

Road Resurfacing and Rehabilitation

South East Vaughan Area | Newsletter #2 | May 2023

Improvements are coming

The City of Vaughan is undertaking important municipal infrastructure improvements to the following locations in the Thornhill area: Bradbeer Crescent, Downing Boulevard, Flamingo Road, Janesville Road, McDougall Court, Nathan Court, Newport Square, Pinewood Drive, Portofino Court, Powell Road, Silverpine Avenue, Trafalger Square, Windhaven Terrace and Wintergreen Crescent.

As part of the 2023 Road Resurfacing and Rehabilitation project, the City is planning to restore community roads and make required repairs to existing curbs and sidewalks. These enhancements support the City's continued commitment to ensuring the long-term sustainability of municipal infrastructure.

Construction timelines

The City-retained contractor, Forest Contractors Ltd., will commence construction activities by June 2023, with anticipated completion by fall 2023.

Construction impacts

These roads will remain open to vehicular and pedestrian traffic during construction. Temporary lane restrictions will be required to allow construction activities to proceed safely and efficiently.

Access to private and commercial driveways and entrances will be impacted at times during the road reconstruction and related restoration works. Work at the location of commercial entrances will be co-ordinated and staged to allow for continued access during business hours.

Property owners are reminded that underground systems, such as lawn sprinklers, heated driveways, electrical conduits, landscaping, etc. within City-owned boulevards or property limits may be impacted by the proposed construction work. **Removing privately-owned underground systems in advance of construction, at the owner's expense, is recommended.** The City is not responsible for any damages that may occur during construction to privately owned items within City property limits (Encroachment By-law No. 034-2017).
