

Infrastructure Connection Improvements in Your Area

PROJECT UPDATE

Construction is scheduled to commence the week of November 23, 2020, for the Weston Downs/Pinewood Estates Infrastructure Improvements Project, from Green Avenue to Blackburn Boulevard.

PLANNED CONSTRUCTION WORK

Construction work along the pedestrian path will begin with installation of a new watermain followed by the upgrade of the existing pedestrian path as an emergency access route.

CONSTRUCTION IMPACTS

Pine Valley Crescent and Blackburn Boulevard will remain open to vehicular and pedestrian traffic during construction. Temporary lane restrictions may be required to allow construction activities to proceed in a safe and efficient manner. Green Avenue and the pedestrian path between Green Avenue and Blackburn Boulevard will be closed to pedestrian traffic during construction.

Property owners are reminded that underground systems such as lawn sprinklers, electrical conduits, landscaping, etc. within City-owned boulevards or property limits may be impacted by the proposed construction work. At the property owner's discretion and where possible, the removal of such privately-owned underground systems in advance of construction may be prudent. The City is not responsible for any damages that may occur during construction to privately-owned items within City property limits (Encroachment By-law No. 034-2017).

Thank you in advance for your cooperation. We look forward to completing these important infrastructure upgrades in your area. For more information, please contact the Project Lead.
