

Help design Interchange Way and Millway Avenue extensions

NOVEMBER 2023

Dear resident/business owner,

If you live, work, play, study in or regularly commute through the Vaughan Metropolitan Centre (VMC), we want to hear from you! The City of Vaughan is updating the VMC Transportation Master Plan to help guide and manage transportation in the downtown core. This plan will outline transportation needs, provide a strategy for street connectivity and accessibility, and support multi-modal mobility, such as walking, biking, public transit and ridesharing, through to 2051. As part of the transportation master plan update, **Municipal Class Environmental Assessments** – the process that evaluates environmental impacts of a proposed project – are also advancing for Interchange Way and Millway Avenue extensions, concurrently.

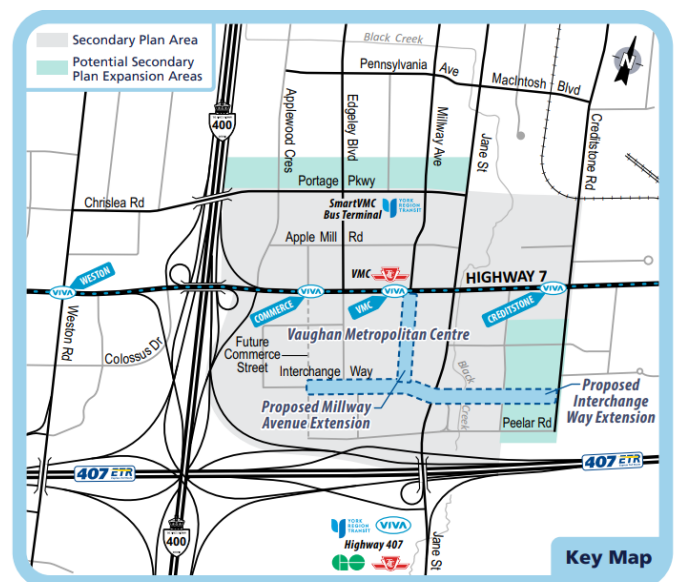

Get involved

Attend a Public Information Centre (meeting) to learn more about the design options for the Interchange Way and Millway Avenue extensions, and speak to the project team.

Details:

- **Date:** Tuesday, Dec. 5
- **Time:** Drop in any time from 5 p.m. to 7 p.m.
- **Location:** Vaughan Studio & Event Space located at 200 Apple Mill Rd., main floor

Can't attend in person? No problem! Material from the meeting will be available online, from Monday, Dec. 4 until Wednesday, Jan. 31. Feedback can be submitted via email at vmctmp@wsp.com or online at vaughan.ca/VMCTMP.
