

City-wide Cycling Pavement Markings and Signage

FEBRUARY 2023

NEWSLETTER #1

City-wide Multi-use Path

What improvements are being made

The City of Vaughan is undertaking cycling facility improvement work to the existing multi-use paths city-wide including installation and upgrades of cycling pavement marking and signage.

The project is currently in the design stage with construction anticipated to begin by fall 2023.

Pre-construction field work | 2023

City-retained engineering consultants will be conducting field investigation activities. The various underground utilities (i.e. gas, telephone and hydro) will be identified by coloured paint markings. All roads will remain open to traffic while the field investigation work is being carried out, under the direction of the City's Infrastructure Delivery department.

Project updates

Newsletter #2 will be issued upon completion of the design and before construction to provide further details including approximate construction start and end dates.

Visit vaughan.ca/InfrastructureProjects for updates.
