Subject: Council meeting Tuesday June 20 - item 11

Hello, I am a resident in the impacted area at [REDACTED] worth blvd. I don't agree with allowing multistory buildings in the area and increasing density. We need better street traffic flow especially with duferin st perennially high traffic already. Until the flow south of Steele's on duferin is fixed I don't see how additional population density can be supported north of Steele's.
