

Disruption Alert

UPDATE: Lane reductions on McNaughton Road East

Work is progressing on the installation of watermain, storm and sanitary sewers along McNaughton Road East.

Phase 1 construction, which required closing the northbound lanes of McNaughton Road East, from Major Mackenzie Drive West to just north of Eagle Rock Way, was scheduled to be put on hold at the end of 2025 and resume in spring 2026. The intent was to re-open the lanes through the winter. However, due to inclement weather, the lanes remained closed so work could continue and the project schedule could be maintained.

To safely complete the work, the northbound lanes are scheduled to remain closed until the end of March. Construction will then move to the southbound lanes of McNaughton Road East, with closures in place until the end of June.

Work will continue to take place on weekdays, from 7 a.m. to 7 p.m. Detour signs are in place to guide traffic.

Lane reductions
