Status Quo Results

- Current wards growing out of balance by 2018 and beyond
- Implement new ward structure for 2018
- Should last to 2026 without review
- May last to 2030

Vaughan WBR Principles

- Achieve *effective representation*
 - voter parity (pivotal)
 - communities of interest
 - natural/physical boundaries
- 3 municipal elections (2018, 2022, 2026)
- Voter parity: +/- 10% of AVG ward population (target year: 2022)

The Options

OPTION	AVG. WARD POPULATION	POPULATION RANGE (+/- 10%)	# OF WARDS
1: Maintain Current Number of Wards	71,600	64,440 – 78,800	5
2: Maintain Current Average Ward Population	62,800	56,500 – 69,000	6
3: Four Wards	89,500	80,500 – 98,500	4

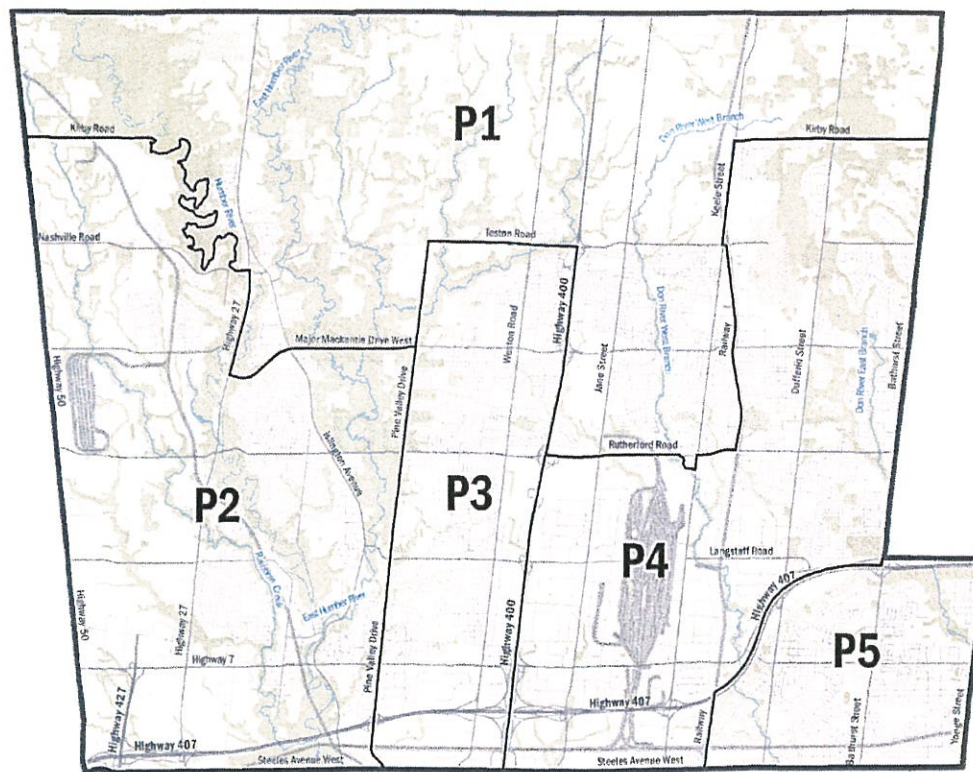

Preferred Ward Alignment

- Option 1 (Maintain Current Number of Wards) preferred by both the public and Members of Council
- Refinements suggested by public and Members of Council (Appendix E in Report on Preferred Ward Alignment, August 2016)
- Refinements incorporated where possible
