wide Point of Sale Cashiering solution that interfaces with our JD Edwards Accounting system. The City's current paper based cashiering system is a labour intensive manual process involving the manual completion of cash receipts for use by the customer and departments and the manual data input of cash receipts into the City's Accounting system increasing the risk of error.				The Innovation and Continuous Improvement department will be performing a Revenue Management Operational Review in 2016. One of the expected recommendations is the purchase of a City Wide cashiering solution with interface to JDEdwards in 2017				
Scenario Description				Other Dept Impact				
The Vaughan Vision 2020 Ensures a High Performing Organization demonstrating Excellence in Service Delivery. Installation of a Corporate wide Point of Sale system interfaced with our JDEdwards accounting system will increase efficiency and accuracy in processing revenue transactions in real time while providing automated transaction record to the customers.				All City Departments that collect revenue on a cash basis will be effected by the installation of this corporate wide software

Project Number:	FL-5519-16	Approval Year:	2017
Project Title:	Bldg Stds- Purchase 4 vehicles in 2016 and 8 vehicles in 2017	Scenario Active:	Yes
Asset Type:	VHE003 Vehicles - New	TCA:	Yes
Department:	Fleet Management		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	New Equipment		

Project Description				Project Timelines				
On May 26, 2014 the Finance Administration and Audit Committee received a report entitled: “Employee Business Expenses”, from the Director of Internal Audit. Item 3 of the Report spoke to improving oversight and control over mileage and were specifically targeted to address concerns within the Building Standards Department.				The purchasing plan will be completed in 3 years; purchasing 4 and replacing 4 in both 2015 and 2016 and purchasing 8 in 2017.				
Scenario Description				Other Dept Impact				
The department currently has eight City vehicles that are 8-12 years in age and the norm is 7 years. The department decided to look at options to provide 24 vehicles (16 new and 8 replacement).

Project Summary

Project Number:	HR-9533-14	
Project Title:	Attendance Management Automation	
Asset Type:	ITS001 Corporate Applications	
Department:	Office of the Chief Human Resources Officer	
Budget Year:	2016	Approval Year: 2017
Scenario Name:	Main	Scenario Active: Yes
Project Stage:	Current Year Approved/ Future Years Recognized	TCA: No
Regions:	City-Wide	
Project Type:	New Infrastructure	

Project Description				Project Timelines				
Review a strategy to manage attendance management within the City of Vaughan. As the City is rapidly growing it requires the appropriate technological infrastrure / solutions to track attendance, analyze attendance patters and provide a system that integrates with JD Edwards and can be used by all departments directly. We are looking to find efficiencies in entering data, tracking attendance and managing attendance throughout the City including Fire.				February 2014 to July 2014 - will be the first Phase of the project in terms of conducting a needs analysis to understand what the user / business requirements are. August 2014 to October 2014 will be Phase II will be sourcing through an RFP the appropriate solution and between November 2014 to March 2015 Phase III will be implementation of the solution.				
Scenario Description				Other Dept Impact				
				Review how all departments manage attendance including time entry for field staff. All departments will need to be interviewed to improve our current attendance management practices.

Project Summary

Project Number:	RP-1972-17	
Project Title:	Public Works and Parks Operations Yard Expansion and Upgrade Strategy	
Asset Type:	LND001 Land Acquisition	
Department:	Trans Serv and Parks & Forestry Ops	
Budget Year:	2016	Approval Year: 2017
Scenario Name:	Main	Scenario Active: Yes
Project Stage:	Current Year Approved/ Future Years Recognized	TCA: Yes
Regions:	Ward 2	
Project Type:	Growth/Development	

Project Description				Project Timelines				
This is the first phase of a multi-year, multi-phase project to upgrade and expand the number of Public Works/Parks Operations yards and buildings as a result of growth (New West Yard). The overall plan includes: re-locating existing Parks/Works operations from the existing Woodbridge Yard to a new, larger location				It is anticipated that the Environmental Assessment for the new works yard will be completed in 2017. Acquisition of lands for the new west works yard will occur in 2017-19. (Future Projects: the purchase of the lands to build a new satellite operations facility in the north part of the City; and, perform upgrades and alterations to the existing JOC and Dufferin Street Yards and buildings.)				
Scenario Description				Other Dept Impact				
This funding request is to perform an Environmental Assessment in 2017, as well as to cover land acquisition costs for 2017-19. Additional requests for funding to construct the new operations building on the site will follow in future years, as more detailed cost estimates are refined. 2013 DC Appendix F Item 5.6.3/4 &Appendix G Item 6.2.2&6.3.3 Formerly known as PW-1972-16. Asset Type:	RDS005 Streetlights	TCA:	Yes
Department:	Trans Serv and Parks & Forestry Ops		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Infrastructure Replacement		

Project Description				Project Timelines				
Replacement of damaged/deficient street light poles and associated components and/or wiring where required. The City's Streetlight Maintenance contractor inspects and inventories the streetlighting system, determining the condition of the poles. From this report, the poles in poor condition are replaced. Since 2010 we have replaced 566 poles, approximately 162 poles per year.

Asset Type:	RDS004 Sidewalks, Pathways & Guiderails	TCA:	Yes
Department:	Trans Serv and Parks & Forestry Ops		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Infrastructure Replacement		

Project Description				Project Timelines			
The annual curb and sidewalk repair & replacement program involves the removal and replacement of damaged sections of curbs and sidewalks, Citywide. Continuing program that results in reduced claims for trip and falls, and maintains the City's infrastructure. All assumed sidewalks were captured during our 2012 Inventory Assessment program. As required under the province's Minimum Maintenance Standards a complete sidewalk inventory assessment must be undertaken each year.							
Scenario Description				Other Dept Impact			
Increased funding is required over time to address growth and meet the inspection, repair and replacement program. Formerly known as PW-2035-11.

Department:	Trans Serv and Parks & Forestry Ops		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 1		
Project Type:	New Infrastructure		

Project Description				Project Timelines				
The realignment of the new entrance requires traffic controls to allow for safe internal movement of traffic. This will require the removal of river rock landscape features & replacement with sod & installation of traffic island at entrance to property. River rock is also a safety concern as it is now being picked up and thrown around the property. Additional modifications to existing islands and curbs will be done to improve the safe flow of vehicle and pedestrian traffic as the entrances and exits onto Keele Street have been modified in 2012 by the Region.

Project Summary

Project Number:	RP-6756-15	Approval Year:	2017
Project Title:	Traffic Signs Reflectivity Inspection and Testing	Scenario Active:	Yes
Asset Type:	RDS006 Traffic Control	TCA:	No
Department:	Trans Serv and Parks & Forestry Ops		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Legal/Regulatory		

Project Description				Project Timelines				
Inspection of all traffic signs within the municipal road allowance to ensure proper day/ night reflectivity for the health and safety of all road users. There is a legal requirement under the Highway Traffic Act to ensure that reflectivity standards are inspected and maintained for all traffic signs. This is ongoing multi-year program with a total annual cost of approximately \$50K.				2015/ 2016 - Prepare RFP, tender, award, review report, prepare work orders for replacement.				
Scenario Description				Other Dept Impact				
In consideration of the strategic priorities related to Vaughan Vision 2020, the traffic sign inspection and maintenance will promote community safety, health and wellness for both drivers and pedestrians.

Project Number:	RP-6759-17	
Project Title:	Pedestrian Crossing Enhancement Program – Pavement Marking	
Asset Type:	RDS006 Traffic Control	
Department:	Trans Serv and Parks & Forestry Ops	
Budget Year:	2016	Approval Year: 2017
Scenario Name:	Main	Scenario Active: Yes
Project Stage:	Current Year Approved/ Future Years Recognized	TCA: No
Regions:	City-Wide	
Project Type:	Health & Safety	

Project Description				Project Timelines				
Installation of new pavement marking material will enhance the crossing area and alert motorists that pedestrians are in the area. This work will provide better visibility and improve safety for pedestrians crossing at an intersection, pedestrian signal or school crossing. There are several new pavement marking products that are being considered by many municipalities to enhance the crossing areas. Locations to be determined by the Traffic Engineering Division.				2017/ 2018 - Prepare tender and complete enhanced pavement markings

Project Title:	East District Parks Yard Parking Lot Modifications	Scenario Active:	Yes
Asset Type:	BFS006 Other Buildings & Facilities	TCA:	Yes
Department:	Facility Maintenance Services		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 4		
Project Type:	New Infrastructure		

Project Description				Project Timelines				
Install asphalt pavement at the rear lot and expand staff parking lot. Pending outcome of works yard study. The existing gravel parking lot at the rear of the building is in very poor condition. There are a number of potholes, there is no drainage so the water accumulates and the overall contour is uneven. The staff at this yard has increased due to area service requirements. As a result, good available parking space is very limited, some staff have to park in the grass field on the north side of the property. It is proposed to install asphalt paving at the rear lot and provide slope for drainage, in addition to grading and applying gravel to create a parking lot with sufficient capacity for staff vehicles.								
Scenario Description				Other Dept Impact				
Leasehold Improvement

Department:	Facility Maintenance Services		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 2		
Project Type:	New Infrastructure		

Project Description				Project Timelines			
Construct a storage room to house various pieces of equipment for the operations of the building. The storage space available at the community centre is very limited and located where articles can fit. Over the years the storage that was available for building operations has been taken over for other purposes. The building operators have snow blowers, ice edgers, ladders, cleaning equipment and various other articles that are scattered throughout the building. It is proposed to build a storage room under the dehumidifier in the east arena to centrally secure and store equipment to improve storage capabilities.

Project Summary

Project Number:	CL-2520-18	
Project Title:	City Archives Outreach Equipment	
Asset Type:	VHE001 Equipment - New	
Department:	City Clerk	
Budget Year:	2016	Approval Year: 2018
Scenario Name:	Main	Scenario Active: Yes
Project Stage:	Current Year Approved/ Future Years Recognized	TCA: Yes
Regions:	City-Wide	
Project Type:	New Equipment	

Project Description				Project Timelines				
This request (8 archival quality display units) is a critical component of the City Archvies' Community Outreach Program. It will provide secure display capability and access throughout the Vaughan Community (at community centres, libraries, etc.) to one of the City's most significant historical and cultural assets: the Local History & Information Resource Collection consisting of non-government records and artifacts from the late 1700's to the late 20th century documenting the rich and diverse history and evolution of Vaughan.				The Archives' Community Outreach Program will roll out upon receipt of the requested equipment (1 Aug. 2017) and will be ongoing. The requested display units will form the core of the subject program, replacing worn-out and damaged equipment and adding new equipment to produce the capacity for Community-wide outreach and programming.				
Scenario Description				Other Dept Impact				
Request will replace 2 damaged, 20 year old display cases and add a further 6 units to provide required outreach and programming capacity to Archives.

Project Title:	School Travel Planning Measures	
Asset Type:	RDS008 Studies & Master Plans (RDS)	
Department:	Develop. Eng & Infra. Planning Serv	
Budget Year:	2016	Approval Year: 2018
Scenario Name:	Main	Scenario Active: Yes
Project Stage:	Current Year Approved/ Future Years Recognized	TCA: Yes
Regions:	City-Wide	
Project Type:	Growth/Development	

Project Description				Project Timelines				
School Travel Planning measures for pilot school, including infrastructure improvement to slow traffic, pedestrian improvements, new signs, pavement markings and educational materials. School Travel Planning aims to get more children walking and cycling to/from school which includes the identification of barriers. The top reasons for parents driving their children to school are typically safety issues. The implementation of School Travel Planning measures is identified in the Council approved TMP Action Plan.				Pilot school to be consulted in Q3/ A4 of 2012 and implementation of measures is expected to be completed in Q1/Q2 of 2013. Report to Council with results in Q4 of 2013. 2014 to 2016 will be determined based on the pilot school.				
Scenario Description				Other Dept Impact				
2013 City-Wide Development Charge Study, Appendix H Table 2 Other Transportation Related Works Item 4				Engineering Services will be implementing the school Travel Planning measures in coordination with the School Boards, Development Transportation Engineering and Recreation Department.

Project Title:	Kleinburg - Nashville PD6 Major Mackenzie Watermain	Scenario Active:	Yes
Asset Type:	WTS001 Piped Infrastructure (WTS)	TCA:	Yes
Department:	Develop. Eng & Infra. Planning Serv		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	Ward 1		
Project Type:	Growth/Development		

Project Description				Project Timelines				
Detailed design and construction of the Major Mackenzie Drive watermain linking Block 61 east and west of the Canadian Pacific Railway and linking Huntington Road to Islington Avenue all within Pressure District 6.				Timing for implementation is development driven. Development will advance detailed design and construction. City will repay Development with funding from Development Charges. A portion of this watermain may be designed and /or constructed by York Region in conjunction with the planned Regional improvements to Major Mackenzie Drive. Accordingly, repayment may also be required to York Region.				
Scenario Description				Other Dept Impact				
2013 City-Wide Development Charge Study, Appendix H Table 5 Item 7. Capital project approved in 2015 in the amount of \$2,020,825.

Project Description				Project Timelines				
An aerial is a multi-purpose vehicle equipped with hose, ladders, axes, halligans, fire extinguishers, and ventilating equipment. It also has a 30m elevating device capable of high level rescue and master firestream deployment. It has an on-board water reservoir, allowing it to fight a fire immediately upon arrival. The VFRS Senior Command Team recommend the purchase of a new fully equipped aerial for Fire Station 76.				Request Quote Q1 2018 - Delivery Q2 2019

Project Type:	Technology		

Project Description				Project Timelines				
In addition to reduced operating costs, the strategic benefits of EDMS deployment include increased business efficiency, cost effectiveness, risk avoidance, compliance with Provincial and Federal statutes, use of industry best practices, better customer service, and public accountability. Tactical benefits at the Business Unit and staff levels include a central repository for electronic documents, document sharing capabilities, faster search and retrieval results to meet business needs, easy file classification and retention, version control, audit trails, and public folders.								
Scenario Description				Other Dept Impact				
				That the corporate wide Electronic Document Management System be used by all departments to manage all of the City's electronic records, including e-mail records, and to improve the efficiency of the records-based business processes through improved information management.

Regions:	City-Wide		
Project Type:	Technology		

Project Description				Project Timelines				
Information services upgrade. Electronic information services, communications and user's personal technology are a growing and consistently changing facet of contemporary library services. To avoid huge sporadic requests for technology funding, we have developed and deployed a plan that requests a reasonable expenditure each year and retains the integrity of our system.

Project Number:	RL-0005-13	Approval Year:	2018
Project Title:	Land Acquisition Fees	Scenario Active:	Yes
Asset Type:	LND001 Land Acquisition	TCA:	No
Department:	Real Estate		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Misc. Land Appraisals		

Project Description				Project Timelines				
"Miscellaneous land acquisition appraisals, cash in lieu (CIL) appraisals and related fees. Park land acquisitions occur during the year which require appraisal and related fees. These acquisitions fall outside of the capital budget process and as a result no budgeted accounts exist when fees are incurred. Also, fees are required for cash in lieu valuation review. A corporate capital project for these acquisition related fees is required and CIL."				Ad Hoc acquisitions appraisals related fees approved by council, and cash in lieu valuation.

Project Number:	RP-2013-15	Approval Year:	2018
Project Title:	Street Light Pole Replacement Program	Scenario Active:	Yes
Asset Type:	RDS005 Streetlights	TCA:	Yes
Department:	Trans Serv and Parks & Forestry Ops		
Budget Year:	2016		
Scenario Name:	Main		
Project Stage:	Current Year Approved/ Future Years Recognized		
Regions:	City-Wide		
Project Type:	Infrastructure Replacement		

Project Description				Project Timelines				
Replacement of damaged/deficient street light poles and associated components and/or wiring where required. The City's Streetlight Maintenance contractor inspects and inventories the streetlighting system, determining the condition of the poles. From this report, the poles in poor condition are replaced. Since 2010 we have replaced 566 poles, approximately 162 poles per year.

Project Type:	Infrastructure Replacement		

Project Description				Project Timelines			
The annual curb and sidewalk repair & replacement program involves the removal and replacement of damaged sections of curbs and sidewalks, Citywide. Continuing program that results in reduced claims for trip and falls, and maintains the City's infrastructure. All assumed sidewalks were captured during our 2012 Inventory Assessment program. As required under the province's Minimum Maintenance Standards a complete sidewalk inventory assessment must be undertaken each year.							
Scenario Description				Other Dept Impact			
Increased funding is required over time to address growth and meet the inspection, repair and replacement program. Formerly known as PW-2035-11.
