Unfortunately, I could not attend the above-referenced meeting, however, I would like to go on record as 100% opposing any high density construction proposed for the northeast area of the Dufferin & Centre Streets area. The main reason is that traffic is already a rush hour nightmare and my Street, King High Drive, would be extremely affected by any more increased traffic. I think the City of Vaughan should be very proud that a beautiful & quiet neighbourhood like mine exists in it's City and I don't want to believe that they will intentionally destroy my neighbourhood, but that is what will happen if anything other than town homes are built.
