

CITY OF VAUGHAN

EXTRACT FROM COUNCIL MEETING MINUTES OF SEPTEMBER 20, 2016

Item 13, Report No. 31, of the Committee of the Whole, which was adopted without amendment by the Council of the City of Vaughan on September 20, 2016.

13

**ALL-WAY STOP CONTROL REVIEW
BARONS STREET AND MOODY DRIVE / MACTIER DRIVE
WARD 1**

The Committee of the Whole recommends approval of the recommendation contained in the following report of the Deputy City Manager of Public Works and the Director of Transportation Services, Parks and Forestry Operations, dated September 7, 2016:

Recommendation

The Deputy City Manager of Public Works and the Director of Transportation Services, Parks and Forestry Operations recommend:

1. That a By-law be enacted to amend By-law 284-94, the Consolidated Traffic By-law, to add an all-way stop control at the intersection of Barons Street and Moody Drive / Mactier Drive.

Contribution to Sustainability

This report contributes to the goals and objectives within Green Directions Vaughan, The City's Community Sustainability and Environmental Master Plan, specifically:

Goal 3: To ensure that Vaughan is a city that is easy to get around with a low environmental impact.

Objective 3.2: To develop and sustain a network of roads that supports efficient and accessible public and private transit.

Economic Impact

The capital costs associated with the installation of the all-way stop signs is estimated to be \$500.00, and has been included in the approved 2016 Operating Budget. The on-going costs to maintain the signs and pavement markings (stop bars), is estimated to be \$150.00 per annum, and will be incorporated in future year Operating Budgets.

Communications Plan

Staff will advise the area residents of the outcome of Council's decision in this matter.

Purpose

To review the feasibility of implementing an all-way stop control at the intersection of Barons Street and Moody Drive / Mactier Drive.

Background - Analysis and Options

A review of traffic operations at the intersection of Barons Street and Moody Drive / Mactier Drive was conducted.

A review of traffic activity was conducted at the intersection of Barons Street and Moody Drive / Mactier Drive on April 6, 2016, to determine the feasibility of implementing an all-way stop control.

CITY OF VAUGHAN

EXTRACT FROM COUNCIL MEETING MINUTES OF SEPTEMBER 20, 2016

Item 13, CW Report No. 31 – Page 2

Barons Street is a two-lane, north-south minor collector roadway with a 26.0 metre right-of-way (9.0 metre pavement width). Moody Drive and Mactier Drive are two-lane, east-west local roadways with a 19.0 metre right-of-way (8.5 metre pavement width).

The intersection of Barons Street and Moody Drive / Mactier Drive is a four-leg intersection with stop-controlled on Moody Drive / Mactier Drive. A map of the area is shown in Attachment No. 1.

The existing traffic volumes at the intersection of Barons Street and Moody Drive / Mactier Drive exceed the Provincial Warrant for All-way Stop Controls.

A turning movement count was conducted on April 6, 2016, at the intersection of Barons Street and Moody Drive / Mactier Drive. The study was conducted during the peak traffic periods of 7:00 a.m. to 9:00 a.m. and 4:00 p.m. to 6:00 p.m. The collision records and sightlines at the approaches to the intersection were also assessed. The data collected was compared to the Provincial Warrant for All-way Stop Controls, with the following results:

- | | | |
|---|-----------|------|
| • Warrant 1 – Minimum Vehicular Volumes | Warranted | 113% |
| • Warrant 2 – Accident Hazard | Warranted | 0% |
| • Warrant 3 – Sight Restriction | Warranted | 0% |

All-way Stop Controls are recommended at the intersection of Barons Street and Moody Drive / Mactier Drive.

All-way stop controls are recommended when one of the above warrants meets 100 percent. As shown above, the existing traffic volumes exceed the Minimum Vehicular Warrant No. 1 requirements. As such, All-way Stop Controls are recommended at this location. Zero vehicle collisions were recorded at this intersection from 2014 to December 2015. To date, this is the latest collision data available from York Regional Police. There are no sight restrictions at this intersection.

With Pope Francis Catholic Elementary School located on Barons Street, south of Second Avenue, opening in September, the proposed all-way stop controls would benefit both vehicular and pedestrian movements in the area.

Relationship to Term of Council Service Excellence Strategy Map (2014-2018)

In consideration with the strategic priorities related to the Term of Council Service Excellence Strategy Map (2014 – 2018), the recommended all-way stop will improve traffic flow for both drivers and pedestrians at the intersection, thus improving the municipal network, and promoting community safety, health and wellness.

Regional Implications

Not Applicable.

Conclusion

It is recommended that an all-way stop control be implemented at the intersection of Barons Street and Moody Drive / Mactier Drive, as the Provincial Warrant for all-way stop controls is met. The implementation of an all-way stop control at this location would benefit both vehicular and pedestrian movements in the area.
