Dear City Clerk and Commissioner of Planning (John MacKenzie) and Eugene Fera (Planner),

I just want to confirm that yesterday, I made a deputation to Council on the aforementioned planning application. I believe I was the first deputation. I did fill out the deputation form and submitted to through the Association. I did want to ensure that you have my correct spelling of my name and address. Also, my hand writing may not have been clear, so I thought this email would help.

Thanks to Eugene for providing me information about the preliminary planning report submitted to Council for the public hearing yesterday. I read it with interest.

I provide this confirmation, because if there is need to appeal this matter to the OMB, I wanted it recorded that I have been part of the planning process, so that I have appeal rights or party status as an OMB hearing.

Thank you for your understanding. I would appreciate a confirmation of this hearing and to receive further information (i.e. your final planning report) and notices of pending hearings.
