Dear Alan Shefman:

In regards to Tuesdays Jan. 17's council discussion

I have examined the diagram showing the plans for 927 Clark Ave. West
(Wycliffe townhouse development) which are subject to a hearing this Tuesday.

In regards to the on-street parking provision:
Will this not be affected by 2020 when VIVA plans to extend its Orange rapid transit line
from Centre Street south via Clark to Finch Station?
OR will VIVA go from the Promenade via another route onto Clark West then south to Finch
Station?

I believe that this routing and timing are subject to Regional Council approval.

yours,
Jeffrey Stone
