

# STREAMLINE DEVELOPMENT APPROVAL FUND (SDAF) FINAL REPORT

OCTOBER 31, 2023

## Streamline Development Approval Fund (SDAF) Overview

In January 2022, Premier Doug Ford announced the Streamline Development Approval Fund (hereafter SDAF) which is a \$49 million investment from the Province of Ontario to help unlock housing supply by streamlining, digitizing, and modernizing current municipal approaches to managing and approving applications for residential developments.

In addition to implementing municipal efficiencies to accelerate housing development, the approved funds were also utilized to hire temporary staff to eliminate existing backlogs related to development approvals in the planning and development engineering departments. The City's funding approval was \$1,000,000 with the expectation that all SDAF projects will be completed by October 31, 2023, and can meet one or more of the criteria below.

### SDAF Eligible Project Criteria

The funding is for the City (as the Recipient) to implement projects that streamline the development approval process or support a diversity internship program in connection with the development approvals process, such as:

- 1. Procuring consulting or fee-for-service resources to do one or more of the following:
  - a) Identify and assist the Recipient to implement more efficient processes for the Recipient's development approvals.
  - b) Prepare draft changes to the Recipient's zoning by-laws and explore opportunities to accommodate new housing development as-of-right.
  - c) Implement or enhance implementation of a Community Planning Permits system with a housing component.
  - d) Review council decision-making processes related to development approvals and make recommendations for streamlining those processes, including delegating certain planning decisions to the Recipient's staff were considered appropriate.
  - e) Develop draft Community Improvement Plans that include housing incentives; and
  - f) Undertake studies to support new housing types.
- 2. Implementing e-permitting systems or online "Manage My Application" systems that provide for online status checking, interaction between the applicant and planners, fee payments, and ability to start additional permits and view agency comments.

# SDAF Eligible Project Criteria Con't

- 3. Implementing systems that enable the use of online application forms, which allow for the submission of supporting documents, drawings, and studies as well as standardizes forms, drawings, studies and data submissions.
- 4. Developing online application guides to help applicants select a location, identify development type, and follow a step-by-step guide to determine application submission requirements.
- 5. Implementing online booking and web meetings systems for pre-consultation and planning meetings.
- 6. Purchasing data/application management/workflow software, digital drawing software, or 3D tools to assist with design and visualization of development applications.
- 7. Purchasing software or hardware to improve the Recipient's efficiency in handling payments related to development approvals, such as new hardware or software to handle online payments or credit card payments.
- 8. Standardizing terminology, application processes, and data requirements as well as developing terms of reference to improve the customer experience and position partners for simpler data sharing.
- 9. Hiring temporary staff to deal with backlogs related to development approvals, including inspectors and Committee of Adjustment clerks.
- 10. Implement diversity internship programs to support diversification of planning or building departments including internships for qualified students or new graduates with a focus on people with disabilities, Indigenous, Black, and racialized individuals, and people from diverse ethnic and cultural origins, sexual orientations, and gender identities and expressions; and
- 11. Other initiatives to streamline the Recipient's development approval processes, with the written approval of the province.

## SDAF Eligible Project, Status and Outcomes

Table 1 (Attachment 1) identifies the projects and resourcing requirements that meet the eligibility requirements of the SDAF to an upset limit of \$1,000,000, which have been confirmed with Provincial staff, detailed information, their outcomes and statuses.

### **SDAF Funds Status**

As of October 31, 2023, the City has made use of the entire allocated funding. Comprehensive financial details will be submitted to the province as per their designated reporting procedure on November 1, 2023.

#### **SDAF** Conclusion of Outcomes

The broader outcomes achieved included a leaner and more efficient development approvals process including streamlined process guidelines for the public and staff, maximized return on investment with the AMANDA system online application portal, improvement in GIS Data management, improved development data to make more informed decisions and recommendations, and improved efficiency in processing of higher quality complete development applications. Together these initiatives helped Development Staff in improving processing times for residential planning applications, ultimately bringing on stream approvals in a timelier manner to assist with coordination efforts to increase the supply of homes across the province.

#### STREAMLINE DEVELOPMENT APROVAL FUND TABLE 1 - PROJECTS, STATUS AND OUTCOMES

Item No.	Item/Project Checklist	Status	Department	Outcomes				
Purchas	Purchasing data/application management/workflow software, digital drawing software, or 3D tools to assist with design and visualization of development applications							
11	Blue Beam Revu (SolidCAD): 70 Licenses and 1 year maintenance and training for Development Planning (including Urban Design and Cultural Heritage) and Policy Planning an Special Programs (including VMC and Environmental Sustainability). 3 additional licenses and maintenance required for Parks Infrastructure Planning and Development Dept. staff	Complete	Development Planning	This software enabled staff to have consistency and reduced timing in the review and commenting process of a Development Application.				
12	Development 3D Visualization Analyst - BIM 3D Modeling for Development Applications including hardware and software - Development Planning Department and Policy Planning and Special Projects Dept.	Ongoing	Development Planning	This Staff member worked with the specialized software and datasets from Development Applications. This Staff assisted in the creation of 2D and 3D data for an overall system implementation across all Departments within the Planning and Growth Management Portfolio. This improved the data diversification, data accessibility, data integratior and support Development Planning Staff during the development planning review process.				
Purchas	Purchasing software or hardware to improve the handling of payments related to development approvals, such as new hardware or software to handle online payments or credit card payments							
	Not Applicable							
Standard	Standardizing terminology, application processes, and data requirements as well as developing terms of reference to improve the customer experience and position partners for simpler data sharing							
13	Contract GIS Analyst - Retrieval of data for Site Plan approval and Building Permits - Link data between PlanIT and AMANADA data with GIS systems and review and digitize Development Applications submission data and harmonizing municipal civic address database with YR address database and other GIS Development Planning data required - Development Planning Department	Ongoing	Dev. Planning and Building Standards	This Staff and consultant worked with City IT Systems Specialists and Planning Portfolio Staff to integrate our three development application core systems (AMANDA, PlanIT and GIS) data to achieve improved data reporting and process connectivity between systems and development planning processes within the Planning and Growth Management Portfolio.				
14	System installation, training and analysis (Consultant = Consortech) to automate data reports between PlanIT and AMANDA - Development Planning Department	Complete	Dev. Planning and Building Standards					
Hiring temporary staff to deal with backlogs related to development approvals, including inspectors and Committee of Adjustment clerks								
15	Planner Position - Yonge and Steeles Program - Policy Planning and Special Programs Department (contract)	Complete	Policy Planning and Special Programs	Additional Staff assisted Development Planning and Policy and Special Programs Departments with backlog in review and processing of Development Applications and projects, improved PAC timelines and Committee o Adjustment response timelines.				
16	Planner 1 Position - Development Planning Department (contract)	Complete	Development Planning					
17	Summer/Student Interns - Development Planning Department	Ongoing	Development Planning					
18	Planning Technician - Development Planning Department (contract)	Complete	Development Planning					
	Implement diversity internship programs to support diversification of planning or building departments including internships for qualified students or new graduates with a focus on people with disabilities, Indigenous, Black, and racialized individuals, and people from diverse ethnic and cultural origins, sexual orientations, and gender identities and expressions							
	Not Applicable							
Other ini	Other initiatives to streamline development approval processes, previously agreed to with the Ministry
