Contract specifications were developed by using estimates from previous years to determine the approximate sizes and quantity of water meters required along with the approximate budgeted value required for the term of the contract. The contract term commences November 16, 2016 and concludes December 31, 2017. The above financial position reflects a negative remaining budget for 2016, however, the quantity and type of water meters required are only an estimate and not a fixed value.

T16-347, Supply, Delivery, Installation and Distribution of Water Meters is a multi-year award allocated from the operating budget. Price terms will remain firm for the contract period up to December 31, 2017 with (Consumer Price Index) CPI increase in the extension periods, if applicable.

For the Optional Extension Period, the unit prices as bid by the Contractor may be adjusted in accordance with the annual rate of change in CPI, for all items. Any adjustments shall have a maximum ceiling of 5% in any given year. Such extension will be subject to the satisfactory performance reviews and necessary approvals required.

Purpose

The purpose of this report is to award the contract for Tender T16-347, Supply, Delivery, Installation & Distribution of Water Meters to Wamco Municipal Bidders

Background - Analysis and Options

Supply, Delivery, Installation & Distribution of Water Meters contract is necessary to allow accurate water metering of Vaughan's water distribution system. Metering allows the City to measure the amount of water that is consumed by the end user. These measurements allow for billing as per the water rates set out in the Schedule A of the water by-law.

It is important to note that approximately 93% of the value of this contract (\$627,647.00) is fully recovered through development. Developers are responsible for purchasing water meters for new installations to newly built homes. The remaining 7% of the contract value (\$48,671.00) is used by operations for water meter change outs due to malfunctioning meters.
