I'm writing this email to show my objection to this purposed development.

This is a high congested traffic location to begin with, adding this development will only make it worse and lead to more similar development which would even further compound the problem.

I believe this type of development should be located in location that the city has already designated as high density, HWY 7. Where transit can handle the numbers.

Traffic is already horrible because of the cancellation of the Pine Valley extension.

Everyone knows why that was cancelled. I just wonder if it's even possible that our voice will net a similar result?

I'm sure no one wants to go in their backyard and look up at a condo see all these units staring down at them.

Where they bought and had privacy now the have none.

Michael Marcucci
