

**COUNCIL OFFICE EXPENDITURES 2010-2014 AND PROPOSED AMENDMENT TO
THE COUNCIL DISCRETIONARY EXPENSE FORMULA**
(Referred)

The Council Expenditure and Code of Conduct Review Task Force, at its meeting of November 4, 2015, adopted the following recommendation, in part (Report No. 3):

- 1) That the following be approved in accordance with Communication C2 from the Chief Financial Officer and City Treasurer, dated October 28, 2015:
 1. That the item, Council Office Expenditures 2010-2014 and Proposed Amendment to the Council Discretionary Expense Formula, be referred to a future Task Force meeting;

Recommendation of the Chief Financial Officer and City Treasurer, dated November 4, 2015.

Recommendation

The Chief Financial Officer and City Treasurer recommends:

1. That a future report be brought to the Finance, Administration and Audit Committee to recommend that Option 1 be considered for the modification to the Discretionary Office Budget formula.

Contribution to Sustainability

Council is responsible for overall governance and policy making, which directly influences the financial and operational sustainability of the municipality. The allocation of expenditure budgets to individual Council offices supports Council in carrying out their responsibilities.

Economic Impact

There is no direct economic impact from this report. Any changes to the council discretionary expense formula that may be recommended by this task force would be considered by the Finance, Administration and Audit Committee as part of the 2016 Budget process.

Purpose

The purpose of this report is to provide the Task Force with the information requested from the September 21 meeting of the Task Force.

Background - Analysis and Options

At the September 21, 2015 meeting of the Task Force requested that staff provide information regarding:

- 5year historical budget versus actuals for each Member of Council including Council Corporate
- An alternative approach to align Council Discretionary budgets to historical spend

Historical Budget vs Actuals

Attachment 1 provides the historical budget versus actuals for Council from 2010 to 2014, including Council Corporate. The table below summarizes the unspent office budgets at the end of the year.

Discretionary budgets include part-time labour and associated benefits. Discretionary budgets have been further grouped by those expenditures that can be attributed to activities associated with engaging the community and the remaining expenditures are classified as other. As shown in the table, there has been an overall favourable discretionary variance for each office group in each year since 2010.

Non-discretionary budgets are comprised of remuneration for Members of Council and associated benefits. There is a large variance in 2010 as a result of the payout of severances associated with the municipal election in that year. All other years show minimal variances at year end.

Attachment 2 provides the information in the above table for each Member of Council's office budget.

Alternative Approach to budget Formula

At the September 21, 2015 meeting of the Task Force, concern was expressed regarding the allocation of discretionary budgets between Local Councillor and Regional Councillor office budgets. Staff were requested to investigate potential options to realign discretionary office budgets between Local and Regional Councillors.

The following options were considered:

- Option 1: Reducing the population percentage applied to the Mayor and Regional Councillors and increasing the residential population rate
- Option 2: Reducing the Mayor and Regional Councillors discretionary amount to align with historical actuals and reallocating the difference to the Local Councillors

Option 1: Reducing the Population Percentage and increasing the Population Rate

In the current Council Discretionary Budget Formula, the population percentages used for the Mayor is 50%, and 34% for the Regional Councillors. To rebalance the discretionary office budgets, the population percentages could be decreased to 44% for the Mayor and 25% and for Regional Councillors. The current formula uses a rate of \$0.74 that is applied to the residential population figures. This rate could be adjusted to \$0.86 for 2016 to increase the allocation for Local Councillors. This rate would continue to be indexed each year based on the Toronto CPI index.

The table below summarizes the potential amendments to the formula under Option 1:

<i>Formula Component</i>	<i>Current</i>	<i>Proposed</i>
Percentage applied to Population figures:		
Mayor	50%	44%
Regional Councillors	34%	25%
Rate Applied to Residential Population	\$0.74	\$0.86

The reduction in the population allocation percentage and the increase in the rate applied to the residential population would result in decreases of \$39,074 from the Mayor and Regional Councillors office budgets and corresponding increases to Local Councillors office budgets.

The table below summarizes the changes to the 2016 Members of Council office budgets if the proposed amendment to the current formula comes into effect:

Option 1: 2016 Proposed Budget with Population and Residential Rate Adjustments

Option 2: Aligning the Mayor's and Regional Councillor's discretionary amount with historical actuals

In the second option, an analysis of the historical discretionary spend was reviewed from 2010 to 2014. The Mayor's and Regional Councillors' discretionary budget could be adjusted to a level that would continue to meet their needs based on historical spend, while allowing the reallocation of the remainder to the Local Councillor office discretionary budgets.

The table below illustrates the historical spend for office discretionary budgets from 2010 to 2014. The proposed budget for each office should provide a budget for the Mayor and Regional Councillors that will enable them to perform the functions of their office.

Office	2010	2011	2012	2013	2014	Maximum Spend	Proposed Budget
010002 - Mayor Jackson	39,714						
010003 - Mayor Bevilacqua	6,970	64,004	89,754	64,830	24,843		
Mayor Total	46,684	64,004	89,754	64,830	24,843	89,754	105,000

Regional Councillor Total	147,901	122,156	146,009	96,377	111,727	63,279	70,000

In this option, the formula approved in 2012 with the established population allocation percentages and the rate applied to the residential population would remain the same, but there would be a

reallocation of budget in the amount of \$76,420 from the Mayor and Regional Councillor office budgets to the Local Councillor Budgets.

The table below summarizes the changes to the 2016 Members of Council office budgets if the Option 2 were adopted:

Proposed Option 2: 2016 Proposed Budget with Permanent Reallocation of Savings

Recommendation:

Staff recommend that a future report be brought to the Finance, Administration and Audit Committee to recommend that Option 1 be considered for the modification to the Discretionary Office Budget formula. Option 1 continues to be a formulaic approach that provides a rational basis for setting discretionary budgets on an annual basis. Unlike Option 2, there is no manual adjustment to the discretionary office budgets to reallocate budgets between offices after the discretionary office budget formula is calculated.

Relationship to Vaughan Vision 2020/Strategic Plan

This report is consistent with the strategic goals as set forth in Vaughan Vision 2020/Strategic Plan, particularly 'Ensure Financial Sustainability'.

Regional Implications

This Task Force will be reviewing the local component for the budgets of the Mayor and Local and Regional Councillors. The Regional component of costs incurred by those offices is the responsibility of the Regional Municipality of York.

Conclusion

The Task Force has been presented with the historical budget versus actuals for each Member of Council from 2010 to 2014. Staff have investigated and formulated two alternatives to calculating the discretionary council budgets in an effort to reallocate some discretionary budget from the

Mayor and Regional Councillors to the Local Councillors. Staff recommend that a report be brought to a future Finance, Administration and Audit committee to recommend Option 1 be considered for the modification of the Discretionary Office Budget formula.
