Hi Rose,
Thanks for your email.

We are working on refining our ask for the deputation. In the meantime, I listed few goals/objectives that can contribute to the role of a cycling and pedestrian advisory committee.

Potential Goals and objectives of a Cycling and Pedestrian Advisory Committee

The specific duties of a Cycling and Pedestrian Advisory Committee shall include, but not be limited to, the following:

- Advising staff of various departments and Council on the design, development and delivery of cycling and pedestrian policies, programs and facilities to promote and enhance cycling and walking in the City of Vaughan
- Compiling research and statistics on cycling and pedestrian issues
- Working with local neighbourhoods by collecting and distributing information related to cycling and walking
- Promoting an increased public awareness of cycling and walking as environmentally friendly forms of transportation
- Assisting in fundraising opportunities;
- Discussing and resolving any issues between cyclists and pedestrians
- Assisting in the integration of bicycle and pedestrian facilities into significant development proposals as they arise
- Working with the assigned City staff to meet the mandate of the committee by developing an achievable annual work plan including communications and budget requirements.

Thank you,

Sahra
