Subject: FCF Old Market Lane Inc Site Application

I am writing today with regards to the site application known as FCF Old Market Lane Inc. on 177, 185 and 197 Woodbridge Avenue (corner of Woodbridge Ave and Wallace Street).

I am a member of the VWRPA and fully support the Association's position with regards to this development application.

As a member and a local resident I am requesting:

1. That Councillor Carella specifically as well as City Council reject in a recorded vote the application in current form; 2. That City Council endorse, at minimum, the general recommendations as outlined in Technical Report submitted by MTBA Associates dated May 18, 2016; 3. That the City Council direct City Staff to support the recommendations as outlined in the MTBA Technical Report at the OMB.

Thank you,  
Dan Scott
