1 Introduction: The New District Park

1.1 The Project & Project Stage

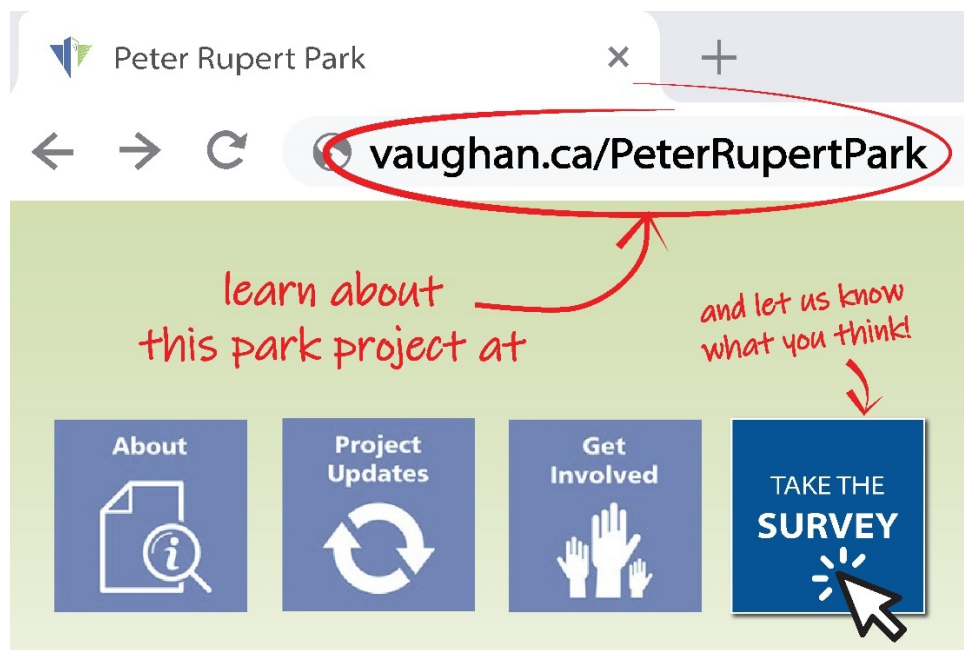

The City of Vaughan is developing a new district park, approximately 7.7 hectares in size, located on the west side of Peter Rupert Avenue, just north of Rutherford Road. The park rests within a study area of approximately 28.5 hectares (70 acres) of greenspace, including parkland, open space trails, stormwater ponds and the Cook Woodlot with connections to the Rutherford GO station. The park site itself is defined by the CN Railway (to the west), Peter Rupert Avenue (to the east), Cook Woodlot (to the north) and the stormwater management pond (to the south). The new park is situated adjacent to a proposed residential subdivision (to the east). This community park will serve the local neighbourhood and the larger community within a 2.5-kilometre radius, primarily addressing the needs of the Block 18 and Block 17 communities within Ward 4. The Block 18 and Block 17 communities encompass the area bounded by Major Mackenzie Drive to the north, Dufferin Street to the east, Langstaff Road to the south and Keele Street to the east. The new park will be an integral part of a larger network of trails, parks and open space and is ideally situated between the Maple and Rutherford GO stations. The intent of the community park is to become a destination for residents and visitors to gather, play and explore. This park project reflects the City’s commitment to fostering active, safe and diverse communities that are environmentally sustainable and inclusive as outlined in the 2018 - 2022 Service Excellence Strategic Plan and the 2018 Active Transportation Plan.

This park project is currently at Phase 2: Park Visioning. As part of this stage, City Staff aims to develop a preliminary, high-level vision for the park that may include a general park theme and/or list of facilities to be integrated into the park. Community input has been gathered through an online survey and public open house. The results from the Phase 2 community consultation initiatives shall inform park program development in Phase 3.

1.2 Community Consultation: Online Survey & Public Open House

The Parks Planning Department coordinated an [online survey](#), hosted through Survey Monkey, consisting of eight (8) questions regarding resident ideas and preferences for the new district park, and survey participant basic information (contact and demographics). The survey was advertised through social media (Facebook), the City's official website, and at the public open house for the new district park project held on Thursday Dec. 5, 2019. The survey was open to the public from Nov. 7, 2019 until Feb. 1, 2020 (approximately 3 months).

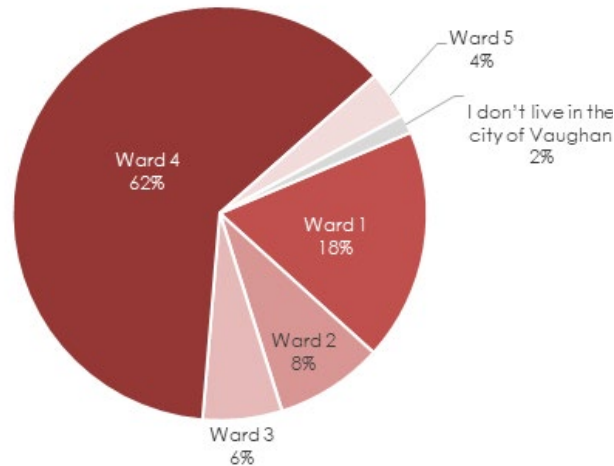

In addition to the survey, a public open house on Thursday Dec. 5, 2019 at Vaughan City Hall. The open house was an opportunity for Vaughan residents to learn about City of Vaughan park and trail initiatives, the new park project, and to share ideas for the new district park with City staff. The open house was also an opportunity for City Staff members to meet the residents, learn how they recreate within their existing community, and to gain insights of the recreational needs and preferences of the community.

2 Community Consultation: Online Survey Summary

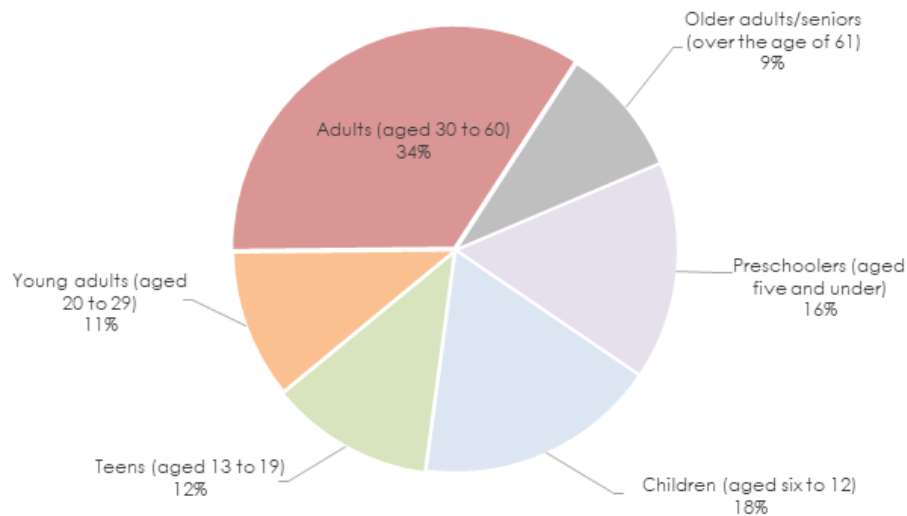

2.1 The Survey Participants (Questions 7 & 8)

Ward Location of Survey Participants

Approximately **598 persons** participated on the online survey. **62% of participants** reported that reside in **Ward 4** and **18% in Ward 1**.

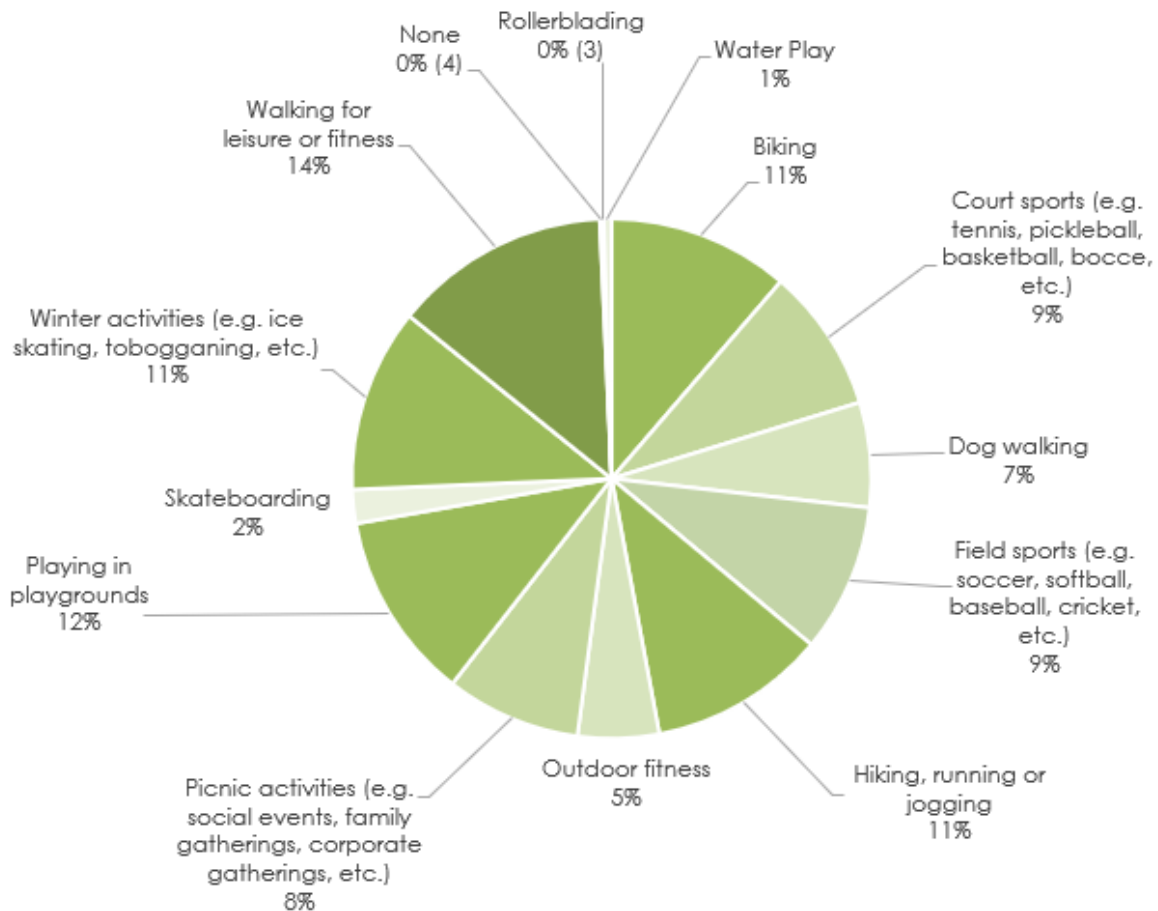

Age Distribution of Survey Participants Household Members

To better understand the community demographics, survey participants were asked to share the number of members within their households, including general age. Based on the completed responses, the community demographics may compose of **34% adults (aged 30 to 60)**, **children (aged 6 to 12)**, and **preschoolers (aged five and under)**. It should be noted that the percentages for teens, young adults, and seniors were all within the range of 12 to 9%.

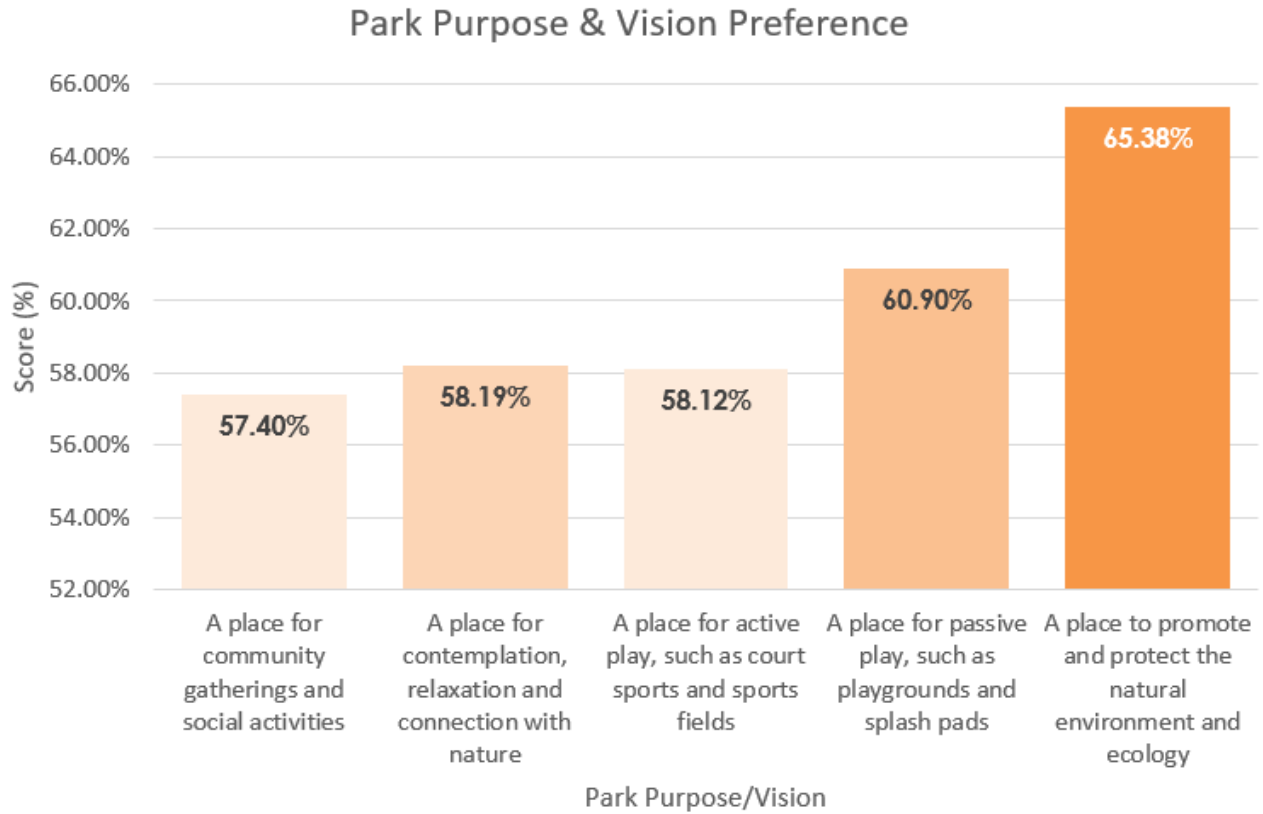

2.2 Question 1: Outdoor Activity Participation (Within the past 12 Months)

Outdoor Activities Participated in within the Past 12 Months

Survey participants were asked the following: “Which of the following outdoor activities have you and those living in your household participated in within the past 12 months in the City of Vaughan? Please select all that apply.”. 14% participated in **walking for leisure or fitness**, 12% for **playing in playgrounds**, 11% for **biking**, **hiking**, **running or jogging**, and for **winter activities**. Court sports (9%), field sports (9%), and picnic activities (8%) were also popular responses.

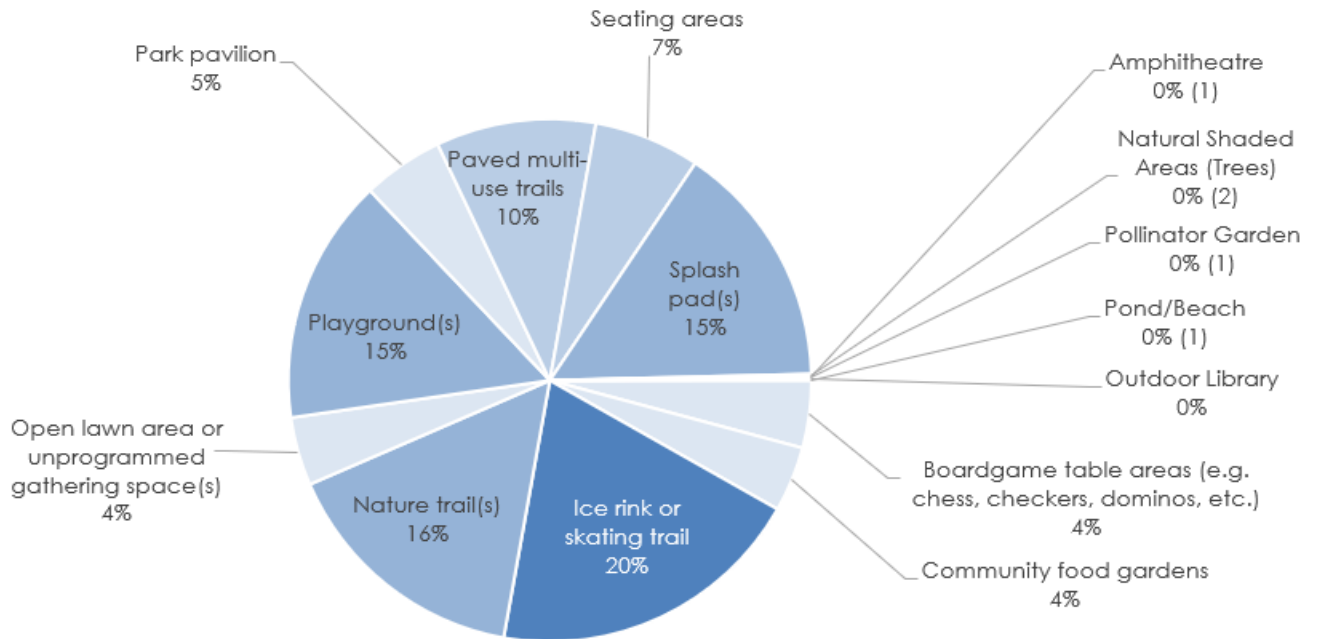

2.3 Question 2: Park Purpose and Vision Preference

Survey participants were asked the following: *“Parks provide several benefits to the community. How important are the following benefits to you? Please rank them in order from one to five, with five being the highest priority:”*. The most popular park purpose and vision was **“A place to promote and protect the natural environment and ecology”**. The second most popular vision was **“a place for passive play, such as playgrounds and splash pads”**, and third **“a place of contemplation, relaxation and connection with nature”**.

2.4 Question 3: Park Facility Ideas: Passive/Contemplative

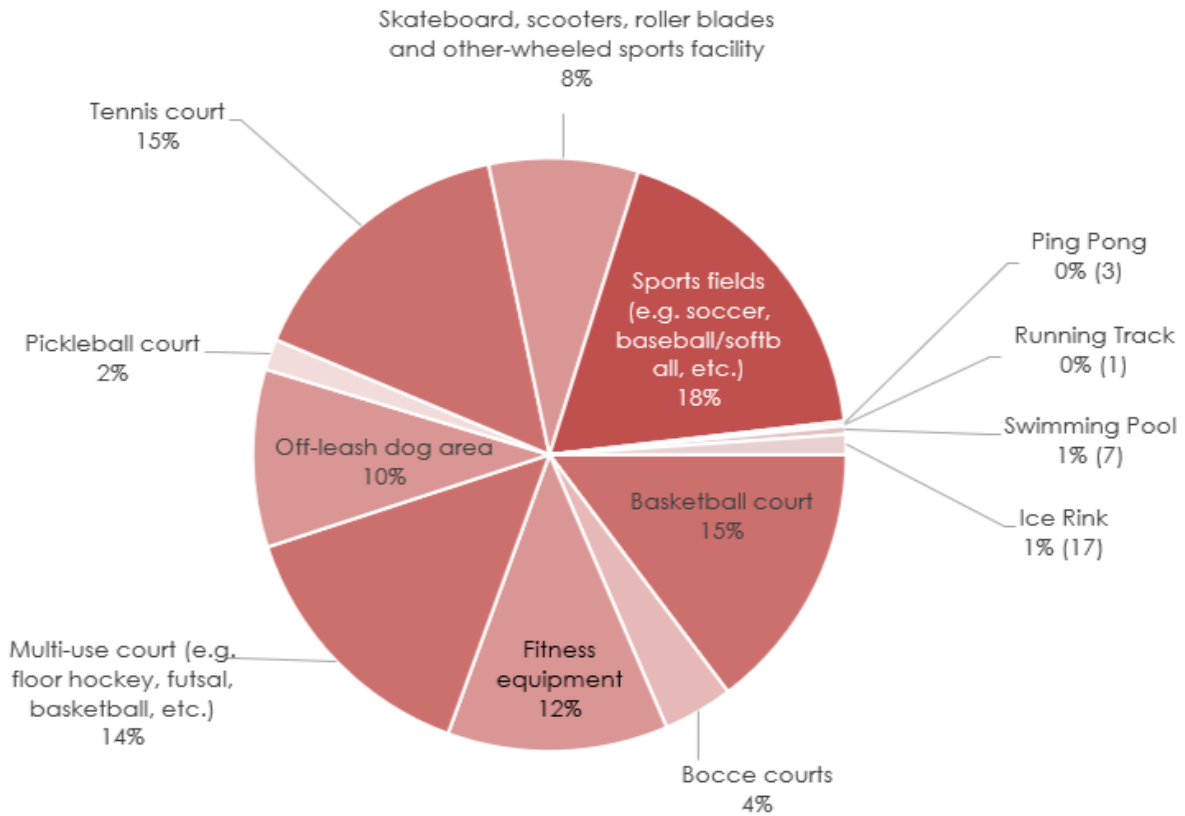

Park Facility Ideas & Preferences for Passive & Contemplative Spaces

Survey participants were asked the following: "Which of the following "passive" or "contemplative" spaces would you like to see in a new community park? Please choose three.". The most popular park facility for a passive/contemplative space were: **Ice Rink or Skating Trail** (20%), **Nature Trails** (16%), and **Playgrounds** and **Splash Pads** (both 15%).

2.5 Question 4: Park Facility Ideas: Active Play

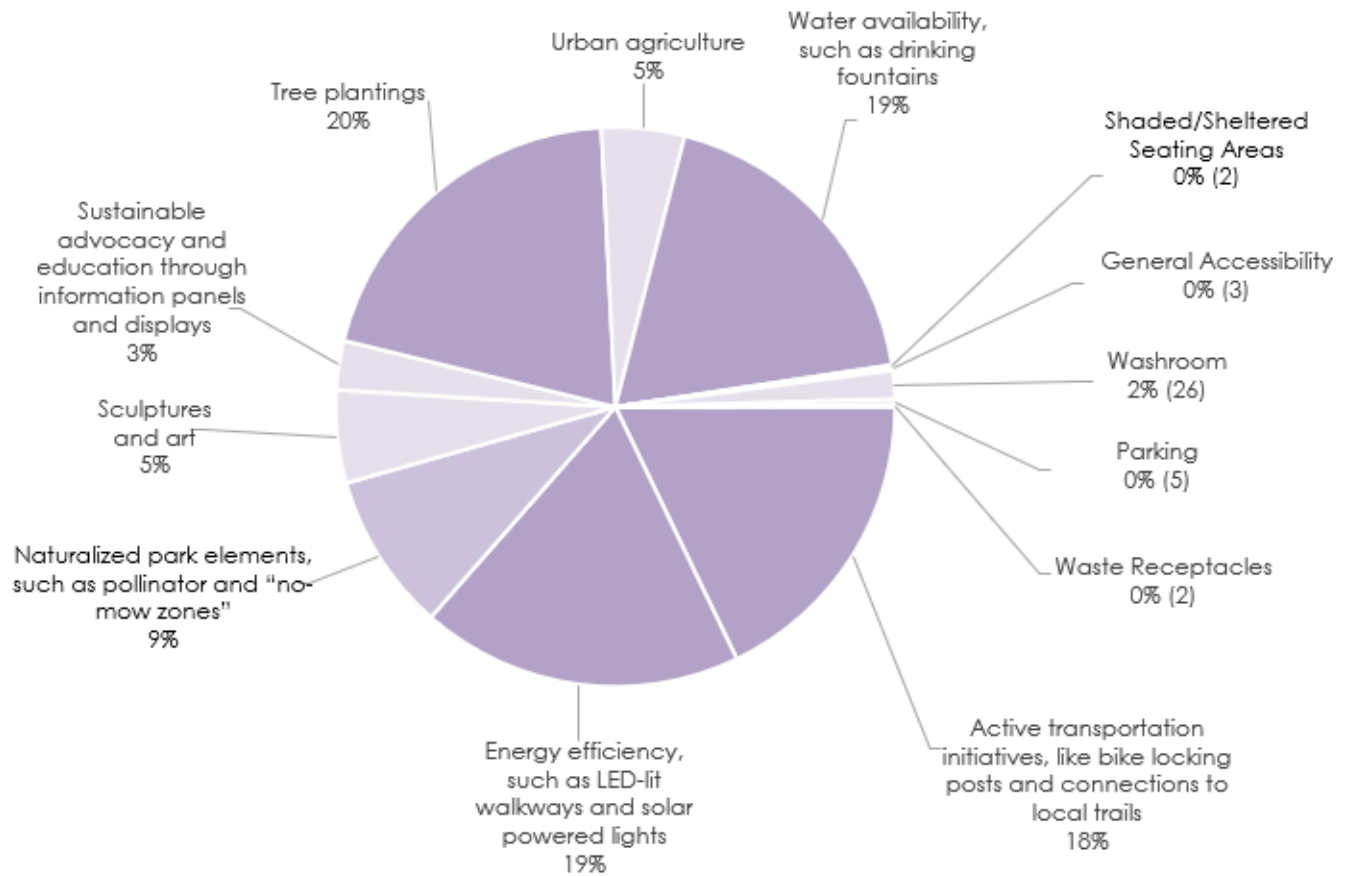

Park Facility Ideas & Preferences for Active-Play Facilities

Survey participants were asked the following: “Which of the following active-play facilities would you like to see in a new community park? Please choose three.”. The most popular active-play facilities were **Sports fields (18%)**, **Basketball Court and Tennis Court (both 15%)** and **Multi-use Court (14%)**.

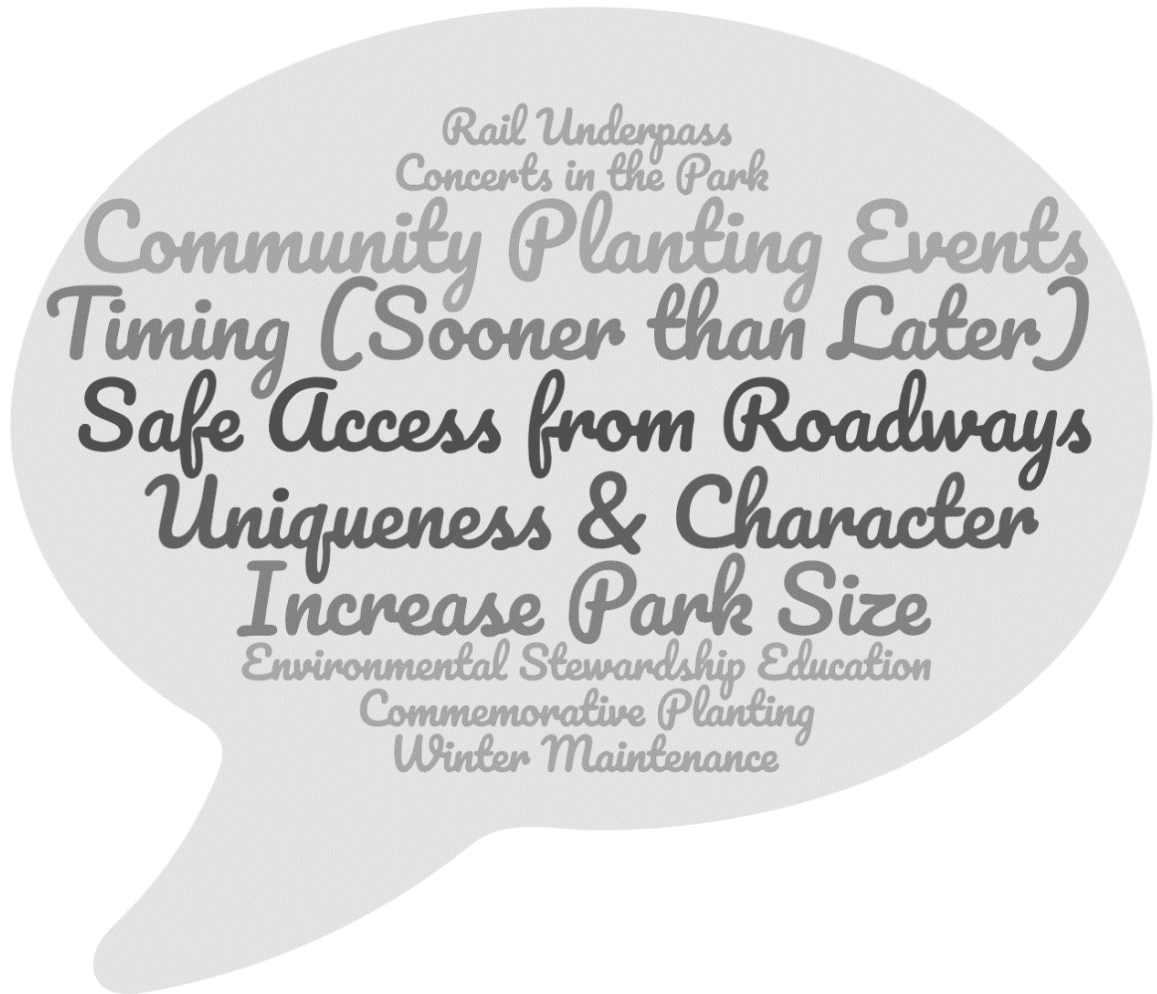

2.6 Question 5: Park Features: Other

Park Facility Ideas & Preferences: Other Features

Survey participants were asked the following: "What features are important for the City of Vaughan to consider when planning a new community park? Please choose three.". The most popular other park features were: **Tree Plantings (20%)**, **Park Lighting** and **Water Fountains (both 19%)** and **Active Transportation Infrastructure (18%)**.

2.7 Question 6: Other Comments (Excluding Park Facilities)

Survey participants were asked the following: *“Is there anything else you think the City of Vaughan should consider when designing this new park space? Or, do you have any additional comments to add?”*. Many participants iterated programming preferences. Aside from programming requests, previously mentioned in questions 3, 4, and 5, the following topics were mentioned: Provide **safe access from roadways** (Rutherford and Peter Rupert in particular), Park to be designed with **uniqueness and character**, and for the park to be **constructed in a timely manner**.

3 Community Consultation: Open House Summary

3.1 Format & Stations Overview

The public open house was an informal drop-in format. Parks Planning Staff provided 6 (six) main information and interactive stations, and 3 (three) additional information areas including the following:

Station	Description
Station 1: Welcome	Residents were greeted and kindly asked to sign in. Copies of the event invitation and park project survey were made readily available to those interested.
Station 2: The Project	Parks Planning Staff provided a brief overview of the open house, the park project, and the park project community/area context. Residents were asked to share their house location by placing a sticker on a map to see the relationship between their house, the new district park, and the existing recreational amenities in the community.
Station 3: Parks & Facilities	Parks Planning staff provided information regarding the City's Active Together Master Plan (2018) and City-wide park provision levels. Residents were asked to identify their preferred park facilities that are currently offered by the City and identified in the ATMP.
Station 4: Your Park Vision	Residents provided with the opportunity to share their park vision with City Staff. Three interactive boards were utilized at this station to gather resident feedback. The first board provided residents with an assortment of images of park features, of which residents were asked to select 3 (three) of their favourite pictures. The second board asked residents what their main mode of transportation to and from the new park would be. The third board provided residents with the opportunity to share any idea they had for the new district park (wish list) by writing on a sticky note and adding it to the board.
Station 5: Design Your Park	Residents were provided with a map of the existing conditions of the new district park site (1:2000 scale). Cut-outs of park facilities were provided to allow residents to design their own district park. Parks Planning staff documented the park design ideas generated by residents.
Station 6: Create Your Park	Residents were provided with a blank canvas of the park area and asked to create a collage of their dream park. Residents were offered coloured pencils, markers, and an assortment of park facilities photos to create their collages. This activity was directed towards children. Parks Planning staff collected the completed collages and posted them on the wall for display.
Metrolinx: Rutherford GO Project	Metrolinx was invited this open house to provide additional information regarding the on-going Rutherford GO Station project and related pedestrian bridge that is currently under construction and will provide a connection to and from the Rutherford GO Station and the new district park.
Vaughan Trails	The new district park is located along the City's Vaughan Super Trail. Parks Planning staff provided information about the Vaughan Super Trail project.
Vaughan Local Off-Leash Dog Area	The Vaughan community has been very vocal regarding the need and desire for local off-leash dog areas. Parks Planning staff provided information about the Local Off-Leash Dog Area project and residents were able to provide location recommendations by placing a sticker on a city-wide map.

3.2 Open House Summary

a) Attendance

NEW PARK COMING!

Attend a public open house and
share your vision for Vaughan's new community park.

The City of Vaughan invites you to attend a public open house for the development of a new community park, planned for the northwest corner of Peter Rupert Avenue and Rutherford Road.

The public open house will be an informal drop-in to:

- learn about the new park project
- provide feedback on the proposed amenities
- share your own ideas for the new community space with City staff

Date: Thursday December 5, 2019

Time: 7:00 to 8:30 pm

Format: Open House

Location: Vaughan City Hall - Multi Purpose Room
2141 Major Mackenzie Drive

What does your ideal park space look like? What features, functions and amenities would make this place special? Complete an online survey to share your ideas.

Visit vaughan.ca/PeterRupertPark to participate in the survey.

Your input matters! If you are unable to attend the open house, please participate in the survey.

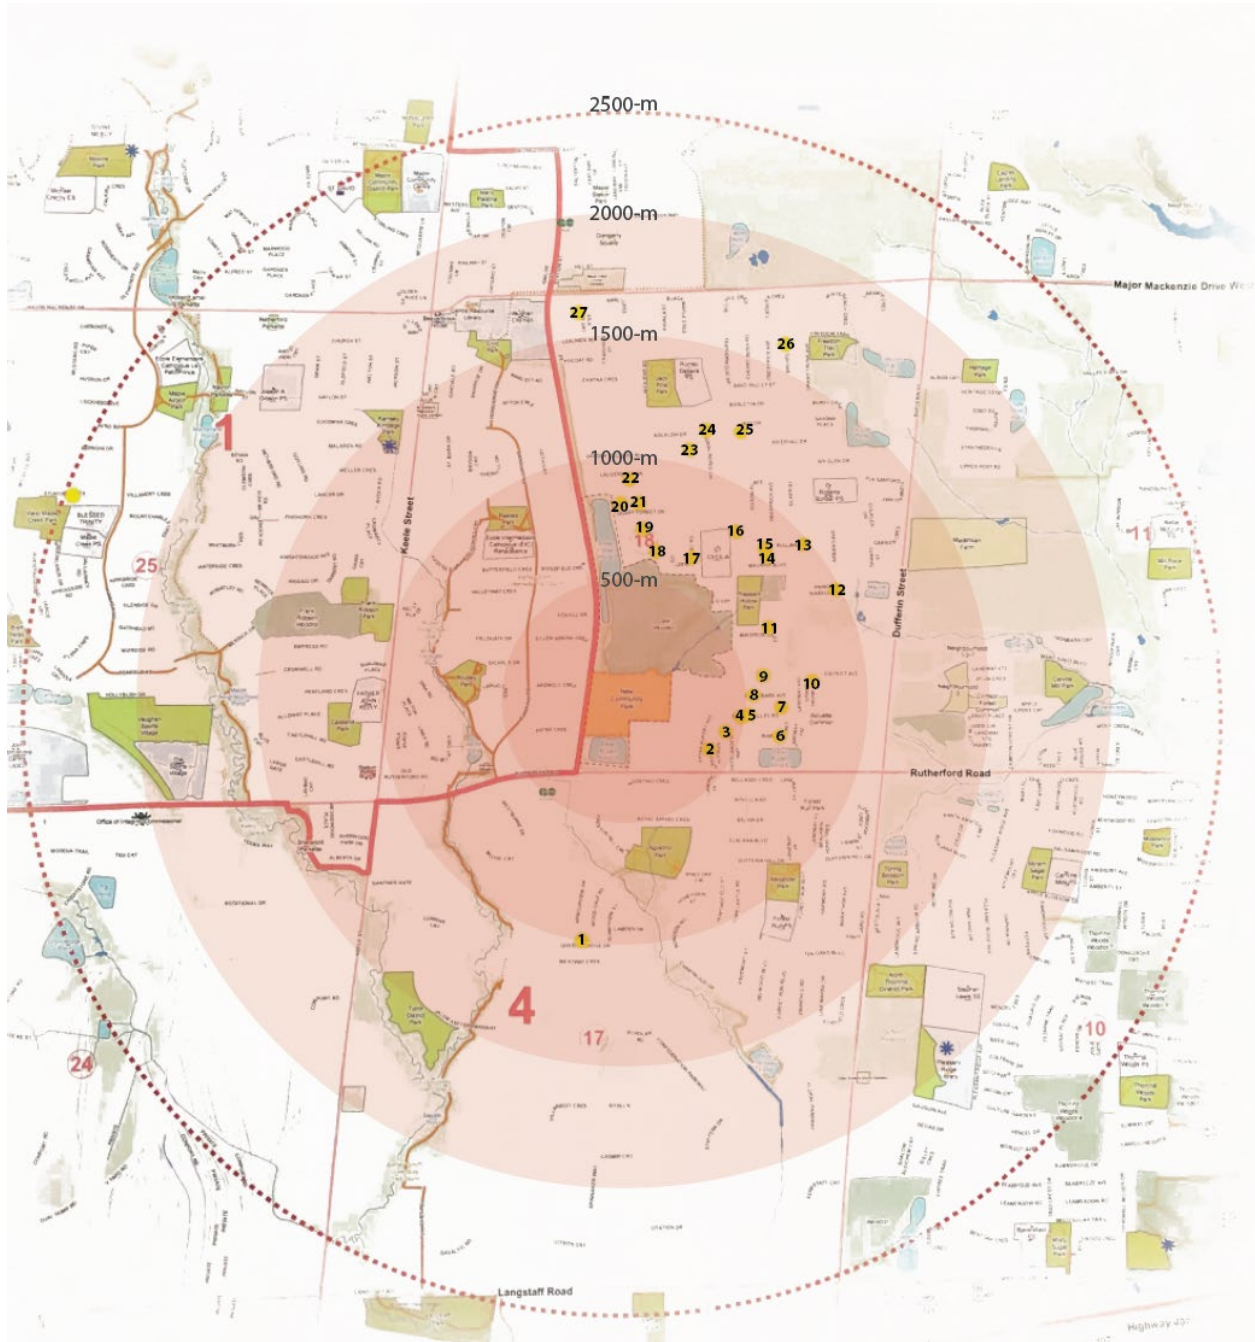

If you have questions or require further information about this project or the open house, please visit vaughan.ca/PeterRupertPark or contact:

Michael Habib
 Interim Manager, Parks and Open Space Planning

 Parks Planning (Tel. 905-303-2069, Fax: 905-303-2068)

The New District park project and open house was advertised through social media (Facebook and Twitter), the City of Vaughan Official Website, road signage, and over 3000 mail invitations sent to residents within an approximate 500-m walking distance of the new park and greenspace. **42 households** signed in at the open house welcome table and an **approximate number of 60 persons** were in attendance, including children. Parks Planning Staff inquired how residents knew about the new district park Open house and the following were the most popular answers:

- 1) Received a mail invitation;
- 2) Saw the road signs; and
- 3) Word of mouth (for example, parents and school staff from St. Cecelia Catholic School).

81% of households that attended the open house were located within 1000-m (an approximate 10-minute walk) of the new district park.

b) Mode of Transportation to the New District park

I Will Get To The New Community Park By...

Place your 1 GREEN sticker

Foot

Transit

Bicycle

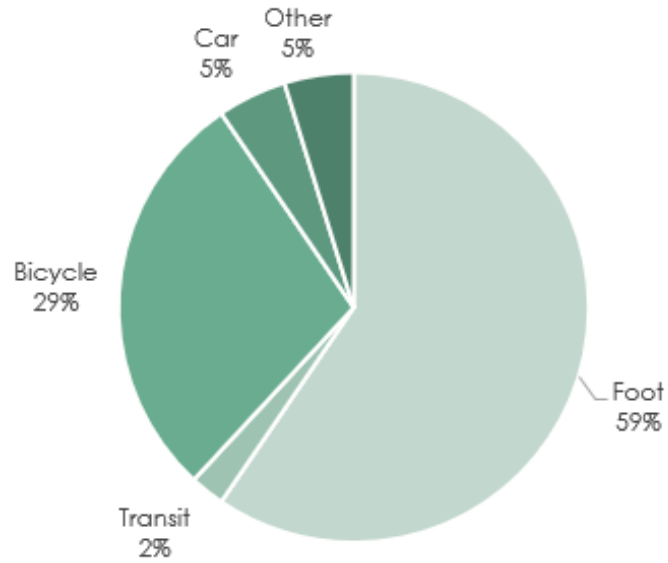

Car

Other

Use a **STICKY NOTE** to let us know what **OTHER** mode of transportation you plan on using!

Mode of Transportation to the New Community Park

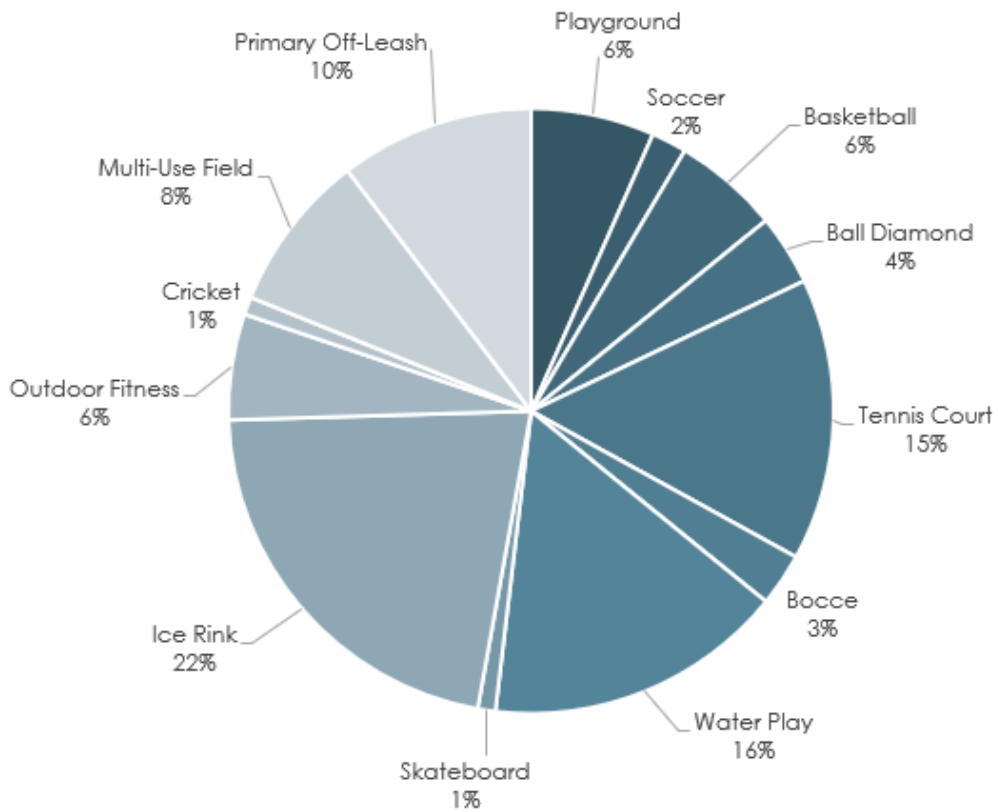

Residents were asked what their most likely mode of transportation would be to the new district park. The responses indicated that the most popular mode of transportation is by **foot (59%)** and **bicycling (29%)**.

c) General Facility Preferences (Related to the 2018 Active Together Master Plan)

ATMP Park Facility Preferences

Residents were asked what are their “favourite” or preferred facilities offered by the City, as mentioned in the Active Together Master Plan (ATMP) 2018. **Ice rink (22%), water play (16%), and tennis courts (15%)** were the most popular facilities amongst the open house attendees.

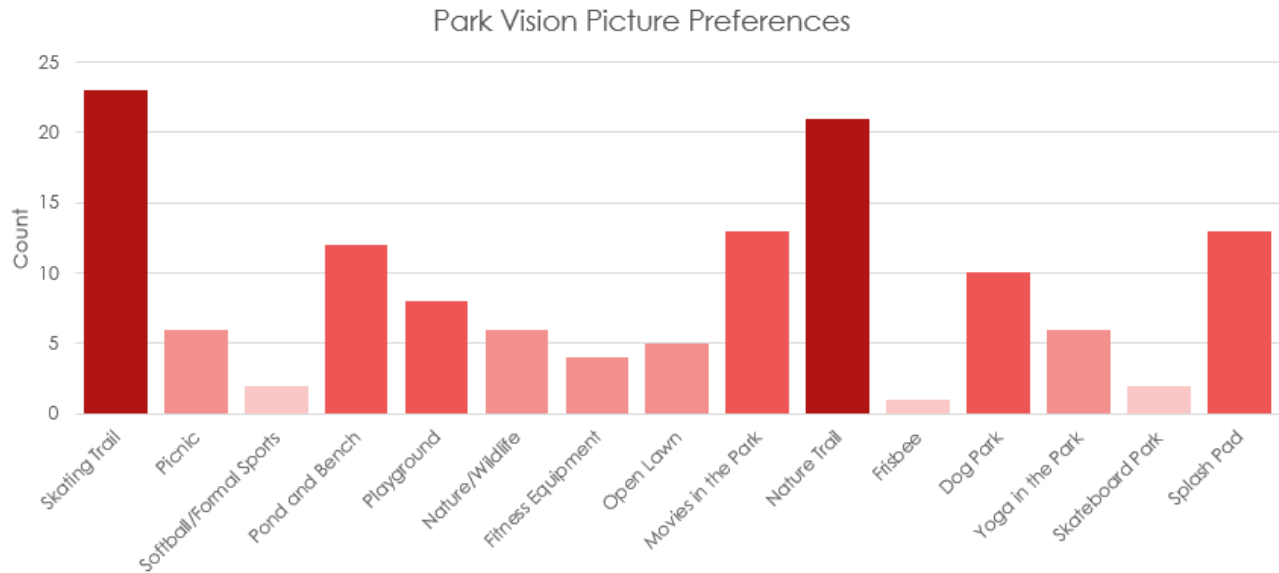

d) Park Vision

I Imagine The New Community Park To Be Like...

Place your **3 RED** stickers on your favourite pictures!

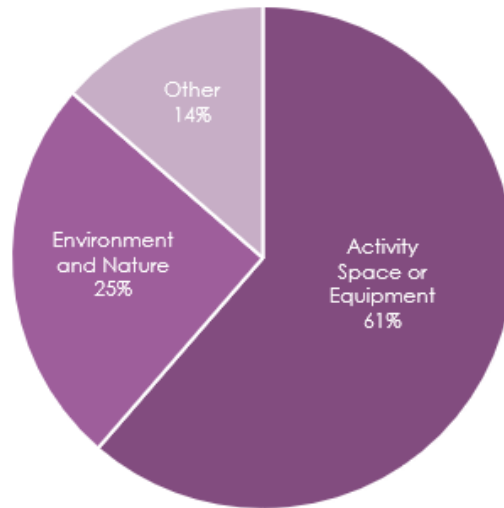

The image displays a 5x3 grid of 15 photographs illustrating various park activities and features. Each photograph has several small red circular stickers placed on it, indicating areas of interest or preference. The activities shown include: children playing in a sandpit, people sitting on a lawn, a baseball game, autumn trees, a colorful playground, a hand holding a bird, people at a playground, a person lying on a lawn, a movie screening, a hiking trail, people playing frisbee, a dog in a field, a group doing yoga, a skateboarder, and people playing on a colorful playground.

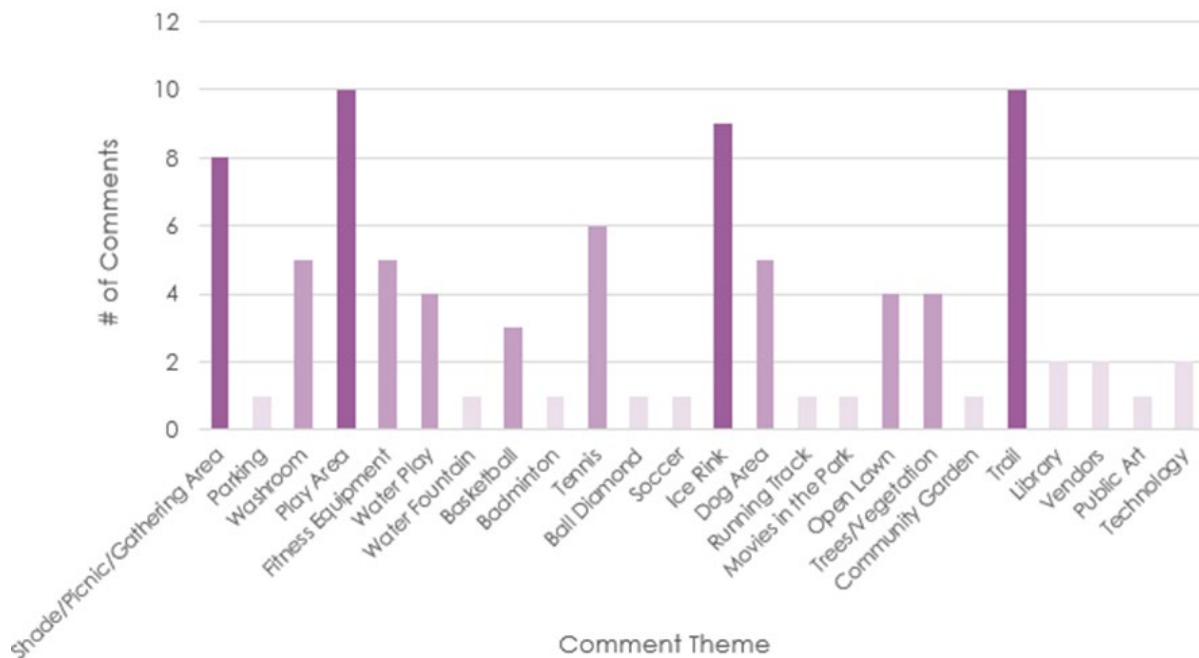

Residents were asked to identify three (3) images that best represent their vision for the new district park. The images containing the **skating trail (17%)**, **natural trail (16%)**, **movie in the park (10%)**, and **splash pad/water play (10%)** were the most popular amongst open house attendees.

Comments Per Category

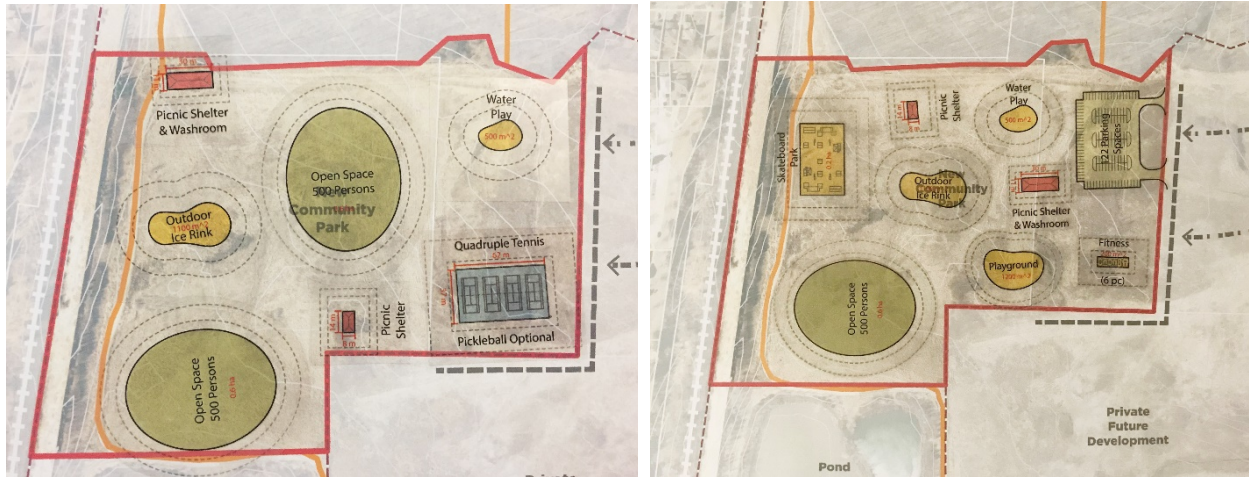

Residents were asked to write down anything they would like to have in the park. Three general categories were provided to assist the brainstorming processing, such as: Activity Space or Equipment, Environment & Nature, and Other Enhancements (Aesthetics, Functionality, Information). **61% of the comments provided were related to activity space and equipment.**

Popular Comment Themes

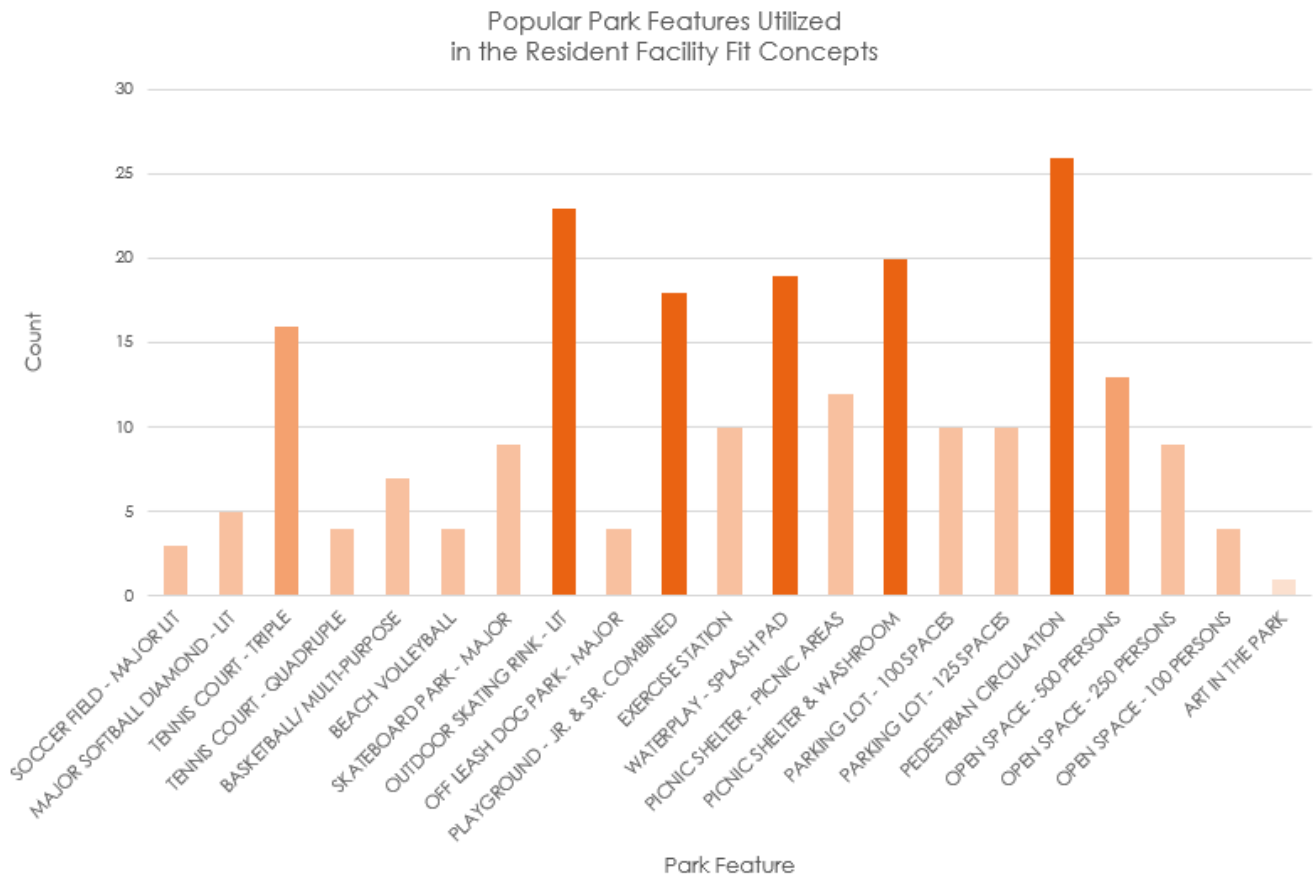

Amongst the comments, the most popular themes related to **play areas (11%), trails (11%), ice rinks (10%), and shade/picnic/gathering areas (9%).**

f) Design Your Park: Facility Fit Activity

Example Facility Fit Layouts by Open House Participants

27 different designs were recorded at Station 5’s facility fit activity. Residents generally created only one design and tested the one concept. Out of the 27 concepts, the most popular park features utilized were **pedestrian circulation & trails (11%)**, **outdoor skating rink (10%)**, **picnic shelters & washrooms (8%)**, **play areas (8%)**, **water play (8%)**, **open space (8%)**, and **tennis courts (7%)**.

The following park features were included in the park designs submitted by the open house attendees:

Popular Park Features Identified by Adults

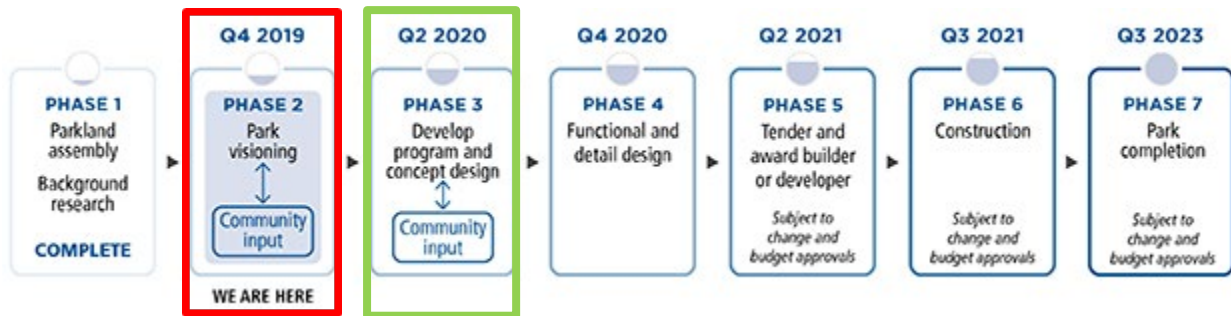

Popular Park Features Identified by Children

4 Common Community Consultation Themes

The following common themes were derived from the feedback received from the community consultation initiatives (the online survey and public open house event):

Category	Common Themes
Location of Participants:	<ul style="list-style-type: none"> ▪ Majority of participants are residents of Ward 4
General Park Vision:	<ul style="list-style-type: none"> ▪ An Ecological Gem/Urban Oasis ▪ Themes related to the natural environment and passive/leisure use were prominent.
Most Desired Park Facilities (Passive):	<ul style="list-style-type: none"> ▪ (Nature) Trails
Most Desired Facilities (Active):	<ul style="list-style-type: none"> ▪ Playgrounds ▪ Splash Pad ▪ Ice Skating Rink
Most Desired Park Features (Other):	<ul style="list-style-type: none"> ▪ Picnic & Gathering Areas ▪ Tree Planting/Naturalized Areas ▪ Washrooms ▪ Lighting
Noted Vocal User Groups:	<ul style="list-style-type: none"> ▪ Baseball/Softball ▪ Off-Leash Dog Area
Other Comments/Concerns:	<ul style="list-style-type: none"> ▪ Safe access from roadways to the park ▪ Uniqueness & Character ▪ Environment Stewardship and Education Opportunities

5 Next Steps

Based on the findings of the Phase 2 community consultation initiatives, the online survey and public open house event, a preliminary park program shall be developed by staff. As part of Phase 3, the City of Vaughan shall seek proposals from qualified consultant teams for the provision of consulting services for the design and implementation of the District Park. The selected consultant team shall review the preliminary park program requirements established by staff in Phase 2 and shall meet with City staff to discuss the park vision, proposed site features (including the location and compatibility of the proposed facilities/design elements) and shall create park multiple park concept plans to be presented to the public.

PARKS PLANNING PETER RUPERT DISTRICT PARK ONLINE QUESTIONNAIRE

INTRODUCTION PAGE

Share your vision for the brand-new Peter Rupert park project

The City of Vaughan is currently seeking input on a new proposed community park in the area of Peter Rupert Avenue and Rutherford Road. The project is in its preliminary visioning phase, with detailed planning for the park to begin in early 2020.

This survey should take approximately **six minutes** to complete and the information provided will be used by the City to help shape the vision for the park, its facilities and amenities.

For more information, please visit vaughan.ca/PeterRupertPark.

Notice of Collection

Personal information in this form is collected under the authority of the Municipal Act, 2001 and will be used for the purpose of collecting feedback from citizens and stakeholders regarding a new proposed community park in the area of Peter Rupert Avenue and Rutherford Road. Questions about this collection can be directed to Michael Habib, Interim Manager, Parks and Open Space Planning, Parks Delivery department, at 905-303-2069, ext. 8092 or michael.habib@vaughan.ca.

BEGIN SURVEY

1. Which of the following outdoor activities have you and those living in your household participated in within the past 12 months in the City of Vaughan? Please select all that apply. [multiple choice, multiple answer, answer required]

- Biking
- Court sports (e.g. tennis, pickleball, basketball, bocce, etc.)
- Dog walking
- Field sports (e.g. soccer, softball, baseball, cricket, etc.)
- Hiking, running or jogging
- Outdoor fitness
- Picnic activities (e.g. social events, family gatherings, corporate gatherings, etc.)
- Playing in playgrounds

- Skateboarding
- Winter activities (e.g. ice skating, tobogganing, etc.)
- Walking for leisure or fitness
- Other (please specify): _____
- None

2. Parks provide several benefits to the community. How important are the following benefits to you? Please rank them in order from one to five, with five being the highest priority: [ranking question, answer required]

- A place for community gatherings and social activities
- A place for contemplation, relaxation and connection with nature
- A place for active play, such as court sports and sports fields
- A place for passive play, such as playgrounds and splash pads
- A place to promote and protect the natural environment and ecology

3. Which of the following would you like to see in a new community park? Please choose three. [multiple choice, exactly three, answer required]

- Boardgame table areas (e.g. chess, checkers, dominos, etc.)
- Community food gardens
- Ice rink or skating trail
- Nature trail(s)
- Open lawn area or unprogrammed gathering space(s)
- Playground(s)
- Park pavilion
- Paved multi-use trails
- Seating areas
- Splash pad(s)
- Other (please specify): _____

4. Which of the following would you like to see in a new community park? Please choose three. [multiple choice, exactly three, answer required]

- Basketball court
- Bocce courts
- Fitness equipment
- Multi-use court (e.g. floor hockey, futsal, basketball, etc.)
- Off-leash dog area

Pickleball court

Tennis court

Skateboard, scooters, roller blades and other-wheeled sports facility

Sports fields (e.g. soccer, baseball/softball, etc.)

Other (please specify): _____

5. What features are important for the City of Vaughan to consider when planning a new community park? Please choose three. [multiple choice, exactly three, answer required]

Active transportation initiatives, like bike locking posts and connections to local trails

Energy efficiency, such as LED-lit walkways and solar powered lights

Naturalized park elements, such as pollinator and “no-mow zones”

Sculptures and art

Sustainable advocacy and education through information panels and displays

Tree plantings

Urban agriculture

Water availability, such as drinking fountains

Other (please specify): _____

6. Is there anything else you think the City of Vaughan should consider when designing this new park space? Or, do you have any additional comments to add? [comment box, open ended, answer not required]

DEMOGRAPHICS

1. Which ward do you live in? ([Use this map](#) to identify your ward) [Multiple choice, single answer, answer required]

Ward 1

Ward 2

Ward 3

Ward 4

Ward 5

I don't live in the city of Vaughan

2. Including yourself, how many people within each age group live in your household? [multiple text boxes, answered required]

- Preschoolers (aged five and under)
- Children (aged six to 12)
- Teens (aged 13 to 19)
- Young adults (aged 20 to 29)
- Adults (aged 30 to 60)
- Older adults/seniors (over the age of 61)

3. Would you like to be contacted by the City of Vaughan about other future city-related engagement or consultation opportunities? [multiple choice, answered required]

- Yes [collect contact information]
- No [skip to thank-you page]

4. Please provide your contact information: [contact information, answer required]

- First name
- Last name
- Email address

THANK-YOU PAGE

Thank you for taking the time to complete this survey. Your feedback is important. For more information about this project, please visit vaughan.ca/PeterRupertPark.

Design Your Park!

Test Your Ideas

Park Design Tips & Considerations

LOOK OUTSIDE THE BOX
 What is outside of the park?
 Are there relationships between the park and its surroundings?

GIVE A LITTLE WIGGLE ROOM
 A little extra space can create a sense of place and safety.
 For example, try to provide a 20-m buffer between the roadway and any amenities within the park.

CREATE CONNECTIONS
 How will people reach the amenities in my park? Is there a flow?

TRANSFORM SPACE INTO PLACE
 Open space isn't empty space! How can we best use this space?
 Areas without a formal amenity can be used for free play, picnicking, a community planting project and more!

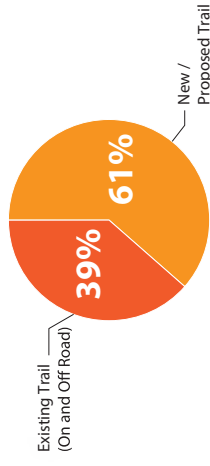

PLACING THE PIECES
 Where should I place the different park amenities?
 Are some amenities better together or facing a certain direction?
 For example, courts and fields are best oriented north-south to minimize the amount of direct sunlight in players' eyes.

A PLACE FOR WHO?
 Have a person or persons in mind when designing the park.
 Imagine their experience.
 What would make this park a special place in the community?
