

Disruption Alert

New Oil and Grit Separator units coming to Ward 2

The City of Vaughan will be installing new Oil and Grit Separator units within the storm sewer system on select streets in Ward 2. The units are similar to storm maintenance holes and are a key part of the City’s stormwater infrastructure.

Construction is scheduled to begin on Monday, April 22, and run according to the following schedule:

- **Crofters Road, between 303 Crofters Rd. and 353 Crofters Rd.:** Monday, April 22 to Friday, April 26
- **Crofters Road, between Woburn Drive and Delia Place:** Saturday, April 27 to Sunday, April 28

The planned work will improve stormwater runoff quality prior to discharging into the downstream creeks or sewer systems. Road closures will be in place overnight during the scheduled construction dates to safely complete the work. Impacted residents will receive a mailed notice with further details. Parking restrictions in the area will be lifted to allow residents to park on the streets overnight, as driveways will be impacted during the work.

For more information, please contact Service Vaughan at 905-832-2281 or service@vaughan.ca. After hours, please call the dispatch office at 905-832-2281 and press 0.
