

CITY OF VAUGHAN

EXTRACT FROM COUNCIL MEETING MINUTES OF NOVEMBER 19, 2013

Item 1, Report No. 14, of the Finance and Administration Committee, which was adopted without amendment by the Council of the City of Vaughan on November 19, 2013.

Councillor Iafrate declared an interest with respect to the foregoing matter insofar as it relates to the contingency budget, as she has a non-arm's length financial familial interest, and did not take part in the discussion or vote on the matter.

1

DRAFT 2014 BUDGET AND 2015-2017 PLAN

This matter was deferred to the November 18, 2013, Finance and Administrative Committee meeting to continue deliberations (see DRAFT 2014 BUDGET AND 2015-2017 PLAN, Item 2.1, OTHER MATTERS CONSIDERED BY THE COMMITTEE.)

Councillor Iafrate declared an interest with respect to the foregoing matter insofar as it relates to the contingency budget, as she has a non-arm's length financial familial interest, and did not take part in the discussion or vote on the matter.

CC: Hon. Maurizio Bevilacqua, Mayor and Members of Council
Barbara Cribbett, Interim City Manager
Gary Williams, Director of Corporate Communications

FROM: Tim Simmonds, Executive Director, Office of the City Manager

RE: **Additional information – 2014 Corporate Communications ARRs
Finance and Administration Committee, November 12, 2013**

As per Council's request at the Council Meeting of October 29, 2013 Item 1, Report No. 45, of the Committee of the Whole (Working Session), which was adopted, as amended, by Council on October 29, 2013)

Background

The City's website, vaughan.ca, is a critical piece of municipal infrastructure. It is the primary communications vehicle for the City with an average of 100,000 visits per month. A considerable investment has been made over the past four years in the redesign and restructuring of the website. The priority today is to keep the website content up to date and ensure the website continues to evolve to meet the changing public demand for online services. This requires appropriate staff resources.

Situation in 2009

In 2009, Corporate Communications requested one additional staff complement titled – "Communications Specialist – Website Editorial Services." The request was based on the pre-2009 volume of website content and the increased frequency of website postings as the corporate website evolved to become the 'anchor' communication vehicle for the City. The position was approved through the budget process.

The position was filled in late 2009 and was primarily responsible for ensuring the information on the City's website was timely, accurate and accessible. The position also supported Council, Senior Management and client departments by providing advice and assistance in the development of editorial content for the web, particularly as it relates to corporate projects and initiatives being communicated on the corporate website.

Situation in 2013

Since 2009, this new position has evolved as the corporate website has increased in size and usage. In 2011, less than two years since the Website Editorial Services position was created, the website saw a 17.9% increase in website hits. That figure increased by 29.5% the following year. The City's efforts to 'push' visitors to the website for information and services has also increased annually and has contributed to the increase in traffic.

Furthermore, a number of additional web-based services have been launched since 2009 that were not originally considered in the creation of the new position, including:

- Corporate e-Newsletters – twice monthly

- Three social media sites (Twitter, Facebook, YouTube) and a blog, and
- E-Blast alerts

The responsibility to create content, update and monitor these additional web-based information channels which serve the entire corporation fall under the role of the Communications Specialist – Website Editorial Services.

New Decentralized Website Structure

In January 2013, the new corporate website was launched. In support of the new website, a content management system was created, shifting responsibility for web content to each department – this is referred to as a “decentralized content management approach.” The content management system employs an approval process for all website content, which is managed by each department. Currently, there are approximately 76 active website content contributors from all departments.

The Communications Specialist – Website Editorial Services currently manages web content on 27 corporate webpages, including the home page, news section and emergency/closure messages.

Since the launch in January 2013, the number of webpages has increased by 46 per cent and the number of documents posted to the website has increased by 45 per cent. There is more dynamic website content than ever before.

Decentralizing the content requirements worked well during the review and transfer of information from the old website to the new website. However, the 76 individuals who are active as the content contributors for their respective departments are now required to generate new content and market the City’s major programs and initiatives online, while still working at their regular jobs.

Many do not have the required time, communications and marketing skills:

- Little or no professional writing and editing skills
- No graphic design expertise
- The need to promote the City brand and speak with a unified voice
- The need to assign top priority to City communications with the public

Projected Situation in 2014 – Maximizing the City’s Investment

The 2014 ARR request for a Communications Specialist – Website Content Management would serve as a “newspaper editor” and provide needed support for all departments with the creation of web content, page design and presentation. As well, the significant increase in the amount of web content over the past five years, the growing use of web-based communications channels (including social media) and the focus on providing more online services in the future, as identified in the Corporate Communications Strategy, means the web-based activities of the department and the City are increasing. The goal is to be a leader in municipal communications – and make sure the City does not fall behind.

Public Service Renewal Program

The department has submitted a second ARR which is a conversion of a vacant position. Through the Public Service Renewal program, Corporate Communications has identified an opportunity to realign resources and convert a current vacant senior communications specialist position into two junior positions. This will provide the department with increased capacity to manage its assignments. The more strategic tasks, previously managed by the vacant specialist position, will be assigned to the communications specialists already on staff. The two conversion positions are partially offset by funding already available within the department’s budget.

Current Job Responsibilities – Corporate Communications

| Job Title | Primary roles | Description |
|---|---|--|
| Director | <ul style="list-style-type: none"> • Strategic planning • Council and SMT support • Issues management • Reputation management • Crisis communications | Responsible for the direction of the department in the planning, development, implementation and maintenance of a wide range of external and internal communications programs and services. |
| Manager | <ul style="list-style-type: none"> • Staff management • Project management • Issues management • Protocol and policy • Committee support • Special projects | Responsible for managing the staff, projects and activities of the department. |
| Senior Communications Specialist | <ul style="list-style-type: none"> • Issues management • Social media development • Media relations • News monitoring • eCommunications | Responsible for providing strategic communications support, contributing to the development and implementation of internal communications, eCommunications, issues management and media strategies that target internal and external audiences. |
| Communications Specialist – Client Services/Issues Management | <ul style="list-style-type: none"> • Media relations • Media list management • Issues management • Communications support for Mayor and Members of Council • Committee support • Internal communications | Responsible for communications and issues management in support of the Mayor and Members of Council, including writing speeches and drafting news releases. Produces key messages and briefing notes relating to City projects and initiatives as well as issues of interest to the media. Manages the implementation of the internal communications strategy. |
| Communications Specialist – Marketing and Special Projects | <ul style="list-style-type: none"> • Marketing / Advertising • Committee support • Annual report production • Brochure production (creative design) • Branding • Photo resources • City Page content (statutory ads) | Responsible for marketing and special project co-ordination, acting as a resource to departments providing advice and assistance in the development and implementation of departmental and special project communications strategies. |

| | | |
|---|--|--|
| Communications Specialist – Website Editorial Services | <ul style="list-style-type: none"> • Corporate website content • eNewsletter production • Video production • Social media tracking • VaughanTV (internal TV network) • Website support for special projects • Photography | Serves as the website content contributor for Communications, producing content and editing for 27 pages. Scripts and produces multi-media content for website and social media channels. Monitors our social media channels and provides daily reports. Provides photography services. Supports departments by providing advice and assistance in the development of web content. |
| Communications Specialist – (Redeployed) Communications Co-ordinator – Two positions | <ul style="list-style-type: none"> • Media monitoring • Press release research and development • Social media monitoring and content development • Writing and editing • Marketing assistance • eCommunications assistance • Media relations assistance | Assists with the delivery of media relations (press releases, research, monitoring). eCommunications support and tactical implementation for social media channels and website. Supports Communication Specialists with the implementation of communication plans for various departments. Assists in researching and tracking issues, and maintaining media and issue management files. |

Conclusion

The Corporate Communications department continues to expand its activities, particularly in the area of e-communications, to better support the growth of the City. Corporate social media sites have been launched, the frequency of the corporate e-newsletter has increased, more multimedia news releases are being produced, video production has increased and the social media and news monitoring tasks have expanded.

Each year, the Corporate Communications department issues an average of 250 news releases, public service announcements and media advisories. The department manages 200 media inquiries. More than 700 messages, speaking notes and newspaper columns are written in support of the corporation. None of these tasks can be discontinued in order to provide the needed staff support for the growth in the website and e-communications.

The priority is to support Council and City departments in providing Vaughan residents and businesses with proactive communications, including two-way communications, utilizing new technologies and e-communications. The 2014 ARR will help the corporation achieve this goal.

Sincerely,

Tim Simmonds
Executive Director, Office of the City Manager

Draft 2014 Budget and 2015-2017 Plan

Finance & Administration Committee
Nov.12, 2013

Financial Sustainability
Always a Key Priority

Presentation Agenda

- The budget objective & key principles
- Overview & process highlights
- Observations & pressures
- Taxation in Perspective
- Next steps
- Public input and budget deliberations

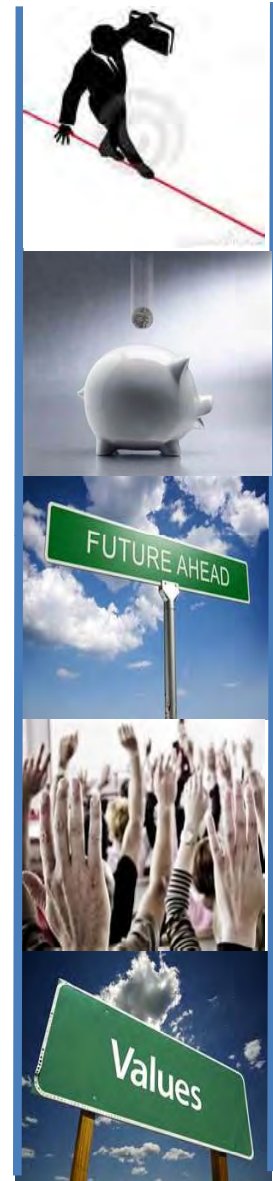

Budget Objective

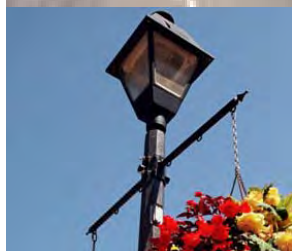

“To balance the pressures of maintaining existing services and growth requirements against available future City funding and resources necessary to undertake and manage operations and initiatives”

Key Principles

- Guided by the City’s Strategic Plan
- Financial sustainability
- Planning for the future
- Provide value for tax dollars

Municipal Budget Pressures

Disciplined Budget Process

1) *Base Operating Budget*

- Only very specific adjustments
- No new staff & many accounts hold the line

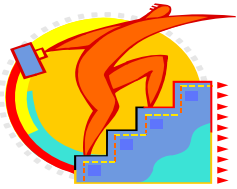

2) *Additional Resource Requests* (ARRs)

- Individually vetted & presented separately
- Prioritized based on a blend of risk & value

3) *Actions to Manage Capital Budgets*

- Guided by financial targets and policy
- Prioritized by departments
- Actively closing projects (2013 – 63, \$1.4m)
- Leveraging grant funding (2014 - \$7.3m Gas Tax)

The Draft Budget Outcome

Labour & Benefits

Labour

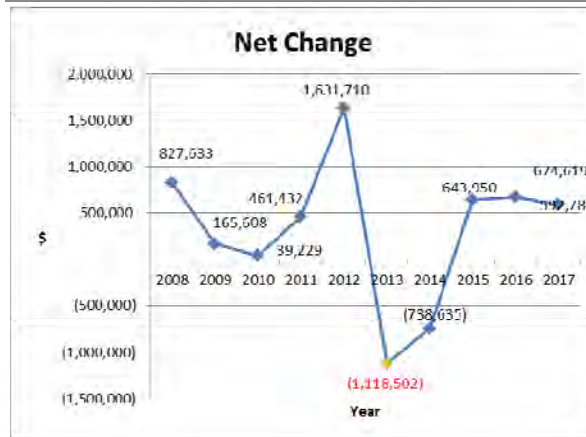

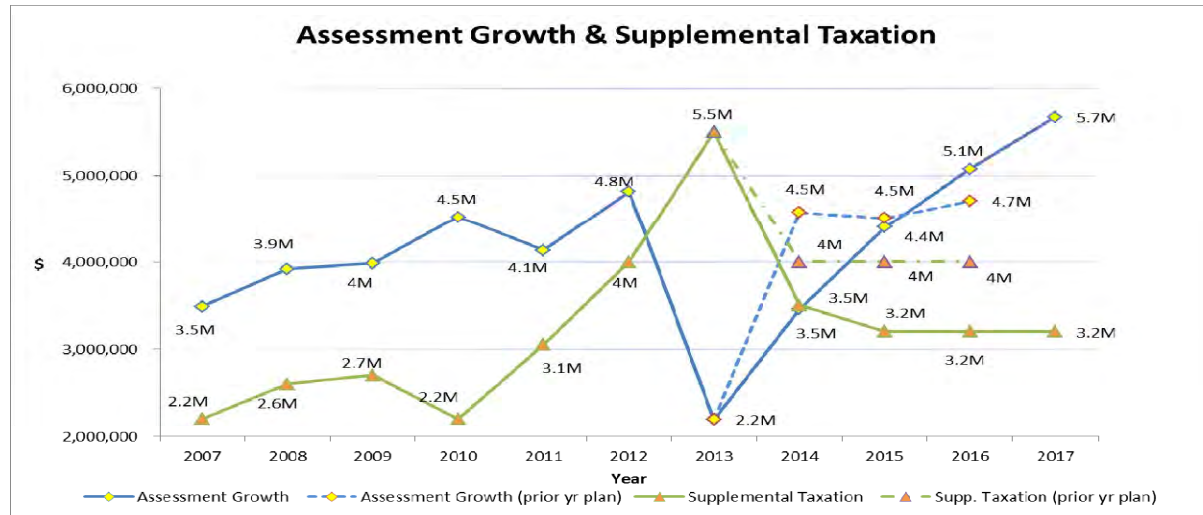

Above includes estimates for expired collective agreements

Benefit Pressures

CPP, EHT, EI OMERS Thresholds

Assessment & Supplemental Growth

- MPAC driven
- GTA wide issue
- Better info. in Dec.
- 2013 uncertainty

Infrastructure Renewal Challenge

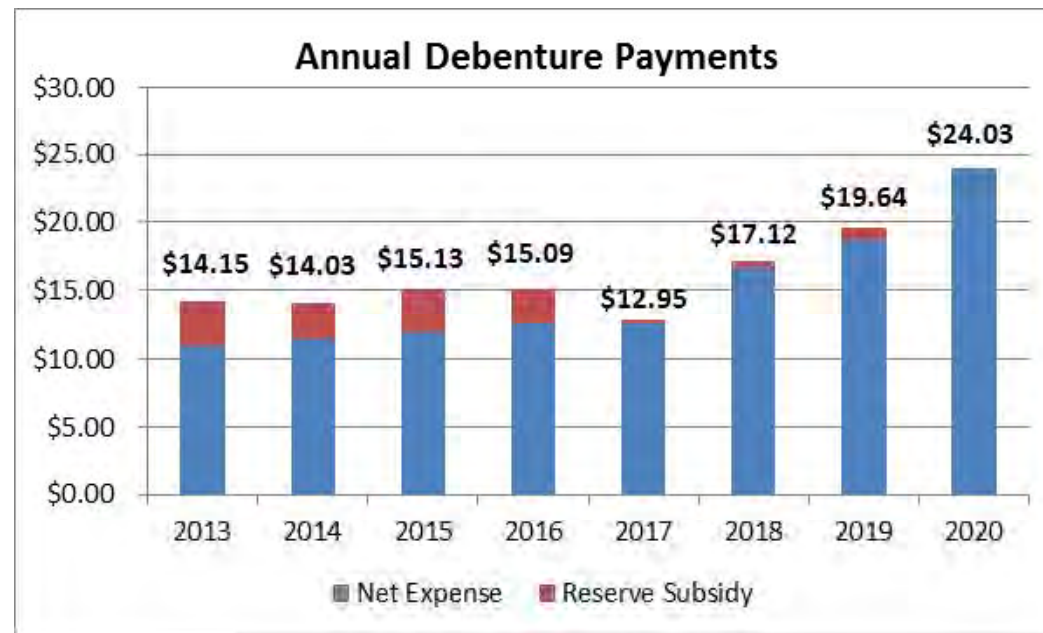

- New construction funded by the development industry
- City to fund future replacement from limited sources
- Issue is common across Canada
- Pressures identified through
 - The Financial Master Plan
 - Financial Statements - Amortization > contributions
 - Parks and Vehicle Reserve depleting
 - Increasing tax rate pressure to support
 - Utilizing other sources debt. gas tax, etc
 - These pressures will grow

Debenture Funding

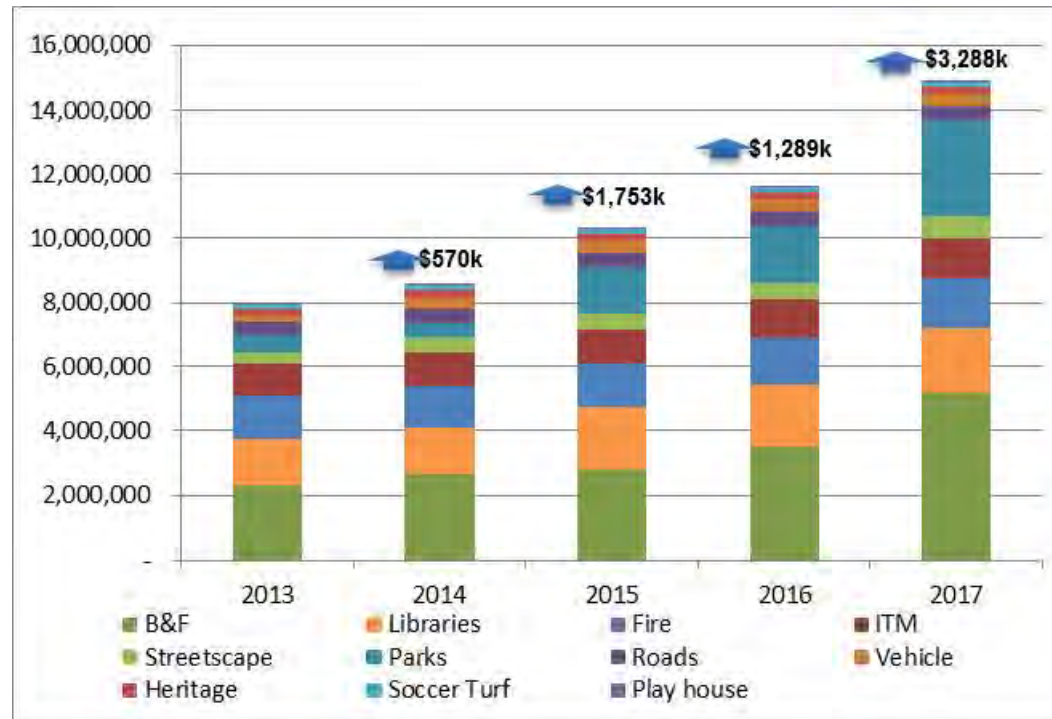

- Utilized for road and bridge replacement
- Aids in smoothing these costs over time (net \$0.5m/yr)
- Available gas tax funding was utilized to minimize pressure

Infrastructure Contributions

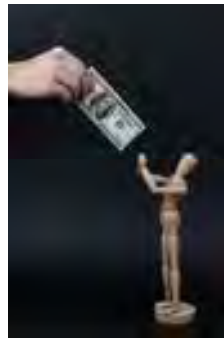

- Supporting community infrastructure
- Based on new policy
 - New asset lifecycle contributions
 - CPI adj. to keep up with market values

22

Consideration of Additional Resource Requests

Additional Resource Requests (ARRs)

- These are over and above base budget obligations
- Requests total \$18.4m over the 4 year plan
- Over \$2.1m in offsets
- Significant time spent reviewing & prioritizing
- Some redistributed with 4 years

24

ARR Element Summary

| Service Area | 2014 | | | 2015 | | | 2016 | | | 2017 | | |

- Jan. 29th 9:30 a.m. - 12:00 p.m.

Discussion Q & A

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Recommendation

The Interim City Manager and the Acting Commissioner of Finance/City Treasurer in consultation with the Senior Management Team recommend:

1. That the presentation on the Draft 2014 Budget and 2015-2017 Plan be received; and
2. That this matter and any comments received be referred to the next Finance and Administration Committee to continue deliberations.

Contribution to Sustainability

Sustainability by definition focuses on the ability to maintain an activity over an extended time horizon. Financial planning is the process of allocating limited resources to achieve the City's objectives and established priorities. Responsible planning allocates resources in a way that balances needs and aspirations of the present without compromising the ability to meet those of the future. The City's budget and plan contributes to sustainability by developing a longer term view of the City's requirements and attempts to balance the timing and funding of programs, infrastructure renewal, development projects and corporate initiatives, which are essential to build and maintain the City. Moving forward, future planning will become increasingly important to assist stakeholders in developing sustainable and responsible funding strategies.

The Budget Objective

"To balance the pressures of maintaining existing services and growth requirements against available future City funding/resources necessary to undertake and manage operations and corporate initiatives"

This is a key component of the Council approved Budget Guidelines, along with two core principles: Managing our future & Managing tax increases. Collectively, these principles have aided in developing realistic and responsible financial plans.

Communication Plan

Public consultation is integral to building the budget

As part of the budget process, there will be a number of opportunities for the public to be informed and engaged. In the interest of increasing the community's awareness, the following tactics will be employed:

- ❖ Dedicated Finance and Administration Committee meetings
- ❖ Enhanced website content on Vaughan.ca
- ❖ An online input application to provide feedback on where tax dollars are spent
- ❖ Social media posts/outreach on the corporate Facebook and Twitter accounts
- ❖ "Ask the Expert" feature on Facebook that will give the public the opportunity to have their budget questions answered by City staff
- ❖ Blog posts and newsletter updates throughout the process
- ❖ Vaughan TV ads and Media advisory/releases
- ❖ Posters in City facilities and print advertising

There are currently seven (7) Finance and Administration Committee meetings scheduled for budget deliberations, three evening and four daytime dates. Finance and Administration

Committee meetings, which are hosted at the City Hall, are opportunities for the public to learn more about the budget. Community comments and input regarding the budget are encouraged and considered by Members of Council to inform their choices. Meeting dates are available on the City's Budget website.

Final Opportunity for Community Input / Budget Approval Communication

In addition to the above, a Special Council Meeting will also be held before budget approval to provide the public with a final opportunity to comment on the proposed 2014 Budget and 2015-2017 Plan. This meeting is anticipated in late January or early February and will be advertised in advance and consistent with the City's public notification by-law once a date has been set.

Following approval of the budget, the City will communicate budget highlights by employing a variety of tactics, including a media release, website content, social media messages, a blog, an eNewsletter post, and an internal message to staff. The media release will articulate the strong management practices and oversight the City has in place to provide residents with value for their property tax dollar.

Economic Impact

Illustrated below are the economic impacts associated with the City's Draft 2014 Budget and 2015-2017 Plan.

| Components | 2014 | | | 2015 | | | 2016 | | | 2017 | | |
|-------------------------------------|--------------|-------------|-------------|--------------|-------------|-------------|--------------|--------------|-------------|--------------|--------------|-------------|
| | Rate Incr. | \$ (m) | Bill Incr. | Rate Incr. | \$ (m) | Bill Incr. | Rate Incr. | \$ (m) | Bill Incr. | Rate Incr. | \$ (m) | Bill Incr. |
| Base Budget | 1.88% | 2.95 | \$23 | 2.89% | 4.76 | \$36 | 1.65% | 2.88 | \$21 | 2.38% | 4.34 | \$31 |
| ARR | 2.92% | 4.59 | \$36 | 2.60% | 4.53 | \$34 | 2.32% | 4.36 | \$32 | 2.38% | 5.05 | \$36 |
| Operating total | 4.80% | 7.54 | \$58 | 5.49% | 9.29 | \$70 | 3.97% | 7.24 | \$53 | 4.76% | 9.39 | \$67 |
| Total Capital Budget | | 51.4 | | | 75.0 | | | 129.7 | | | 153.9 | |
| <i>*Incl. Est. Operating Impact</i> | 1.27% | 2.00 | \$15 | 3.03% | 4.98 | \$38 | 3.16% | 5.49 | \$40 | 3.64% | 6.64 | \$47 |

** Figures represent the estimated operating implications associated with the capital program. These operating implications are incorporated in the draft operating budget.*

The City's Budget and Plan consist of many financial elements. To assist readers navigate through the material the report is layered with escalating levels of detail. The report begins with a high-level executive summary followed by overview sections and related attachments. Department Business Plans & Financial Summaries are provided as Attachment 6 and individual additional resource requests and capital project submissions are located in the appendix. It should be noted, some attachments are large and therefore only available on-line.

Purpose

The purpose of this report is to provide the Finance & Administration Committee with information and details regarding the Draft Budget and 2015-2017 Plan and corresponding tax adjustments on an average Vaughan household. This is the first of a series of budget reports that build the City's budget. The budget report sets the tone of the process and is complimented by subsequent reports and a variety of Committee/Council requested communications.

Background – Analysis and Options

Executive Summary

Financial Sustainability: Always a Key Priority

As a result of the City's long standing dedication to financial management through progressive best practices and prudent policies, the City is in a strong financial position. The City has always considered increasing taxes as a last resort. Through prudent policies, tight budget guidelines and strong leadership, the City has provided residents tremendous value by offering some of the lowest property tax rates in York Region and the Greater Toronto Area, while providing high quality services to the community.

As the City moves forward, financial sustainability must continue as one of Vaughan's key priorities. Over the next decade, the City of Vaughan is expected to undergo a tremendous transformation fueled by sustained high growth rates, provincially driven intensification, increasing legislative requirements, mounting infrastructure renewal costs, and a number of vision based master plans reflecting important community needs. As the City becomes increasingly more sophisticated, it will also face rising financial pressure beyond the many factors currently placing significant strain on the property tax rate and reserve balances to maintain existing service levels. These pressures are permanent and often require continuous funding solutions, typically taxation.

Economic Outlook – Growth not derailed, just delayed

Based on TD Economics - Sept. 25th Quarterly Economic Forecast, "Economists in Canada are guilty of sounding like broken records, repeating the need for Canada's growth to shift from relying on heavily indebted consumers to stronger exports and business investment. While the process has started, U.S. economic growth looks slightly softer in the near term making the transition uneven. In the meantime, the consumer and the housing market have shown more momentum, helping to keep the economy puffing along until next year when exports drive growth fast enough to start absorbing more of the excess capacity that persists in Canada's economy".

Operating Budget Approach

The City's approach to the operating budget was to first develop the Base Budget through the issuance of very strict budget guidelines. Under these guidelines, departments were only permitted to include very specific adjustments in their Base Budget, which were related to predetermined agreements, contracts or Council approved increases. It is important to note, the guidelines do not allow "across the board" increases or increases for new staffing.

To the extent that a department required additional resources, a separate business case was submitted for consideration. These are referred to as Additional Resource Requests (ARR) and were individually vetted through the Directors Working Group, Senior Management Team, and a prioritized list is recommended to Finance and Administration Committee for consideration. The objective of separating the process into two paths was to identify the minimum resources based on financial commitments and review all other requests on their individual merits. Further details with respect to the guidelines, principles or the actions are provided in the "Planning for the Future" report presented to the Finance and Administration Committee on June 10th, 2013, which is included in Attachment #5.

Base Budget and Additional Resource Request Highlights are provided below:

Base Budget

The impact of the Base Operating Plan, derived from Council's approved guidelines is as follows:

| | 2014 | 2015 | 2016 | 2017 |
|----------------------------------|---------|---------|---------|---------|
| Net Taxation Change | \$2.95m | \$4.76m | \$2.88m | \$4.34m |
| Avg. Residential Tax Rate Change | 1.88% | 2.89% | 1.65% | 2.38% |
| Avg. Residential Tax Bill Change | \$23 | \$36 | \$21 | \$31 |

The above changes are largely driven by staff agreements, contractual obligations, utility needs, and capital funding requirements. Although there are many components to the City's base budget, there are highlighted items that impact the base budget. Technically, in the absence of these adjustments, the base would be much lower. These items and their affect on the base budget are illustrated in the following table.

| Highlights & Major Budget Elements | 2014 | | 2015 | | 2016 | | 2017 | |
|---|------------------|--------------|------------------|--------------|------------------|---------------|--------------------|---------------|
| | \$ | Rate Incr. | \$ | Rate Incr. | \$ | Rate Incr. | \$ | Rate Incr. |
| Base Budget Change | 2,951,189 | 1.88% | 4,758,185 | 2.89% | 2,880,944 | 1.65% | 4,399,336 | 2.38% |
| Less: Major Budget Elements | | | | | | | | |
| MPAC Assessment - net impact | 738,365 | 0.47% | - | 0.00% | - | 0.00% | - | 0.00% |
| Station 7-5 cohort full yr impact | 697,000 | 0.44% | 300,000 | 0.18% | - | 0.00% | - | 0.00% |
| Fire OT Adjustment | 211,167 | 0.13% | 150,000 | 0.09% | 100,000 | 0.05% | 100,000 | 0.05% |
| Net Debenture (Roads) | 578,967 | 0.37% | 654,634 | 0.39% | 422,421 | 0.23% | - | 0.00% |
| Infrastructure renewal policy funding | 569,709 | 0.36% | 1,227,723 | 0.73% | 1,230,473 | 0.67% | 3,129,775 | 1.59% |
| Capital from Taxation funding | 127,785 | 0.08% | 130,342 | 0.08% | 132,948 | 0.07% | 135,607 | 0.07% |
| Investment adjustment | 225,000 | 0.14% | 250,000 | 0.15% | 250,000 | 0.14% | (40,000) | -0.02% |
| Hydro Investments | (621,550) | -0.40% | (300,000) | -0.18% | 225,000 | 0.12% | 1,050,000 | 0.53% |
| Tax adjustments | 125,000 | 0.08% | 125,000 | 0.07% | - | 0.00% | 25,000 | 0.01% |
| Insurance premiums | - | 0.00% | 0 | 0.00% | 410,263 | 0.22% | 130,744 | 0.07% |
| Carrville CC (contracts, utilities, etc.) | - | 0.00% | - | 0.00% | - | 0.00% | 1,032,018 | 0.52% |
| Corp. phasing | 182,524 | 0.12% | 783,000 | 0.46% | 600,000 | 0.33% | 600,000 | 0.30% |
| Subtotal | 2,833,967 | 1.80% | 3,320,699 | 1.96% | 3,371,105 | 1.83% | 6,163,144 | 3.13% |
| Total Budget Change | 117,222 | 0.07% | 1,437,486 | 0.85% | (490,161) | -0.27% | (1,763,808) | -0.90% |

It should also be noted, assessment growth (2.25%) is forecasted lower than historical levels, due to processing issues experienced at the Province's Municipal Property Assessment Corporation (MPAC). This situation continues from last year and is impacting most municipalities across the GTA. Municipalities are collectively working with MPAC to resolve the issue. It should be noted assessment growth estimates are based on MPAC reporting, which will fluctuate until their final report is released in December. If required, an update will be provided.

Additional Resource Requests (ARR's)

As previously noted Additional Resource Requests are not permitted under the base operating budget guidelines and are submitted and assessed on their respective merits. Developing the recommended list was very difficult for decision makers, who were frequently faced with the dilemma of choosing between "Maintaining Services", "City Building Initiatives" and "keeping tax rates low". The Senior Management Team's funding recommendation is a blend of all three ideals with a weighted focus on maintaining service levels:

- Community Safety - Fire operations & prevention
- Community and Library Services - Civic Centre Resource Library, Avondale (North Maple) Park, ongoing forestry, parks, facility maintenance, etc.
- Operational Requirements - Planning, Engineering, corporate support for city services, and other requests, etc.
- City Building Initiatives - asset management, public service renewal, business development, communications strategy, public engagement, Vaughan Metropolitan Centre, strategic planning initiatives, etc.

Senior Management and the Directors Working Group spent a significant amount of time reviewing, prioritizing and optimizing the requests, which resulted in a number of requests being partially funded internally (over \$2.1m), some redistributed or reprioritized within the plan. In some situations the result is not optimal, potentially compromising service levels, but necessary to minimize tax pressures on the community. In addition, there are City initiatives currently being developed for which financial implications are not certain. As these projects come on-line they will directly compete with the above resources e.g. streetscaping, office incentives, MacMillan Farm, works yards, master plan requests, etc.

The above situation further supports the need to continue planning resources over an extended horizon in order to address future opportunities and challenges. More specific details are provided in the Attachment #2. The result of the Senior Management Team's ARR funding recommendation is as follows:

| | 2014 | 2015 | 2016 | 2017 |
|----------------------------------|---------|---------|---------|---------|
| Net Taxation Change | \$4.59m | \$4.53m | \$4.36m | \$5.05m |
| Avg. Residential Tax Rate Change | 2.92% | 2.60% | 2.32% | 2.38% |
| Avg. Residential Tax Bill Change | \$36 | \$34 | \$32 | \$36 |

Combined Base Budget and Additional Resource Requests

The combined impact of the base budget and the additional resource requests is illustrated below:

| | 2014 | 2015 | 2016 | 2017 |
|----------------------------------|---------|---------|---------|---------|
| Net Taxation Change | \$7.54m | \$9.29m | \$7.24m | \$9.38m |
| Avg. Residential Tax Rate Change | 4.80% | 5.49% | 3.97% | 4.76% |
| Avg. Residential Tax Bill Change | \$58 | \$70 | \$53 | \$67 |

Note: 2015 to 2017 ARR figures incorporate cumulative levy adjustments resulting from a growing tax base.

Capital Budget and Plan Approach

In the preparation of the Capital Budget and Plan a number of issues were taken into consideration. The pressures of maintaining existing infrastructure and growth requirements were balanced against available funding, the impact on future operating budgets, policies and the staff resources to undertake and manage capital projects.

Guided by the Vaughan Vision, the Corporate Planning process and the business planning efforts, departments prepared capital project submissions for a 4 year period. Following the

initial submissions, Finance staff met with the individual departments to review projects and clarify available funding. Departments then prioritized capital projects within each funding source. For funding sources with competing department interests, primarily Capital from Taxation, the Directors Working Group and Senior Management Team were leveraged. As a result some projects were adjusted, redistributed within planned 2015-2017 years, or deferred beyond the plan. The below chart illustrates the transition of submitted capital requests into a more balanced plan.

| Capital Projects | 2014 | | 2015 | | 2016 | | 2017 | |
|----------------------|------|------|------|------|------|-------|------|-------|
| | # | \$ | # | \$ | # | \$ | # | \$ |
| Original Submission | 244 | 53.5 | 154 | 83.0 | 130 | 113.8 | 130 | 144.0 |
| Draft Capital Budget | 224 | 51.4 | 148 | 75.0 | 106 | 129.7 | 129 | 153.9 |

Guiding Policies

Over time, the City has developed a series of guiding financial policies and targets to assist in developing the Capital Budget, which generated a positive impact on the financial stability of the City of Vaughan. As illustrated below, the City is meeting or exceeding these targets.

| Estimated @ December 31st | | | | | | |
|---------------------------|-------|-------|-------|-------|-------|-----------------------------|
| Policy Ratio | 2013 | 2014 | 2015 | 2016 | 2017 | Target |
| Discretionary Reserve | 72.6% | 67.0% | 62.7% | 58.7% | 64.7% | >50% of own source revenues |
| Working Capital | 9.8% | 9.6% | 9.4% | 9.2% | 9.1% | >10% of own source revenues |
| Debt Level * | 6.2% | 6.2% | 6.4% | 6.2% | 5.3% | <10% of own source revenues |

Note

*Includes commitments for OSA and Vaughan Sports Complex.

*Ratios are affected by contribution and own source revenue forecasts

- *Discretionary reserves provide the City with financial flexibility in order to safeguard against economic downturns and finance operations internally. This ratio is a strong indicator of Vaughan's financial health. The decrease in the 2014 discretionary reserve ratio is related to a number of capital projects and reserve transfers.*
- *Working capital funds provide in-year cash flow requirements. This ratio is relatively stable over the 4 year term, but does illustrate a slight decline. This is a result of contributions being surplus based, which are not planned or forecasted, only applied once realized.*
- *The Debt Policy sets limitations on the use of debt in order to retain financial flexibility by avoiding long-term commitments and the high cost of interest. The City's policy limits debt to a maximum of 10% of total City revenue, which is significantly lower than the Province's 25% maximum. This ratio is relatively stable over the capital plan, but drops significantly in 2017 due to a large debt retirement. However, based on the plan there is pressure on debt financing to address a number of significant capital projects i.e. Black Creek, Works Yard, and City Hall Square.*

Based on the above noted financial policies, Finance staff have assessed the availability of funding and established funding lines within each funding source. It should be noted, that a long standing City practice is only capital projects with secured available funding sources are recommended, otherwise specific Council approval is required. Each annual plan is funded from a variety of sources. Illustrated below are the Capital Budget and Plan funding sources and Capital Expenses by department.

| Category | 2014 | | 2015 | | 2016 | | 2017 | |
|--------------------------|------|------|------|------|-------|------|-------|------|
| Reserves | 15.6 | 30% | 14.5 | 19% | 18.3 | 14% | 12.9 | 8% |
| Gas Tax Funding | 10.9 | 21% | 8.3 | 11% | 7.9 | 6% | 6.9 | 5% |
| Development Charges | 10.3 | 20% | 33.2 | 44% | 64.8 | 50% | 66.8 | 43% |
| Taxation | 6.5 | 13% | 6.3 | 8% | 8.0 | 6% | 7.0 | 5% |
| Debentures | 6.4 | 13% | 12.3 | 16% | 30.1 | 23% | 60.1 | 39% |
| Grants & Other Financing | 1.6 | 3% | 0.4 | 1% | 0.6 | 0% | 0.0 | 0% |
| Grand Total | 51.4 | 100% | 75.0 | 100% | 129.7 | 100% | 153.9 | 100% |

Note: Due to a few large growth projects and corporate initiatives, the Capital Plan for 2016 to 2017 includes an unfunded balance, which is further discussed in the report's capital from taxation section.

| Department | 2014 | 2015 | 2016 | 2017 |
|--|-------------------|-------------------|--------------------|--------------------|
| Engineering Services | 21,051,632 | 18,846,562 | 21,819,891 | 21,412,524 |
| Park Development | 7,955,498 | 17,347,476 | 8,853,534 | 26,937,573 |
| Libraries | 4,962,520 | 2,812,750 | 6,598,360 | 7,977,070 |
| Public Works | 3,456,650 | 3,753,625 | 20,024,557 | 47,770,859 |
| Bulding & Facilities | 3,396,108 | 5,123,997 | 34,284,634 | 20,970,800 |
| Fleet | 2,584,700 | 1,348,900 | 799,600 | 1,324,050 |
| Development Transportation Engineering | 2,450,345 | 16,716,539 | 25,626,100 | 22,488,777 |
| Park & Forestry Operations | 2,098,454 | 2,227,421 | 1,542,891 | 1,509,861 |
| Information Technology Management | 1,205,200 | 1,939,200 | 1,655,200 | 1,595,200 |
| Building Standards | 540,750 | | | |
| Development Planning | 380,000 | 250,600 | | 130,000 |
| Fire & Rescue Services | 369,100 | 3,929,950 | 8,115,100 | 901,700 |
| Real Estate | 267,800 | 267,800 | 267,800 | 267,800 |
| ByLaw & Compliance | 243,150 | 114,400 | | |
| Recreation | 203,901 | 269,400 | 125,100 | 125,100 |
| Human Resources | 113,300 | | | 103,000 |
| Economic & Business Development | 103,000 | | | |
| Access Vaughan | 50,500 | 50,500 | | |
| Environmental Sustainability | | 48,925 | | |
| Emergency Planning | | | | 197,110 |
| Finance | | | | 154,500 |
| Total Capital Budget Plan Expense | 51,432,608 | 75,048,045 | 129,712,767 | 153,865,924 |

Capital Program Operating Implications

Many of the above capital programs have associated operating implications. These costs are imbedded in City's base operating budget or recommended additional resource requests. The balances in the below table illustrate these implications. Operational requirements will typically be lower in the first year due to the construction timing involved. Debenture financing is primarily leveraged for the City's roads program. Infrastructure contributions are required to begin funding the ultimate replacement of infrastructure funded through the development community. Should the Committee recommend additional capital projects or move projects forward there could be additional tax rate implications associated.

| Capital Program Est. Operating Implications | 2014 | | | 2015 | | | 2016 | | | 2017 | | |
|--|--------------|-------------|-------------|--------------|-------------|-------------|--------------|-------------|-------------|--------------|-------------|-------------|
| | Rate Incr. | \$ (m) | Bill Incr. | Rate Incr. | \$ (m) | Bill Incr. | Rate Incr. | \$ (m) | Bill Incr. | Rate Incr. | \$ (m) | Bill Incr. |
| Operational Requirements | 0.54% | 0.85 | \$7 | 1.98% | 3.26 | \$25 | 2.13% | 3.70 | \$27 | 1.92% | 3.51 | \$25 |
| Debenture Financing | 0.37% | 0.58 | \$4 | 0.30% | 0.50 | \$4 | 0.32% | 0.56 | \$4 | 0.00% | - | \$0 |
| Infrastructure Contributions | 0.36% | 0.57 | \$4 | 0.75% | 1.23 | \$9 | 0.71% | 1.23 | \$9 | 1.71% | 3.13 | \$22 |
| *Total | 1.27% | 2.00 | \$15 | 3.03% | 4.98 | \$38 | 3.16% | 5.49 | \$40 | 3.64% | 6.64 | \$47 |

** Figures represent the estimated operating implications associated with the capital program. These operating implications are incorporated in the operating budget.*

BUDGET UPDATES

The budgeting process is constantly evolving to the needs and requirements of departments, management, Council and residents. Detailed within this section are brief highlights to be aware of:

New Information

The Draft 2014 Budget and 2015-2017 Plan is based on information at a point in time and as the budget process unfolds new information may become available through deputations, staff items or Committee/Council decisions. Adjustments will be consolidated into a final proposed budget and presented to the Community and Council at a public input session at the end of the process.

Public Service Renewal (PSR)

Early in 2013, the Mayor requested for the Senior Management Team (SMT) to engage in a process of reform, with the view of focusing on public service excellence. Beginning in April staff endeavoured to review and develop initiatives and on October 7th an update report was presented to Council identifying 23 initiatives that were well underway. Ten of those initiatives are managed internally with little financial impact, but potential for future cost avoidance. Three initiatives require investment for which ARR's have been identified and submitted. These requests are clearly identified on the recommended ARR list e.g. contract management, economic development realignment and audit coordinator. The remaining ten initiatives cannot be clearly defined at this time and will be the subject of future individual reports and financial assessments e.g. Marketing Partnership strategy, Engineering and Planning Commission realignments, Procurement to Pay Review, Corporate IT strategy, etc. In addition to the above, a culture of continuous improvement throughout the City has caught on. This is evident by the number of additional resource requests either fully or partially offset by repurposing vacant positions or budgets. This is another example of the City providing community value.

Amortization vs. Budget Contributions

The City's Draft 2014 Budget and 2015-2017 Plan is developed excluding full amortization and post employment benefits. The costs and associated tax implications of budgeting for full amortization are significant. The main reasons for the funding differences are:

1. The majority of the City's assets are funded by the development industry, leaving the City to fund renewal costs at a much later date, primarily through taxation.
2. There is a surge in future post employment benefits caused by staffing requirements to service growth, who are eligible for post retirement benefits after 5 years of service.

Ontario Regulation 284/09 – "Budget Matters – Expenses" states that municipalities may exclude from annual budgets all or a portion of expenses for amortization, post-employment benefit expenses and solid waste landfill closure and post-closure expenses, but does require Council be informed of the above action including the estimated change in the year-end accumulated surplus and estimated impact of the excluded expenses on the municipal funding requirements. It is important to note these expenses are recognized and reflected in the City's annual financial statements, but they are not fully funded through the City's budget and tax levy. A committee report is scheduled for November 18th, 2013.

Impact of Excluded Expenses/Estimated Change in Accumulated Surplus

| Funding vs. Amortization (In Millions) | Annual Budget Funding | Prior Year Amortization | Gap |
|---|----------------------------------|------------------------------------|-------------|
| City Asset Renewal | 23.1 | 44.1 | 21.1 |
| City Post Employment Benefits | 1.3 | 12.5 | 11.3 |
| Combined | 24.3 | 56.7 | 32.3 |

**Excludes Water and Waste Water (Separate Process)*

**Reporting on solid waste landfill closure and post-closure expenses is not applicable in Vaughan*

As reported in many journals and articles, the above situation is consistent for most Canadian municipalities. Due to sound financial planning, Vaughan is in a strong financial position and ahead of most municipalities. To begin to address the forecasted capital asset renewal funding gap, the City has implemented several initiatives. For example, reserve policies which limit the use of funds, policies regarding the transfer of annual operating surpluses to reserves, and the adoption of life cycle based contributions for new assets. These initiatives are positioned to address the need on a go forward basis. However, future funding will be required to address the backlog and/or prior contribution deficiencies. Recently, the City has undertaken a Corporate-wide asset management initiative to better understand the condition of the City's assets and timing of maintenance, repair and replacement requirements. This information will paint a clearer picture of the financial requirements and timing to sustain the community's infrastructure network.

Quick Facts

The following information is provided for quick reference to assist in providing the public and Council members with a context within which to assess the Draft 2014 Operating Budget and 2015-2017 Operating Plan.

Draft Budget (Base + ARRs)

| | 2013 | (Projected) | | | |
|--|-------------|--------------------|-------------|-------------|-------------|
| | | 2014 | 2015 | 2016 | 2017 |
| Average residential assessment | \$ 517,000 | \$ 551,000 | \$ 587,000 | \$ 626,000 | \$ 667,000 |
| Total taxes levied on the average assessed home *** | 4,597 | 4,695 | 4,804 | 4,896 | 5,002 |
| City of Vaughan portion (27%) | 1,228 | 1,286 | 1,357 | 1,410 | 1,477 |
| City of Vaughan tax adjustment % on total taxes | | 1.3% | 1.5% | 1.1% | 1.4% |
| Vaughan Hospital Precinct Development Levy (avg. home) | 60 | 60 | 60 | 60 | 60 |
| Reduction for qualifying seniors | 321 | 336 | 355 | 369 | 386 |
| A 1% increase in the tax rate generates | \$1.495m | \$1.57m | \$1.69m | \$1.84m | \$1.97m |
| Impact of a 1% increase on the average home | \$ 11.96 | \$ 12.17 | \$ 12.76 | \$ 13.46 | \$ 13.99 |
| Assessment growth (projected) | 2.26% | 2.25% | 2.75% | 3.00% | 3.20% |
| Draft Tax Rate Increase | | 4.80% | 5.49% | 3.97% | 4.76% |

***Increase based only on Vaughan increase

Draft 2014 Operating Budget and 2015-2017 Operating Plan Review

The City of Vaughan continues to be subjected to many factors that place pressures on the property tax rate. Inherent in the annual operating budget process are the normal pressures of inflation, growth, staffing resources, external contract costs, collective agreements, fluctuating revenues etc. which are further compounded by expanding service requirements and tax funded infrastructure renewal cost impacts experienced by a high growth municipality. This situation presents challenges to achieving a balanced budget and maintaining service levels while minimizing associated tax rate increases and achieving Council's priorities. To assist the public and Council Members with understanding the challenges facing the City, and to assess the Draft 2014 Operating Budget and 2015-2017 Operating Plan, the remainder of this section is dedicated to reviewing the following budget components:

- A. *Base budget under the guidelines*
- B. *Base budget revenue review*
- C. *Base budget expenditure review*
- D. *Additional resource requests*

Associated Attachments:

- 1: Draft Operating Revenue and Expenditure Summary*
- 2: Draft Additional Resource Request Summary*
- 5: Financial Information and Analysis*
- 6: Draft Department Information*
- Appendix A: ARR Submissions*

Following the above sections is a Capital Budget & Plan Overview by Funding Source

A. Base Budget Under the Guidelines

Based on the budget guidelines, the City's Draft 2014 Operating Budget and 2015-2017 Operating Plan and associated increases are reflected below:

| | 2014 | 2015 | 2016 | 2017 |
|----------------------------------|---------|---------|---------|---------|
| City's Expense Budget | \$246m | \$255m | \$263m | \$270m |
| Net Taxation Change | \$2.95m | \$4.76m | \$2.88m | \$4.34m |
| Avg. Residential Tax Rate Change | 1.88% | 2.89% | 1.65% | 2.38% |

The budget guidelines were designed to restrict expenditure increases and this process has been successful as demonstrated by the 1.85% average departmental annual expense increase over the four year plan. Incorporating corporate pressures raises the total average expense increase over the plan to 3.15%. Specific annual increases are illustrated in *Attachment 1- Draft Operating Revenue & Expenditure Summary*.

In general, account budgets remained at prior year budget levels with the exception of established commitments and pre-defined external pressures as defined by the approved budget guidelines. In order to check adherence to the guidelines, budget submissions were verified to ensure increases were consistent with budgetary guidelines. Through budget submission reviews and assurances from Commissioners and Directors, there is a very high level of confidence that approved guidelines were followed.

The Draft 2014 Operating Budget includes \$3.1m subsidization from the Tax Rate Stabilization Reserve and anticipates a \$2.5m surplus carried forward from 2013. The 2015-2017 Operating Plan continues with this trend, but to a slightly lesser degree. This is necessary to slowly transition to a more predictable and sustainable funding source. The above budget also includes approved user fee increases up to 2016. A report will be provided at a later date regarding any fee updates and will include fee increases for 2017. The above base budget figures **exclude all** budget changes associated with the recommended additional resource requests (ARRs). These are discussed separately in the report and will require Council approval.

Considering Factors Other Than CPI When Assessing the Budget

When assessing the Operating Budget, it is very important to put municipal cost increases into perspective. It is very common for stakeholders to gauge a municipality's performance against the Consumer's Price Index (CPI), but there are 2 inherent pitfalls with this comparison:

1. Inflation rates capture cost increases and do not incorporate non-cost related factors associated with a municipality such as growth, infrastructure repair, new services or initiatives, legislative requirements, revenue fluctuations, etc. These are in addition to CPI.
2. CPI is intended to measure the cost increases experienced by the typical Canadian household and includes retail items such as food, clothing, entertainment and other household purchases. Unlike an average Canadian household, municipal expenses are very labour, contract, and material intensive. An alternative approach would be to use a ***Municipal Price Index (MPI)*** based on applying relevant indices/indicators to the weighting of major expense categories.

| Component | Inflation Figure | Source | % of Budget | Weighted Average |
|---------------------------------------|------------------|--|-------------|------------------|
| Salaries and Benefits | 1.9% | Ministry of Labour (COV traditionally higher) | 57.1% | 1.1% |
| Labour Sub total | | | | 1.1% |
| Contracts and Materials | 5.0% | 5 yr Average Historical Increase | 14.8% | 0.7% |
| Utilities and Fuel | 1.5% | Stat's Can. Aug./13 - Energy CPI | 3.8% | 0.1% |
| All Other | 1.1% | Core Inflation - Sept. 2013 | 20.0% | 0.2% |
| Other Sub total | | | | 1.0% |
| Capital Funding | 0.8% | Construction Price Index | 2.6% | 0.0% |
| Insurance | 11.0% | AMO - 2011 white paper | 1.7% | 0.2% |
| Corporate Sub total | | | | 0.2% |
| Combined Municipal Price Index | | | | 2.3% |

The City's base budget expenditures are increasing over the 4 year period on average by 3.15%. Although comparable to the MPI, embedded in these figures are non-price related increases associated with contract/utility growth, increases in infrastructure funding, and full-year implication of prior budgets. Removing these items from the presented overall expenditure would yield an estimated average increase over the four year plan of 2.06%. The base budget average City expenditure increases over the plan are below the municipal price index range signalling Vaughan is managing within industry trends.

Major Base Budget & Tax Rate Change

On average approximately 60% of the City's expense increase is attributable to changes to support the City's workforce, including estimates for collective agreement negotiations and management by-laws. An additional 10% to 30% of the increase is related to external service contracts, insurance and utilities (e.g. increases in snow removal, waste management, electricity, insurance premiums, etc.). These services are generally contracted, competitively tendered and awarded to the lowest bidder. It should be noted that contracts can span multiple years resulting in price increase spikes when renewed. The remaining portion is largely a result of the City's growing capital program, infrastructure requirements, and corporate accounts.

To assist the Committee in assessing the Draft Operating Budget and Plan resulting from the budget guidelines, the following summary is provided below:

Budget & Tax Rate Change

| | 2014 | | 2015 | | 2016 | | 2017 | |
|------------------------------------|------------------|--------------|------------------|--------------|------------------|--------------|------------------|--------------|
| General Operational Impacts | | | | | | | | |
| Benefits & Other adj | 876,056 | 0.56% | 830,839 | 0.49% | 758,528 | 0.41% | 661,489 | 0.34% |
| Progression/Job Eval/Adj | 817,468 | 0.52% | 871,852 | 0.52% | 808,163 | 0.44% | 308,140 | 0.16% |
| Eco adj (Union/Mgmt/Fire) | 2,153,423 | 1.37% | 2,400,145 | 1.42% | 70,069 | 0.04% | 26,462 | 0.01% |
| Station 7-5 FY Impact | 671,519 | 0.43% | - | 0.00% | - | 0.00% | - | 0.00% |
| FT Contract reductions | (554,633) | -0.35% | (75,232) | -0.04% | 9,445 | 0.01% | (216,401) | -0.11% |

| Subtotal | 5,410,157 | 3.45% | 5,902,039 | 3.49% | 4,721,067 | 2.57% | 3,965,930 | 2.01% |
| Contracts | 450,506 | 0.29% | 744,495 | 0.44% | 982,008 | 0.53% | 1,009,514 | 0.51% |
| Insurance | - | 0.00% | - | 0.00% | 410,263 | 0.22% | 130,744 | 0.07% |
| Utilities | 301,868 | 0.19% | 309,140 | 0.18% | 328,356 | 0.18% | 347,727 | 0.18% |
| Carrville Community Centre | - | 0.00% | - | 0.00% | - | 0.00% | 1,032,018 | 0.52% |
| Subtotal | 752,374 | 0.48% | 1,053,635 | 0.62% | 1,720,627 | 0.94% | 2,520,003 | 1.28% |
| LTD net | (121,033) | -0.08% | 1,254,634 | 0.74% | (177,579) | -0.10% | (2,500,000) | -1.27% |
| Reserve Contributions | 569,709 | 0.36% | 1,227,723 | 0.73% | 1,230,473 | 0.67% | 3,129,775 | 1.59% |
| Capital from Taxation | 127,785 | 0.08% | 130,342 | 0.08% | 132,948 | 0.07% | 135,607 | 0.07% |
| Subtotal | 576,461 | 0.37% | 2,612,699 | 1.55% | 1,185,842 | 0.65% | 765,382 | 0.39% |
| Tax Adjustments | 125,000 | 0.08% | 125,000 | 0.07% | - | 0.00% | - | 0.00% |
| Election (reserve offset) | 755,160 | 0.48% | (754,396) | -0.45% | 478 | 0.00% | 478 | 0.00% |
| York Region Transit | 147,000 | 0.09% | 32,458 | 0.02% | 33,414 | 0.02% | 34,402 | 0.02% |
| Other | 62,648 | 0.04% | (736) | 0.00% | (55,255) | -0.03% | (61,726) | -0.03% |
| Expense Change | 7,828,800 | 4.99% | 8,970,699 | 5.31% | 7,606,173 | 4.14% | 7,224,469 | 3.67% |

The above changes in the City's expenditures are partially offset by limited revenue streams, primarily user fees, reserve funding, assessment growth and other sources. Any shortfall between City revenues and expenses are funded through taxation increases. Summarized below are the major changes in revenue streams and associated net change on taxation.

Budget & Tax Rate Change

| | 2014 | | 2015 | | 2016 | | 2017 | |
|---------------------------------|--------------------|---------------|------------------|---------------|------------------|---------------|--------------------|---------------|
| Decrease in Revenues | | | | | | | | |
| Supplemental | (1,782,683) | -1.14% | (300,000) | -0.18% | - | 0.00% | - | 0.00% |

B. Base Budget Revenue Review

| | 2014 | | 2015 | | 2016 | | 2017 | |
|----------------------|---------------|--------------|---------------|-----------|---------------|--------------|---------------|----------------|
| | Budget | Change | Budget | Change | Budget | Change | Budget | Change |
| Base Budget Revenues | \$ 83,737,995 | \$ 1,422,606 | \$ 83,751,555 | \$ 13,560 | \$ 83,603,211 | \$ (148,344) | \$ 81,021,987 | \$ (2,581,224) |

The above figures exclude any impact associated with assessment growth. Further information regarding specific revenue adjustments are provided below:

Supplemental Taxation

| | 2014 | | 2015 | | 2016 | | 2017 | |
|---------------|--------------|----------------|--------------|--------------|--------------|--------|--------------|--------|
| | Budget | Change | Budget | Change | Budget | Change | Budget | Change |
| Supplementals | \$ 3,500,000 | \$ (1,782,683) | \$ 3,200,000 | \$ (300,000) | \$ 3,200,000 | \$ - | \$ 3,200,000 | \$ - |

Supplemental taxation is generated from additional assessment forwarded to the City from Municipal Property Assessment Corporation (MPAC) over the course of the year and is primarily a result of new construction recorded after the final roll. Last year, MPAC's focus on reassessment activities resulted in lower assessment growth figures across the GTA. The City mitigated this impact by adjusting supplemental taxation in anticipation of MPAC catching up with the true assessment figure through supplemental taxation and future increased assessment growth. As reflected in 2014, this approach is phased down. Unfortunately, assessment growth estimates continue to be low and are not fully offsetting this reduction. Supplemental taxation is typically received in November/December and depending on those results it may be possible to further extend the phase down. Committee/Council is cautioned of the risk associated with this action as the City is dependant on MPAC's processing performance.

Funding from Reserves:

| | 2014 | | 2015 | | 2016 | | 2017 | |
|-----------------------|---------------|--------------|---------------|--------------|---------------|--------------|---------------|----------------|
| | Budget | Change | Budget | Change | Budget | Change | Budget | Change |
| Funding from Reserves | \$ 20,482,791 | \$ 1,105,629 | \$ 19,905,395 | \$ (577,396) | \$ 19,131,873 | \$ (773,522) | \$ 16,211,351 | \$ (2,920,522) |

2014 increase of \$1.1M:

Increases

- The Election reserve draw increased by \$755K to cover the additional costs of the 2014 election plus the additional tabulator costs. There is no impact on the budget as there is an associated increase in expenses.
- There is also a \$666K increase in the Building Standards reserve, to neutralize the Building Standards full costing gap, as per policy.
- Engineering reserve increased by \$548K to reflect associated expense increases.

Decreases

- Debenture payment reserve withdrawals decreased by \$700K, these transfers are tied to debenture payments and are intended to smooth out timing spikes. The net increase in debenture requirements is approximately \$578K.
- Fleet management reserve funding final year phase out, \$121K.
- The Water & Wastewater recovery decreased by \$107K to reflect activities between the City and Water/Waste Water services. This was due to some expense items being moved permanently to the Water & Wastewater budget.

Changes from 2015 to 2017:

- The largest component of future budget decreases are related to additional funding from the debenture reserve to smooth increases in debenture payments. Budget withdrawals are planned to peak in 2015 then decline as debentures stabilize. The overall net impact on the budget is an increase of \$498K in 2015 followed by decreases of \$562K in 2016, and \$0M in 2017.
- An election is scheduled for 2014; as a result associated expenses are planned which are neutralized by corresponding reserve withdrawal increase of \$755K in 2014. In 2015, the withdrawal is removed. It is anticipated, that a report on the election process will be coming forward later in the budget process.
- From 2015-17, there is a planned annual decrease of \$400K in funding from Tax Rate Stabilization reserve. This is necessary to slowly transition to a more predictable and sustainable funding source.
- Budget changes in Engineering, Building Standards and Water/WasteWater recoveries services are a result of activity, departmental cost changes and anticipated growth trends. The total adjustments amounted to a decrease of \$47K in 2015, increase of \$205K in 2016 and decrease of \$40K in 2017.

User Fees / Service Charges

| | 2014 | | 2015 | | 2016 | | 2017 | |
|-------------------------|---------------|--------------|---------------|------------|---------------|--------------|---------------|--------------|
| | Budget | Change | Budget | Change | Budget | Change | Budget | Change |
| Fees/Charges/Recoveries | \$ 38,884,541 | \$ 1,534,575 | \$ 39,699,111 | \$ 814,570 | \$ 40,796,443 | \$ 1,097,332 | \$ 42,141,360 | \$ 1,344,917 |

Major Budget Adjustments

- The largest component of the budget increases are in the Recreation Department due to the climbing demand for services, general price increases and York Region transit ticket sales. It should be noted that these increases are largely offset by similar expenditure value increases. Revenue increases related to recreation are \$721K for 2014, \$347K in 2015, \$357K in 2016 and \$995K in 2017. The 2017 increase is larger due to the planned addition of the planned Carrville Community Centre.
- The second largest component of the budget increases are related to an anticipated increase in planning activity. The majority of the 2014 increase is related to site plan agreements, which have been adjusted to better reflect past performance. In addition, development activity is anticipated within the Vaughan Metropolitan Centre, Carrville, Concord and Thornhill development areas. Based on the above, planning revenues are anticipated to increase \$639K for 2014, \$129K in 2015, \$173K in 2016 and \$140K in 2017.
- The remainder of the increases were in Clerks - Licensing, Committee of Adjustment, Public Works, Parks and Forestry Operations etc.
- Building Standards had a decrease in budgeted revenues due to fewer applications received in 2012 and 2013. The revenues are expected to trend upwards in the later years as building standards permits catch up with development planning applications that have already been processed.

User fee Increases Included in the Above

The guidelines include a requirement for all user fees and service charges to be increased in relation to department cost increases and, at minimum, by the rate of inflation. As part of last year's process, a change was made to coordinate and consolidate the planning of these by-laws for review, update and budget approval under one common process. Benefits of this action resulted in improved transparency, updating by-laws that were missed in prior processes, and business continuity through a multi-year fee structure. Although the impacts are incorporated into the draft budget, a later report on user fee adjustments and any new fees will be presented annually for Council review, deliberation and approval.

The combined impact associated with approved fee by-law price increases, adjustments, any new fees and associated volume increases are as follows:

| By-Law | Dept/Desc | 2013 | | | | 2014 | | | | 2015 | | | | 2016 | | | | 2017 | | | |
|----------|--|------------------|--|------------------|----------------|-------------|--|------------------|----------------|-------------|--|------------------|----------------|-------------|--|------------------|----------------|-------------|--|----------|---|

User Fee Cost Recovery Philosophy and Targets

It is important to recognize that there is an ongoing balance between funding through a fee for specific user based services versus funding City services through the general tax rate. To the extent that there is a user fee, that fee should be adjusted annually to reflect changes in the cost of delivering the service; otherwise, by default, there would be a requirement to fund cost increases through the property tax rate.

Approximately 90% of the City's user fees are generated by the following 5 areas:

- Recreation
- Building Standards
- Planning and Committee of Adjustment (COA)
- By-law & Compliance
- Licensing

As a result, the majority of the above departments have conducted various fee studies. Some studies resulted from legislative requirements and others were staff-initiated in-depth studies, resulting in the development of cost recovery policies, principals and targets endorsed by Council. In addition, various benchmarking comparisons have been performed by departments and external consultants indicating Vaughan's recovery targets are on-par or better than neighbouring municipalities. Detailed below is a summary of department and estimated full cost recovery ratios for these areas:

2014-17 Final Budget - Department Recovery Analysis

| 2014 Department Budgeted Recovery (Figures in Thousands) | Recreation | Licensing | By-Law & Compliance | Animal Services | Planning | COA | Building Standards (OBC) | Building Standards (Non-OBC) |
|---|--------------------------|--------------------------|------------------------|--------------------|--------------------------|--------------------------|--------------------------------|------------------------------------|
| Revenues | \$ 18,870 | \$ 1,236 | \$ 1,901 | \$ 493 | \$ 4,169 | \$ 507 | ** \$ 9,862 | \$ 450 |
| Expenditures | 19,851 | 572 | 4,211 | 1,145 | 3,176 | 580 | 5,757 | 542 |
| Subsidy/(Surplus) | 981 | (664) | 2,310 | 652 | (993) | 72 | (4,105) | 93 |
| 2014 Dept Budget Recovery Ratio | 95% | 216% | 45% | 43% | 131% | 88% | 171% | 83% |
| 2015 Dept Budget Recovery Ratio | 96% | 226% | 45% | 44% | 135% | 93% | 172% | 89% |
| 2016 Dept Budget Recovery Ratio | 98% | 239% | 45% | 44% | 139% | 99% | 174% | 97% |
| 2017 Dept Budget Recovery Ratio | 99% | 241% | 44% | 45% | 149% | 98% | 176% | 97% |
| Memo: 2013 Dept. Budget Recovery Ratio | 94% | 176% | 44% | | 113% | 82% | 169% | 76% |
| Full Cost Estimate (ABC Model) | ** \$ 41,448 | \$ 1,477 | \$ 4,209 | \$ 1,733 | \$ 5,547 | \$ 1,190 | \$ 9,862 | 1,369 |
| Subsidy/(Surplus) | 22,578 | 242 | 2,308 | 1,239 | 1,378 | 683 | (0) | 919 |
| 2014 Full Cost Recovery Ratio | 46% | *** 84% | 45% | 28% | 75% | 43% | 100% | 33% |
| 2015 Full Cost Budget Recovery Ratio | 45% | 87% | 44% | 31% | 75% | 45% | 100% | 35% |
| 2016 Full Cost Budget Recovery Ratio | 46% | 91% | 43% | 31% | 75% | 47% | 100% | 38% |
| 2017 Full Cost Budget Recovery Ratio | 45% | 91% | 42% | 31% | 75% | 47% | 100% | 38% |
| Memo: 2013 Full Cost Budget Recovery Ratio | 44% | 70% | 45% | | 60% | 40% | 100% | 27% |
| Policy Recovery Goal | 95% Dept. Cost | 100% Full Cost | | | 100% Full Cost | 100% Full Cost | 100% Full Cost | |

* Building Standards revenues include a draw from Building Standards Continuity Reserve of \$2.6M in 2014, \$2.5M in 2015&16, and \$2.4M in 2017.

** Recreation Building & Facility costs approximately \$17.0M in 2014, \$17.2 in 2015, \$17.3 in 2016 and \$16.2M in 2017.

*** Licensing full cost recovery illustrated is lower than 100% due a portion of the department being devoted to risk management and fee restrictions applied to certain licensing activities (e.g. lottery, livestock).

Overall most areas are recovering more than 80% of their department budgets and projected recovery targets remain stable. It should be noted that most labour agreements expired in 2013 and costs associated with agreement renewals are not incorporated in the above department expenses making planned recovery targets mildly overstated. As illustrated above, a few areas are “below policy recovery goals”, but moving towards their target. Achieving these goals would increase revenue by approximately \$4.2M. Resetting all fees to full cost recovery could potentially generate \$29M in additional revenues. Although moving in this direction appears attractive, caution is advised when setting fees and recovery targets as there is a need to balance price increases with service demand, process compliance and local competition.

Illustrated below are brief comments related to each of the above sections.

- Building Standards continues to maintain a 100% building code full cost recovery target for OBC revenues, with a draw from the Building Standards Service Continuity Reserve in anticipation of lower volumes created by the delayed economic recovery.
- Licensing also continues to achieve their target of full cost recovery for business licensing. The department's full cost recovery is lower than 100% due to a portion of the department being devoted to risk management and some licensing fee restrictions.
- Recreation is planning to recover 95% of their departmental costs. Presented targets are mildly optimistic as labour agreement renewals are not included and could reduce the planned recovery to a figure slightly below their policy target of 95%.
- By-Law & Compliance is planning to recover 44% of their departmental costs. It should be noted that a recovery policy is not in place for By-Law & Compliance, as this service is driven by compliance. Animal Services is planning to recover 43% of their departmental costs and 28% of their full cost in 2014. There currently is no recovery policy in place for Animal Services.
- Planning full cost recovery has increased from 60% to 75% recovery, moving closer to target.
- COA recovery targets are increasing slightly from 43% in 2014 to 47% in 2017.

Corporate Revenues

| | 2014 | | | 2015 | | | 2016 | | | 2017 | | |
|--------------------|---------------|------------|--|---------------|-----------|--|---------------|--------------|--|---------------|----------------|--|
| | Budget | Change | | Budget | Change | | Budget | Change | | Budget | Change | |
| Corporate Revenues | \$ 18,225,463 | \$ 565,085 | | \$ 18,301,849 | \$ 76,386 | | \$ 17,829,695 | \$ (472,154) | | \$ 16,824,076 | \$ (1,005,619) | |

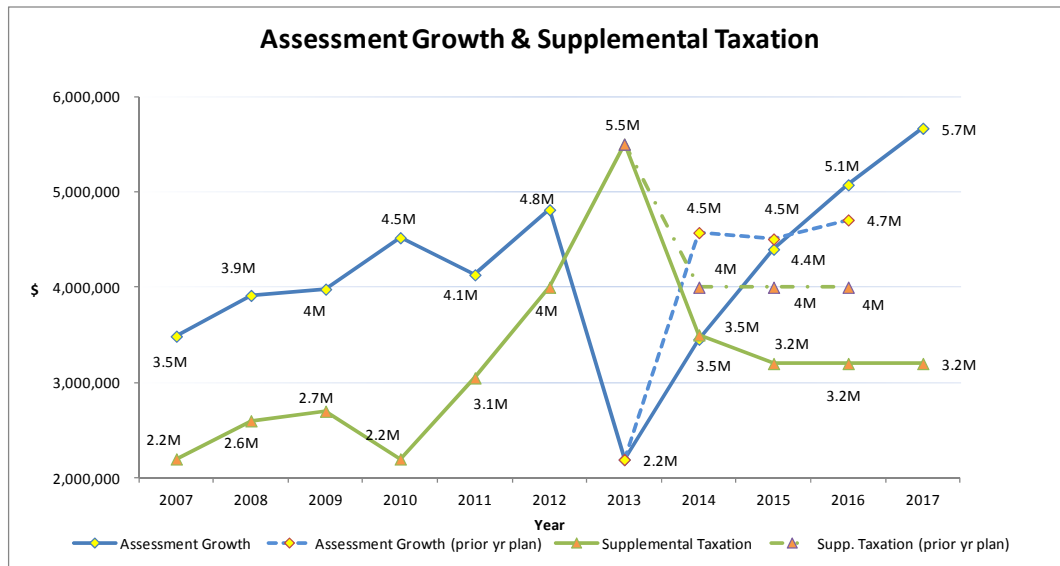

Major Budget Adjustments

- PowerStream Dividends – A revised forecast was recently provided indicating anticipated dividend increases in 2014 of \$775K, 2015 of \$300K. However, there is a forecasted decrease in dividend revenue of \$225K in 2016 and a further decrease of \$1.05M in 2017. This reduction is largely a result of PowerStream's regulatory environment and methodology for calculating their return on capital. The 2016-2017 projections are anticipated to improve with future updates. It should be noted that these figures are subject to change and do not incorporate future dividends resulting from additional equity investment.
- PowerStream Investment Income – The PowerStream Promissory Note interest deferral was renewed in October 2013 at the rate prescribed by the Ontario Energy Board. This action reduced annual interest by \$153k.
- Investment Income – As discussed in previous budget submissions, there is a need to change the methodology used to allocate investment income between the operating budget and reserve accounts. As a result, investment income allocated to the operating budget is phased down by \$225K in 2014 and \$250K in both 2015 and 2016. There is a slight increase of \$40K in 2017. Investment income is also challenged by low interest rates, which are replacing maturing higher yield investments.
- Fines and Penalties – The corporate fines and penalty budget increased by \$200K in 2014 to better reflect actual historical trends. This budget is expected to stabilize through 2017.
- The remaining budget differences consist of relatively minor budgets and changes.

| | 2014 Variance | % Change | Tax Rate Impact | 2015 Variance | % Change | Tax Rate Impact | 2016 Variance | % Change | Tax Rate Impact | 2017 Variance | % Change | Tax Rate Impact |

Assessment Growth

2014 assessment growth is lower than anticipated, due to the Municipal Property Assessment Corporation's (MPAC) processing issues. This is a trend that started in 2013 and impacted assessment growth figures across the GTA. Staff are working with MPAC and other municipalities to resolve the issue. Last year the City mitigated the situation by adjusting supplemental taxation, assuming traditional MPAC assessment growth figures would return in following years. However, last year's plan has changed bringing lower than planned assessment growth and supplemental taxation. Below is an illustration of the above situation.

Supplemental and assessment taxation revenue, although not specifically allocated, help offset the increasing service costs associated with community growth. To illustrate this point, each year City additions are made to:

- Roads
- Sidewalks
- Waste/recycling stops
- Streetlights
- Parkland
- Trails
- Libraries
- Fire operations, etc.

All the above additions require funds to operate and maintain service levels. Included in the Draft 2014-2017 Plan are estimates for staffing, contracts, utilities and associated renewal costs supporting growth. Below are a few items that are indirectly funded through assessment growth.

- Contract and utility volume increases - Ranges between \$750k - \$2.5M, averaging \$1.5M per year over the next 4 years
- Infrastructure renewal - As a City grows infrastructure is added, which is initially funded by the development industry, with replacement costs borne by the City at a later date. Additional funding associated with these costs fluctuates based on new asset timing, but averages \$2.1M per year over the next 4 years.
- Additional Resource Requests - typically \$2M are approved each year for staffing and other costs to service growth i.e. Fire, Community Centers, Parks, etc.
- As illustrated above, the average costs associated with growth, approximately \$5.6M/year, total of above three points, are higher than the forecasted average assessment growth, averaging \$4.5M per year over the plan.

C. Base Budget Expenditure Review

As illustrated in the Revenue and Expense Summary in Attachment #1, the City's expense budget changed as follows:

| | 2014 | | 2015 | | 2016 | | 2017 | |
|--------------------------|----------------|--------------|----------------|--------------|----------------|--------------|----------------|--------------|
| | Budget | Change | Budget | Change | Budget | Change | Budget | Change |
| Base Budget Expenditures | \$ 246,199,978 | \$ 7,828,800 | \$ 255,170,677 | \$ 8,970,699 | \$ 262,776,850 | \$ 7,606,173 | \$ 270,001,319 | \$ 7,224,469 |

Departmental Expenditures

| | 2014 | | 2015 | | 2016 | | 2017 | |
|-------------------------|----------------|--------------|----------------|--------------|----------------|--------------|----------------|--------------|
| | Budget | Change | Budget | Change | Budget | Change | Budget | Change |
| Department Expenditures | \$ 213,760,513 | \$ 4,515,163 | \$ 218,997,239 | \$ 5,236,726 | \$ 222,394,048 | \$ 3,396,809 | \$ 225,606,987 | \$ 3,212,939 |

2014 increase of \$4.5M including the \$262K Library Board increase:

This represents an increase of 2.2% over the 2013 departmental budget, and is largely due to the following items:

- Of the total departmental budget increase, \$4.1M is related to changes in support of the City's workforce consisting of the following:
 - \$2.6M relates to experience progressions, economic adjustments per established agreements, job-evaluations, staff and market adjustments etc.
 - There is a \$876K increase in benefits due to additional complement, economic adjustments, and benefit rate increases caused by increasing OMERS contributions and EI/ CPP thresholds.
 - The full year impact of the Station 7-5 engine first cohort, which started in October of 2013. This increase amounted to \$675K. The second cohort is requested in this year's budget. The full cost associated with staffing an engine is approximately \$2M.
 - It should be noted, one collective labour agreement is under negotiation and the management/non-union by-law is under review. Financial impacts are undetermined and not incorporated in this section. A provision is budgeted for corporately.
- \$451K relates to pressures from contracted services and materials and supplies. These increases are the result of growth demands and industry price obligations. Overall, contract service lines increased by 1.5% and relate to winter control, ITM services, waste management etc.
- A \$411K increase in utilities is due to rising prices as permitted in the approved budget guidelines. This balance includes volume related increase for fuel.
- A \$147K increase in YRT ticket purchases to match historical trends. There is an associated revenue increase to incorporate the City's commissions.
- The remaining increases are minor and in various other accounts.

Changes from 2015 to 2017

The City's Workforce: The increases in the department budgets continue to be related to the City's workforce. Pressures associated with benefits, progressions, job-evaluations, etc. continue into 2017, but at reduced amount due to the achievement of maximum level experience progressions and the exclusion labour agreement implications (e.g. two collective agreements expire in 2016). Post agreement labour estimates are planned for corporately along with other uncertain events.

Contracts: The second largest component of the 2015-2017 department expenditure increases is related to contract services, \$744K in 2015 and \$982K in 2016. For 2017, there is an increase of \$1.3M including \$279K in maintenance contracts for Carrville Community Centre. These increases are typically the result of increasing demands for services due to growth and industry price obligations. Overall contract service lines increased by 2.3% in 2015, 2.6% in 2016 and 2.3% in 2017 mainly relating to waste management, winter control, maintenance contracts, ITM services, etc.

Utilities: The third largest component of the 2015-2017 department expenditure increases is related to utilities, \$309K in 2015 and \$328K in 2016. For 2017, there is an increase of \$719K including \$371K for Carrville Community Centre. Overall utility increased by 3.7% in 2015, 3.8% in 2016 and 8% in 2017. These increases are typically the result of increasing volumes and industry price expectations as permitted in the guidelines.

The remaining balance consists of relatively minor increases in multiple accounts.

Explanations for Department Budget Changes in excess of \$100K are provided in Attachment 5 – Budget Analysis & Other Information.

Reserve Contributions and Corporate Expenditures

Reserve contributions and corporate expenditures contributed to the remaining City expenditures, which required the following adjustments:

| | 2014 | % | Tax Rate | 2015 | % | Tax Rate | 2016 | % | Tax Rate | 2017 | % | Tax Rate |
|-------------------------------------|------------------|---------|-------------|------------------|---------|-------------|------------------|--------|-------------|------------------|--------|-------------|
| | Variance | Change | Impact | Variance | Change | Impact | Variance | Change | Impact | Variance | Change | Impact |
| Contingency | 1,770,627 | 76.2% | 1.1% | 1,716,724 | 41.9% | 1.0% | 2,974,862 | 51.2% | 1.6% | 3,236,240 | 36.8% | 1.6% |
| Long Term Debt | (121,033) | -0.9% | -0.1% | 1,254,634 | 8.9% | 0.7% | (177,579) | -1.2% | -0.1% | (2,500,000) | -16.5% | -1.3% |
| Reserve Contributions | 569,709 | 8.2% | 0.4% | 1,286,668 | 17.2% | 0.8% | 1,230,473 | 14.0% | 0.7% | 3,129,775 | 31.1% | 1.6% |
| -Parks Infrastructure | (152,070) | -25.3% | -0.1% | 1,002,300 | 222.9% | 0.6% | 344,706 | 23.7% | 0.2% | 1,179,069 | 65.6% | 0.6% |
| -Bldg & Facilities | 335,165 | 14.6% | 0.2% | 152,597 | 5.8% | 0.1% | 711,852 | 25.6% | 0.4% | 1,706,457 | 48.8% | 0.9% |
| -Fire & Rescue | (35,384) | -2.7% | 0.0% | 56,458 | 4.4% | 0.0% | 157,217 | 11.7% | 0.1% | 37,059 | 2.5% | 0.0% |
| -Additional Vehicle | 205,195 | 112.6% | 0.1% | 3,718 | 1.0% | 0.0% | 3,793 | 1.0% | 0.0% | 3,869 | 1.0% | 0.0% |
| -Other Reserve Contrib. | 216,803 | | | 71,595 | | | 12,905 | | | 203,321 | | |
| Capital from Taxation | 127,785 | 2.0% | 0.1% | 130,342 | 2.0% | 0.1% | 132,948 | 2.0% | 0.1% | 135,607 | 2.0% | 0.1% |
| Corporate Expenditures | 966,549 | -147.7% | 0.6% | (654,395) | -209.7% | -0.4% | (10,293) | 3.0% | 0.0% | (49,045) | 13.9% | 0.0% |
| -Tax Adjustments | 125,000 | 6.2% | 0.1% | 125,000 | 5.8% | 0.1% | 0 | 0.0% | 0.0% | 25,000 | 1.1% | 0.0% |
| -Election | 755,160 | 280.1% | 0.5% | (754,396) | -73.6% | -0.4% | 478 | 0.2% | 0.0% | 478 | 0.2% | 0.0% |
| -Joint Service Agreement | 23,090 | 5.1% | 0.0% | 14,200 | 3.0% | 0.0% | 14,629 | 3.0% | 0.0% | 15,078 | 3.0% | 0.0% |
| -Anticipated Labour Saving | (1) | 0.0% | 0.0% | (49,099) | 1.2% | 0.0% | (33,400) | 0.8% | 0.0% | (37,801) | 0.9% | 0.0% |
| -Other Corporate Exp. | 63,300 | | 0.0% | 9,900 | | | 8,000 | | | (51,800) | | |
| Total Reserve Contributions | | | | | | | | | | | | |
| & Corporate Expenditures | 3,313,637 | | 2.1% | 3,733,973 | | 2.2% | 4,150,411 | | 2.3% | 3,952,577 | | 2.0% |

Explanations for the budget changes are as follows:

2014 Increase of \$6.2M:

- The City's contingency budget increased by \$1.7M and relates to future labour agreement negotiations and certain foreseeable events. Once the outcomes of these events are determined, balances will be reallocated to the appropriate department budgets.
- Long term debt payments decreased by \$0.1M as the anticipated 2013 debt issuance was smaller than expected and rolled into the following year. This can occur if capital project completions are less than expected. Debenture reserve funding is used to smooth debenture costs and when combined the net impact is \$0.6M for the year.
- Infrastructure Reserve contributions increase by \$570K, as per policy to support the replacement of community buildings, vehicles, parks, etc. Contributions are based on new asset life cycle replacement principles and indexed to keep pace with market replacement costs.
- Capital from taxation increased by \$128K to support the non-reserve funded capital program items and associated initiatives. This increase is also intended to keep pace with market rates.
- Corporate Expenditures increased by \$966K and are attributable to the following:
 - Tax adjustments increased by \$125K due to economic conditions.
 - Election costs increase by \$755K to reflect tabulator leases and complement and to fund the 2014 election. The net impact is zero as there is an associated funding from the election reserve.

2015 to 2017 Changes

City Contingency - The City's contingency account relates to future labour agreement negotiations and certain foreseeable events. Once the outcomes of these events are determined, balances will be reallocated to the appropriate department budgets. Planned budget increases are \$1.7M, \$3.0M and \$3.2M respectively.

Long-term Debt - The repayment of long term debt is estimated to increase by \$1.3M in 2015, decrease by \$0.2M in 2015 and decrease by \$2.5M in 2017. Debenture reserve funding is leveraged to smooth these fluctuations. When combined the net impact is \$0.7M in 2015, \$0.4M in 2016 and \$0.0M in 2017.

Corporate Expenditures –It is anticipated that a report on the election process will be coming forward later in the budget process. In 2015, election costs are removed with minor changes in 2016. It should be noted that this cost is fully offset by matched withdrawals from the Election Reserve.

Reserve Contributions - Infrastructure Reserve contributions increased by \$1.3M, \$1.2M and \$3.1M, respectively to support community infrastructure replacement.

Expenditure Review – Degree of Flexibility

To assist Council in assessing the base budget, the following summary illustrates how the City's expenses are allocated to major expense types:

| | 2014 | | | 2015 | | | 2016 | | | 2017 | | |
|---------------------------------|--------------------|-------------------|----------------|--------------------|-------------------|----------------|--------------------|-------------------|----------------|--------------------|-------------------|----------------|
| | Base Budget (\$) | % of Total Budget | Cumulative (%) | Base Budget (\$) | % of Total Budget | Cumulative (%) | Base Budget (\$) | % of Total Budget | Cumulative (%) | Base Budget (\$) | % of Total Budget | Cumulative (%) |
| Operating Expenditures | | | | | | | | | | | | |
| Salaries and Benefits | 140,371,275 | 57.0% | 57.02% | 143,693,166 | 56.3% | 56.31% | 145,284,485 | 55.3% | 55.29% | 146,405,204 | 54.2% | 54.22% |
| Service Contracts | 33,413,625 | 13.6% | 70.6% | 34,175,510 | 13.4% | 69.7% | 35,055,768 | 13.3% | 68.6% | 35,863,634 | 13.3% | 67.5% |
| Long Term Debt | 12,562,419 | 5.1% | 75.7% | 14,711,871 | 5.8% | 75.5% | 14,448,455 | 5.5% | 74.1% | 11,106,995 | 4.1% | 71.6% |
| Reserve Contributions | 10,523,678 | 4.3% | 80.0% | 11,346,234 | 4.4% | 79.9% | 12,649,905 | 4.8% | 78.9% | 16,779,293 | 6.2% | 77.8% |
| Utilities & Fuel | 9,510,925 | 3.9% | 83.8% | 9,855,208 | 3.9% | 83.8% | 10,220,911 | 3.9% | 82.8% | 10,979,677 | 4.1% | 81.9% |
| Maint./Materials | 8,462,866 | 3.4% | 87.3% | 8,589,889 | 3.4% | 87.1% | 8,595,118 | 3.3% | 86.1% | 8,812,679 | 3.3% | 85.2% |
| Capital from Taxation | 6,517,059 | 2.6% | 89.9% | 6,647,401 | 2.6% | 89.8% | 6,780,349 | 2.6% | 88.7% | 6,915,956 | 2.6% | 87.7% |
| Insurance Expenses | 4,316,318 | 1.8% | 91.7% | 4,532,616 | 1.8% | 91.5% | 5,014,113 | 1.9% | 90.6% | 5,144,495 | 1.9% | 89.6% |
| Contingency | 4,094,486 | 1.7% | 93.3% | 5,811,210 | 2.3% | 93.8% | 8,786,073 | 3.3% | 93.9% | 12,022,312 | 4.5% | 94.1% |
| Prof. Fees | 2,550,881 | 1.0% | 94.4% | 2,551,615 | 1.0% | 94.8% | 2,562,258 | 1.0% | 94.9% | 2,502,863 | 0.9% | 95.0% |
| Tax Adjustments | 2,150,000 | 0.9% | 95.2% | 2,275,000 | 0.9% | 95.7% | 2,275,000 | 0.9% | 95.8% | 2,300,000 | 0.9% | 95.9% |
| All Other | 11,726,446 | 4.8% | 100.0% | 10,980,957 | 4.3% | 100.0% | 11,104,416 | 4.2% | 100.0% | 11,168,211 | 4.1% | 100.0% |
| Total Draft Expenditures | 246,199,978 | 100.0% | -- | 255,170,677 | 100.0% | -- | 262,776,851 | 100.0% | -- | 270,001,319 | 100.0% | -- |

The above summary illustrates that the City has limited flexibility in any given year to significantly alter the City's cost structure in the short term. More than 75% of the costs are committed through collective agreements, service contracts and financing arrangements. Other reductions will impact the maintenance and repair of the City's infrastructure.

Detail on the "All Other Expenditures" is provided in Attachment #5 – Budget Analysis & Other Information.

D. Consideration of Additional Resource Requests

As indicated earlier in this report, the budget guidelines were complimented by a process that allowed departments to formally submit requests for essential resources not permitted by the budget guidelines for Finance and Administration Committee and Council consideration. As a result, departments submitted over 136 additional resource requests with a total cost of over \$18.4m, all of which are valued by the submitting departments. It should be noted \$2.1m in requests are fully or partially self funded, which demonstrates staff's willingness to redirect existing resources and manage their finances in a prudent manner.

Consistent with prior years and demonstrating respect for the tax payer's dollar, the Senior Management Team and the Director's Working Group reviewed, evaluated, and prioritized all additional resource requests based on their merits and the following criteria:

- Vaughan's Vision and the Corporate Planning process linkages
- Value Proposition
- Regulatory Requirements
- Risk Management
- Internal Operational Requirements
- Capital Timing and Funding Availability

The process infuses a high degree of objectivity and transparency, of which the end result is a more realistic and responsible list of additional resource requests. Developing the recommended list was very difficult for decision makers, who were frequently faced with the dilemma of choosing between "Maintaining Services", "City Building Initiatives" and "keeping tax rates low". The Senior Management Team's funding recommendation is a blend of all three ideals with a weighted focus on maintaining service levels. In many situations the result is not optimal, but necessary to minimize perceived tax pressures on the community. Below are highlights regarding SMT's recommended additional resource requests.

- Community Safety - Fire operations & prevention
- Community and Library Services - Civic Centre Resource Library, Avondale (North Maple) Park, ongoing forestry, parks, facility maintenance, etc.
- Operational Requirements - Planning, Engineering, corporate support for city services, and other requests, etc.
- City Building Initiatives - asset management, public sector renewal, business development, communications strategy, public engagement, Vaughan Metropolitan Centre, strategic planning initiatives, etc.

| Additional Resource Requests | 2014 | | 2015 | | 2016 | | 2017 | |
|------------------------------|------------------|--------------|------------------|--------------|------------------|--------------|------------------|--------------|
| | \$ | Rate Incr. | \$ | Rate Incr. | \$ | Rate Incr. | \$ | Rate Incr. |
| Community Safety (Fire) | 742,238 | 0.47% | 147,968 | 0.09% | 1,061,496 | 0.61% | 700,560 | 0.36% |
| Community & Library Services | 1,037,791 | 0.66% | 2,779,775 | 1.64% | 2,182,103 | 1.19% | 2,471,097 | 1.25% |
| Operational Requirements | 1,888,204 | 1.20% | 72,286 | 0.04% | 873,628 | 0.48% | 664,383 | 0.34% |
| City Building Initiatives | 922,955 | 0.59% | 582,289 | 0.34% | 75,000 | 0.04% | 90,822 | 0.05% |
| Total Budget Change | 4,591,188 | 2.92% | 3,582,318 | 2.12% | 4,192,227 | 2.31% | 3,926,862 | 1.99% |

Reducing the recommended additional resource requests will potentially compromise service levels or impact City building initiatives. In addition, there are City initiatives currently being developed for which the timing is beyond the plan or financial implications are not certain. As these projects come on-line in the future they will directly compete with the above resources (e.g. streetscaping, office incentives, MacMillan Farm, works yards, master plan, Black Creek renewal and storm water management ponds, civic square, parking strategy, etc.). The above situation

further supports the need to continue planning resources over an extended horizon, which helps to address and communicate future requirements and changing priorities.

Senior Management Team's recommendation list is provided in Attachment #2 and all additional resource request submissions are provided in Appendix A. Below are highlights

High Value ARR's by Year

| Year | ARR | Net \$ (M) | % of year |
|------|--------------------------------------|------------|-----------|
| 2014 | STN 75 Firefighters/Captains | \$ 0.35 | 7.6% |

Capital Budget & Plan Overview by Funding Source

The Capital Budget and plan is based on more than 600 projects covering a number of departments. To assist stakeholders in assessing the Draft 2014 Capital Budget and 2015-2017 Plan, the overall financial perspective is summarized by funding source. The following section is dedicated to providing capital highlights associated within the following funding sources:

- A. Development Charge (DC) Reserves (Development Industry Funded Projects)
- B. Capital Reserves
- C. Debenture Funding
- D. Capital from Taxation
- E. Municipal Gas Tax Funds (AMO)

Summaries, Schedules and Capital Project Detail

Capital Project Listing and Funding Summaries Schedules

To assist the reader review the Capital Budget a listing of all projects by year for each department is provided as Attachment 3. Also provided in Attachment 5, are capital project summaries by funding source by year.

Reserve Continuity Schedules

Attachment 4 provides the four year reserve continuity schedule for all City reserves.

Detailed Capital Project Submissions

Appendix B includes all capital project detail sheets. At the front of appendix B is a list of all capital projects in project number order. The list references an index number that corresponds to the project detail sheet page number.

Please note: Some of the above attachments are very large and are not included with the printed agenda. One hardcopy version is available in the Clerks department. However, these attachments are available electronically on the City's website.

A) Development Charge (DC) Reserves (Development Industry Funded Projects)

Development Charge Reserves are based on the City's growth and are in place to maintain historical service levels. Stakeholders are cautioned that development charge reserve collections are dependent on the economy and therefore opening balances and capital plans may require adjustment to account for potential upswings or downward trends. For forecasting purposes, collections are conservatively estimated at approximately 80% of development change growth revenue projections. It should be noted, that collection projections may have changed impacting reserve balances and project timing. The City's 2013 Development Charges Background Study was approved by Council in April of 2013.

For projects funded from Development Charges, the following guidelines previously approved by Council were taken into consideration:

1. Reserve balances should remain positive and not placed into a pre-financing position
2. Pre-financing should not be increased
3. Commit no more than 50% of annual revenues for reserves in a pre-financed position

Based on the above endorsed guidelines, Finance staff assessed funding availability and established annual funding lines for each Development Charge Reserve. Within each reserve, capital projects were prioritized by the related departments. Highlighted below is the consolidated budget for this funding source and major associated capital projects, \$2M to \$37M:

| 2014 Budget | 2015 Plan | 2016 Plan | 2017 Plan |
|------------------------------|------------------------------|------------------------------|------------------------------|
| 10,298,740 | 33,193,729 | 63,851,762 | 52,099,969 |
| <u>Major Projects</u> | <u>Major Projects</u> | <u>Major Projects</u> | <u>Major Projects</u> |
| Civic Centre Library | Vellore Village Library | Vellore Village Library | Black Creek Renewal |
| Vellore Village Library | Black Creek Renewal | Black Creek Renewal | CP Railway Ped Cross |
| Major Mac. Streetlight | CP Railway Ped Cross | CP Railway Ped Cross | Carville CC & Library |
| Kirby Road EA | Carville CC & Library | Carville CC & Library | North Maple Park |
| | North Maple Park | North Maple Park | Concord West Strtscape |
| | Concord West Strtscape | Concord West Strtscape | Fire Stn 7-4 Expansion |
| | Fire Stn 7-4 Expansion | Fire Stn 7-4 Expansion | |

Note: More specific detail can be found in Attachment #3 or #5

Negative Reserve Balances

As per policy, the City will only approve capital projects if funds are on hand. However, there are the following two exceptions:

- 1) Management Studies - Due to timing of events this reserve is permitted to be in a deficit position. Growth related studies are incurred in advance of growth and recovered through subsequent development charges.
- 2) Fire DC Reserve - A Council commitment to move forward with Fire Station 7-10 has temporarily placed this reserve into a pre-financing negative reserve position, which through future collections and spending constraints was anticipated to recover to a positive balance. However, this forecast has changed as a result of collections timing and adjustments to the 2015 -2017 capital plan to better reflect service level requirements. The unfunded position is planned to continue as a result of the difference in service level measures. The Fire & Rescue Services department is measured by response time which is greatly impacted by intensification and traffic congestion. The Development Charge document provides new development funding based on a historical service level per capita measure. The two measures provide very different project timing and funding needs, which will require further discussion to address the forecast trend and service requirements.
- 3) Public Works DC Reserve – This reserve is forecasted to enter into a negative position in 2016 due to the planned Joint Public Works/Parks New West Yard. Construction of this yard is planned ahead of the timing of the DC collections.
- 4) Special Area Charges – These reserves relate to projects generally built by developers, which will be funded by the City once funds are collected and available. Although the reserves illustrate a negative position after commitments, these reserves will never be in a deficit cash position as payments will only occur when funds are on hand.

Capital Reserves

Infrastructure Reserves

A prevailing theme throughout the years has repeatedly been the need to address the funding component for infrastructure renewal. Included in the 2014 Capital Budget and 2015-2017 Capital Plans are infrastructure reserve funds for this purpose. These are illustrated below.

| Funding Source | 2014 | 2015 | 2016 | 2017 |
|--|-------------------|-------------------|-------------------|-------------------|
| City Playhouse Reserve | 22,151 | | | |
| Fire Equipment Reserve | 189,400 | 1,038,150 | 2,977,100 | 901,700 |
| Heritage Reserve | 153,470 | 25,750 | | |
| Information Technology Asset Replacement | 1,050,700 | 1,129,700 | 1,140,700 | 1,140,700 |
| Library Materials Reserve | 1,495,900 | 1,777,500 | 1,910,960 | 1,949,170 |
| Parks Infra. Reserve | 3,100,912 | 2,763,423 | 1,980,388 | 2,627,861 |
| Pre-B& F Infra. Reserve | 3,053,940 | 1,319,065 | 786,146 | 193,300 |
| Recreation Land Reserve | 267,800 | 267,800 | 267,800 | 267,800 |
| Roads Infra. Reserve | 669,500 | 123,600 | | 124,630 |
| Uplands Revenue Reserve | 67,000 | 730,732 | 67,000 | |
| Vehicle Reserve | 1,495,300 | 997,500 | 799,600 | 796,450 |
| Water Reserve | 4,008,050 | 4,299,594 | 8,357,162 | 4,889,381 |
| Tree Replace Reserve | 48,882 | 48,882 | 48,882 | 48,882 |
| Grand Total | 15,623,005 | 14,521,696 | 18,335,738 | 12,939,874 |

| 2014 Budget | 2015 Plan | 2016 Plan | 2017 Plan |
|-------------------------------------|--------------------------------|------------------------------|------------------------------------|
| 15,623,004 | 14,521,696 | 18,335,738 | 12,939,874 |
| <u>Major Projects</u> | <u>Major Projects</u> | <u>Major Projects</u> | <u>Major Projects</u> |
| Library Resources | Library Resources | Library Resources | Library Resources |
| Al Palladini CC Road | Uplands - Water Systems | Replace Aerial 7968 - Smeal | Replace 7955 Aerial 55 FT |
| Road/Watermain Rehab | Road/Watermain Rehab | Road/Watermain Rehab | Road/Watermain Rehab |
| Culvert - Merino Road | Replace 7966 Rescue Truck | Replace 7972 Pumper | Vellore Village CC - Soccer Field |
| Yorkhill District Park - Playground | York Hill Park - Tennis Court | Replace 7971 Pumper | Le Parc Park - Tennis Court |
| Torii Park - Tennis Court | Al Pal CC Refrig. Plant Equip. | Replace HAZ MAT 7942 | Rosedale Park North - Tennis Court |

It should be noted, infrastructure renewal is also funded from other sources discussed within this report, such as capital from taxation, debentures, gas tax, etc. The total annual capital budget allocated to infrastructure renewal averages \$30M/year or approximately 40% of capital plan.

There are three infrastructure replacement reserves that are currently experiencing challenges.

Parks Reserve: This reserve is used to fund the replacement of play structures, play fields, courts, water parks, paths, etc. For the most part, the funding for park infrastructure renewal, excluding land, has been very low. Recently contribution policies and reserve realignments were adopted to improve the reserve position. However, these actions will not fully address the issue and this reserve is anticipated to be in a negative position within eight years. Further analysis and funding strategies will be required.

Uplands Reserve: The purchase of a chairlift has placed this reserve in a negative position. As well, there continues to be a need to fund capital initiatives which results in this reserves

continued negative position. Revenues received from Uplands are insufficient to replenish this reserve over the forecast timing.

Vehicle Reserve: This reserve is used to fund the replacement of City's vehicles and equipment. Renewal funding for this purpose was discontinued in 2005. Recently contribution policies and reserve realignments were adopted to improve the reserve position. However, these actions will not fully address the issue and this reserve is anticipated to be in a negative position within four years. Further analysis and funding strategies will be required.

The Infrastructure Challenge

The challenge of funding the significantly growing costs of infrastructure renewal is a paramount concern for most municipalities across Canada and stems from new construction being primarily funded by the development industry, leaving the municipalities across Ontario to fund future replacement costs from the municipality's limited tax base. The danger of not doing so could create a situation where the funding shortfall will continue to slowly build until a point in the future where a wave of facility, park, fire and other replacement projects come on board without available funding. This picture threatens the community's overall quality of life and the economic health for future generations. As a result, a number of reports and initiatives have come forward to support this challenge, including:

1. Multi-Year Budgeting – To provide visibility regarding future financial requirements.
2. Asset Management – The City is in the process of completing Phase I of the asset management initiative. At the September 16th Priorities and Key Initiatives Committee, staff presented the *Corporate Asset Management Strategy* report. Phase I is anticipated to be complete by year end 2013, and the current draft capital and operating budgets contain proposed projects and ARRs to continue into Phase II of this initiative.
3. Infrastructure Renewal Policy – To ensure annual replacement contributions are in place for new capital projects based on lifecycle principles.
4. Reserve Policy Update – In addition to policy updates, this action incorporated a realignment of reserve balances and expansion of surplus allocation to support infrastructure.
5. Financial Master Plan – The City's Financial Master Plan earmarked infrastructure funding as a top priority along with funding approaches.

The above actions are designed to guide the municipality towards financial sustainability and are required to ensure the City is able to safeguard the community's infrastructure network. Staff will continue to educate and communicate the issue and future reports are planned for 2014.

Other Reserves

In addition to infrastructure reserves, the City has established a number of reserves to help manage municipal finances and protect against the potential need to reduce service levels or raise taxes due to temporary revenue shortfalls or unexpected expenditure increases e.g. Tax rate stabilization, Working Capital, Debenture reserves, etc. Generally, these reserves provide transfer funding to the operating budget when required and typically have very few capital related project submissions. It should be noted, these reserve balances substantially contribute to achieving the City's Discretionary Reserve Ratio Policy.

There is one reserve that is in a negative position: Sale of Public Lands. Due to timing of events this reserve is permitted to be in a deficit position. Typically the construction capital

project occurs in advance of the land disposal. However, the commitment is recorded and only recovered once the land sale proceeds are received.

There are two reserves that are trending towards a negative reserve balance by 2017:

- 1) Tax Rate Stabilization – This reserve does not have a dedicated funding source, but is funded from surpluses; therefore, this forecast's balance is dependent on the City's performance and difficult to predict. A large payment in 2013 was required to assist with a capital project, significantly reducing available funds. As well, there is a planned annual draw from the reserve to mitigate past budget decisions. As indicated by the reserve forecast, this draw is slowly being transitioned down to provide a more predictable and sustainable funding source.
- 2) Engineering Reserve – This is due to the transition towards intensification development which the current fee structure does not accommodate. Therefore, there is a need to undertake a fee review for which there is an approved 2013 capital project. The findings from this review will be incorporated into future forecasts.

B) Debenture Funding

Debenture funding is primarily utilized for the City's road and bridge replacement program. Due to the overall substantial asset value and its lengthy life cycle, utilizing long-term debt is appropriate as it aids in spreading these costs over time. The project values planned for the 2014 Capital Budget and 2015-2017 capital plan are as follows:

| | 2014 | 2015 | 2016 | 2017 |
|---------------------------|-----------|------------|------------|------------|
| Debenture Projects | 6,429,490 | 12,329,544 | 31,050,705 | 74,884,151 |

Where funding opportunities exist, available gas tax funding is utilized. This is a primary reason why forecasted figures are different from prior year budgets. This is a prudent measure which frees up future financial flexibility and reduces the interest component associated with this funding source.

An emerging trend in the capital plan are pressures in the later years for large capital projects with limited or undetermined funding sources. i.e. Black Creek Renewal, Joint Public Works/Parks Yard, City Hall Public Square. To balance the budget, debenture financing is utilized as the default funding source, until a funding strategy is determined. This action results in a significant escalation in debt costs in future years just beyond the forecast. As illustrated above, this is based on the debenture funded capital project balance growing tenfold over 4 years. As illustrated in a previous section, debenture funding is well within the 10% policy target, but is forecasted to approach the City's policy threshold within 6 years. Staff will continue to investigate alternate funding sources where possible.

C) Capital From Taxation

Projects identified for capital from taxation funding consist of two types:

- Non-growth related projects which have no other funding source such as new initiatives, technology replacement, new infrastructure beyond development charge service levels, etc.
- Development charge capital project co-funding requirements, as specified in the Act, typically 10% for soft services e.g. libraries, recreational complexes, parks, vehicles, related studies, etc), but could be higher depending on the benefit to the existing population.

The Draft Operating Plan allocates an average of \$6.7m annually to “Capital From Taxation” funded capital projects. Finance staff along with the Director’s Working Group reviewed and prioritized capital project submissions, which were then forwarded to the Senior Management Team (SMT) for further review and prioritization. The criteria used to prioritize projects within a funding source include, but are not limited to consideration of the following:

- Pre-Budget approval obtained
- Funds required to complete previously approved projects
- Legal or Regulatory requirements (including financial commitments)
- Net revenue generating, cost savings or efficiency improvement projects
- Growth related projects
- Infrastructure repair projects
- Equipment replacement projects
- New service levels

As a result, some projects were redistributed within the 4 year capital plan and others deferred beyond the plan’s horizon. However, due to a number of large growth projects and corporate initiatives, there still remains an unfunded portion in the 2016 and 2017 years. The new Carrville Community Centre and Library require a large co-funding requirement, representing almost 60% of the 2016 funding amount. Due to the amount, it may be necessary to adjust the timing or investigate other funding sources. This highlights pressures the City is facing to balance existing services, growth requirements and corporate initiatives against limited available funding. The table below highlights the project types, budgets, the extent of the funding shortfall in the outer years, and value of original submissions.

| Project Type | 2014 | 2015 | 2016 | 2017 |
|----------------------------|------------------|------------------|--------------------|------------------|
| Legal and Regulatory | 360,925 | 233,725 | | 98,717 |
| Health & Safety | 126,275 | | | 206,000 |
| Growth Co-Funding | 748,535 | 1,908,796 | 5,900,301 | 2,977,419 |
| Technology Initiatives | 731,300 | 1,260,220 | 811,720 | 749,000 |
| Annual Replacement Program | 1,314,839 | 1,293,979 | 1,289,089 | 2,059,089 |
| New Initiative | 3,226,920 | 1,617,734 | | 860,180 |

| Calvary Church -Soccer Field | Reposition Fire Stn 7-4 | Reposition Fire Stn 7-4 | Maple Library Renovations |
| Sonoma Heights Park - | | | |
| Diamond Lighting | | | |

D) Municipal Gas Tax Funds (AMO)

This is a federally supported program, intended to support Ontario municipalities' investment in environmentally sustainable municipal infrastructure projects, such as water, wastewater, solid waste, local roads, bridges, tunnels, etc. It comes with the expectation that the investments will see Ontarians enjoying cleaner air, cleaner water and reduced greenhouse gas (GHG) emissions. Where possible, the City will use any remaining funds for Roads Program, which is primarily funded through debt financing, saving on interest costs. The municipality must clearly demonstrate that funding used for a project is incremental and the funding enabled a project implementation, enhanced its scope or accelerated its timing.

The Federal government announced new measures to aid municipalities in meeting their infrastructure needs. Specifically, the Gas Tax program will now be indexed per year and the number of eligible project categories will be expanded to include highways, disaster mitigation, broadband connectivity, brownfield redevelopment, culture, tourism, sport and recreation. Staff continues to monitor for updated information regarding these expanded categories and their associated criteria.

Staff reviewed the list of capital projects submitted and with concurrence of AMO staff have identified a number of capital projects eligible under the Municipal Gas Tax Funding Agreement.

Below is a brief summary of the major projects:

- Pavement Management Program and Bridge replacement
- Asset Management Initiative – Phase Two
- Sidewalk Upgrades
- Pedestrian and Bicycle Master Plan Design and Construction
- Pedestrian Bridge Repairs
- LED Streetlight Conversion
- Walkway Lighting

Total gas tax funded projects submitted in the Capital Plan are shown below:

| | 2014 | 2015 | 2016 | 2017 |
|-----------------|-------------|-------------|-------------|-------------|
| Gas Tax Reserve | 10,945,316 | 8,294,940 | 7,901,852 | 6,947,525 |

Actions to Manage Capital Budgets

The budgeting process is constantly evolving to the needs and requirements of departments, management, Council and the community. Detailed within this section are brief highlights of actions that help to manage the capital program.

Actively Closing Projects - Continuing with past practice, staff together with departments review projects to determine if projects can be closed. Any remaining project budget balance is returned to the original funding source. As a result of this action, staff have closed 63 projects in 2013 returning \$1.4M to their original funding sources. These efforts are part of the ongoing quarterly review process.

Draft Capital Project Financial Control Policy – In June of 2013 staff presented to Committee the Draft Capital Project Financial Control Policy. This document is intended to:

- Provide a consistent approach to capital project control
- Ensure approved capital projects are implemented as intended
- Provide an element of flexibility to manage operational circumstances
- Report on the status of capital projects
- Develop consistency regarding authorization and resolution of common issues

An update to Committee is scheduled for Q4 of 2013.

Leveraging Grant and Subsidy Funding - To support local municipal initiatives, Federal, Provincial, Regional and local agencies deliver grant programs, partnerships, and subsidies which focus primarily on environmental sustainability, infrastructure, economic development, culture, etc. Competition for these resources is high and successful submissions may require strict compliance reporting and conditions. Below are grant programs which are incorporated into the Capital Plan:

- Gas tax funding - \$7.3M annually
- Regional Pedestrian and Bicycle Partnership Program
- Canada Cultural Spaces Fund
- Green Municipal Fund
- Places to Grow
- Invest Canada Community Initiative
- Tree Canada

Relationship to Vaughan Vision 2020

The Draft 2014 Budget and 2015-2017 Plan is the process of allocating and approving the resources necessary to continue operations and implement Council's approved plans. Embedded within the City's Budget and Plan are resources to move Vaughan's Vision forward. Furthermore, there are specific additional resource requests and capital funds earmarked to support the City's preferred initiatives and strategic themes.

Regional Implications

There are no Regional implications associated with this report.

Conclusion

The management and operation of the City of Vaughan is becoming increasingly more complex as the City grows and the regulatory environment increases. Consequently there is a need to broaden the budget horizon and better understand the future implications of today's decisions. The implementation of multi-year budgets provides decision makers with added foresight and ability to proactively grasp future opportunities and prepare for future challenges. This is a very strategic approach and intended to plan where the City's future resources should be focused to best support the City, its Vision and generate public value.

The City has followed a very thorough process to minimize any tax increase, while maintaining levels of service and meeting regulatory/City policy requirements. Very tight budget guidelines approved by Council were issued to all departments limiting increases to established commitments and pre-defined external pressures. In addition to the strict base budget guidelines, a number of additional resource requests were put forward by departments to maintain service levels, comply with regulatory requirements and implement operational and strategic initiatives. Capital budgets were developed with policy requirements and based on anticipated reserve balances. The Directors' Working Group and Senior Management spent a considerable amount of time reviewing budgets and prioritizing operating and capital requests in order to develop a realistic and responsible financial plan. Although it is possible to reduce the draft budget, it will be difficult to accomplish without impacting service delivery or city building initiatives. The resulting outcome of above efforts is illustrated below in the *Building the Budget* table.

BUILDING THE BUDGET

Illustrated below is the estimated 2014 total property tax bill for the average home in Vaughan, valued at \$551,000. It is important to note, that although York Region's preliminary property tax rate increase is only 1.75% its contribution to the overall increase represents 40% or \$39. This is largely because half of the Property Tax bill is allocated to the Region of York. Overall, the average total property tax bill in Vaughan will increase by \$98 or 2.13%. Vaughan's local portion amounts to \$58 or 1.26% of the total property tax bill.

| <i>Property Tax Bill</i> | <i>2013 Property Tax</i> | <i>Est. % \$</i> | | <i>Est. 2014 Property Tax</i> | |
|---------------------------------|-------------------------------------|--------------------------------|-----------|--------------------------------------|-------------|
| City of Vaughan | 1,228 | 4.80% | 58 | 1,286 | 27% |
| Hospital Levy | 60 | 0.00% | - | 60 | 1% |
| Region of York | 2,239 | 1.75% | 39 | 2,278 | 49% |
| Provincial (Education) | 1,071 | 0.00% | - | 1,071 | 23% |
| Total Tax Bill | 4,597 | 2.13% | 98 | 4,695 | 100% |

** 2014 Estimated Property Taxes are based on the avg. home value of \$551k*

Draft 2014 Operating Budget & 2015-2017 Operating Plan

BASE BUDGET ANALYSIS & OTHER INFORMATION

1. Review of Specific Expense Categories

Historically, Council has inquired about specific accounts and the budgeted amounts. For reference purposes, we have included a summary of specific expense lines to illustrate the budget changes in these accounts.

| Accounts of Interest | 2013 | 2014 | | | 2015 | | | 2016 | | | 2017 | | |
|----------------------------|-------------------|-------------------|----------------|--------------|-------------------|----------------|--------------|-------------------|----------------|--------------|-------------------|----------------|--------------|
| | Budget (\$) | Budget (\$) | Variance (\$) | Variance (%) | Budget (\$) | Variance (\$) | Variance (%) | Budget (\$) | Variance (\$) | Variance (%) | Budget (\$) | Variance (\$) | Variance (%) |
| Advertising | 240,241 | 235,225 | (5,016) | -2.1% | 235,225 | 0 | 0.0% | 235,225 | 0 | 0.0% | 234,625 | (600) | -0.3% |
| Cellular Telephones | 305,143 | 302,028 | (3,115) | -1.0% | 301,748 | (280) | -0.1% | 301,748 | 0 | 0.0% | 300,848 | (900) | -0.3% |
| Computer Hardware/Software | 817,589 | 762,930 | (54,659) | -6.7% | 763,867 | 937 | 0.1% | 763,966 | 99 | 0.0% | 763,816 | (150) | 0.0% |
| Grouped Expenses | 65,165 | 64,975 | (190) | -0.3% | 64,975 | 0 | 0.0% | 64,975 | 0 | 0.0% | 64,975 | 0 | 0.0% |
| Office Equip. & Furniture | 201,857 | 165,269 | (36,588) | -18.1% | 165,269 | 0 | 0.0% | 165,769 | 500 | 0.3% | 165,819 | 50 | 0.0% |
| Office Supplies | 299,527 | 299,830 | 303 | 0.1% | 300,030 | 200 | 0.1% | 300,030 | 0 | 0.0% | 301,880 | 1,850 | 0.6% |
| Overtime | 1,137,277 | 1,375,964 | 238,687 | 21.0% | 1,526,084 | 150,120 | 10.9% | 1,626,084 | 100,000 | 6.6% | 1,725,980 | 99,896 | 6.1% |
| Part Time | 14,243,152 | 14,530,380 | 287,228 | 2.0% | 14,624,192 | 93,812 | 0.6% | 14,675,738 | 51,546 | 0.4% | 14,956,903 | 281,165 | 1.9% |
| Professional Fees | 2,473,827 | 2,550,881 | 77,054 | 3.1% | 2,551,615 | 734 | 0.0% | 2,562,258 | 10,643 | 0.4% | 2,502,863 | (59,395) | -2.3% |
| Total | 19,783,778 | 20,287,482 | 503,704 | 2.5% | 20,533,005 | 245,523 | 1.2% | 20,695,793 | 162,788 | 0.8% | 21,017,709 | 321,916 | 1.6% |

Accounts of Interest Explanations

For 2014, there is a small increase in accounts of interest.

- Part Time (Increase of \$287K or 2.0%)
 - Most of the variance was due to impact of market adjustment economic.
- Computer Hardware/Software (Decrease of \$55K, 6.7%)
 - The decrease was mainly due to one-time funding removals from 2013 ARRs and reallocations.
- Professional Fees (Increase \$77K or 3.1%)
 - The increase is mainly due to increase of \$53K for expected OMB hearing cost increases. This increase is reversed in 2017.
- Office Equipment (Decrease \$37K or 18.1%)
 - The decrease is due to one-time funding removals for new complements from 2013 ARRs.
- Overtime (Increase \$237K or 21.0%)
 - The increase was mainly due to increases in overtime for the Fire Departments that were made to correct a budget shortfall in these departments.
- The remaining variance is due to reallocations or one-time funding removals from 2012 ARRs.

For 2015, there is an increase in the part-time account as a result of progressions. Also, there is a further increase in Overtime for Fire to continue the phasing in of the funding shortfall.

For 2016, there is a further increase for Fire as the phasing in of the Overtime funding shortfall continues.

For 2017, the increase in part time costs is related to an additional program costs at a new community centre related to the City's growth. These costs are mostly offset with increased revenue. There is small decrease in professional fees related to reversal of the OMB hearing costs increased in 2014. There is a further increase to Fire Overtime costs.

2. Department Expenditure Budget Changes in Excess of \$100,000:

As indicated above, departmental expenditures increased over the previous year including increases associated with Vaughan Public Library (VPL). Overall, several departmental budgets increased year over year, while others decreased by varying amounts. Specific detail by account is available within the department information. Detailed below is a brief high level overview of the rationale behind department budget variances in excess of \$100,000.

▪ **Fire and Rescue Services**

2014 Increase of \$2,786,414 (7.4%)

There is an increase of \$2.614M in labour costs mostly due to the full year impact of Station 7-5 (Cohort #1), progressions, allowable increases, new collective agreement, retention pay, and higher benefit rates. The remainder of the increase is in radio operations for higher costs of maintenance contracts and fuel according to Budget Guidelines.

2015 -2017 Increases

2015 Increase of \$1,939,201 (4.8%)

There is an increase of \$1.97M related to staff progressions, allowable increases, retention pay and higher benefit rates. This increase is offset by a decrease of \$35K related to the biannual recruitment program.

2016 Increase of \$776,975 (1.8%)

There is an increase of \$740K related to staff progressions, allowable increases, retention pay and higher benefit rates. The remainder of the variance is an increase of \$35K related to the biannual recruitment process.

2017 Increase of \$523,710 (1.2%)

There is an increase of \$559K related to staff progressions, allowable increases, retention pay and higher benefit rates. The remainder of the variance is a decrease of \$35K related to the biannual recruitment process.

▪ **City Clerk - Insurance**

2014 Increases

The variance is less than \$100K and therefore does not require any explanation.

2015 -2017 Increases

2016 Increase of \$410,263 (8.7%)

An increase related to higher premiums based on historical trends for OMEX participants. For the first three years, savings are transferred to the Insurance Reserve to mitigate future retroactive assessments, but this balance is reduced as premium increases occur.

2017 Increase of \$130,744 (2.5%)

An increase is mainly related to price change in insurance premium offset by the final settlement of outstanding claims with the previous insurance provider.

▪ **Recreation**

2014 Increase of \$361,927 (1.9%)

The variance exclusive of York Region Transit (\$147K) is related to \$113K in labour costs mostly due to higher benefit rates and part time costs related to camps and aquatics programs. There is an increase of \$136K in contractors as more programs are offered in partnerships with outside suppliers, which also results in an offset with higher revenue. The remainder of the variance is in Vaughan Hockey Association subsidy (\$24K) as per agreement various minor accounts needed to deliver recreation programs. These increases are partially offset by decreases in printing costs (\$20K) and small tools and equipment (\$22K) along with revenue increases, with an overall budgeted department direct cost recovery of 95%.

York Transit Ticket Purchases

The remainder of the variance of \$147K is related to purchases of YRT tickets which is offset by slightly greater revenues.

2015-2017 Increases

2015 Increase of \$108,940 (0.6%)

The variance exclusive of York Region Transit (\$32K) is related to \$73K in labour costs mostly due to higher benefit rates and full time progression costs. The remainder of the variance is related to contract increases relating to our partnership programs. These increases are partially offset by revenue increases, with an overall budgeted department direct cost recovery of 96%.

York Transit Ticket Purchases

The remainder of the variance of \$32K is related to purchases of YRT tickets which is offset by slightly greater revenues.

2016 Increase of \$98,345 (0.5%)

The variance exclusive of York Region Transit (\$33K) is related to \$82K in labour costs mostly due to higher benefit rates, progressions. The remainder of the variance is related to contract increases relating to our partnership programs. These increases are partially offset by revenue increases, with an overall budgeted department direct cost recovery of 97%.

York Transit Ticket Purchases

The remainder of the variance of \$33K is related to purchases of YRT tickets which is offset by slightly greater revenues.

2017 Increase of \$376,168 (1.9%)

The variance exclusive of York Region Transit (\$34K) is related to \$37K in labour costs due to higher benefit rates and \$309K in costs associated with the new Carrville Community Centre. These increases are partially offset by revenue increases, with an overall budgeted department direct cost recovery of 100% (mandate is 95% recovery).

York Transit Ticket Purchases

The remainder of the variance of \$34K is related to purchases of YRT tickets which is offset by slightly greater revenues.

- **Buildings and Facilities**

2014 Increase of \$240,991 (1.2%)

There is an increase of \$121K in utilities as a result of price increase within Budget Guidelines. There is an increase of \$51K in labour costs due to higher benefit rates, progressions. The remainder of the variance is \$27K for volume increases for materials and janitorial supplies and price increases of \$26K for elevator and cleaning contracts.

2015-2017 Increases

2015 Increase of \$266,734 (1.3%)

There is an increase of \$157K in utilities costs for the buildings due to higher prices. The remainder of the variance is in labour costs (\$71K) due to progressions and benefit rate increase as per guidelines and contract volume increases of \$26K and contract price increases of \$11K.

2016 Increase of \$259,048 (1.2%)

There is a \$167K increase in utilities costs for buildings due to higher prices. The remainder of the variance is in labour costs (\$52K) due to progressions and benefit rate increase as per guidelines and contract volume increases of \$28K and contract price increases of \$11K.

2017 Increase of \$983,234 (4.5%)

Most of the increase is related to the opening of the Carrville Community Centre (Block 11) for a total cost of \$723K. These costs include utilities (\$372K), maintenance (\$278K), cleaning (\$63K) and the remainder other related expenses such as garbage disposal etc. Also, there is an increase in utilities accounts for \$176K caused by rising prices as per budget guidelines. The remainder of the increase is in labour accounts mostly due to benefit rate increase as per guidelines.

- **Fleet Management**

2014 Increase of \$124,748 (4.9%)

The variance is a result of \$136K in vehicle maintenance for new vehicles added to the city's fleet. This was partially offset by a vacant position being budgeted at a lower step.

2015-2017 Increases

The 2015 to 2017 variances were less than \$100k and therefore do not require any explanation.

- **Park Operations**

2014 Increase of \$345,786 (2.7%)

The increase is mainly in labour accounts for \$165K related to staff progressions, part time market rate adjustment and higher benefit rates. There is also an increase of \$53K in utilities as a result of price increases within Budget Guidelines. Also, there is a total price increase of \$94K in Materials and Contracts due to contract agreements, and increase in volume for fuel of \$41K for new vehicles. These increases are in accordance with the Operating Budget Guidelines.

2015-2017 Increases

2015 Increase of \$147,265 (1.1%)

The increase is mainly in labour accounts for \$80K related to staff progressions and higher benefit rates. There is also an increase of \$57K in utilities as a result of price increases within Budget Guidelines. There is a total increase of \$10K due to anticipated increases in

Attachment #5 - Financial Information & Analysis

Building Lease and Vehicle Fuel. These increases are in accordance with the Operating Budget Guidelines.

2016 Increase of \$122,726 (0.9%)

Part of the increase is in labour accounts for \$50K related to staff progressions and higher benefit rates. And, a total increase of \$72K is due to anticipated price changes in utilities, lease agreement and gas/diesel. These increases are in accordance with the Operating Budget Guidelines.

2017 Increase of \$106,446 (0.8%)

There is an increase of \$35K in labour accounts related to staff progressions and higher benefit rates. In addition, a total increase of \$72K is due to anticipated price changes in utilities and gas/diesel. These increases are in accordance with the Operating Budget Guidelines.

▪ Development Planning

2014 Decrease of \$172,071 (-5.1%)

Part of the decrease is in the labour accounts for \$157K which is mainly due to the expiry of two contract positions related to the Zoning By-Law Review. The remaining \$15K decrease is due to the removal of one-time expenses related to approved 2013 ARR's.

2015-2017 Increases

2017 Decrease of \$105,498 (-3.3%)

The decrease of \$106K is related to the completion of a contract position term.

▪ Policy Planning

2014 Decrease of \$213,294 (-14.2%)

The decrease is mainly due to the expiry of two contract positions one of which relates to the Zoning By-Law Review.

2015-2017 Increases

The 2015 to 2017 variances were less than \$100k and therefore do not require any explanation.

▪ Building Standards

2014 Decrease of \$314,471 (-4.4%)

Part of the decrease is in the labour accounts for \$185K which is mainly due to the expiry of two contract positions related to the Zoning By-Law Review. The remaining \$129K decrease is due to the removal of one-time expenses related to approved 2013 ARR's.

2015-2017 Increases

The 2015 to 2017 variances were less than \$100k and therefore do not require any explanation.

▪ Innovation and Continuous Improvement

2014 Increase of \$150,997 (21.9%)

The increase is mainly caused by the phasing plan for the department well as progressions and higher benefit rates.

2015-2017 Increases

2015 Increase of \$112,570 (13.4%)

Attachment #5 - Financial Information & Analysis

The increase is mainly caused by the phasing plan for the department as well as progressions and higher benefit rates.

2016-2017 Increases

The 2016 to 2017 variances were less than \$100K and therefore do not require any explanation.

▪ Information and Technology Management

2014 Increase of \$137,804 (1.7%)

The increase is related to adjustments \$58K in labour accounts due to progressions, higher benefit rates and new part-time wage scales. Service contracts increased by \$90K primarily as a result of new Sharepoint internet licenses. Increases in computer hardware/software and wireless/internet communications were offset by reallocation from communications to better align these accounts. The remainder of the variance is a reduction of budget for one-time funding removals from approved 2013 ARRs.

2015-2017 Increases

2015 Increase of \$107,666 (1.3%)

The increase is related to adjustments \$90K in labour accounts due to progressions and higher benefit rates. Service contracts increased by \$18K primarily as a result of software maintenance contracts.

2016 Increase of \$127,837 (1.5%)

The increase is related to adjustments \$67K in labour accounts due to progressions and higher benefit rates. Service contracts increased by \$61K primarily as a result of Microsoft license renewal and software maintenance contracts.

The 2017 variances were less than \$100K and therefore do not require any explanation.

▪ Public Works Operations

2014 increase of \$414,373 (1.4%)

The increase is mostly in non-labour accounts for \$336K and adjustments of \$78K in labour accounts due to progressions and higher benefit rates. The following is an explanation by division for allowable increases as per budget guidelines in the non-labour accounts.

- The Roads Division non-labour budget is higher by \$315K. Part of the increase is in utilities for \$128K due to price and volume changes related to streetlights. Roads maintenance contract increase by \$74K for price and volume of assumed roads. The internal recovery account increases by \$57K to better align actual trends and has a net zero impact. The remainder of the increase is in fuel and various small accounts as allowed by budget guidelines.
- The Administration Division non-labour budget increase is \$14K primarily due to internal recovery account increase of \$9K to better align actual trends and has a net zero impact and \$4K reallocation from Roads division for gas/diesel.
- Winter operations non-labour budget increases by \$7K. The variance consists of a \$4K increase in contracts mostly due to price. The remainder of the increase is in fuel as a result of anticipated price increases as per budget guidelines.
- The Waste Management Division non-labour budget did not increase.

2015-2017 Increases

2015 Increase of \$866,985 (2.8%)

The increase is mostly in non-labour accounts for \$817K and adjustments of \$50K in labour accounts due to progressions and higher benefit rates. The following is an explanation by division for allowable increases as per budget guidelines in the non-labour accounts.

- The Waste Management Division budget total increases by \$314K due to price increases in contracted waste related activities.
- The Roads Division budget is higher by \$235K. Part of the increase is in utilities for \$96K due to price changes related to streetlights. Roads maintenance contract increase by \$112K for price and volume of assumed roads. The remainder of the increase is in fuel, dumping charges and materials and supplies as allowed by budget guidelines.
- Winter operations total costs increases by \$268K. The variance consists of a \$198K increase in contracts due to volume increase of \$95K and remainder due to price increase. A \$66K increase in materials account for salt purchases mostly due to \$38K volume and remainder price. The remainder is a small increase in fuel as a result of anticipated price changes as per budget guidelines.

2016 Increase of \$934,166 (2.9%)

The increase is mostly in non-labour accounts for \$898K and adjustments of \$36K in labour accounts due to progressions and higher benefit rates. The following is an explanation by division for allowable increases as per budget guidelines in the non-labour accounts.

- The Waste Management Division budget total increases by \$529K split between price and volume increases in contracted waste related activities, almost 60% of the waste management contract increase is related to volume and the remainder was related to price.
- The Roads Division budget is higher by \$221K. Part of the increase is in utilities for \$100K due to price changes related to streetlights. Roads maintenance contract increase by \$88K for price and volume of assumed roads. The remainder of the increase is in fuel, dumping charges and materials and supplies as allowed by budget guidelines.
- Winter operations total costs increases by \$147K. The variance consists of a \$75K increase in contracts due to price. A \$69K increase in materials account for salt purchases mostly due to \$29K price and remainder volume. The remainder is a small increase in fuel as a result of anticipated price changes as per budget guidelines.

2017 Increase of \$793,427 (2.4 %)

The increase is mostly in non-labour accounts for \$764K and adjustments of \$29K in labour accounts due to higher benefit rates. The following is an explanation by division for allowable increases as per budget guidelines in the non-labour accounts.

- The Waste Management Division budget total increases by \$321K due to volume increases in contracted waste related activities.
- The Roads Division budget is higher by \$217K. Part of the increase is in utilities for \$105K due to price changes related to streetlights. Roads maintenance contract increase by \$79K for price and volume of assumed roads. The remainder of the

Attachment #5 - Financial Information & Analysis

increase is in fuel, dumping charges and materials and supplies as allowed by budget guidelines.

- Winter operations total costs increases by \$226K. The variance consists of a \$151K increase in contracts due volume increase. A \$72K increase in materials account for salt purchases mostly due to \$30K in price and remainder volume. The remainder is a small increase in fuel as a result of anticipated price changes as per budget guidelines.

▪ Vaughan Public Libraries

2014 Increase of \$262,318 (1.9%)

The Vaughan Public Library Board recommends an increase in the Library budget of \$262K. The increase is related to adjustments in labour accounts due to higher benefit rates, progressions and full year impact of economic adjustments from collective agreements. The remainder of the increase is related to small changes in utilities as per budget guidelines and joint service charges to reflect actual costs.

2015-2017 Increases

2015 Increase of \$738,799 (5.2%)

The increase is mainly due to \$467K for additional resource materials required for the new Civic Centre Library expected to open. The remaining variance of \$272K is in labour accounts due to higher benefit rates, progressions and impact of economic adjustments from collective agreements.

2016 Increase of \$115,429 (0.8%)

The increase is due to higher benefit rates, progressions and the impact of economic adjustments from collective agreements.

2017 Increase of \$161,675 (1.1%)

The increase is mainly due to \$99K for additional resource materials required for the new Carrville Library expected to open. The remaining variance of \$62K is in labour accounts due to higher benefit rates, progressions and impact of economic adjustments from collective agreements.

All of the increases from these departments were allowed within the approved parameters of the Council approved 2014-2017 Operating Budget Guidelines.

3. 2013 One-Time Funding Costs Removed

Included in the previously approved 2013 Operating Budget were items that were approved on a one-time funding basis. For example, costs associated with a new staff addition for furniture and computer hardware. The following 2013 one-time expense items have been removed from the 2014 Draft Operating Budget.

2013 One-Time Expenses Removed

| Department | Expenditure Description | Amount |
|------------------------------|-------------------------|------------------|
| Building Standards | Professional Fees | 60,000 |
| Environmental Sustainability | Professional Fees | 45,000 |
| Human Resources | Professional Fees | 50,000 |
| SUB-TOTAL | | \$155,000 |

| 2011 Additional Complement Related | Expenditure Description | Amount |
|------------------------------------|----------------------------------|------------------|
| Building Standards | Computer Hardware | 13,800 |
| | Computer Software | 50,000 |
| | Sundry | 10,000 |
| Dev & Trans | Mileage | 200 |
| | Office Supplies | 250 |
| | Sundry | 500 |
| | Memberships | 500 |
| | Training & Development | 1,500 |
| | Cellular Hardware & Line Charges | 1,160 |
| | Office Equipment & Furniture | 2,800 |
| | Computer Hardware | 6,000 |
| Development Planning | Cellular Hardware | 360 |
| | Office Equipment & Furniture | 2,800 |
| | Computer Hardware | 10,400 |
| | Dept. Sundry Expenses | 500 |
| Engineering Services | Office Equipment & Furniture | 10,000 |
| | Computer Hardware | 4,000 |
| Information & Tech | Office Equipment & Furniture | 150 |
| | Training & Development | 500 |
| | Computer Hardware | 7,800 |
| Policy Planning | Computer Hardware | 5,800 |
| Strategic Planning | Computer Hardware | 1,000 |
| SUB-TOTAL | | \$130,020 |

| | | |
|---|--|------------------|
| TOTAL ONE-TIME EXPENSES REMOVED FROM 2014 BUDGET | | \$285,020 |
|---|--|------------------|

4. Budget Expenditures Summary

The Draft 2014 Budget and 2015-17 Operating Plan totals \$246.2M for 2014, \$255.2M for 2015, \$267.8M for 2016 and \$270.0M for 2017 in expenditures, of which 95% relates to eleven accounts. The summary below illustrates the City has limited flexibility in any given year to significantly alter the City's cost structure. Many of the costs are committed through collective agreements or service contracts. Most budget variance explanations have been discussed in the previous analysis section.

| | 2014 | | | 2015 | | | 2016 | | | 2017 | | |
|---------------------------------|--------------------|-------------------|----------------|--------------------|-------------------|----------------|--------------------|-------------------|----------------|--------------------|-------------------|----------------|
| | Base Budget (\$) | % of Total Budget | Cumulative (%) | Base Budget (\$) | % of Total Budget | Cumulative (%) | Base Budget (\$) | % of Total Budget | Cumulative (%) | Base Budget (\$) | % of Total Budget | Cumulative (%) |
| Operating Expenditures | | | | | | | | | | | | |
| Salaries and Benefits | 140,371,275 | 57.0% | 57.02% | 143,693,166 | 56.3% | 56.31% | 145,284,485 | 55.3% | 55.29% | 146,405,204 | 54.2% | 54.22% |

| All Other | 11,726,446 | 4.8% | 100.0% | 10,980,957 | 4.3% | 100.0% | 11,104,416 | 4.2% | 100.0% | 11,168,211 | 4.1% | 100.0% |
| Total Draft Expenditures | 246,199,978 | 100.0% | -- | 255,170,677 | 100.0% | -- | 262,776,851 | 100.0% | -- | 270,001,319 | 100.0% | -- |

The remaining 4.8% or \$11.7M of total expenditures in 2014, \$11.0M in 2015, \$11.1M in 2016 and \$11.2M in 2017 is further detailed in the following table. The table highlights not only the 2014 to 2017 account budget and variance, but the allowable increases as per council approved guidelines and any reallocation amounts. It is important to note the total of all reallocations net to zero and therefore do not impact the City's budget. In addition, for variances over \$5,000, a brief explanation is provided.

Attachment #5 - Financial Information & Analysis

| Expenditures (All Other) | 2014 | | | | | | | | | | | | | | | 2015 | | | 2016 | | | 2017 | | |

Selected Expenditure Increase/Decrease Commentary

- 1 Increase due to higher demand for YRT tickets based on higher demand.
- 2 Decrease due to one time funding removals related to 2013 ARR's.
- 3 Increase due to maintenance contract increase.
- 4 Increase due to 2014 election year.
- 5 Realignment of internal recovery accounts to bring in line with actuals

DRAFT 2014 BUDGET AND 2015-2017 PLAN

DRAFT 2014 BUDGET AND 2015-2017 PLAN

5.4 Budget Guidelines and Process

***FINANCE & ADMINISTRATION
COMMITTEE***

November 12 2013

FINANCE AND ADMINISTRATION COMMITTEE**JUNE 10, 2013****PLANNING FOR THE FUTURE**
2014-2017 BUDGET & BUSINESS PLANNING GUIDELINES**Recommendation**

The Acting Commissioner of Finance & City Treasurer in consultation with the Manager of Operating Budgets, and the Manager of Capital and Reserve Planning recommend:

- 1) That the Budget & Business Planning Guidelines, summarized in this report be approved; and
- 2) That the Budget Timetable be approved.

Contribution to Sustainability

Sustainability by definition focuses on the ability to maintain an activity over an extended time horizon. Budgeting is the process of allocating limited resources to achieve the City's objectives and established priorities. Responsible budgeting allocates resources in a way that balances needs and aspirations of the present without compromising the ability to meet those of the future. The proposed budget approach seeks to minimize the current year funding pressures, while meeting the requirements of sustainability.

Economic Impact

The economic impact of the 2014-2017 Budget will be fully determined after receipt of the City's budget submissions and once the draft budget is developed and presented to the Finance and Administration Committee.

Detailed below are the recognized levy forecasts presented as part of the 2013 budget, which are expected to change as estimates are refined based on more current information.

| 2015 | | | 2016 | | | 2017 | | |
|--------------|-------------|-------------|--------------|-------------|-------------|--------------|-------------|-------------|
| Rate Incr. | \$ (m) | Bill Incr. | Rate Incr. | \$ (m) | Bill Incr. | Rate Incr. | \$ (m) | Bill Incr. |
| 4.59% | 7.25 | \$56 | 5.70% | 9.54 | \$73 | 5.16% | 9.32 | \$70 |

Communications Plan

Departments will receive the Budget Guidelines, instruction packages and timetable in June; shortly after the City's Budget Guidelines are approved by Council. In addition, department working/training sessions will be offered to departments to assist in preparing their budgets.

As part of the budget process and integral to building the budget, opportunities for public engagement, consultation and input will be available, with appropriate notice provided. These opportunities consist of the following:

- ❖ Information posted on the City website
- ❖ Interactive budget simulation tool designed to educate residents on pressures
- ❖ Public Finance & Administration Committee/Council meetings held throughout the process
- ❖ A public input meeting prior to final budget approval

In addition to the above, the City of Vaughan is undertaking a number of strategic initiatives which incorporate significant public engagement. Although separate processes, public feedback obtained at these events migrate into the budget decision making process.

Purpose

The purpose of this report is to obtain the Finance & Administration Committee's approval for the City's budget & business planning guidelines and timetable. The approach, guidelines and actions recommended represent prudent management practices and are appropriate given the demand for services is increasing, while at the same time the City has limited resources.

Background - Analysis and Options

Financial Sustainability: Always a Key Priority

As a result of the City's long standing dedication to financial management through progressive best practices and prudent policies, the City is in a strong financial position. The City has always considered increasing taxes as a last resort. Through prudent policies, tight budget guidelines and strong leadership, the City has provided residents tremendous value by offering some of the lowest property tax rates in York Region and the Greater Toronto Area, while providing high quality services to the community.

As the City moves forward, financial sustainability must continue as one of Vaughan's key priorities. Over the next decade, the City of Vaughan is expected to undergo a tremendous transformation fueled by sustained high growth rates, provincially driven intensification, increasing legislative requirements, mounting infrastructure renewal costs, and a number of vision based master plans reflecting important community needs. As the City becomes increasingly more sophisticated, it will also face increasing financial pressure beyond the many factors currently placing significant strain on the property tax rate and reserve balances to maintain existing service levels. These pressures are permanent and often require continuous funding solutions, typically taxation.

Economic Update – Optimistic About Future Growth

According to the TD Economics April 8th report, the Canadian economy is forecasted to improve. Below is a brief summary from that report.

"The report is clearly indicative of the struggles faced by the Canadian economy in the latter half of 2012. The increasingly positive outlook speaks volumes about where the Canadian economy is headed this year. Indeed, TD Economics anticipates an acceleration of growth this year. While there have been some bumps along the road, we expect the US economic recovery to gain momentum in the months ahead which, in turn, should drive a stronger export profile here in Canada. Combined with continued resilience in the domestic economy, real GDP growth in Canada should accelerate to the 2-3% range on a quarterly annualized basis by the second half of 2013. For the Bank of Canada, the moderate growth profile and well-anchored inflation expectations imply little reason to move off the sidelines in the near term. We continue to expect interest rates to remain on hold until the end of next year."

The above information is relatively global and is intended to provide a general economic context, which may change over time and may not reflect Vaughan's micro economic situation.

Planning for the Future

The Budget Guidelines continue to incorporate a future focus to provide citizens with more certainty about the direction of City services, finances, and tax levels at the same time recognizing the challenges that lay ahead and building on the financial planning efforts. The City's rigorous budgetary process has focused on containing costs and implementing best practices, with the goal of developing realistic and responsible financial plans. The budget guidelines consist of the following principles:

The Budget objective

“To balance the pressures of maintaining existing services and growth requirements against available future funding/City resources necessary to undertake and manage operations and corporate initiatives”

Managing our future

1. Resourcing our Vision “Corporate Planning Process”
2. Looking to the future with multi-year budgets
3. Managing operations through business planning

Managing tax increases

4. Exploring opportunities through public service renewal and operational reviews
5. Budget control through specific guidelines
6. A thorough multi-layer review process

In addition to the above, sections are provided regarding the following:

- Budget process highlights
- Continued process improvements
- Budget Timetable

Further details with respect to each of the actions are provided in the following sections.

1. RESOURCING OUR VISION “The Corporate Planning Process”

Building on last year’s efforts, the Corporate Planning Process continues to integrate strategic planning and financial planning processes. The primary benefits of this step are numerous:

- ✓ To ensure an achievable and resourced strategic plan
- ✓ To ensure resource allocation is guided by the City’s vision and strategic themes
- ✓ To better communicate the City’s direction and focus

On April 23rd, 2013, Council reviewed the priority themes and initiatives and agreed the direction which had been set in 2012 is still valid. The rationale was that a number of priority strategic initiatives were not fully implemented and it was important to maintain a focus before adding new priority initiatives to the list. The priority strategic items for this year’s budget process are:

- Develop a plan to build a dynamic Vaughan Metropolitan Centre (VMC)
Sponsor: City Manager
Owner: Commissioner of Planning
- Further evolve performance indicators
Sponsor: Commissioner of Corporate and Strategic Services
Owner: Senior Manager of Strategic Planning
- Develop and implement a corporate-wide asset management system
Sponsor: Commissioner of Engineering and Public Works
Owner: Director of Engineering Services
- Additional operational/business reviews
Sponsor: Commissioner of Corporate and Strategic Services
Owner: Director of Innovation & Continuous Improvement

In addition to the above items, there are *10 other initiatives with varying degrees of priority that will be incorporated into the budget resource prioritization process.*

2. LOOKING TO THE FUTURE WITH MULTI-YEAR BUDGETS

The City will continue with its *4 year budget process*. This action provides decision makers with added foresight and the ability to proactively grasp future opportunities, address future challenges, and reduce blind spots by understanding the longer-term financial implications of present and past decisions. This is a very strategic approach intended to generate discussion on

where the City's future resources should be focused to best support the City's vision, operationalize strategies, generate public value and address pertinent challenges. It is also a critical component of the Corporate Planning Process discussed in the prior section.

Departments are well positioned for this task as a result of internal developments in business planning, master planning, long-range forecasting, budget automation etc. Multi-year budgeting should now become easier, as the initial forecast years have been substantially developed requiring a review and adjustment focus. It is recognized that assumptions, estimates and uncertainties are commonplace when predicting future budgets and these factors may change as new information becomes available. For this reason, it is suggested that Council continue to only approve the current year budget and recognize future budget forecasts. With an established four year budget process, budget decisions should become easier and flow naturally as future requirements are discussed and adjusted over multiple processes before current year approval. Detailed below are the recognized levy forecasts presented as part of the 2013 budget.

| Components | 2014 | | | 2015 | | | 2016 | | |
|-----------------------|--------------|--------------|-------------|--------------|--------------|-------------|--------------|---------------|-------------|
| | Rate Incr. | \$ (m) | Bill Incr. | Rate Incr. | \$ (m) | Bill Incr. | Rate Incr. | \$ (m) | Bill Incr. |
| Base Budget | 2.15% | 3.39 | \$26 | 1.92% | 3.26 | \$25 | 3.15% | 5.82 | \$43 |
| ARR | 2.44% | 3.83 | \$30 | 3.77% | 6.28 | \$48 | 2.01% | 3.50 | \$27 |
| Subtotal | 4.59% | 7.22 | \$56 | 5.69% | 9.54 | \$73 | 5.16% | 9.32 | \$70 |
| Capital Budget | | 66.56 | | | 69.29 | | | 105.20 | |

These figures are expected to change as estimates are refined based on new information. The 2017 levy forecasts will be determined during the 2014-2017 budget process.

3. MANAGING OPERATIONS THROUGH BUSINESS PLANNING

Business Plans will continue as part of the corporate planning process to help establish and reinforce connections between corporate priorities, operational plans and resources. Business plans will continue to align with the multi-year budgeting timeframe in order to align department objectives, measures and pressures. This information is vital to the budget process as it sets the stage to assess the departments' requirements and associated resource adequacy. For example, resource gaps might exist to maintain service levels, achieve operational objectives or deliver on corporate initiatives. This information also plays a critical role during budget deliberations by providing a platform to better understand department pressures and an objective basis for allocating funding.

The Senior Manager of Strategic Planning is leading the business planning process and assisting departments with business plan updates and refinements. The budget department portfolio analysts are providing a supporting role in this activity. Business Plan reviews were initiated earlier in the year to develop a more comprehensive planning process, including brainstorming of key business issues and aligning key business outcomes, objectives and initiatives.

4. EXPLORING OPPORTUNITIES THROUGH PUBLIC SERVICE RENEWAL AND OPERATIONAL REVIEWS

As previously mentioned in this report, the City of Vaughan is undergoing a tremendous transformation fueled by sustained high growth rates, increasing requirements, fiscal pressures, and citizens' rising expectations for better and faster services delivered at a lower cost. The City must anticipate and prepare for the evolving future needs of the City. To accomplish this, and continue with City's progress, opportunities must be explored to enhance capacity and deliver effective services. To assist in this regard two corporate initiatives, Public Service Renewal and Operational Reviews, have been implemented. The results of these initiatives will be incorporated with the budget process.

Public Service Renewal

Senior Management Team has been asked by the Mayor to review City operations focusing on excellence in the administration of the City. External consultants were hired by the City to coordinate and frame opportunities being developed by staff in pursuit of efficiencies, effectiveness and resource capacity in City Operations. In September, a report will be provided to Council and every effort will be made for the recommendations from this report to be included in the compilation of the 2014 Budget and 2015-2017 Plan.

Operational Reviews

The newly developed Innovation and Continuous Improvement Department will be the primary lead in conducting Operational Reviews. Although a formal plan is being developed, a few operational reviews are currently underway and any costs or associated benefits anticipated from implementing recommendations associated with these reviews will be reflected to the extent possible in the upcoming budget preparation.

Operational Reviews help ensure that program and service expectation (of all stakeholders, including residents, businesses, Council and regulators) are being addressed by programs that are effective (i.e., focused on delivering the right level of services) and efficient (i.e., supported by processes that do things right) and economic (i.e., utilize resources appropriately). Reviews provide opportunities to identify any gaps, issues or challenges in these areas and to develop realistic options for addressing them by considering changes to processes, organization (e.g., skills, capabilities, accountabilities) and technology utilizing a consistent approach in developing a case for change.

Operational reviews of programs are expected to provide recommendations relating to service delivery models, levels of service, impacts on residents, key processes, organizational structure, enabling technologies and identify program costs together with implementation approaches, risks and mitigation.

Innovation Reserve

To assist in this regard, a new funding tool was recently developed to provide upfront seed funding for value propositions with a longer-term financial savings. Projects savings will be leveraged to recover the initial investment, benefit the department, and potentially fund future projects. A business case including payback and recovery metrics will be required for requests of this nature. A process has been developed, but is expected to be refined overtime as this new tool evolves.

5. BUDGET CONTROL THROUGH SPECIFIC GUIDELINES

The preparation of the operating budget will require a number of issues to be taken into consideration. Pressures associated to price increases, new initiatives, and growth requirements will need to be balanced against available funding. The objective of the City is to provide the lowest possible tax increase while maintaining the City's service levels and safeguarding assets. Below are actions in place to achieve this outcome.

Specific Operating Budget Guidelines

- A. Controlling budget pressures
- B. Strict process to evaluate funding requests
- C. User fee reviews to reduce the tax burden
- D. Zero impact adjustments
- E. Exploring opportunities through operational reviews and public service renewal

There is no across the board cost increase for inflation and no automatic increase for new staffing. All new funding requests require business cases and thorough review.

A) Controlling budget pressures

- i. For the 2014-2017 budget process, all account budgets will remain at prior year budget levels with the exception of established commitments and pre-defined external pressures. This action will limit the base budget increase to the following items:

- Council approved employment agreements;
- Full year impact of prior year decisions;
- Council authorized recommendations;
- Supported external service contract commitments;
- Established utility & insurance increases, where justified;
- Debenture obligations;
- Defined corporate contingency items;
- Reserve contributions in accordance with approved policy.

Under these actions, departments are only permitted to include very specific increases, typically related to predetermined agreements, contracts or Council approvals.

- ii. To ensure that all financial requests are captured and assessed within the approved budget process, all items containing an economic impact during the annual budget process are to be submitted to the Finance and Administration Committee for review and recommendation before Council consideration.

B) Strict process to evaluate funding requests

Under the above guidelines, departments are only permitted to include very specific predetermined increases in their budget. To the extent a department requires additional resources, a separate business case must be submitted detailing strategic links, costs & benefits, implications & consequences, success indicators, timelines, capital implications and project references, etc. These are referred to as **Additional Resource Requests (ARR)**. This action separates the Operating Budget into the following two classifications:

- Base Budget – Budget based on approved guidelines – Minimal tax increase.
- Additional Resource Requests – Essential funding requests not permitted through the base budget guidelines requiring Council review and approval. Council approval is specifically required for new staff resources, a change in service level, or new initiatives. Requests are limited to items with a gross cost in excess of \$10,000, which can have a net neutral or positive overall impact.

The objective of the above action is to separate basic operating obligations from items that may require further discussion and decisions.

Determining which resource requests move forward is a very difficult and challenging task as all departments are experiencing challenges associated with maintaining service levels, meeting legislative requirements, and implementing initiatives to move the City forward. Recognizing the value of requests greatly exceeds the amount of available limited resources; requests are evaluated and prioritized based on a blend of associated municipal value and risk criteria. The initial prioritization action is performed by a Director's Working Group (DWG) and further vetted by the Senior Management Team (SMT). This action integrates staff's experience and involvement, shares the challenges associated with prioritization and enhances corporate knowledge. A recommendation is provided to Committee and Council for consideration and only Council approved requests are included in the annual budget.

As a result of implementing multi-year budgets many requests are currently included in future year budgets or "recognized". To avoid confusion, these requests are to remain at the rating and year previously assigned by Senior Management, unless authorized by the Commissioner of Finance & City Treasurer and the City Manager.

C) User fee reviews to reduce the tax burden

Another opportunity to minimize tax pressures is to maximize revenue generation through user fees and service charges. Most of the City's fees/charges are based on existing studies and multi-year by-laws; therefore prior year budget guidelines focused only on the General User Fee By-law, which captures a variety of minor/miscellaneous items. However with the emergence of multi-year planning and varying by-law intervals/expiry dates, it is of great benefit to coordinate and consolidate the planning of these by-laws for review, update and budget approval under one common process and 4 year term (i.e. Planning, Engineering, Building standards, Licensing, Recreation, etc.). *NEW:* Every effort will be taken to incorporate Recreation Department fees into the General User Fee By-law.

It is important to emphasize that any reduction in a user fee or service charge cost recovery ratio will have a corresponding direct impact on the City's levy. Therefore to minimize any impact on the City's tax rate, it is important to sustain or improve revenue/cost relationships. In addition to adjusting base budget revenues for anticipated changes in activity, departments will be required to review user fees and service charges and perform the following:

- ❖ Increase fees and charges in relation to related annual cost increases
- ❖ Incorporate a net full cost benefit in fees set for external inter-municipal services
- ❖ Submit new user fees and service charges opportunities

As a default, it is anticipated that department user fees & service charges will increase at minimum, by the rate of inflation, in scheduled increments, unless justification for no increase is otherwise specified. The Statistics Canada Ontario core inflation rate increased 1% for the 12 month period ending March 2013. However, Bank of Canada predicts that there will be inflationary pressures in 2014. We recommend an increase of 1.5% to user fees and service charges. The above actions will be submitted for Senior Management review and Council approval.

D) Zero impact adjustments

Reclassifications and reallocations in *non-labour* related accounts are only permitted if they result in a zero impact on the budget. Furthermore, these adjustments are limited to better reflecting the true nature of the expense or more accurately aligning account budgets. There are no impacts

associated with these adjustments and the intent is to refine departmental budgets. As part of the budget process, reallocations/reclassifications will be reported, demonstrating a neutral impact.

Specific Capital Budget Guidelines

The preparation of the Capital Budget will require a number of issues to be taken into consideration. The pressures of new initiatives, maintaining existing infrastructure, and growth requirements will need to be balanced against available funding, the impact on future operating budgets and the staff resources to undertake and manage the capital projects.

A prevailing theme throughout the years has repeatedly been the need to address the funding component for infrastructure renewal. The challenge of funding the significantly growing costs of infrastructure renewal is a paramount concern for most municipalities across Canada and stems from new construction being primarily funded by the development industry, leaving the municipalities across Ontario to fund future replacement costs from the municipality's limited tax base. The danger of not doing so could create a situation where the funding shortfall will continue to slowly build until a point in the future where a wave of facility, park, fire and other replacement projects come on board without available funding. Recently a number of corporate initiatives have been initiated to address the concern:

- Undertaking the development of an Asset Management Strategy
- Implemented Life Cycle asset contributions
- Realigned reserves to ensure asset funding equity

In November of 2012 Council adopted staff's recommendation to realign Infrastructure Reserve balances based on their associated proportion of future requirements. Future requirements were based on lifecycle replacement timing and estimate funding needs over the next 5 years. In so doing, the Parks and Vehicle Replacement Reserves received additional funding for other Infrastructure Reserves, helping to alleviate some of the funding challenges these reserves were facing in the short term. The funding shortfall still exists and will still continue to build.

A recent emerging theme is the mounting pressure associated with a number of value added corporate initiatives i.e. Vaughan Metropolitan Centre, Corporate Asset Management, City Hall Public Square, Enterprise Data Management System and a variety of master plan initiatives. All of these initiatives, although valid and warranted, compete for limited capital funding, not only with each other but also with existing requirements to maintain the City's services and assets.

Recognizing the above illustrated challenges, the objective of the guidelines is to build a responsible Capital Budget that allocates resources in a way that balances needs and aspirations of the present while meeting the requirements of longer term sustainability. The Capital Budget Guideline components are:

- A. Capital project definition
- B. Identifying funding sources
- C. Guiding decisions through policies
- D. Specific actions to manage Capital Budgets

A) Capital Project Definition:

- A gross cost exceeding \$20,000; and
- For the purpose of constructing, acquiring or improving lands, buildings, engineering services, machinery and equipment or furniture and fixtures. The project must be undertaken for the purpose of providing municipal services, have a lasting benefit beyond one year and/or extend the life of the asset. Projects should incorporate all costs associated with getting the project ready for its intended use (i.e. license costs, survey

costs, etc). Expenditures for regular repair or maintenance designed to maintain an asset in its original state are not a capital expenditure; or

- A non-capital expenditure that is related to planning for growth (i.e. planning studies, master plans, etc); or
- In special circumstances, an item of operating nature intended to avoid or smooth significant short-term spikes in the general levy. These items are typically classified as transfers, but can be projects, and authorized by the Commissioner of Finance & City Treasurer.

B) Identifying Funding Sources

Capital projects are funded from the following five main sources:

Development/Special Area Charges Reserves: This funding source is based on legislation which imposes charges on new development in the City to pay for growth related net capital costs of servicing new development. The intent of the legislation is to maintain existing capital service levels and fund hard service growth requirements. On May 14th Council adopted the 2013 Development Charge Background Study. This study outlines capital initiatives to support future growth within the City and should therefore be used to assist departments with their Capital Project Planning. Development Charge Reserve collections are dependent on the economy and therefore future capital plans may require adjustments and could be different from the initial development charge document forecast.

Discretionary Reserves: This funding source is derived from dedicated operating budget contributions or allocations of accumulated net revenue for a particular purpose. The City has established a number of reserves to help manage municipal finances and protect against the potential need to reduce service levels or raise taxes due to temporary shortfalls or unexpected expenditure increases. These reserves are broken into the following categories:

- Sustainability - to protect against risk and uncertainty (i.e. winter, tax rate stabilization, etc.)
- Infrastructure Renewal - to fund the future costs of infrastructure renewal
- Corporate Reserves - to administer future liabilities and operational requirements (i.e. election)
- Special Purpose – to administer funds for which there is a specific purpose (i.e. cemetery)

In November of 2012, Council adopted the *Consolidated Reserve Policy* (Policy#05.4.01). This policy provides reserve fund guidance and supports financial sustainability. As a result, new reserves were added, some definitions expanded, and other reserve merged.

Grants and Other Financing: This source of funding is provided by Federal/Provincial/Regional levels, specific contributions and bequests. Typically these funding sources have very prescribed requirements and criteria.

Debenture Financing: Debenture Funding is primarily utilized for the City's road and bridge replacement program, due to the overall substantial asset value and lengthy life cycles. Budgets are based on the "Pavement & Bridge Management Program Study".

Capital from Taxation: Projects identified from taxation funding are primarily non-growth related projects that have no other source of financing, such as technology replacement, new initiatives etc. In addition, the Development Charges Act 10% co-funding requirement for growth related soft services is also funded from this source.

C) Guiding Decisions through Policies

Over time, the City has developed a series of guiding financial policies and targets to assist in developing the Capital Budget, which have a positive impact on the financial stability of the City. They are listed as follows:

- A. A long standing City practice is “only capital projects with secured available funding sources are accepted”, otherwise specific Council approval is required.
- B. Discretionary reserve ratio > 50% own source revenue. Discretionary reserves provide the City with financial flexibility in order to safeguard against economic downturns and finance operations internally. This ratio is a strong indicator of Vaughan’s financial health.
- C. Working capital ratio > 10% own source revenue. Working capital funds provide in-year cash flow requirements.
- D. Debt level ratio < 10% own source revenue. The Debt Policy sets limitations on the use of debt in order to retain financial flexibility by avoiding long-term commitments and the high cost of interest. Limited to a maximum of 10% of total own source revenue, which is significantly lower than the Province’s 25% maximum.
- E. A 3% administration recovery charge will be applied to capital projects, with the exception of most grant funded projects. These funds are transferred to the Operating Budget and intended to generally offset internal project administration costs.
- F. The inclusion of the 1.76% HST component that is not recoverable should be included as part of the cost of the capital project. Some exceptions may exist, such as for permit-able parks for which no HST is included in the cost, and these will be dealt with on an as-need basis.
- G. NEW – A Contingency Matrix was recently developed to assist departments determine general project risk and a contingency budget amount. This will be shown as a separate cost for the capital project.
- H. The following guidelines relate to Development Charge projects:
 - 1) Positive reserve balances should not be placed into a pre-financing position, with exception for management studies incurred in advance of growth;
 - 2) Pre-financing should not be increased;
 - 3) Commit no more than 50% of revenues in the program year for any development charge service area that is pre-financed; and
 - 4) Development charges will be applied to the full extent permitted by legislation.

D) Specific Actions to Manage Capital Budgets

Actively Closing Projects

Continuing with past practice, staff together with departments will review all active projects to determine if projects can be closed. Any remaining project budget balance will be returned to the original funding source and made available during the 2014-2017 budget process.

Increased Project Information

Each Capital Budget request includes project justification based on appropriate detail and referenced source information. Building on this effort, Capital Budget Project submissions will now incorporate the following additions:

- Project activity timelines *(to better communicate the timing of main project events & high-level est. cash flows)*
- Multi-year Capital and Operating detail *(to provide better full cost financial visibility)*
- Life-cycle detail *(to assist with asset reporting and the development of asset renewal plans)*

- Implications on other departments *(to generate resource capacity awareness)*
- Connections to related projects *(to highlight capital relationships and dependencies)*
- Illustrating contingency and standardizing the process *(to illustrate project risk)*

Leveraging Grant and Subsidy Funding

To support local municipal initiatives, Federal, Provincial, Regional and local agencies deliver grant programs, partnerships, and subsidies which focus primarily on the following categories:

- Environmental Sustainability
- Infrastructure
- Economic Development
- Culture

Competition for these resources is high and as such applicants are required to prepare detailed submissions consisting of project plans, budgets, timelines, justification, etc. Successful submissions may also be required to meet strict compliance reporting and conditions. To assist the City in developing external funding opportunities, the City's Grant Specialist will participate in the budget planning process and review capital submissions to uncover opportunities and assist departments through the application process. Since implementing the External Grant Procurement Policy and Procedures in June 2009 the City has been very successful in receiving over \$56M, which have assisted in reducing costs associated with projects that may have otherwise been cancelled, delayed or placed increased pressure on the budget.

Forecasting Reserve Balances

In line with multi-year budgeting, reserve balances will also be forecasted to provide future visibility regarding funding availability and potential challenges. To accomplish this action assumptions will be required regarding reserve revenue streams, especially those that are dependent on external factors i.e. development charges, etc. Therefore, forecasted capital revenue assumptions will be conservatively estimated and future capital plans may require adjustments to account for potential changes in information i.e. upswings or downward trends.

Capital Project Prioritization

The value of projects approved will not only depend on the amount of funds available in a particular funding source, but also the impact on the City's overall resources i.e. available capital and operating funding, available resourcing capacity, established financial policies, etc.

The criteria used to prioritize projects within a funding source include, but are not limited to consideration of the following:

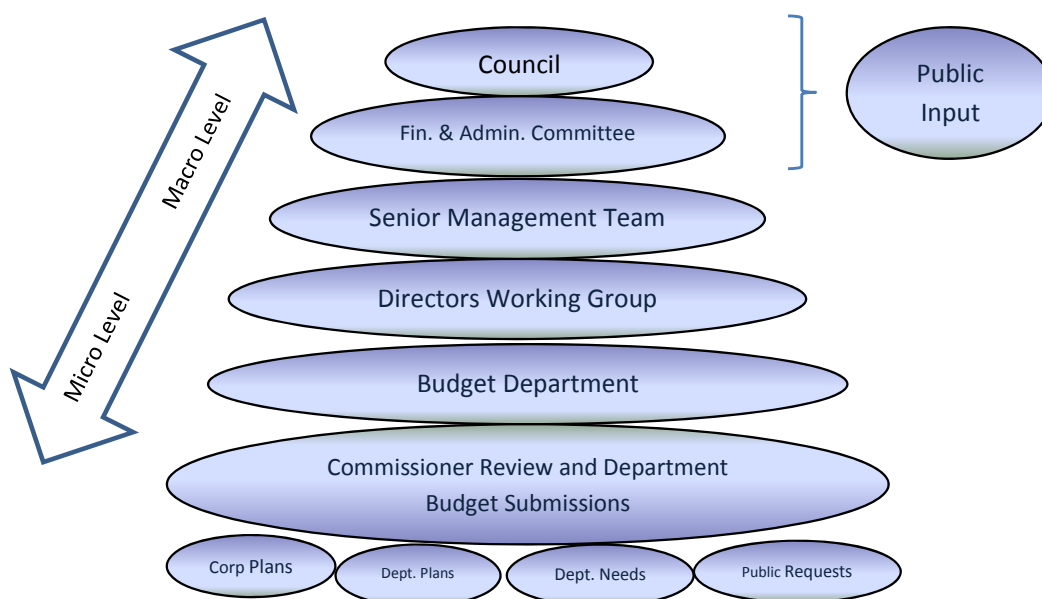

- Pre-Budget approval obtained
- Funds required to complete previously approved projects
- Legal or Regulatory requirements (including financial commitments)
- Net revenue generating, cost savings or efficiency improvement projects
- Growth related projects
- Infrastructure repair projects
- Equipment replacement projects
- New service levels

Based on the above endorsed guidelines, each department will prioritize the capital projects within their dedicated funding sources. For funding sources with multiple department stakeholders (i.e. capital from taxation) prioritization will be conducted through the Directors' Working Group (DWG). Concurrently, capital budgeting staff will assess funding availability within policy guidelines and establish multi-year funding availability lines for each funding source. As mentioned above, consideration will also be given to operating budget and staff capacity

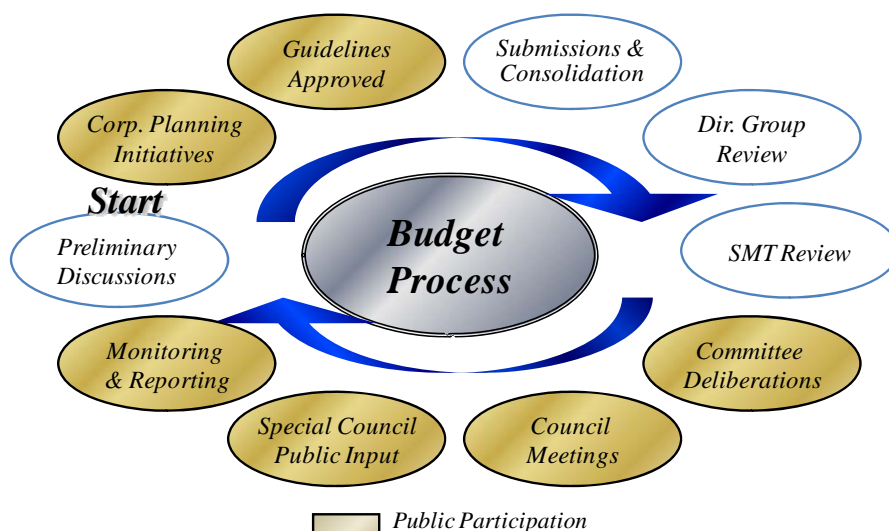

implications, which could result in prioritization adjustments. New: As a result of implementing multi-year budgets many requests are currently recognized. To avoid confusion, these requests are to remain in the year previously assigned by Senior Management, unless authorized by the Commissioner of Finance & City Treasurer and the City Manager.

6. THOROUGH MULTI- LAYER REVIEW PROCESS

The budget process has a very thorough review process and the final budget will consist of many decisions resulting from a variety of review sessions and open public sessions. Illustrated below are the various layers of review that occur and areas involved within Vaughan's budget process.

The opportunity for public involvement throughout the budget process is a key process element. Illustrated below are the touch point opportunities for public participation in the budget process.

CONTINUED PROCESS IMPROVEMENTS

The Budget Department strives to continuously improve the budget process. A strong emphasis is placed on reviewing processes and creating refinements that add value by making the process easier and more informative. Many of these improvements lead to greater efficiencies and reporting, thereby allowing management and front line staff to focus more on core operations, planning, budget review and decision making. To that end, some of the more recent significant process improvements for the budget process include:

- In the fall of 2012, Vaughan presented its first Financial Master Plan; this document discussed the long-term financial pressures facing the City and provided a number of progressive recommendations.
- Integrated strategy & budgeting through the development of the Corporate Planning Process.
- Recently underwent a Reserve Policy Update, which resulted in a consolidated framework, improved guidance, development of new reserves to meet emerging needs and a realignment of balances to ensure equitable funding.
- In an effort to address the City's growing infrastructure gap, the City recently implemented a *Reserve Contribution Policy* for tangible capital assets intended to ensure the community's infrastructure remains sustainable, supporting the numerous programs and services offered.
- Developing prioritization models to assist in decision-making & initiating a Directors' Working Group in order to enhance staff involvement and leverage staff knowledge.
- Consolidated City's quarterly reporting process into a single simplified report (Operating, Capital, and Water Waste Water). This action was intended for stakeholders to have a more fulsome and complete view of the City's financial results.

BUDGET TIMETABLE

Staff anticipate bringing forward the first draft of the 2014-2017 Budget to the Finance and Administration Committee in early November with the intent of a Finance and Administration Committee recommendation early January 2014 and Council approval in late January 2014. Every effort will be made to adhere to the timeline, but issues raised during the budget process could potentially impact the presented timeline.

Change - The submission process will occur in three steps. The overall intent is to layer the submission process and allocate time for departments to focus on specific process components. This in turn will allow adequate time for submission review and feedback. The submission process stages are as follows

1. Later June - Submit business plans to the Strategic Planning Area
2. Early August – Validate and submit base budgets
3. End of Aug – submit ARRs and capital requests

Developing a Business Plan is the initial step in the process and will help identify resourcing pressures, opportunities and objective alignment. The final submission stage requires departments to articulate Additional Resource and Capital Requests, which should be aligned with dept. business plans. This process is designed to build department budget in a systematic and logical manner. Assigned budget portfolio groups will be actively involved with departments to provide assistance with budget development.

| City of Vaughan 2014 - 2017 Budget Process Timetable | |
|---|---|
| Dates | Activity |
| June 10, 2013 | Budget Guidelines |
| June 25th, 2013 | Budget Instructions Issued To Depts. |
| June 28th, 2013 | Business Plan Submissions to Strategic Planning Dept. |
| Aug. 2nd, 2013 | Base Operating Budget Submissions |
| July – Aug. 2013 | SMT Preliminary 2014-16 Budget Review |
| Aug. 12th-16th, 2013 | Commissioner Review of Proposed ARR's |
| Aug. 23rd , 2013 | Capital Project Submissions and Operating ARR's |
| Sept. 2013 | <i>- Director Working Group (DWG) Prioritization</i> <i>- Submission Review, Analysis, & Consolidation</i> |
| Oct. 2013 | SMT Deliberations |
| Early Nov. 2013 | Draft Budget and Presentation Finalization |
| Nov. & Dec. 2013 | Finance and Administration Committee Deliberations |
| Jan. 2014 | Public Input Meeting/Council Approval (14 day notice req.) |

Directors' Working Group (DWG), Senior Management Team (SMT), and Finance and Administration Committee meeting dates will be scheduled shortly to accommodate this timeline.

Relationship to Vaughan Vision 2020

This report is consistent with Vaughan Vision 2020's long term goal of financial stability through the design of budget guidelines intended to produce a responsible budget. The necessary resources have not yet been approved and will be addressed throughout budget deliberations.

Regional Implications

N/A

Conclusion

The 2014-2017 Budget Timetable and Guidelines requires the Finance & Administration Committee to provide a recommendation to Council in early January 2014 and a public meeting be held late January 2014, followed by Council approval. The enclosed Guidelines are presented to provide the lowest possible tax rate increase while maintaining service levels and supporting Vaughan's vision.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

5.5 Vaughan Vision Initiatives List

***FINANCE & ADMINISTRATION
COMMITTEE***

November 12 2013

Prioritization Criteria

| | |
|-----------------------------|---|
| Level of Impact | How large of an impact the initiative will have on the municipality |
| Interdependencies | Timing of the initiative relative to other initiatives in the plan |
| Municipal Risk Management | Legal, intergovernmental relations |
| Corporate-Wide Implications | How the initiative will affect multiple departments |
| Financial Management | How much, from where, from whom? |

Vaughan Vision 2020 Strategic Initiatives List

| Initiative Ref. Number | Strategic Initiative | VV 2020 Link | Sponsor | Goal Date | Priority | Evaluation/Comments |
|------------------------|---|---|---|-----------|----------|---------------------|
| 1 | Develop the plan required to build a dynamic Vaughan Metropolitan Centre | Manage Growth & Economic Well-being | City Manager | Q4/15 | High | |
| 2 | Further evolve performance indicators | Ensure a High Performing Organization | Commissioner of Strategic and Corporate Services | Q4/14 | High | |

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Internal Audit

Internal Audit

2014-17 Business Plan

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Internal Audit Department provides independent, objective assurance and consulting activity designed to add value and improve the City's operations. The Department helps the City accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes. The department's core responsibilities are to conduct operational and compliance audits and provide advisory services where requested.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Provide assurance that key risks are effectively mitigated and key controls function as intended.
2. Provide education and advice to City departments to help them develop risk mitigation strategies and establish and maintain good governance, accountability and control.
3. Support the City's objective to maintain transparency and openness.

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Ensure a High Performing Organization
 - Staff provide education and advice to City departments to help them develop risk mitigation strategies and establish and maintain good governance, accountability and control
2. Demonstrate Excellence in Service Delivery
 - The Department provides high quality independent and objective assurance and consulting services to City departments and conducts operational and compliance audits, adding value and improving the City's operations
3. Ensure Financial Sustainability
 - The Department provides assurance that key risks are effectively mitigated and key controls function as intended, protecting the financial sustainability of the organization.

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 2 | 2 | 1 - | - | - | - |
| Part Time | 0 | 0 | - | - | - | - |
| Overtime | - | - | - | - | - | - |

Internal Audit

2014-17 Business Plan

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

Internal Audit at Vaughan is evolving with the objective of being more service focused. This is an emerging strength and one that is starting to have some return on investment. Experienced staff are the key strength representing over 60 years of internal audit service between two staff members. Other strengths include using a risk based audit planning model to determine assignments and areas of priority focus.

The organization is beginning to realize the value Internal Audit is contributing through its advisory focus and risk management training.

The most significant constraint/risk is continuity of service. Both staff members are within five years of retirement. Current funding does not allow for service expansion. The business plan beyond 2015 is in jeopardy unless resources are in place to deal with staff loss that will begin towards the end of 2015. There is still a need to build risk management skill capability in the department. Although this is gradually emerging, the restricted timeframe to develop those skills still remains a significant challenge.

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

The most significant challenge for the Internal Audit Department will be to properly assess the control and risk management environment with limited resources. Vaughan as a rapidly growing and evolving community will have to make critical decisions balancing effective control and risk management with longer term financial sustainability. Internal Audit provides value when it can advise management on the appropriate level of control and provide assurance to the governing body that controls are working effectively. The pressures associated with auditing the City have become complex and sophisticated due to rapid growth, internal/external changes and technology.

Internal Audit can help play a proactive role by working with management to assess that the right controls are in place to manage the right risks. The challenge is being able to determine the risk criteria or risk framework is well defined or known so the appropriate balance of control versus risk can be applied. While being a significant challenge to both the organization and Internal Audit, it also provides the best opportunity to better manage the organization going forward.

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

Internal audit has a small budget (\$400K) with approximately 85% of that budget in salaries and benefits. There is no funding for contract services and limited funding for suitable automated tools. Traditionally, internal audit is not a funding priority unless it can demonstrate value to the organization. That value is hard to quantify and is best realized in being able to address issues before they become problems.

The financial impact of the additional resource request will be approximately \$72K. This takes into account that one existing staff position in the function has been reclassified at a savings of approximately \$25K. Applying this savings to the acquisition of an additional person will enable internal audit to better access the risk and control environment of the City. The additional person will enable more audit testing capability, development of a formal action plan follow-up system and additional support to develop more automated data analytic routines.

Internal Audit

2014-17 Business Plan

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|---|---|----------|---|
| 2014 Initiatives | | | |
| Provide high quality internal audit services through a combination of assurance and advisory services | Establish a Corporate Risk Profile and Gap Analysis | Q4 | One additional staff is being proposed for 2014 |
| | Support the Development of an Integrated Risk Management Strategy | Q2 | |
| Promote and Uphold Professional Standards | Establish an ongoing internal quality assessment program. | Q3 | |
| Support a Culture of Continuous Learning | Develop Internal Audit Competency Framework | Q2 | |
| | Establish an Internal Audit Staff Development Program | Q4 | |
| 2015 Initiatives | | | |
| Provide high quality internal audit services through a combination of assurance and advisory services | Maintain and update the Corporate Risk Profile and Gap Analysis | Q4 | |
| | Evaluate the effectiveness of the Integrated Risk Management Strategy | Q3 | |
| Promote and Uphold Professional Standards | Establish a formalized quality and assurance and improvement program to integrate monitoring and continuous improvement into the audit process. | Q2 | |
| Support a Culture of Continuous Learning | Enhance and update the Internal Audit Competency Framework | Q1 | |
| | Enhance and update the Internal Audit Staff Development Program | Q1 | |

Internal Audit

2014-17 Business Plan

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|------|------|------|------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Action Plan Implementation Percentage | | | | | TBD |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Completion of Audit Plan | | | | | TBD |
| Corporate Risk Profile Trend | | | | | TBD |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| Client Survey Results | | | | | TBD |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

Internal Audit has begun tracking Client Survey Results. The first survey was done in 2012 and the second, to be done in October 2013 will be used to track improvement. This is the main service quality measure as it provides insight as to the value of the envisioned internal audit service model.

Internal Audit will begin collecting data for the other measures in 2013. This will include tracking completion to an adjusted audit plan (recognizing plan changes approved by Council), and tracking percentage action plan implementation.

Corporate Risk Profile data collection will begin in 2014, once integrated risks are better known, trending baseline data will be developed.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Economic and Business Development

Economic Development

2014/17 Business Plan

Business Overview

Service Statement:

The City of Vaughan's Economic Development Department's service offerings are focused on attracting, nurturing and growing the economic activity across the City. The department's vision as articulated in the 10-Year Economic Development Strategy is:

To position the City of Vaughan as the gateway between the GTA and a globalized, knowledge-based marketplace, as well as positioning the City as an incubator of talent, innovation and entrepreneurship rooted in a dynamic and creative economy with a world-class quality of life.

Major economic drivers and catalysts that directly influence, and affect economic growth and prosperity in the City, and strongly influence the services offered by the Economic Development Department include the following:

- Development of Vaughan's new downtown the **Vaughan Metropolitan Centre (VMC)**.
- Expansion of **Highway 427**, providing growth within the **Vaughan Enterprise Zone (VEZ)**.
- Development of the **Vaughan Health Centre Precinct** and **Mackenzie Vaughan Hospital**.
- Creation of an **Innovation Park at the Kortright Centre** in partnership with the Toronto and Region Conservation Authority, York Region.
- Revitalization of **Kleinburg Main Street** in partnership with the Kleinburg Business Improvement Association (KBIA).
- **Integrated Entertainment and Gaming Complex**.
- New employment lands in the **Vaughan Mills Secondary Area** and **400 North Employment Lands**.

Core Activities:

The services and programs offered by the department fall into the following core service categories:

- | | |
|---|--------------------------------|
| ▪ Business Investment and Attraction | ▪ Employment Zone Development |
| ▪ Business Retention and Growth Support | ▪ Foreign Business Development |
| ▪ Economic Cluster Development | ▪ Small Business Development |

The Economic Development Department places additional focus on preparing for the future by taking the necessary steps to ensure that the "voice" of business is reflected in City policy and initiatives.

Economic Development

2014/17 Business Plan

Key Outcomes & Results:

In the 10-Year Economic Development Strategy titled “Building a Gateway to Tomorrow’s Economy” four main goals have been identified to ensure the City achieves economic prosperity through the attraction of new investment, retention and growth of existing companies and overall enhanced quality of life. These main goals include:

1. Be the **gateway** of economic activity to the Greater Toronto Area.
2. **Incubate** and enable entrepreneurial activities.
3. Provide **best-in-class** economic development services for our stakeholders.
4. Grow Vaughan’s dynamic **quality of place** and creative economy.

Based on Vaughan Vision 20|20 the Economic Development Department will contribute towards achieving the following goals:

1. **Manage Growth & Economic Well-Being**
 - ✓ Programs and services are focused on facilitating economic growth as well as ensuring future economic vitality through infrastructure, development policies, and labour force analyses.
2. **Demonstrate Service Excellence**
 - ✓ The Department provides a variety of service designed to attract new businesses, maintain the existing employment base, and ensure economic growth and vitality in the future.
3. **Preserve our Heritage & Support Diversity, Arts & Culture**
 - ✓ Staff members are dedicated to supporting a vibrant economy with a wide range of employment opportunities that foster and support the City’s creative community.

Key outcomes and results expected from the successful implementation of the 10-Year Economic Development Strategy include:

- Increased retention and expansion of existing Vaughan businesses.
- Attraction of new businesses and investment to Vaughan, resulting in new job creation.
- Formalization of new strategic partnerships that help the department move the goals and objectives forward.
- Establishment of a results oriented International Business Development program focused on Italy, China and Israel.
- Enhanced access to resources and strategic linkages regionally, nationally, and internationally for Vaughan businesses.
- Heightened brand awareness.
- Increased support for small and medium-sized businesses across all the key convergence sectors.

Staffing Profile:

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|------------------------------|-------------|-------------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |

| Overtime | 0 | 0 | - | - | - | - |

NOTES:

1. A new position “Economic Development Officer – Advanced Goods Production and Movement” has already been given status in the 2012 budget cycle.

Economic Development

2014/17 Business Plan

Economic Development Dept. Organizational Chart:

NOTES:

1. This new position "Economic Development Officer – Advanced Goods Production and Movement" was already submitted and given status in the 2012 budget cycle, then deferred to 2014 cycle.
2. The economic development is submitting an ARR in the 2014 budget cycle for an additional position "Economic Development Officer, Coordinator".

Service Profile

Economic Development

2014/17 Business Plan

Current Service State:

Strengths

- Strong economic drivers positioning the City for significant and rapid economic growth such as the Vaughan Metropolitan Centre, extension of Highway 427, development of a new hospital, among many other drivers.
- Significant supply of developable lands.
- Entrepreneurial mindset with close to 80 percent of businesses operating in Vaughan falling within the SME category.
- Highly diversified industry sectors many of which are positioned for continued impressive growth.
- Strong multi-cultural presences.
- Strong regional transportation routes and systems, including a subway connecting Vaughan to the City of Toronto.
- Rapidly growing population.
- Re-alignment of the economic development organizational structure, which will have a positive impact on the operational efficiency, productivity and enhanced level of customer services and concentration on generating measureable results.
- Net importer of jobs, attracting employees from across the Greater Toronto Area.
- Access to a skilled labour force, which is expected to increase further with the expansion of the subway and rapid transit strengthening the connection between Vaughan and the Greater Toronto Area.
- Strong support from Council with a common commitment to supporting businesses.
- Vaughan is a net importer of jobs and has been for many years.

Weaknesses/Pressures/Constraints/Threats

- Conversion of employment lands to retail or residential uses – encroachment issues also impacts on employment uses.
- Workload pressures, relative to the human resources.
- Budgetary pressures.
- Outstanding planning studies (i.e., OP, Secondary Plans, Zoning Bylaws).
- Infrastructure availability in VEZ and new employment areas (timing issues).
- Availability of employment lands for purchase, rising cost of lands and development charges.
- Worldwide economic uncertainties (i.e., strength of Canadian dollar, US economy, etc.)
- Increased competition from the US jurisdictions that offer businesses very lucrative financial incentives.

Future Direction for the Service:

Opportunities

- To leverage the significant economic drivers that exist across the City that will positively influence economic growth and prosperity.
- To establish strong connections and collaboratively work with internal departments across the City, most notably Planning, Public Works, Engineering, and Corporate Communications.
- To strengthen economic partnerships with strategic partners.
- To grow international business development interests in key markets, with a focus on Italy, China and Israel.
- To become the key economic driver of the Greater Toronto Area over the next twenty years.
- To make Vaughan the gateway for goods, business and investment travelling to and from the GTA.

Financial Impact:

Some of the impacts being experienced now or expected in the future and worth noting include the following:

Economic Development

2014/17 Business Plan

- The Economic Development Department is currently undergoing a renewal or restructuring of roles and responsibilities in an effort to increase productivity and overall effectiveness at generating economic growth and increased customer service. During the transition period the department will experience increases resource pressures until all positions are filled.
- Approach to international business development has shifted to focus on working on pre-mission matchmaking, ongoing follow-up support programs, year round lead generation and making stronger in-market commitments in an effort to generate stronger results, which has an increased demand on both human and financial resources.
- Expanded service level and program development scope has a direct impact on the demand for more resources.
- Unpredictability of the number and related expenses linked to the in-coming international business delegations.
- Increased use of sponsorship to help offset expenses.
- A strategy is underway to continue fundamental work that has already been started.

| SERVICE EXCELLENCE: Demonstrate Service Excellence | | Provide best-in-class economic development services | 80% of contacts surveyed who reported that the information provided was useful or very useful | | | X |

Economic Development

2014/17 Business Plan

Key Performance Indicators Conclusion:

The goal of Vaughan's Economic Development Strategy is to position a dynamic and growing City, situated on the leading edge of one of North America's most dynamic economic centres, to attract key investments, key people and key community assets in order to create a thriving, healthy economy rooted in a high quality of life. A number of indicators have been chosen to assess the City's performance:

- In 2012, the number of people employed totaled 175,500, and is projected to grow to 266,100 jobs by 2031. Since 2002, the number of people employed in Vaughan has increased by an annual average of 3.3 percent.
- The largest employment sector in 2012 was Manufacturing, representing 23.4 percent of employment, followed by Retail Trade at 12.7 percent, and Construction at 11.8 percent.
- The fastest-growing employment sector between 2011 and 2012 was Health Care and Social Assistance at 11.4 percent.
- From 2002 to 2012, the Information and Cultural Industries grew by an annual average of 11.5 percent, making it the fastest-growing employment sector for the ten-year time frame.
- In 2012, there were 9,913 businesses in Vaughan, a growth of 2.9 percent from 2011, projected to reach 10,000 businesses in 2013/2014.
- Vaughan's population increased by 20.7 percent between 2001 and 2006. June 2013 population of 313,490 is expected to grow to 416,600 by 2031.
- The City of Vaughan processed over 39,000 building permit applications between 2006 to 2012.
- From 2006 to 2012, \$8.2 billion worth of building permits were approved by the City. While Vaughan's permits went above the \$1 billion mark from 2006 to 2011, 2012 experienced a decrease in investment mainly due to the national slow down in the housing sector.
- Vaughan has the largest supply of Greenfield employment lands in the Greater Toronto Area with more than 2,400 acres available.

Focused on generating results the Economic Development Department is deeply committed to engaging all external and internal stakeholders in the successful implementation of this business plan.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Corporate Communications

Corporate Communications

2014-17 Business Plan

Business Overview

Service Statement:

The City of Vaughan's Corporate Communications Department provides strategic communications products, services and advice that inform and engage the City's stakeholders; manages corporate protocols; and facilitates internal communications. The department's vision is to:

Position the City of Vaughan as a two-way communications organization - internally and externally – by engaging our citizens and measuring our effectiveness in communication to ensure a broader awareness and understanding of City programs and services.

There are four core principles that guide the delivery of the services provided by Corporate Communications and link with the goals, objectives and action items within the department:

1. **Consistency:** Communication is consistent, constant and accurately promotes the Vaughan brand
2. **Citizen-focused communications:** Communication is interactive, engaging, conveyed in plain language, and delivered in a manner that best meets the needs of the citizens.
3. **Continuous improvement and feedback:** Communication is informed, measured and always refined by research and feedback.
4. **Support the Corporate Culture:** Communication is driven internally by values and standards and is a responsibility of all employees while being led by Corporate Communications.

Core Activities:

The role of Corporate Communications is to provide strategic communications products, services and advice to the corporation that enable stakeholders to be engaged and well-informed. Core activities fall into the following categories:

- eCommunications: social media, website, multi-media
- Media Relations: Issues/news tracking, media releases, key message development
- Marketing and Advertising: Branding, corporate advertising, photography management, creative design
- Strategic communications: internal communications, protocols, mayor and council communications, key project support

Key Outcomes & Results:

There are clear goals that drive key outcomes and results of this business plan and link to the overall corporate communications strategy.

The goals within the Corporate Communications Strategy are:

- **Lead:** Employ the right blend of best practices and innovative communication methods to become a leader in municipal communications.
- **Engage:** Promote citizen participation – both online and off.
- **Action:** Take a proactive and efficient approach to communicating the Vaughan story to our stakeholders.
- **Position:** Position Vaughan as an emerging world-class city by building an effective, accessible system of two-way communications between City officials, stakeholders and residents.

Corporate Communications

2014-17 Business Plan

Based on industry best practices, market research and current communication trends, as well as input from internal and external stakeholders, the Communications Strategy outlines a new vision, framework and plan that will guide the communications function at the City of Vaughan for the next two years.

Key outcomes and results expected from the successful implementation of the Corporate Communications Strategy include:

- Develop an internal communications campaign to promote the new communications vision and standards
- Deploy a City Manager's Communications Plan to support the internal communications campaign
- Develop and employ a measurement program to ensure the Communications vision and goals are continually evaluated
- Employ a team approach within communications, and use these cross-functional teams to support internal clients/departments.
- Develop a proper intake process to better manage projects and find efficiencies
- Align common strategic messaging by providing consistent key messages, templates and tools
- Establish common "look and feel" elements to ensure one City voice
- Use plain language standards in City-wide information
- Develop a more robust and comprehensive social media strategy to further enhance our social media tools and engage more users
- Establish an Internal Communications Steering Committee with reps/ambassadors from each department
- Manage a more robust and proactive media relations plan
 - Expand current practices to develop a strategy to be more proactive
 - Identify "Subject experts" in each department and fully media train/support these individuals
 - Enhance the media clipping service to include more analysis and broader reach
- Develop more "memorable" and "engaging" communications by using innovative and creative means
- Develop a Vaughan Mobile App that can be used as a tool internally and externally
- Develop a multi-cultural communications strategy to better reach our diverse community
- Develop a "Channel Strategy" that clearly outlines preferred City communication channels/formats for different audiences
- Develop a comprehensive advertising strategy

Staffing Profile:

| | 2012 | 2013 Base | Additional Resource Requests | | | |

| Overtime | 0 | 0 | - | - | - | - |

* includes ARR request to convert 2 FTEs using 1 current FTE vacancy

Corporate Communications

2014-17 Business Plan

Service Profile

Current Service State:

- **Strategic Communications**
 - Maintain strong networking with other internal departments
 - Engage in weekly team updates to facilitate information sharing within the department
 - Maintain effective communications with Council and Senior Management Team
 - Expand environmental scanning to identify issues
 - Prioritize key tasks and issues
- **Positioning the Department**
 - Allocate resources effectively to maximize benefits of new communication vehicles
 - Establish an internal graphic design/multimedia expertise
 - Be leaders in municipal communications and establish communications standards and methodologies for use throughout the Corporation

Future Direction for the Service:

- **Resources**
 - Realign resources and functions within the department to meet current and future requirements
 - Develop a process for 24/7 communications
- **External Communications**
 - Improve community engagement through effective communications with residents and businesses
 - Maintain updated information files on City programs and initiatives
 - Proactively promote media coverage of City programs and initiatives
- **Technology**
 - Reach more residents through e-communications, including e-newsletters and social media
 - Balance the use of new and traditional vehicles for delivering information
 - Continue to improve the content and presentation on the City's new website

Financial Impact:

Some of the impacts being experienced now or expected in the future worth noting include the following:

- Positioning the department to provide in-house photography management, videography, web editing and development, and multimedia capabilities. Requires resources and skill set to meet service standards.
- Resources will be required for the full implementation of the communications strategy in the areas of social media, proactive media relations and internal communications.
- As technology and communications trends quickly change on an annual basis, resources will be needed to keep up and be municipal leaders.

Corporate Communications

Revenue and Expenditure Summary

2014-17 Operating Budget

2014 Budget Variance Comments

| | |
|------------------------------------|---|
| 3574 - Rev. from Recover. Expenses | Reallocation to Dept. Misc Revenue |
| 3618 - Dept Misc. Revenue | Increased fee prices by 2%, biannual recruitment program revenue and reallocation from Rev. from Recover. Expenses |
| 7010 - Full Time | Increase due to progression, new collective agreement, acting pay and rate % adjustment, approved 2013 ARR and offset by vacant positions |
| 7012 - Overtime | Increase due to progression, new collective agreement and change in benefit rates and collective agreement arbitration. |
| 7017 - Benefits | Increase due to progression, change in benefit rates, new collective agreement and overtime adjustments |
| 7200 - Office Supplies | Consolidated under BU#100001 |
| 7205.02 - Dept Computer Supplies | Consolidated under BU#100001 |
| 7222.02 - External Printing | Increase due to new Object Code |
| 7226 - Courier Service | Increase due to new Object Code |
| 7331 - Contractor & Contract. Mat. | New defibrillator contract |
| 7345 - Radio Operations | Increase due to contract rate change, new contract, and reallocation |
| 7700 - Chgs. From Other Depts. | Realignment of internal recoverables with PW-Roads |
| 7522 - Volunteer Firefighters | Decrease reflects historical average spending |
| 7699.01 - Dept. Sundry Expense | Increase due to biannual recruitment program |

2015 Budget Variance Comments

| | |
|--------------------------------|--|
| 3618 - Dept Misc. Revenue | Increased price by 2%, decrease biannual program revenue |
| 7010 - Full Time | Increase due to progression |
| 7017 - Benefits | Increase due to change in benefits rate and progression |
| 7345 - Radio Operations | Increase due to contract rate change |
| 3618 - Dept. Misc. Revenue | Decrease due to biannual recruitment program |
| 7699.01 - Dept. Sundry Expense | Decrease due to biannual recruitment program |

2016 Budget Variance Comments

| | |
|--------------------------------|---|
| 3618 - Dept Misc. Revenue | Increased fee prices by 2% and biannual recruitment program revenue |
| 7010 - Full Time | Increase due to progression |
| 7017 - Benefits | Increase due to change in benefits rate and progression |
| 7345 - Radio Operations | Increase due to contract rate change |
| 7699.01 - Dept. Sundry Expense | Increase due to biannual recruitment program |

2017 Budget Variance Comments

| | |
|--------------------------------|--|
| 3618 - Dept Misc. Revenue | Increased price by 2%, decrease biannual program revenue and reallocation from Rev. from Recover. Expenses |
| 7010 - Full Time | Increase due to progression |
| 7017 - Benefits | Increase due to change in benefits rate and progression |
| 7345 - Radio Operations | Increase due to contract rate change |
| 7699.01 - Dept. Sundry Expense | Decrease due to biannual recruitment program |

Fire Administration

(Administration, Fire Prevention and Communications)

2014-17 Business Plan

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Administration Division of VFRS is responsible for operating and capital budgeting, reporting, and forecasting, recruiting to ensure critical vacancies are filled, planning for emergency resource distribution and activation of the City's Emergency Plan, and ensuring that the VFRS Response Standard is consistently met across the city.

Certified Fire Inspectors ensure Fire Code compliance by conducting routine inspections, responding to complaints, requests for inspection and fire investigations. The Fire Prevention division provides fire education programs to our seniors and school age children such as the Older and Wiser Program, Learn Not to Burn and the Risk Watch Program and provides fire extinguisher and mandatory fireworks training to local businesses. VFRS delivers timely fire safety messaging throughout the year and during many corporate events such as Winterfest, Maplefest, and The Lions Pancake Festival.

The VFRS Communications Division is responsible for accurately and quickly dispatching fire apparatus to emergencies in Vaughan. The Communications Division works closely with the York Regional Police 9-1-1 centre, the Georgian Central Ambulance Communications Centre, and the surrounding municipal fire department communications centres to coordinate the emergency needs of the community.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. To provide programs to protect lives, property, and the environment from the adverse affect of fire, medical emergencies and other dangerous conditions
2. To protect and safeguard the health and wellness of Vaughan citizens

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Demonstrate Excellence in Service Delivery
 - VFRS Fire Inspectors provide high quality services to residents and local businesses by ensuring compliance with the Fire Code and providing education and safety messaging to all age groups.
 - The Administration Division ensures operating efficiency and effectiveness by managing the recruitment, training and deployment of fire personnel and equipment, and by conducting capital and operating budgeting, reporting and forecasting.
2. Promote Community Safety, Health & Wellness
 - VFRS Fire Inspectors promote safety in the community by engaging various groups through education and enforcement activities. Communications staff support the safety of Vaughan residents by quickly and accurately dispatching fire apparatus to emergencies.

Fire Administration

(Administration, Fire Prevention and Communications)

2014-17 Business Plan

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

Administration:

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 4 | 4 | - | - | - | - |
| Part Time | | | - | - | - | - |
| Overtime | | | | | | |

Prevention:

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|----------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 15 | 15 | - | - | 1 | - |
| Part Time | | | - | - | - | - |
| Overtime | \$19,443 | \$19,443 | | | | |

Communications:

|-----------|--------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 13 | 13 | - | - | - | - |
| Part Time | | | - | - | - | - |
| Overtime | 27,547 | 27,547 | | | | |

Fire Administration

(Administration, Fire Prevention and Communications)

2014-17 Business Plan

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Staffing
 - Anticipated retirement of some experienced staff will result in a loss of expertise. Overall succession planning for the department must occur.
- Growth Management
 - Consistently meeting VFRS Response Standards across the City given increased call volume and response barriers (traffic patterns/volume) requires constant monitoring and re-evaluation.
 - Acquisition of land in 2012 for the replacement of Station 7-3 followed by construction of new Station 7-3 in 2013 will improve overall response coverage in the west side of the city.
 - The staffing of Aerial 76 will improve VFRS response capabilities in the Central (VMC) and West portion of the city.

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Operating Environment
 - Response pressure of rapidly developing subway project and Vaughan Metropolitan Centre.
 - Changing demographic requires amplification of fire safety education efforts related to seniors
 - Building stock changes such as the Hospital, high-rise buildings, and the Subway line require specialized training
 - More buildings are utilizing objective based code alternatives, which require more time to assess
 - Increased demand by corporations for training of employees
 - Continued interest in regionalization by fire associations
- Technology
 - Managing multiple 9-1-1 lines
 - CAD needs upgrading with Versadex version 7.3 – Phase 2 due in 2012
 - Continue phasing in Mobile Display Terminals (MDT) in fire apparatus with Automatic Vehicle Locating technology

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Station 75 and 76 staffing and equipment will drive operating and capital ARR for future years

(Administration, Fire Prevention and Communications)

2014-17 Business Plan

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|--|----------|--------------------------------|
| 2014 Initiatives | | | |
| Recruit, train, and deploy fire personnel and equipment | Station 75 – Recruit 6 Firefighters and 4 Captains (Oct. start) | Q4 | ARR approval required |
| | Station 75 – Equipment for Engine 75 | Q4 | Capital Project |
| | Recruit 4 District Chiefs | Q2 | ARR approval required |
| | Procure Breathing Apparatus Replacements | Q4 | Capital Project |
| | Support the Corporate Asset Management initiative | Q4 | |
| | Replace Fitness Equipment/Furniture | Q1-Q4 | Capital Project |
| Deliver effective communications support to internal and external stakeholders | Implement replacement of the YRP radio system, including training & process review | Q4 | Capital Project |
| | Initiate Subway communication plan | Q1 | Capital Project |
| Provide effective fire education, enforcement and suppression services meeting the expectations of a culturally diverse citizens | Adopt OFM Official Guide to Matching Fire Prevention Resources and Risk | Q4 | Council Approval Required |
| | Continue implementation of multi-lingual & multi-cultural education programming | Q4 | |
| 2015 Initiatives | | | |
| Recruit, train, and deploy fire personnel and equipment | Station 76 – Aerial & Equipment Purchase, and Building Expansion of Crews Quarters | Q1 | Capital Project |
| | Recruit a Training Officer | Q1 | ARR approval required |
| | Procure Breathing Apparatus Replacements | Q4 | Capital Project |

|--|---|----|-----------------------|
| Recruit, train, and deploy fire personnel and equipment | Station 76 – Recruit 16 Firefighters and 4 Captains | Q1 | ARR approval required |
| | Recruit 4 District Chiefs | Q2 | ARR approval required |
| | Procure Breathing Apparatus Replacements | Q4 | Capital Project |
| Provide effective fire education, enforcement and suppression services meeting the expectations of a culturally diverse citizens | Hire a Fire Prevention Inspector | Q4 | ARR approval required |
| | Hire a Stores Clerk | Q4 | ARR approval required |
| | Reposition/Purchase Station 74 Kleinburg Land | Q4 | Capital Project |

2017 Initiatives

| | | | |
|---|---------------------------------------|----|-----------------|
| Recruit, train, and deploy fire personnel and equipment | | | |
| Provide effective fire education, enforcement and suppression services meeting the expectations of a culturally diverse citizenry | Purchase Land for Future Station 7-11 | Q1 | Capital Project |

Fire Administration

(Administration, Fire Prevention and Communications)

2014-17 Business Plan

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|-------|--------|------|------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Cost of Operating Fire Services per \$1,000 of Assessment | | \$0.70 | | | |
| Inspections: | 2,301 | 2,479 | | | |
| Municipal License: | 333 | 245 | | | |
| Site Plan/Variance: | 187 | 141 | | | |
| Plans Examination: | 512 | 211 | | | |
| File Searches: | 87 | 70 | | | |
| Public Education: | 281 | 288 | | | |
| Fire Investigation: | 61 | 48 | | | |
| New Building: | 202 | 224 | | | |
| Grow Op: | 8 | 6 | | | |
| Prosecution: | 67 | 71 | | | |
| EFFECTIVENESS: How well do we do it? | | | | | |
| VFRS | | 53 | 79 | 70 | |
| Communications Call Handling in Seconds | | | | | |
| SERVICE QUALITY: Is anyone better off? | | | | | |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- Inspection staff continue to increase the quantity of inspections performed annually, as well as participation in public education and other activities
- VFRS Communications staff continue to manage calls for service in an effective and timely manner

Fire Operations

(Operations, Mechanical and Training)

2014-17 Business Plan

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Operations Division provides 'Full Service Emergency Response' which includes fire incidents, sudden medical emergencies, technical rescue, hazardous materials and CBRN incidents. In addition, this division provides a number of specialized teams, including a Hazardous Material Response team, Technical Rescue teams (for trench, confined space, low angle rescue) and a Public Order Support team (in conjunction with the York Regional Police Service).

Each year full-time staff, including volunteers of the VFRS, dedicate thousands of hours of methodical training to maintain and enhance standardized skill sets with a view to achieve consistent quality of work. Firefighters are required to complete specific annual maintenance training to maintain the knowledge and demonstrated practical competency skill sets to perform their duties quickly, efficiently and completely on site of the emergency. All service delivery enhancements for the public must first be implemented through the Training division.

The Mechanical Division is responsible for ensuring all emergency firefighting apparatus/equipment in operationally ready state using current MTO Standards and NFPA guidelines as benchmarks. The Division continues to provide both in-shop and mobile mechanical service for a number of Regional Emergency Service partners as well as a warranty repair depot for major fire service equipment suppliers and manufacturers.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. To provide programs to protect lives, property, and the environment from the adverse affect of fire, medical emergencies and other dangerous conditions
2. To protect and safeguard the health and wellness of Vaughan Citizens

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Demonstrate Excellence in Service Delivery
 - VFRS Operations Division provides an efficient and timely emergency response within approved service standards.
2. Promote Community Safety, Health & Wellness
 - VFRS Operations Division provides 'Full Service Emergency Response' which includes fire incidents, sudden medical emergencies, technical rescue, hazardous materials, and CBRN incidents, promoting the safety, health and wellness of Vaughan residents.
3. Support the Professional Development of Staff
 - The Training Division delivers quality training and education support services for all VFRS divisions, promoting the professional development of staff and ensuring regulatory compliance.

Fire Operations

Fire Operations

(Operations, Mechanical and Training)

2014-17 Business Plan

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Staff
 - Retirement and turn-over of fully trained staff will take place at an accelerated rate.
 - The span of control of each of the four Platoon Chiefs is large: each Platoon Chief manages 64 full-time staff
 - Upon the opening of the new Fire Station 7-10, implementation of the position of District Chief will provide for more consistent span of control and application of Ontario Occupational Health and Safety Guidelines
- Changing Demographics
 - Population increases necessitate expansion of services to maintain response times
 - Changes in demographics require VFRS to provide more specialized programs and services

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Mechanical Support
 - The growth of the fire fleet and increasing demand of unscheduled repairs due to repair/maintenance challenges the efficiency and effectiveness of the existing four full-time mechanics and one chief mechanical officer
 - The Mechanical Division continues to generate retail revenue while completing in-house work on time
- Training
 - The Training Division is required to maintain continuous, consistent and certified training for all VFRS staff. VFRS anticipates hiring 20 probationary firefighters to staff Engine 75 mid-year (Budget approval)
 - Workload of the Training division has increased significantly which is attributed to training of new recruits and accelerated training for staff progressions related to retirement.
 - Enhanced emergency patient care medical training provides a broader skill sets to staff when dealing with medical and related emergency.

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Recruitment of future Firefighters and District Chiefs will increase annual operating and capital costs in order to maintain City approved and professional association service levels

Business Performance

Key Performance Indicators:

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|------|------------|-----------|------------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| EFFECTIVENESS: How well do we do it? | | | | | |
| % Maintenance Meeting Scheduled Plan | | 74% | 83% | 68% | |
| Critical Task Analysis | | | 88% | | |
| Vaughan Standard | | 70.5% | 71.5% | | |
| 10-in-10 | | 54% | 74% | | |
| OFM-PSG 04-08-10 | | 9% | 17% | | |
| Average Response Times – All Calls | | 6.37 mins. | 6.8 mins. | 6.65 mins. | |
| Average Response Time for all Emergency Calls By Station | | | | | |
| Station 71: | 5:36 | 5:38 | 5:42 | | |
| Station 72: | 6:59 | 7:15 | 6:41 | | |
| Station 73: | 6:19 | 6:31 | 6:38 | | |
| Station 74 | 9:07 | 10:13 | 9:40 | | |
| (volunteer): | 6:29 | 6:28 | 6:30 | | |
| Station 75: | 6:49 | 6:48 | 6:51 | | |
| Station 76: | 7:05 | 7:04 | 6:24 | | |
| Station 77: | 7:07 | 7:14 | 6:38 | | |
| Station 78: | 6:39 | 6:43 | 6:37 | | |
| Station 79: | | | 7:09 | | |
| Station 710: | | | | | |
| SERVICE QUALITY: Is anyone better off? | | | | | |

Key Performance Indicators Conclusion:

- VFRS Operations continue to maintain average response times to all calls
- Adherence to City of Vaughan Standard, 10-in-10, and critical task analysis are continuously improving

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Emergency Planning

Emergency Planning

2014-17 Business Plan

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Emergency Planning program is responsible for protecting and promoting public safety through prevention, mitigation, preparedness, response and recovery initiatives that comply with the *Emergency Management and Civil Protection Act* and its Regulations. The program engages in Community Risk Assessment, Critical Infrastructure Identification, Emergency Management Plans and Procedures, Staff Training, Mock Emergency Exercises, Emergency Operations Centre Development and Management, and Public Education.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Facilitate Vaughan residents and businesses to be educated and informed about emergency procedures and personal safety
2. Ensure that City staff are capable of responding safely and effectively in the event of an emergency

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Promote community safety, health and wellness
 - The Emergency Planning program provides training and education for citizens on prevention, preparedness, and response to emergency situations.
2. Demonstrate excellence in service delivery
 - The Department delivers a wide array of safety programming for citizens such as public education sessions, publications and guides. Additionally, the Department ensures that City staff are adequately prepared for emergencies by providing risk assessments, critical infrastructure identification, and emergency management plans and procedures.
3. Support the professional development of staff
 - The Department provides emergency preparedness training and delivers mock emergency exercises to City staff to ensure that all employees are trained and prepared for emergencies.

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 1 | 1 | 1 | - | - | - |
| Part Time | 0.33 | 0.33 | - | - | - | - |
| Overtime | | | - | - | - | - |

Emergency Planning

2014-17 Business Plan

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Resources
 - The program is experiencing challenges meeting service demands, operating capacity and resiliency with current resources. The gap in resources may jeopardize City and third party compliance with legislation and affect the organization's ability to efficiently and effectively manage emergencies.
 - Emergency Planner requested for 2013 that will allow for a division of duties and increase Program efficiency.
 - EOC functional review strategy implementation 2013 to 2015 to ensure operating capacity and resiliency of the facility for the Emergency Management Team to respond efficiently and effectively to emergency situations
 - Increased facilitation and support for other departments
 - Needs more resources to enhance public education and outreach

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Growth Management
 - The growth of the City, addition/development of infrastructure and legislated requirements federally and provincially on emergency planning for hazardous materials and long term care facilities require the involvement and support of the Emergency Planning Program.
 - Synchronizing emergency planning with future Hospital implementation
 - Emergency planning and training for the Spadina subway extension

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Demand for public education, population growth, intensification of development, and expansion of critical infrastructure such as the subway extension and hospital will require greater investment of resources in order to maintain a state of emergency preparedness

Emergency Planning

2014-17 Business Plan

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|---|----------|--------------------------------|
| 2014 Initiatives | | | |
| Maintain a state of emergency readiness | Maintain mandatory emergency management program in compliance with the <i>Emergency Management and Civil Protection Act</i> | Q4 | Emergency Planner (ARR) |
| Deliver public education based on hazard identification & high risk management | Develop information and products for the PrepE public education initiative | Q4 | Emergency Planner (ARR) |
| | Develop school based public education program & materials | Q4 | |
| | Provide workshops, advise on exercises, and review emergency plans for business sector | Q4 | |
| Ensure effective continuity of core business functions | Evaluate common operating dashboard in EOC | Q4 | Emergency Planner (ARR) |
| | Evaluate and develop program to meet the CSA Z1600 Standard for Emergency Management and Business Continuity | Q4 | |
| 2015 Initiatives | | | |
| Maintain a state of emergency readiness | Maintain mandatory emergency management program in compliance with the <i>Emergency Management and Civil Protection Act</i> | Q4 | Emergency Planner (ARR) |
| Deliver public education based on hazard identification & high risk management | Develop information and products for the PrepE public education initiative | Q4 | Emergency Planner (ARR) |
| | Develop school based public education program & materials | Q4 | |
| Ensure effective continuity of core business functions | Investigate using the Cloud for core information and applications | Q2 | Emergency Planner (ARR) |
| | Conduct a business impact analysis of City services and facilitate development of continuity of operations plans | Q4 | |
| | Develop a program to address gaps identified related to the CSA Z1600 Standard for Emergency Management and Business Continuity | Q4 | |

Emergency Planning

2014-17 Business Plan

2016 Initiatives

| | | | |
|--|---|--|-------------------------|
| Maintain a state of emergency readiness | Maintain mandatory emergency management program in compliance with the <i>Emergency Management and Civil Protection Act</i> | Q4 | Emergency Planner (ARR) |
| Deliver public education based on hazard identification & high risk management | Develop information and products for the PrepE public education initiative Develop school based public education program & materials | Q4 Q4 | Emergency Planner (ARR) |
| Ensure effective continuity of core business functions | Implement phase two of the Emergency Operations Centre (EOC) Strategy from the EOC Functional Review: 1. Investigate EOC network resiliency systems; 2. Convert 15 VOIP lines in primary EOC to landlines; 3. Replace whiteboards in EOC with sliding multi-panel whiteboards Develop and equip an alternate EOC site Evaluate program to meet the CSA Z1600 Standard for Emergency Management and Business Continuity | Q4 Q4 Q2 Q2 Q4 Q4 | Emergency Planner (ARR) |

2017 Initiatives

| | | | |
|--|---|--------------|-------------------------|
| Maintain a state of emergency readiness | Maintain mandatory emergency management program in compliance with the <i>Emergency Management and Civil Protection Act</i> | Q4 | Emergency Planner (ARR) |
| Deliver public education based on hazard identification & high risk management | Develop information and products for the PrepE public education initiative Develop school based public education program & materials | Q4 Q4 | Emergency Planner (ARR) |
| Ensure effective continuity of core business functions | Implement phases three and four of the Emergency Operations Centre (EOC) Strategy from the EOC Functional Review Develop a virtual EOC | Q2 Q4 | Emergency Planner (ARR) |

Emergency Planning

2014-17 Business Plan

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|---|---|--|---|---|
| EFFICIENCY: What/How much do we do? | | | | | |
| Information Distributed | 23,140 | 34,186 | 45,640 | 42,530 | 60,240 |
| Events and Workshops | 26 | 19 | 19 | 28 | 30 |
| Workshop Participants | 365 | 300 | 417 | 365 | 1220* |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Staff Trained | 273 | 235 | 190 | 137 | 160 |
| Enhancements and lessons learned per exercise and real event | 28 | 41 | 56 | 40 | TBD on completion of exercises |
| Percentage of lessons learned and enhancements approved and implemented | 95% implemented 5% not feasible due to external resource not available | 98% implemented 2% not implemented as budget for item was not approved | 91% implemented 2% not feasible 2% budget for resource not approved 5% deferred to future budget year | 93% implemented 5% deferred to future budget year 2% to be implemented by another dept. | TBD on completion of exercises |
| EOC Operating and Resiliency Capacity Strategy | People, processes | People, processes | People Processes and systems | People, Processes and Systems | People Processes and Systems |
| Percentage of Departments with Emergency Plans | 100 | 100 | 100 | 100 | 100 |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| Readiness level of participants (1 to 5 scale) Percentage rating on scale | N/A | N/A | N/A | N/A | 85% of EMT rank readiness level at 4 or 5 |
| Percentage of CSA Z1600 Standard achieved | | 71% achieved 29% to be done | 71% achieved 29% to be done | 76% achieved 24% to be done | 80% achieved 20% to be done |

*includes emergency code training for City staff.

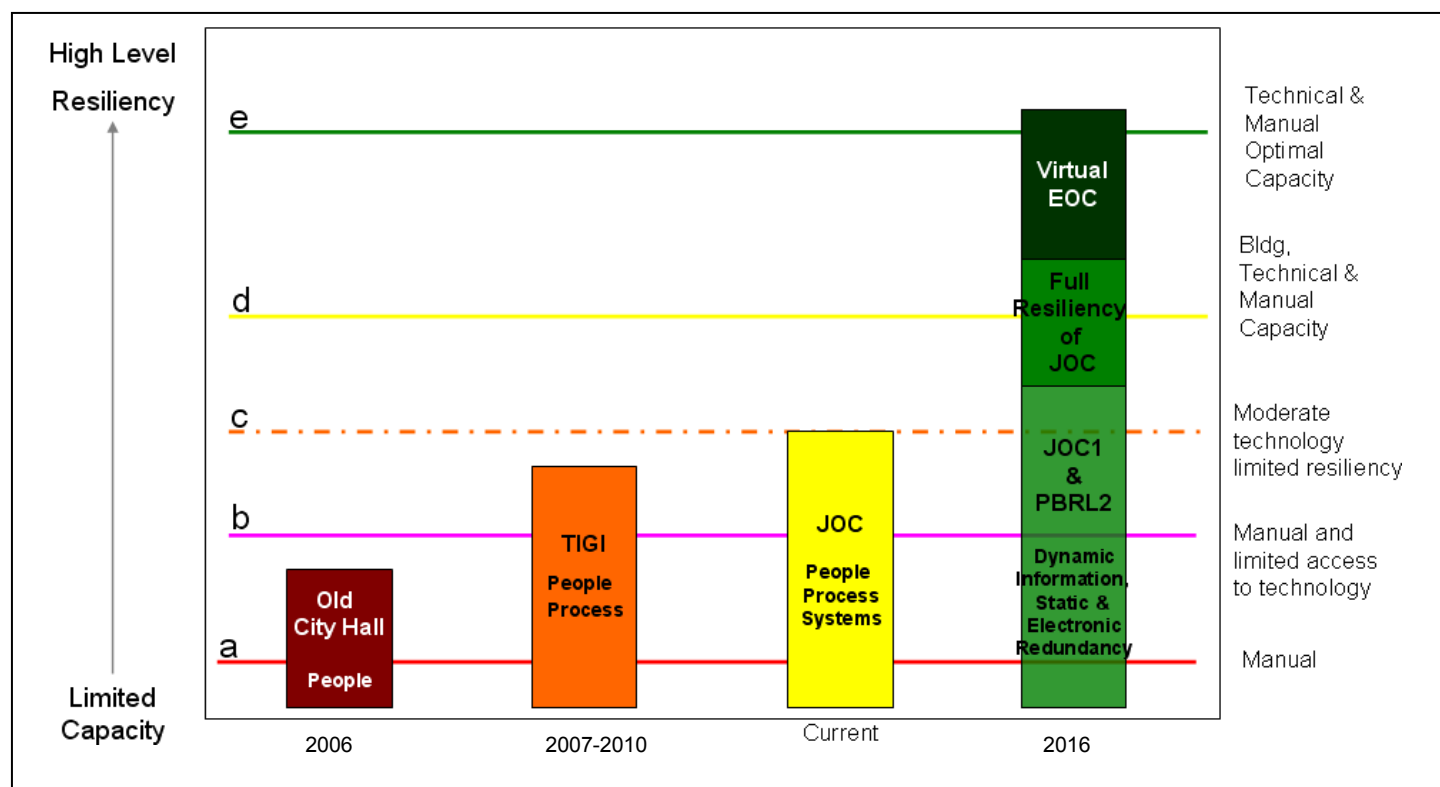

Emergency Planning

2014-17 Business Plan

Key Performance Indicators Conclusion: *Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.*

- The volume of distributed emergency preparedness information is expected to increase
- The number of events, workshops, and participants are expected to rise in 2013
- Key Performance Indicators will be further evolved in accordance with the Corporate Performance Measurement Initiative
- Resiliency of an EOC is measured by its' dynamic structure; including people, processes, equipment, systems and technology. All elements must have secondary measures in terms of devices, systems, processes in which to operate and they are to be considered equally; as well as, the capacity to respond to an incident by means of manual and/or technological methods. The EOC Functional Review identified the need to reach an optimum level of operating capacity and resiliency, thus an implementation strategy was developed.

This graph depicts the past, present and recommended future levels of operating resiliency in the EOC.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

City Financial Services

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Financial Services Department provides services to a variety of internal and external stakeholders across three business units. The Taxation & Property Assessment unit provides property tax billing, collection and property assessment-base management under the jurisdiction of multiple provincial statutes. The Accounting & Financial Reporting unit provides processing and payment of the City's accounts payable, corporate accounting services and financial reporting. The Cashier Services unit provides services to ensure the safe and reliable collection of funds from internal and external users.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Taxation: Protect the assessment base to ensure effective, reliable, and timely billing and collection of tax revenues
2. Accounting: Effective Accounts Receivable & Payable processes and accurate financial reporting
3. Cashier Services: Effective and reliable collection of internal and external funds

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Demonstrate Excellence in Service Delivery
 - Cashier Services staff engage the public daily to collect payments in a professional manner. Taxation & Property Assessment ensure that the collection of taxes is performed to a high standard of service quality.
2. Ensure Financial Sustainability
 - Accounting & Financial Reporting provide processing and payment of the City's accounts payable, Corporate accounting services and financial reporting, ensuring that the City's financial assets are well-managed.
3. Ensure a High Performing Organization
 - Staff are committed to continuously improving business processes and practices to support City departments with the efficient collection of revenues and payment of expenses

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts***Tax Assessment**

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 13 | 13 | | | | |
| Part Time | 0.69 | 0.69 | | | | |
| Overtime | .6 | .6 | | | | |

Accounting & Financial Reporting

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|---------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 12 | 12 | | | 1 | |
| Part Time | 2.32 | 2.51 | | | | |
| Overtime | \$7,900 | \$7,900 | | | | |

Cashier Services

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | N/A | 2 | | | | |
| Part Time | N/A | .5 | 0.4 | | | |
| Overtime | N/A | \$1,450 | | | | |

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Current & future demand on existing staffing resources
- Dynamic and efficient staff
- Succession planning is required to ensure skills and knowledge are retained
- Prioritization of Financial Services needs should be enhanced
- Taxation:
 - Long-term staff that are highly knowledgeable and skilled
 - Out-of-date software systems are causing process inefficiencies
- Accounting:
 - Low staffing for analytical roles resulting in managers engaging in day-to-day activities
 - An automated accounts payable system is needed to greatly enhance process efficiencies
 - Accounting processes have not been updated to accommodate for Tangible Capital Assets reporting (PSAB 3150), requiring manual input
 - The P-Card system will improve the payment of invoices and streamline accounts
 - JDEdwards software upgrades are required
- Cashier Services:
 - Need for a Point-of-Sale system to expedite payment processing

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Staffing has not kept pace with growth, increasing work load and work pressures
- Impending retirements will lower knowledge & skills without proper succession planning in place
- Taxation:
 - Automation of current manual practices by procuring new property tax software
 - It is currently unknown how changes in legislation will impact processes
 - Increasing number of challenges to the assessment base
 - Protection of the assessment base is needed to ensure increases in growth are recognized and added to the roll. Growth continues to increase the number of issued tax bills and potential arrears to be collected.
 - A younger demographic may increase the number of pre-authorized payment plans
- Accounting:
 - Additional government mandated reporting requirements (i.e. PSAB 3150 Tangible Capital Asset Reporting) has added challenges within the department's operations
 - Future impact of Freedom of Information requests on existing staff time and resources
 - Additional staff for analytical roles are required to ensure optimal segregation of duties
- Cashier Services:
 - Maintaining customer service levels while managing increased volume of service requests by promoting electronic payment and pre-authorized payment to reduce in-person service

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Procurement of a Point-of-Sale system
- Future tax revenue stream may normalize due to lower future population growth
- More staff resources may be seconded for corporate projects such as EDMS and Asset Management

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|---|----------|-------------------------------------|
| 2014 Initiatives | | | |
| Improve the Efficiency of Financial Services | Issue an RFI for procurement of a Point-of-Sale System | Q2 | Partial Capital Funding secured |
| | Incorporate Asset Management principles into accounting practices | Q4 | |
| Ensure an Effective Tax Billing & Collection Process | Develop an RFP for upgrading or replacing property tax software | Q2 | Capital Request via ARR in progress |
| 2015 Initiatives | | | |
| Improve the Efficiency of Financial Services | Issue an RFP for a Point-of-Sale System | Q4 | |
| | Assist with EDMS & Asset Management corporate initiatives | Q4 | |
| 2016 Initiatives | | | |
| Improve the Efficiency of Financial Services | JDE Software Upgrade | Q4 | |
| 2017 Initiatives | | | |
| Improve the Efficiency of Financial Services | General Ledger Restructuring | Q4 | |

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|--------|--------|-----------------|-----------------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Tax Levied – amount | \$595M | \$620M | \$649M | \$680M | \$712M |
| Tax Levied - # of tax bills | 86,000 | 90,000 | 92,000 | 95,000 | 98,000 |
| # of Tax Bills per FTE | 6,287 | 6,556 | 6,754 | 6,952 | 7,174 |
| # of EHO applications per FTE | | 1,480 | 1,507 | 1,529 | 1,605 |
| Total Number of Accounts Payable Invoices Processed per FTE | 6100 | 6200 | 6400 (forecast) | 6500 (forecast) | 6800 |
| Total Number of Accounts Receivable Invoices Processed per FTE | 950 | 1000 | 1050 (forecast) | 1100 (forecast) | 1150 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Receivables Percentage | 8.2% | 7.4% | 7.3% | 7.0% | 7.0% |
| Assessment Growth | | 3.05% | 3.17% | 3.50% | 2.75% |
| % of all Accounts Receivables Outstanding Over 90 Days | 0.90% | 8.00% | 3.5% | 2.5% | 1.75% |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| PAP Participation Rate | 21.90% | 23.22% | 24.69% | 25.99% | 27.29% |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- Number of tax bills and total levied taxes expected to continue increasing gradually
- PAP Participation is anticipated to grow consistently over time
- Accounts Payable and Invoices Receivable will continue to experience modest growth

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Budgeting and Financial Planning

Business Overview

Service Statement:

The Budgeting and Financial Planning Department provides financial management functions to assist and support the City in financial decision-making, management of funds and compliance with statutory requirements. This involves a number of core activities including: financial policy development, operating and capital budgeting and forecasting, reserve and debt management, capital program accounting and payments, external grant procurement, special projects and activity costing, asset management and tangible capital asset (TCA) reporting, audit compliance and financial monitoring, etc. These activities are essential to ensure the City is able to make well informed financial and strategic decisions

Key Outcomes & Results:

1. Ensure the responsible management of public funds through policy and budget recommendations, ensuring a balanced budget
2. Provide financial guidance and support to internal clients
3. Monitor budget and financial policy compliance
4. Contribute to successful audited financial statements

Link to Vaughan Vision 2020:

As a support department, core business activities assist all City departments in achieving their strategic priorities and service delivery objectives. However, the department consistently reinforces the Organizational Excellence goal through its strong linkages to the following strategic themes and initiatives:

1. Ensure Financial Sustainability
 - Provide advanced awareness of financial implications and future challenges
 - Develop and administer policies to safeguard and improve the City's financial state e.g. Financial Master Plan, multi-year budgeting, reserve targets, grant funding administration, etc.
2. Manage Corporate Assets
 - Ensure effective management of Corporate Assets through capital program planning, reserve forecasting, and other functions
3. Ensure a High Performing Organization
 - Support internal clients with participation in various continuous improvement projects e.g. program review, financial master plan, multi-year budgeting, capital control policy, GFOA budget award, innovation reserve, etc.
 - Contribute to the City's corporate planning cycle supporting the visioning and alignment stage and administering the planning and initiating stages.

Staffing Profile:

| | Additional Resource Requests | | | | | |
|-----------|------------------------------|-----------|------|------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 19 | 19 | | | | 2 |
| Part Time | 0.17 | 0.17 | | | | |
| Overtime | \$1,025 | \$1,025 | | | | |

Service Profile

Current Service State:

Strengths

- Department structure (dedicated support for specific City areas)
- Culture of continuous improvement fostered
- Progressive process and policy implemented
- Positive relationships and city confidence in service and deliverables
- In depth staff knowledge and competencies in the areas

Weaknesses

- System integration improvement required to streamline flow and reduce manual process
- Further integration between operating and capital processes required
- Late involvement in City department projects creates delays or staff pressure
- The City has many adjusting priorities, which spread resources thin, create delays and inefficiencies
- Greater policy documentation required

Challenges/Constraints

- Limited funding sources to support City activities
- Growing requirements for infrastructure and other reserve shortages
- Reliance on other department information can impact on key process timing
- Information needed for enhanced resource allocation and prioritization (measures/service levels, condition assessment, etc)
- New provincial grant funding requirements - Asset Management Plans
- More financial information required in master planning and subsequent consolidation

Key Success Factors

- Leadership support
- Ability to integrate existing systems and information
- Streamlining of administrative processes for efficiency and customer service optimization
- Early involvement, analytic ability and process flexibility to address emerging challenges

Key Risk Factors

- Increasing or shifting projects and associated impact on staff to deliver
- Systems not integrated
- External economic environment – potential impact on revenue streams
- Potential leadership adjustments

Future Direction for the Service:

The Budgeting and Financial Planning department continues on its progressive path to further evolve financial planning, integrate systems and focus on providing value to internal clients and the community. Moving forward efforts will include:

- Automating long-range financial planning and incorporate this flexibility within the current budget platform, expand on reserve forecasting, further integrate the operating and capital modules, and enhance reporting efficiency.
- Integrating outcomes of the asset management and performance measurement initiative into grant and budget processes.
- Further enhancing policy to meet emerging requirements
- Pursuing recommendations illustrated with in the Financial Master Plan (FMP).
- Greater interaction with departments to better understand and assist with their financial and business requirements
- Further involvement with corporate projects to ensure the financial picture is represented and addressed

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

In general, the financial impact associated with the department business plan is anticipated to be minor and relate to the following pressures over the 4 year plan.

- General base budget pressures related to labour and contract requirements
- Anticipated future staffing requests related to general service volume and growth
- Potential capital requests to address systems upgrades and integration
- Future consultant requirements to address Financial Master Plan updates

Note: The budget and financial planning department is involved with a number of department and corporate initiatives and projects, depending on the timing and requirements imposed, future resources may be required.

Work Plan

Business Plan Objectives:

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|---|--|----------|--------------------------------------|
| 2014 Initiatives | | | |
| Assess financial implications and future challenges | Enhance Team budget (Phase I - further capital/operating integration) | Q2 | Service Provider Assistance |
| | Performance Measurement Budget Integration | TBD | TBD |
| | 10 Year Capital Forecasts | Q3 | |
| | Transportation Master Plan – support | Q2 | |
| | Licensing/Clerks – Fee Review | Q4 | |
| Develop and Administer Policies | Develop Budget Control Policies | Q2 | |
| Manage Corporate Resources | Asset Management Initiative – support (resource procurement, process development, data collection) | Q4 | |
| | Infrastructure Funding Strategy development | TBD | |
| Provide Support & Decision Making Tools | ERP upgrade involvement | Q1 | TBD |
| | Uplands Management Agreement Review | Q4 | In-house + potential consultant work |
| 2015 Initiatives | | | |
| Assess financial implications and future challenges | Enhance Team budget (Phase 2 – long range planning implementation) | Q2 | Service Provider Assistance |
| | Building Standards – Fee Review | Q4 | In-house + potential consultant work |
| Develop and Administer Policies | Full Cost Recovery – “Charge backs” | Q4 | May require consultants and capital |
| | TCA system enhancement | Q4 | May require consultants and capital |
| Manage Corporate Resources | Asset Management Initiative – support (implementation, corporate integration) | Q4 | |
| Provide Support & Decision Making Tools | Prioritization – Develop Framework | Q1-Q2 | Potential consultant work |
| | Activity Based Costing Model Review | Q4 | In-house + potential consultant work |
| 2016 Initiatives | | | |

| | | | |
|---|--|----|--------------------------------------|
| Assess financial implications and future challenges | Development Planning – Fee Review | Q4 | |
| Manage Corporate Resources | Asset Management Initiative – support (long term financial plan) | Q4 | |
| 2017 Initiatives | | | |
| Assess financial implications and future challenges | Engineering – Fee Review | Q4 | In-house + potential consultant work |
| | Financial Master Plan (Update) | Q4 | Consultant |
| Develop and Administer Policies | Review Corporate Reserve Policy | Q4 | |

Business Performance

Key Performance Indicators:

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|-------|---------|---------|---------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| City budget \$ per Budget Division FTE | \$32m | \$34m | \$31m | \$32m | \$34m |
| # of Submissions per Budget Division FTE | 10.8 | 11.2 | 10.1 | 10.6 | 10.6 |
| Reserve per Capita | | \$1,218 | \$1,047 | \$1,153 | \$1,139 |
| Tangible Capital Assets | | \$6.79b | \$6.87b | \$6.98b | \$7.07b |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Budget Accuracy – City Budget vs. Actual | 89.6% | 101.2% | 96.7% | 98.2% | 98.9% |
| Success Rate of Grant Application Submissions | | 84% | 88% | 86% | 85% |
| Discretionary Reserve Ratio | | 72% | 73% | 82% | 75% |
| Debt Charges Ratio | | 4.4% | 4.2% | 4.9% | 6.2 |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| Internal Client Rating | | | | B | B+ |
| GFOA Budget Award | Yes | Yes | Yes | Yes | Yes |

Key Performance Indicators Conclusion:

Overall the above indicates the department is managing within current complement, despite growth pressure and added complexity. General effectiveness is meeting or exceeding established targets. Overall service quality is good, achieving independent recognition and satisfying internal clients.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Development Finance & Investments

Development Finance & Investments

2014-17 Business Plan

Business Overview

Service Statement:

The Development Finance & Investments Department provides financial management functions with respect to the administration and collection of development charges, provision of advice on growth-related infrastructure financing, internal and external financial reporting, and investment of surplus revenues permitted within the City's Investment Policy and current legislation.

Core Activities:

Development Finance

- Creation, presentation and monitoring of the City's Development Charge Background Study
- Ongoing assessment and collection of City, Regional and School Board Development Charges
- Collection and monitoring of development related cash and letter of credit securities
- Negotiation, financial compliance review and ongoing financial monitoring of the City's infrastructure and development related agreements
- Provision of advice to Departments, Senior Management Team and Council on growth related financial issues

Investments

- Creation and updating of the City's short term and long term cash flow forecasts
- Recommending updates to the City's Investment Policy to ensure compliance with legislation and to optimize opportunities in response to changes in economic environment
- Investment of the City's cash surplus in both short and long term opportunities to maximize return
- Maintaining appropriate accounting records of investment transactions to adhere to PSAB requirements

Key Outcomes & Results:

1. Helping to ensure that the costs of growth are balanced with the needs and interests of existing taxpayers, while working within the framework of existing legislation
2. Ensuring that development finance processes are responsive to the development industry's needs in a high growth and fast paced environment
3. Optimizing the management of cash balances to ensure a sufficient level of liquidity for operating and capital requirements
4. Ensuring that a maximum return is sought on financial investments on behalf of the taxpayer

Link to Vaughan Vision 2020:

1. Demonstrate Excellence in Service Delivery
 - The Department advises other City departments with the financial aspects of development and infrastructure agreements to minimize risk to the corporation
2. Ensure Financial Sustainability
 - The Department is responsible for effectively managing the City's cash flow and optimizing the City's investment portfolio to safeguard the financial assets of the corporation
3. Manage Growth and Economic Well Being
 - The Department provides strategic advice on growth-related financial issues and economic development programs to mitigate corporate risk while facilitating growth

Staffing Profile:

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|------|-----------|------------------------------|------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 5 | 5 | 1 | | - | - |
| Part Time | - | - | | - | - | 0.69 |
| Overtime | - | - | - | - | - | - |

Development Finance & Investments

2014-17 Business Plan

Service Profile

Current Service State:

Strengths

- Internal/external customer service: positive working relationships with internal departments and development industry
- In depth staff knowledge and competencies in the area of development finance
- Existing staff's ability to compensate for lack of investment resources and coping with growth in work volumes

Weaknesses

- Very little progress on process automation
- Lack of a comprehensive cash flow forecast to optimize investment opportunities

Challenges/Constraints

- Increasing workload and complexity due to VMC development files
- Increasing volumes of building security administration due to past growth
- Increasing work volume related to development finance analytics
- Increasing threat of Development Charge appeals as volume and complexity of growth increases
- Increasing demand for economic development incentives related to Development Charges as urbanized growth comes to fruition

Key Success Factors

- Streamlining of administrative processes for efficiency and customer service optimization
- Solid cash flow forecast to optimize investment strategy
- Analytic availability in order to mitigate corporate risk with regard to development/infrastructure agreements

Key Risk Factors

- Increasing administrative requirements beyond staffing capacity due to volume of growth
- External (global) economic environment affecting potential investment returns

Future Direction for the Service:

- Opportunity for a short-term strategy to increase investment income in response to interest fluctuations
- Development of long-term investment strategy aligned to projected cash flows linked to multi-year budgets & Development Charge background study
- Automate and review processes for efficiencies
- Monitoring & tracking Development Charge revenues & expenses
- Increasing number of public inquiries due to population increase and new policies
- Challenges to automate work done manually in conjunction with other departments (ITM/Building Standards)
- Increasing demand from development industry for economic related incentives for specific building projects (e.g. office developments)
- Increased administration involved in special area charge by-laws
- Increasing complexity of development and infrastructure related agreements
- Changing forms of development (from low density to high density), which serves to increase administration and financial risks

Development Finance & Investments

2014-17 Business Plan

Financial Impact:

- Impacts of financial risk in negotiating development agreements, DC by-laws and infrastructure agreements are on a case by case basis, but could range from thousands to tens of millions in lost DC revenues and/or tax impacts.
- Worldwide financial and economic instability has created a low interest rate environment impacting interest income revenue. It is uncertain when the economy will recover and when interest rates will rise.
- Additional staff resource requirements to deal with increasing volume of activities related to growth

Work Plan

Business Plan Objectives:

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|---|---|----------|--------------------------------|
| 2014 | | | |
| Ensuring Financial Sustainability | Develop a short and long term cash flow forecast | Q1 | |
| Ensuring Financial Sustainability and Managing Growth | Investigate, recommend and implement a Special Area Development Charge in the VMC Area | Q2 | |
| Ensure the City is managing growth | Process mapping exercise to explore DC and Security processes within and external to Department | Q2 | |
| Ensure a High Performance Organization | Explore Opportunities to automate DC and security processes | Q3 | |
| | Investment Software – Implementation | Q4 | |
| 2015 | | | |
| Ensuring Financial Sustainability | Develop an Investment Strategy for short term and long term investments | Q1 | |
| Ensure a High Performance Organization | Implement automation of DC and security processes leveraging existing technologies | Q2 | |
| | Design for DC and security automation requiring custom technology (e.g. enhancing AMANDA) | Q3 | |
| Demonstrate Excellence in Service Delivery | Examine customer facing processes and turnaround times on development related issues and implement changes as | Q4 | |

Development Finance & Investments

2014-17 Business Plan

| | | | |
|--|--|----|--|
| | necessary | | |
| 2016 | | | |
| Ensure a High Performance Organization | DC and Securities automation: Testing & Implementation of customized systems | Q1 | |
| Manage Growth and Economic Well Being | Explore opportunity for financially related agreement indexing/repository of information | Q2 | |
| Ensuring Financial Sustainability | Work in collaboration with other Departments and Budgeting to update/monitor/track DC capital program and DC service level inventory | Q3 | |
| Demonstrate Excellence in Service Delivery | In depth review of development files (securities, agreements, and DCs) to ensure that records are intact and identify issues | | |
| 2017 | | | |
| Demonstrate Excellence in Service Delivery | Implement resolutions to file review process from previous quarter | Q1 | |
| Ensuring Financial Sustainability | Begin process to update Development Charge by-laws | Q2 | |

Development Finance & Investments

2014-17 Business Plan

Business Performance

Key Performance Indicators:

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|------|--|---|---|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Average Short Term City Yield versus the Benchmark Average Yield (One Fund). | | Money Market: CoV: 0.87% Benchmark: 0.65% | Money Market: CoV: 1.30% Benchmark: 0.92%; | Money Market: CoV: 1.32% Benchmark: 0.95%; | |
| Average Long Term City Yield vs. the Benchmark Average Yield (One Fund) | | Bonds: CoV: 4.69% Benchmark: 3.00% | Bonds: CoV: 5.29% Benchmark: 4.19% | Bonds: CoV: 5.23% Benchmark: 3.55% | |
| SERVICE QUALITY: Is anyone better off? | | | | | |

Key Performance Indicators Conclusion:

- Interest rates continue to remain low due to global economic uncertainty; despite this, Vaughan's investments continue to exceed the Benchmark Average Interest Rate of Return
- Further performance indicators for Development Finance & Investments will be developed in conjunction with the Corporate Performance Measurement initiative

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Purchasing Services

Business Overview

Service Statement:

The Purchasing Services Department is committed to the procurement of goods, services and construction in a timely and cost effective manner using the most appropriate method of acquisition.

Core Activities:

The Purchasing Services staff members are committed to:

- Acquire goods, services and construction through appropriate procurement methodologies such as Tenders, Quotations, RFP etc
- Help users gather market information through Request for Information (RFI) and, Request for Expression of Interest (RFEIOI)
- Develop and maintain Purchasing Policy Frame to guide all procurement activities. Monitor to ensure compliance.

Key Outcomes & Results:

1. Provide timely and efficient purchasing support to departments to achieve their procurement needs.
2. Ensure a fair, open, and transparent procurement process for the vendor community.
3. Procure quality goods and services at competitive prices.
4. Acquire appropriate goods and services within authorized limits.

Link to Vaughan Vision 2020:

1. Demonstrate Excellence in Service Delivery
 - The Department is responsible for the delivery of the tendering process in a timely, efficient, transparent and accountable manner. Purchasing staff members are engaged in all aspects of the procurement process to facilitate City staff to access quality goods and services in a cost-effective and timely manner.
2. Ensure a High Performing Organization
 - The Department regularly pursues continuous improvement through automation of processes, implementing new technologies, and the development of policies to enhance the procurement process. The department is currently undertaking a review of the procurement to pay cycle.
3. Lead and Promote Environmental Sustainability
 - The Department supports Sustainability through the future development and implementation of a Green Procurement Policy.

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | Additional Resource Requests | | | | | |
|-----------|------------------------------|-----------|------|------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 13 | 14 | 1 | | - | - |
| Part Time | 0.29 | 0.29 | - | - | - | - |
| Overtime | \$3,100 | \$3,100 | - | - | - | - |

Purchasing Services

2014-17 Business Plan

Service Profile

Current Service State:

Strengths

- Consolidated Procurement Policy
- Fair and transparent procurement processes, with unchallengeable Integrity.
- Procurement Plan aligned with Corporate Strategic Plan
- P-Card Program Implementation
- Professional accredited staff to assist users with their procurement needs
- Periodic meetings and discussions with department to provide updates on policy changes discuss requirements and obtain feedback.

Constraints

- Increasing workload and complexity due to volume and types of procurement
- Cyclical nature creates peak demand periods, making it difficult to service all requests as needed
- Greater legal support and coordination is required to review complex contracts and assist in refining document templates.
- Staffing need (senior technical clerk ARR 2014) to avoid bid process bottlenecks.
- The above issues make it challenging for the department to meet expected service levels

Future Direction for the Service:

- Engaging Stakeholders
 - Internal customers survey to rate their degree of satisfaction with procurement's performance
 - Benchmarking satisfaction levels to engage in continuous improvement.
 - Awareness sessions / development of training material and training programs on purchasing processes for City staff.
 - Work with departments to improved bid specifications, scope of work, and terms of reference
 - Participate in the vendor awareness program launched by York Buyers Cooperative on "How to do business with the City and basics of the bid process"
 - Develop a procurement plan to better align resources with department activities
- Professional Development
 - Purchasing staff and buyer's ongoing participation in professional training to keep themselves current with changes due to legal decisions and public procurement trends.
- Technology
 - Consider online sale and distribution of bid documents to bidders.
 - Streamline and automate internal bidding process by tracking and monitoring day to day procurement activities.
 - Enhance low value purchasing process to improve visibility, control and accountability
 - Develop multiple spend analysis reports.
 - Leverage new technological to enhance the service experience
- Service Delivery
 - Review procurement processes to bring in efficiencies and improvement to meet the challenges of increased demand on staff time due to the increased number of bids, proposal evaluations and training, if necessary review staffing levels and qualification needs.
 - Review and update procurement documents review with and quick access to legal support

Purchasing Services

2014-17 Business Plan

- Increasing legal complexity and changes due to recent court decisions requires timely legal advice and periodic legal review of procurement documents.
- Purchasing involvement at the time of budget planning and inception of major initiatives and projects to align its annual procurement plan.
- Leverage new technological to enhance the service experience

Financial Impact:

- Future costs associated with new technologies and process improvements, there is the potential for some of these costs to be partially offset by efficiencies savings.
- P-Card program once fully implemented will enhance work efficiency, spend visibility, better controls for low value purchase spending and also save staff time processing hundreds of invoices. Once implemented Corporate wide spend volume will generate proportionate rebates.
- Improvements based on Corporation spend analysis will have a positive impact on savings, volume rebates for low value procurement through P-Card program and better prices through competitive bid process.
- Future costs associated staffing level review, professional development, legal review of procurement documents and legal advice will enhance the overall service delivery quality.

Work Plan

Business Plan Objectives:

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|--|----------|--|
| 2014 Initiatives | | | |
| Pursue continuous improvement in managing the procurement process | Develop in-house purchasing training material and program for city staff for better understanding of procurements processes, methods, approval levels and purchasing policy. | Q2 | |
| Pursue continuous improvement | Develop a Green Bidding Policy document | Q2 | Environmental Sustainability and Legal |
| Develop new technological solutions to enhance the procurement process | Phase 1 – P-Card Pilot Program: Complete the P-Card 6 month pilot/audit and implement the P-Card system across the organization | Q2 | Audit report upon completion of p-card pilot will recommend future resource needs. |
| | Phase 2- P-Card Corporate Wide Rollout: Implement the P-Card system across the organization | Q4 | Audit, ITM, Finance |
| | Overall procurement to pay stream review. | Q4 | Internal Audit |
| | Development of Departmental Annual Procurement Plans with Budget approval process | Q4 | All Departments |

Purchasing Services

2014-17 Business Plan

2015 Initiatives

| | | | |
|--|--|----|------------------------|
| Pursue continuous improvement in managing the procurement process | Arrange an external Customer Survey to rate degree of satisfaction with Procurement's performance and benchmark satisfaction levels for further improvements | Q3 | All Departments |
| Pursue continuous improvement in managing the procurement process | Implement a Risk Management Tracking System | Q3 | Insurance & Licensing |
| Develop new technological solutions to enhance the procurement process | Commence a study to develop an on-line bidding system | Q2 | ITM |
| | Enhance Contract Tracking System to update contractor's Insurances and WSIB clearance certificates | Q2 | |
| | Implement a vendor performance system that feeds back into the bid process | Q2 | Other dept involvement |

2016 Initiatives

| | | | |
|--|---|--|-----|
| Develop new technological solutions to enhance the procurement process | Develop and implement an on-line bidding system based on the results of the study | | ITM |
|--|---|--|-----|

2017 Initiatives

| | | | |
|---|---|--|--|
| Pursue continuous improvement in managing the procurement process | On going review of Purchasing Policy, procedures, processes and documents to bring in efficiencies by implementing necessary changes. | | |
|---|---|--|--|

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|-----------------------------------|------|------|------|------|---------------|
| Number of bids per FTE | 49 | 48 | 62 | 61 | 67 |
| Number of Purchase Orders per FTE | 260 | 325 | 290 | 310 | 350 |
| Professional credentials of Staff | 11 | 11 | 12 | 14 | 16 |

Purchasing Services

2014-17 Business Plan

Key Performance Indicators Conclusion:

- There has been a consistent increase in the number of bids and purchase orders per FTE over the past five years.
- There has been a marked increase in the desired professional credentials
- Key performance Indicators will be further evolved in accordance with the Corporate Performance measurement initiative throughout 2014.

In order to meet the increasing bid volumes to accommodate department's procurement requirements in a timely manner, an ARR for Senior Technical Position is recognized in 2013- 2016 Budget. Additionally upon completion of P-Card pilot a comprehensive report will be prepared to provide the detailed analysis of the program with recommendations for corporate wide rollout including any staffing needs.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

City Clerk

Business Overview

Service Statement: (Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments)

Core Activities: (Describe your regular business functions and responsibilities)

The City Clerk's Office (CCO) is one of the primary points of contact for Vaughan's citizens and businesses, and is also an information and service focal point for Members of Council and City Staff. The CCO provides corporate secretariat services to Council and its committees (including advisory committees). The Archives and Records Management Services Division (ARMS) is responsible for maintaining corporate records which includes records retention, management, retrieval and disposal. The Access & Privacy Office responds to Freedom of Information requests from the public, and oversees the City's responsibility for the protection of personal information.

Staff members also issue a full range of licenses and permits including marriage, business and lottery licenses. The Committee of Adjustment processes minor variances and consents under the Planning Act. CCO staff members are also responsible for conducting municipal elections and providing a full mail/printing/internal courier service for the Corporation. In addition, staff members manage the Corporation's Insurance and Risk Management programs, and prepare and administer municipal and school board elections.

Key Outcomes & Results: (Describe the outcomes your department strives to achieve for residents and/or other departments)

- Open, Accessible, & Accountable Government
- Ensuring Regulatory Compliance and Consumer Protection through Business Licensing Practices

Link to Vaughan Vision 2020: (Explain how your department links with the Vaughan Vision 2020 strategic goals and themes)

Service Excellence:

- Demonstrate Excellence in Service Delivery
- Preserve Our Heritage and Support Diversity, Arts and Culture.

Staff Excellence:

- Demonstrate Effective Leadership

Organizational Excellence:

- Ensure a High Performing Organization

Staffing Profile:

Full Time, Part Time and Overtime – Budgeted Amounts

| | | | | Additional Resource Requests | | |
|------------|--------|-----------|------|------------------------------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 48 | 48 | - | - | - | - |
| *Part Time | 2 | 2 | 1.38 | - | - | 0.69 |
| *Overtime | 24,488 | 31,753 | - | - | - | - |

Office of the City Clerk

2014-17 Business Plan

Service Profile

Current Service State: (Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels)

Strengths:

- Experienced team of municipal professionals
- Among peers, recognized as leaders in respective fields
- Highly engaged in professional development and commitment to the municipal sector

Major Successes:

- Implementation of VOL across all divisions
- Participation with OMEX and growth of Risk Management initiatives
- Actively engaged in EDMS project
- Balancing Council and Committee transparency with protection of personal privacy
- Pragmatic procedural processes and protections

Current Challenges:

- Continuing staff development and succession management are a priority to ensure continuity of experienced staff
- Core responsibilities do not lend themselves to traditional performance measures
- Current workload in some areas is not sustainable
- EDMS will be a catalyst for modernizing policies and practices related to work flow, corporate records, and automation opportunities
- 2014 focus will be on election activities

Future Direction for the Service: (Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business)

- Occupancy in the new City Hall has created expectation of new technologies for meeting management and broadcasting (VOL).
- Potential delays in implementation of EDMS system will limit the organization's ability to utilize and track information effectively.
- The implementation of Vaughan On-line has given the City Clerk's Office greater control over its web postings, but with a commensurate burden on staff resources.
- Implementation of a Claims Management System will assist in managing insurance claims under OMEX.
- Detailed population data for budget and election planning purposes is a continual concern.
- Pressure in Licensing will result in Overtime/Management participation. Operational Review to examine opportunities for relief.
- Strategic Risk Management Strategy is in its initial stages with future direction to be determined

Financial Impact: (Scope out major financial impacts on the department currently and in the future)

- Elections reserve remains underfunded going into 2014 elections
- Potential costs associated with the outcome of the ward boundary appeal

Office of the City Clerk

2014-17 Business Plan

Work Plan

Business Plan Objectives: (List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.)

|---|---|--------------|--|
| 2014 Initiatives | | | |
| Records Management: Effectively manage corporate records and ensure that they are identifiable, secure, protected, accessible and available | Implementation of EDMS and new records management processes, including new records retention by-law | 2014-2016 | |
| Elections: Ensure a fair and accessible election while protecting the integrity of the electoral process | 2014 Election Preparations and conduct election, preparation for inauguration, post-election activities | 2014-2016 | City staff, external recruitment, external contractors |
| Secretariat: Ensure legislative compliance and adherence to Council procedures, and encourage public participation and community engagement | Preparation for new process for recruitments to advisory and statutory committees | 2014-2015 | |
| Licensing: Provide consumer protection by applying consistent and fair business licensing practices | Online Payment for Stationary License renewals | 2014 | |
| 2015 Initiatives | | | |
| Records Management: Effectively manage corporate records and ensure that they are identifiable, secure, protected, accessible and available | Continued roll-out of EDMS Develop an off-site storage strategy for managing corporate records | 2015-2017 | TBD |
| Elections: Ensure a fair and accessible election while protecting the integrity of the electoral process | Post-Election Wrap Up Activities Commence a ward boundary review | 2015 2015 | |
| Licensing: Provide consumer protection by applying consistent and fair business licensing practices | Implement an on-line claims management system | 2015 | |
| 2016 Initiatives | | | |
| Elections: Ensure a fair and accessible election while protecting the integrity of the electoral process | Preparations and review of past activities for the 2018 Election | 2016-2017 | |
| | | | |
| 2017 Initiatives | | | |

Office of the City Clerk

2014-17 Business Plan

| | | | |
|--|--|-----------|--|
| Elections: Ensure a fair and accessible election while protecting the integrity of the electoral process | Incorporate results of ward boundary review into election deliverables for the 2018 election | 2017-2018 | |
|--|--|-----------|--|

Business Performance

Key Performance Indicators: (List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service)

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|----------------------|------|------|------|------|---------------|
|----------------------|------|------|------|------|---------------|

| | | | | | |
|--|-----|------|------|--------|-----------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Customers served at front counter | | | | 20,916 | 22,000 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Number of claims against the City | x | x | x | x | 370 |
| Average time to process licenses and Permits | x | x | x | x | 5.88 days |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| % Access and Privacy Compliance within 30 day Statutory Timeline | 86% | 100% | 100% | 100% | 100% |
| % Committee of Adjustment applications processed within legislated timeline. | x | x | x | x | 100% |
| Average time to publish meeting extracts. | x | x | x | x | 1 week |

Key Workload Indicators: (List up to three relevant workload measures which provide information on the department's workload. The workload indicators should range from 2009 to 2012, with a forecast for 2013)

| Workload Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|---------------------------------------|---------------------------------------|---------------------------------------|---------------------------------------|---------------------------------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Number of Business Licenses Issued per Fiscal Year | Sta.: 2212 Mob.: 2093 Mar.: 982 | Sta.: 3158 Mob.: 2125 Mar.: 671 | Sta.: 2634 Mob.: 2071 Mar.: 677 | Sta.: 3300 Mob.: 2200 Mar.: 740 | Sta.: 3575 Mob.: 2200 Mar.: 750 |
| Lottery Licenses Issued | 25 | 21 | 48 | 30 | 28 |
| Number of Access | 119, 22 | 126, 10 appeals | 90, 4 appeals | 115, 4 appeals | 100, 3 appeals |

Office of the City Clerk

2014-17 Business Plan

| | | | | | |
|---|---------|---------|---------|---------|---------|
| Requests and Appeals and Privacy Complaints | appeals | | | | |
| Number of JOC Records Centre Record Requests per annum | 6,001 | 6,040 | 7,899 | 6,781 | 7,000 |
| Number of Boxes Stored Off-site at Iron Mountain per annum | 10,932 | 13,071 | 16,213 | 17,906 | 18,900 |
| Archival Services Information/Research Requests per annum | 281 | 200 | 338 | 376 | 350 |
| Quantity of Archival Records Processed per Annum | 260 | 200 | 260 | 300 | 330 |
| Number of Sub-division and Site-Plan Registrations per Development Services FTE | 57 | 67 | 42 | 50 | 50 |
| Number of Committee of Adjustment Applications | 345 | 362 | 367 | 400 | 420 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Cost per Processed License | \$61.96 | \$88.09 | \$87.44 | \$64.59 | \$73.04 |

*Key performance indicators are subject to change pending performance measurement committee approval

Key Performance Indicators Conclusion: (Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values)

Key performance indicators focus on meeting statutory requirements and providing timely access to information and services.

Additional Business Objectives:

Freedom of Information: Foster a culture of privacy protection and open government while maintaining legislative compliance

Committee of Adjustment: Ensure an open and transparent process for all Committee of Adjustment business

Archives: Manage and safeguard city information and archival assets

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Legal Services

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Legal Services Department provides a full range of effective legal services to Council, Senior Management, City departments and the Vaughan Public Libraries and supports the City's corporate objectives and the Vaughan Vision through the provision of timely, accurate, relevant and strategic legal advice and real estate services.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Provide Council, Senior Management, and Staff with timely and high quality legal advice
2. Ensure that the City is protected from legal harm and its interests are fairly represented
3. Contribute to responsibly managing the economic growth and development of the City

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Manage Growth and Economic Well-being
 - *Key Outcome:* Contribute to responsibly managing the economic growth and development of the City
2. Demonstrate Excellence in Service Delivery
 - *Key Outcome:* Provide Council, Senior Management, and Staff with timely and high quality legal advice
3. Ensure Financial Sustainability
 - *Key Outcome:* Ensure that the City is protected from legal harm and its interests are fully represented

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

Legal Services

2014-17 Business Plan

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Resources
 - Continuing growth, legislative changes and increasing complexity of OMB, real estate, general municipal matters and litigation, create a future challenge to continue to ensure service levels. Additional lawyers/law clerks will be needed.
- Vaughan Metropolitan Centre
 - Development within the Vaughan Metropolitan Centre is expected to increase pressure on existing legal resources
- Vaughan Official Plan
 - There are 132 appeals of Vaughan Official Plan 2010 and appeals of various Secondary Plans which require legal support at the Ontario Municipal Board. These mediations/prehearings and hearings will commence in late 2012 and continue throughout 2015 and 2016, utilizing 2 lawyers and support staff completely, and additional external or internal lawyers, depending on scheduling conflicts.
- Hospital
 - Support for the development of a hospital in Vaughan is a future resource challenge, as significant time is required for continued coordination with MacKenzie Health and other levels of government to meet hospital development timelines.
- Real Estate
 - Continued growth creates a future challenge for land acquisition to fulfill City requirements. Additional real estate staff will be needed to ensure timely acquisition for all City requirements including capital projects.
 - Many services within the City continue to require additional land to maintain service levels and keep pace with growth. Legal and Real Estate staff are developing a unified land acquisition plan, with City commissions to ensure that the City's future real estate needs are met.

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Corporate Strategic Initiatives
 - As a service department, any future pressures/challenges identified by all City Departments impact Legal Services. Legal and Real Estate Services support and contribute to the numerous initiatives undertaken by all City Departments.
 - A casino is an emerging potential opportunity which will require Legal support to various departments to see such a project to fruition, pursuant to the City's many related corporate objectives.
 - An emerging initiative, Procurement and Contract Administration will require Legal support in initiation /transition/implementation and presents a future pressure/challenge regarding resources.

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- The department anticipates submitting ARR's in future years for additional legal and real estate staff in order to keep pace with growth and the increased complexity of development files in intensification areas and real estate transactions.

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|--------------------------------------|--------------------------------------|--------------------------------------|--------------------------------------|---|
| EFFICIENCY: What/How much do we do? | | | | | |
| # of Employees per lawyer | 208 | 216 | 224 | 218 | 223 |
| # of Residents per lawyer | 52,000 | 57,000 | 58,846 | 50,230 | 52,248 |
| Number of Acquisitions and Sales | Acq: 6 Sales: 8 | Acq: 6 Sales: 4 | Acq: 5 Sales: 2 | Acq: 5 Sales: 6 | Acq: 3 Sales: 4 |
| Dollar Value of Cash-in-lieu Parkland Determinations | \$3,550,000 | \$5,701,600 | \$3,191,680 | \$5,277,329 | \$5,500,000 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| # of Days Required for OMB Hearings and Litigation | OMB: 270 Lit.: 190 | OMB: 101 Lit.: 159 | OMB: 309 Lit.: 205 | OMB: 320 Lit.: 386 | OMB: 600 Lit.: 384 |
| Dollar Value of Acquisitions and Sales | Acq: \$1,036,585 Sales: \$100,521 | Acq: \$18,521,660 Sales: \$14,054 | Acq: \$16,287,000 Sales: \$76,000 | Acq: \$6,162,000 Sales: \$236,000 | Acq: \$20,000,000 Sales: \$6,550,000 |
| SERVICE QUALITY: Is anyone better off? Conduct internal client satisfaction survey benchmark year – 2014; improvement target 2015 | | | | | |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- Days required for OMB hearing and litigation has increased substantially due to appeals of the Vaughan Official Plan 2010, the VMC Secondary Plan, and other secondary plans
- Pressure for land acquisition to maintain City service levels continues to increase

Legal Services

2014-17 Business Plan

- Complexity and time commitment for OMB litigation and Real Estate has increased.
- Legal and Real Estate Departmental staffing remains at or below ratios found in comparable municipalities

DRAFT 2014 BUDGET AND 2015-2017 PLAN

By-Law & Compliance

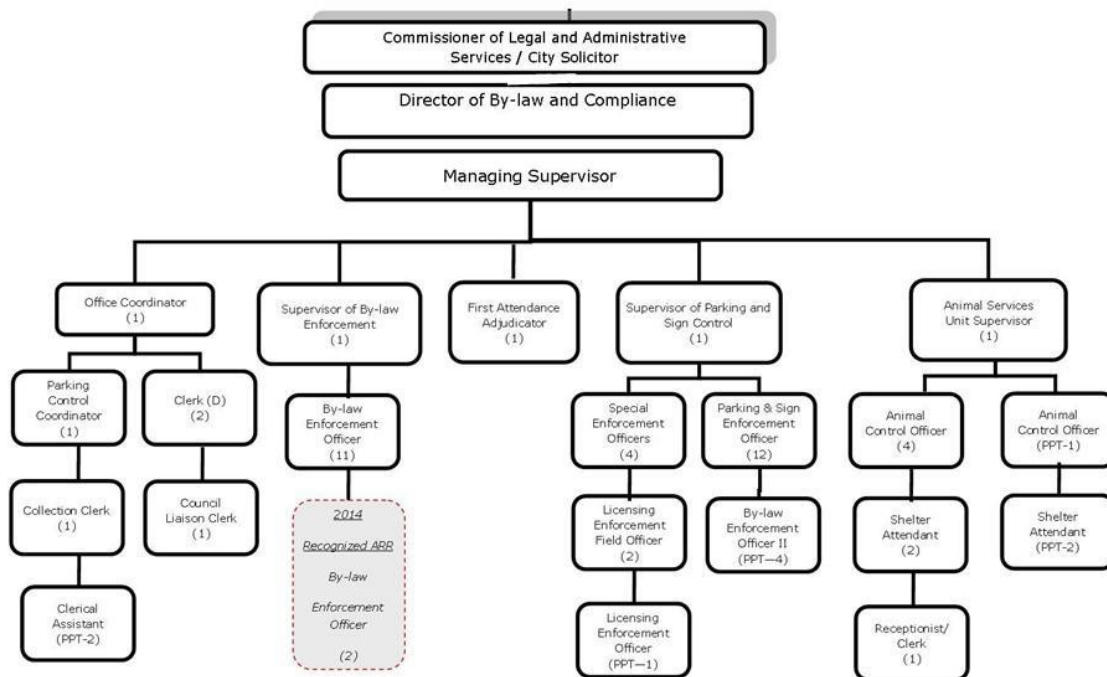

BUSINESS OVERVIEW

Service Statement: (Describe the core responsibilities for your department)

By-law and Compliance is responsible for encouraging compliance with approximately 41 City of Vaughan By-laws through a combination of reactive and proactive enforcement methodologies in both a uniformed and non-uniformed presence in the community. In 2011 the Department assumed responsibility for the delivery of Animal Services for the City.

By-law and Compliance Department

Full Time, Part Time and Overtime – Budgeted Amounts

| | 2012 Base | Approved 2012 ARR | 2012 Final | 2013 ARR | 2014 ARR | 2015 ARR | 2016 ARR |
|-----------|--------------|----------------------|---------------|-------------|-------------|-------------|-------------|
| Full Time | 45 | 2 | 47 | - | 2 | | |
| Part Time | 8.97 | - | 8.97 | - | - | | |
| Total FTE | 53.97 | 2 | 55.97 | - | 2 | | |
| Overtime | \$28,768 | \$2,000 | \$30,768 | - | \$1,000 | | |

Key Stakeholders: (list major internal and external stakeholders and briefly describe why they are key stakeholders)

- Residents and businesses
- Council
- Other internal departments
- External enforcement agencies
- Other municipalities and levels of government

Work Plan:

Link to Vaughan Vision 2020: (list the Vaughan Vision strategic goals which links with the departments core responsibilities)

- Demonstrate Excellence in Service Delivery
- Promote Community Safety, Health and Wellness
- Lead and Promote Environmental Sustainability
- Manage Growth and Economic Well-being

Future Pressures and Opportunities: (list the initial and future challenges facing the department as well as potential opportunities to improve the business)

Continued growth within the community continues to outpace staffing growth causing an erosion of service delivery. This will continue for the foreseeable future, increasing pressures on current resources and increasingly conflict demands for service. Effective continued and improved delivery of core services requires innovative approaches and development of long term strategic directions, founded on greater emphasis of public outreach and education. The By-Law and Compliance Department is moving toward achieving an enhanced delivery model, while balancing the needs for traditional methods of imposing penalties through ticketing and prosecutions of infractions. While traditional approaches may result in desired outcomes, it can be expensive to manage and prosecute to resolution. Typical prosecution can take in excess of 19 months to proceed through trial to resolution and still not achieve compliance.

Methodologies focused on enhanced public education and awareness have a greater likelihood of achieving increased voluntary compliance. While this may lessen demands in some areas of enforcement, a more educated public has been known to equate to an increased demand for service (eg increased complaint volumes) in others. With the increasing growth of our communities, enforcement of current by-laws is becoming increasingly complex, complicated and time consuming. Investigation of public complaints is resulting in a significant increase in tasks, including necessary research and investigative time to achieve resolution. In addition, though compliance continues to be the ultimate goal, necessary prosecutions may continue to increase with the ever increasing demand for service.

A Department wide operational services review is underway, intended to identify efficiencies, create greater opportunity for improvements and create a more effective, efficient and economical service delivery model focused on community safety, health, wellness and sustainable support of community growth. To ensure a global approach is employed a broader departmental review includes development of a framework to review all current by-laws to ensure suitability and relevance.

In 2011 the Department assumed responsibility of the delivery of animal services, supporting the needs of the City and two sister municipalities (Township of King and Town of Bradford/West Gwillimbury). The City rolled out our on-line Animal Licensing Program shortly thereafter. This online system has shown an increase of 500 licenses issued from (1,050) in 2011 to (1,550 projected) in 2013. To date in 2013, 1,132 licenses have been sold on-line. As on-line services continue to increase in popularity, on-going improvements to overall services will develop opportunities to increase compliance with animal licensing provisions and responsible pet ownership; effectively decreasing the manual tasks related to the licensing program. Though the animal shelter has operated at optimal efficiency since its opening, current demands exceed its capacity, causing strain on already limited resources, equating to erosion in core services. With the approval and support of minimal additional resources, considerable improvements in service delivery can be achieved, including extended hours of operation during identified peak times for adoptions, reduction in overtime costs, reduction of contracted veterinary expenses, improved coverage during times of staff absenteeism and an overall improved service delivery model equating to improved corporate image. This enhancement in service delivery is not currently possible with current resources and staffing complement.

Specialized service delivery to meet unique demands led to the creation of the Special Enforcement Unit in 2002. Since its creation, the Unit has seen a substantial increase in demands for service such as the need for increased presence and pro-active patrols in ever expanding City Parks and open spaces (including TRCA lands), City facilities, number of community centres being built, increased special events, surge in requests for joint initiatives with other enforcement agencies, increased need for community presence and direct engagement through outreach and education. In keeping with trends typically experienced with community growth, demands for sustainable service has and will continue to increase beyond the capabilities of current resource complements.

Business Plan Objectives (list the status of outstanding business plan objectives and the method of measuring successful implementation. As well, list 2013-16 business plan objectives in the appropriate section).

2013-16 Business Plan Objectives: (You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.)

| <u>Business Plan Objectives:</u> | Timeline | Outcome | Resources |
|--|-----------------|--|------------------|
| 2013 (Top 5 Objectives) | | | |
| 1. Evaluate Animal Services delivery program. | Q1 2013 | Under review by ICI Dept. (Operational Review) | Allocated |
| 2. Review Animal Services Contracts with King & Bradford West Gwillimbury Townships. | Q4 2013 | Continuation of current Contract pending outcome of Operational Review | Allocated |
| 3. Initiate departmental Operational Service Review in partnership with ICI Office. | Q3 2013 | Conclude review and establish recommendations | Allocated |

| | | | |
|--|--|--|--|
| 4. Enhanced integration with Access Vaughan for improved support of Enforcement related calls and updating of Case Tracking System ("CTS"). | Q2 2013 | Improved Customer Service, improved service access and efficiencies in delivery | Allocated |
| 5. Revise and present new Animal Services By-law to City Council. | Q4 2013 | Enact enhanced Animal Services By-law more reflective of growing community needs. | Allocated |
| 2014 (Top 6 Objectives) | | | |
| 1. Prepare by-law review strategy, which will include prioritization of current by-laws for relevance and suitability with strategic corporate direction and Vaughan Vision 20/20. | Q2 2014 for priority plan, Q3 and Q4 for reviews & future years. | Establish strategic plan to prioritize reviews, include public consultation process, education and outreach as required. | ARR being requested for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. |
| 2. Develop necessary programs to enhance community awareness, education and outreach of City by-laws. | Q1 2014 | Partner with Corp Comm. and sister dept.'s to establish priorities and conduct outreach and education campaigns throughout the year. | ARR being requested for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. |
| 3. Establish strategies and approaches to effectively manage compliance and corresponding training and development plan for departmental staff. | Q1 through Q4 2014 | Implement recommendations from 2013 operational review (where possible) and conduct needs assessment to address training needs of dept. staff. | ARR being requested for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. |
| 4. Establish methods and processes to ensure consistent application of by-laws across the City, ensuring exercising of good sound judgment. | Q1 through Q4 2014 | Enhanced consistency, improved service delivery through improving skills and abilities of staff (through training and development). | ARR being requested for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. ARR being requested to increase training budget, see ARR. |

| | | | |
|---|---------|--|---|
| 5. Operational Review – implementation of recommendations. | Q3 2014 | Enhanced service delivery model. | ARR being requested for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. |
| 6. Monitor/Enforce Smoking By-law at City facilities. | Q2 2014 | Education of the public, develop public outreach initiative to increase voluntary compliance with new by-law requirements. | Allocated |
| 2015 (Top 5 Objectives) | | | |
| 1. Create a community safety strategy, including employing CEPTED strategies, public education and outreach, to support enhanced sustainable safe and vibrant communities; including access to safety education programs for stakeholders (partnership with York Regional Police and other agencies as needed). | 2015 | Enhanced public awareness, improved sustainable safe, vibrant communities. | ARR being requested in 2014 for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. |
| 2. Review Standard Operating Procedures and effectiveness of implemented enhancements identified in 2013 / 2014 operational review. | 2015 | Ensure relevance and suitability, continuous improvement and training for staff as needed. | ARR being requested in 2014 for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. |
| 3. Review / improve technology requirements and IT solutions. | 2015 | Identify upgrades of software and hardware required, review IT solutions in practice (tied into Corp IT Strategy – 2014). | Allocated |
| 4. Continue by-law review strategy. | 2015 | Continued from 2014. | ARR being requested in 2014 for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. |

| | | | |
|--|------|--|---|
| 5. Identify key strategies in support of emerging needs associated with MVC, Hospital, public renewal initiative and emerging key City strategies. | 2015 | Ensure necessary regulatory requirements are in place. | ARR being requested in 2014 for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. |
| 2016 top 3 Objectives) | | | |
| 1. Analyze Community Safety strategy program deliverables and outcomes from 2015 for relevance and suitability. | 2016 | Ensure relevance and suitability, continuous improvement, including training for staff as needed; develop community trends / analysis. | ARR being requested in 2014 for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. |
| 2. Review business practices, including outreach and education programs. | 2016 | Improved efficiencies and improved knowledge of the public, including increased voluntary compliance. | ARR being requested in 2014 for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. |
| 3. Continue by-law review strategy as required. | 2016 | Address any emerging issues, continue review of by-laws and implementation of related amendments. | ARR being requested in 2014 for specialized position – Business Analyst / Policy & Research Coordinator, see ARR. |

Key Performance Indicators: (List relevant high level performance measures which provide information on the department's efficiency and effectiveness - focus should validate pressures, support Additional Resource Requests (if any), and assess budget. The Performance Indicators and associated benchmarks should range from 2011 to 2016, with a forecast for the rest of 2012 to 2016)

| By- Law & Compliance | | | | Measurement Type | | | |

| Vaughan Vision Themes | Strategic Outcomes & Results | Department Objectives | Performance Measure | Dashboard Indicator | Efficiency | Effectiveness | Service Quality |
| SERVICE EXCELLENCE: Promote Community Safety, Health & Wellness | Promote the safety and security of Vaughan citizens | Provide efficient and effective delivery of by-law compliance | Parking Permits Issued | | X | | |
| SERVICE EXCELLENCE: Demonstrate Excellence in Service Delivery | Ensure compliance with City By-laws through education and enforcement | Encourage greater compliance with City by-laws | % of parking service calls responded to within accepted 5 business days | X | X | X | |
| ORGANIZATIONAL EXCELLENCE: Manage Growth and Economic Well-Being | | | % of property standards & zoning service calls responded to within accepted 10 business days | X | X | X | |
| | | | Number of Service Requests per Field Officer | | X | | |
| | | | Animal Health Index: -# Pets Micro chipped and vaccinated at outreach clinics activities -# of adoptions -# of pet licenses issued -# of dog bites | X | | X | |
| | | | Number of recipients of compliance education and outreach | | | X | |
| | | | Number of animals passing through system | | X | X | |
| | | | Avg time to initially respond to by-law and compliance complaints | X | X | X | |
| | | | # Disputes resolved at screening level before going to hearing | | | | X |
| | | | % of online ticket payments | X | | | X |
| | | | # of tickets resolved before going to court | X | | X | |
| | | | % of Cases sent to prosecution that are successful. | X | | X | X |

BUSINESS OVERVIEW:

The Business Plan as outlined within this document provides an overview of the framework and top identified objectives to be undertaken within the next three years, supported by key performance indicators, page 7, and statistical information charts found on pages 9 through 15.

The theme of this three year plan focuses on key objectives designed to identify the effectiveness, relevance and suitability of the current service delivery and progresses over the next three years to an improved and enhanced service delivery model more in line with public service values, ensuring sustainability and fiscal responsibility.

The identified objectives are designed to sustain the new vision of the Department to improve public knowledge and awareness of regulatory by-laws with a “citizens and community first” focus through education, outreach and engagement. Ensuring continued support of the over-all welling being, growth and vibrancy of the City of Vaughan in line with Vaughan Vision 20/20 will require investment in the growth of the Department.

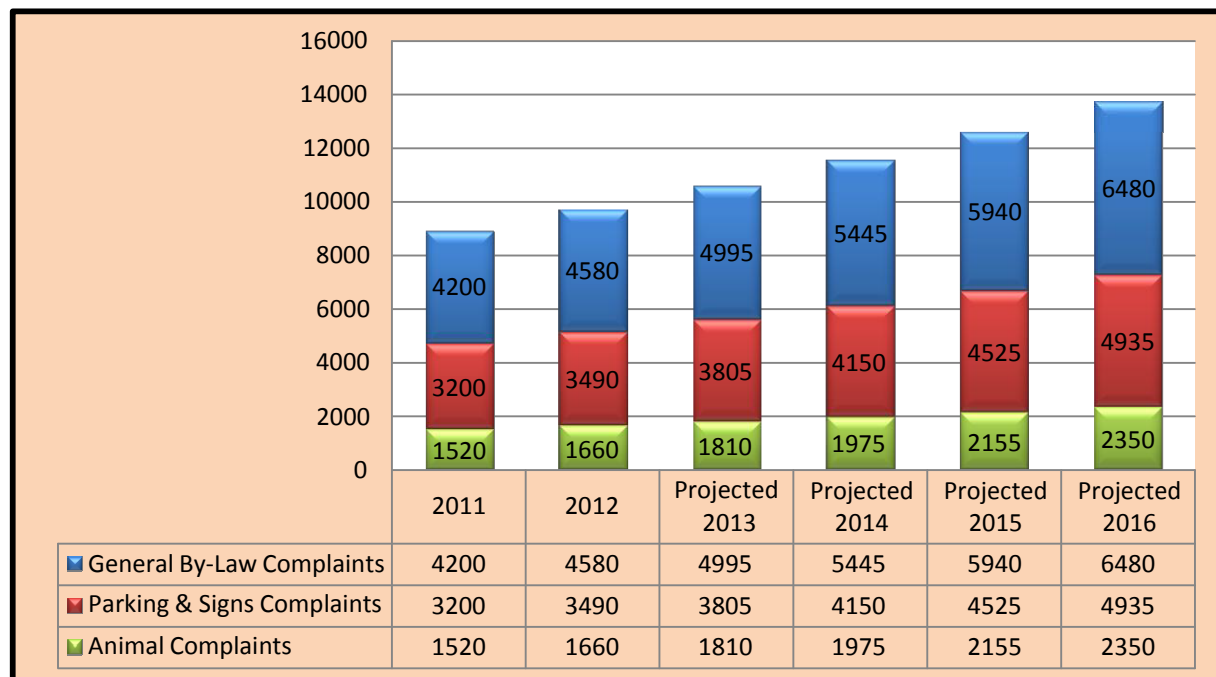

While the three year Business Plan identifies key deliverables to be achieved within the Department, successful improvement of our service delivery model and linkages in business operations between sister departments will allow for shared benefits and positive influences on a corporate level.

The following statistical information provides supporting historical data utilized to develop future anticipated service demands and begin the establishment of baseline information. Though current software systems offer limited outputs, the information has enabled logical projections that assist in accurately reflecting expected service increases over the next three years.

Statistical Information

By-Law and Compliance Services Complaint-Driven Requests

Definition: The number of complaint-driven service requests (files) requiring investigation and/or resolution by By-Law and Compliance Services staff.

Key Conclusion:

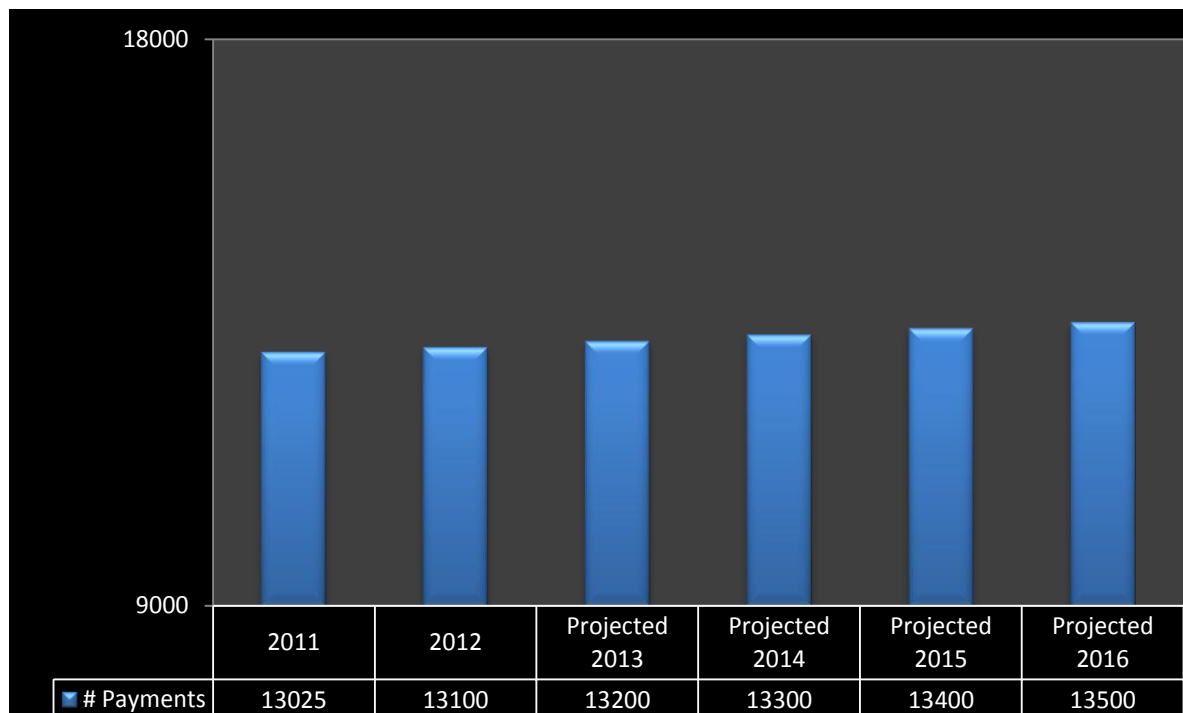

The increase in call volume shows a correlation to the population increase. Calls for service between 2011 to 2013 is reflective of approximately 10% annual increase per year. This upward swinging trend when viewed over 6 years reflects an alarming increase in demands for service, from 8,920 service requests in 2011 to a projected 13,765 by 2016. This analysis is based on historical data from previous years and amounts to an overall projected **increase of 64% by 2016** in demands for service; greatly outpacing the Department's ability to maintain service levels and exceeding existing resource and staffing capabilities.

Notes:

The measure demonstrates an increase in call volume for all disciplines, including but not limited to, animals, parking, signs, property standards, zoning, licensing, noise, dumping and all other by-laws, as well as special projects and initiatives. Given the current and projected growth being experienced across the City of Vaughan, calls for service are expected to increase in all areas as service delivery is directly linked to community growth, increased population, emerging demands, enhanced customer service and corporate directions.

Number of Online Ticket Payments

Definition: The number of Administrative Monetary Penalty (“AMP”) parking notices / ticket payments, paid online per annum

Key Conclusion:

The Online Ticket Payment process is a valuable customer service tool allowing for payment of AMP parking notices / tickets online in lieu of attendance in person. This service has been well received by the public and has surpassed expected usage. Additional education and community outreach is expected to progressively increase usage over the next three years. Projections are based on historic data from previous years.

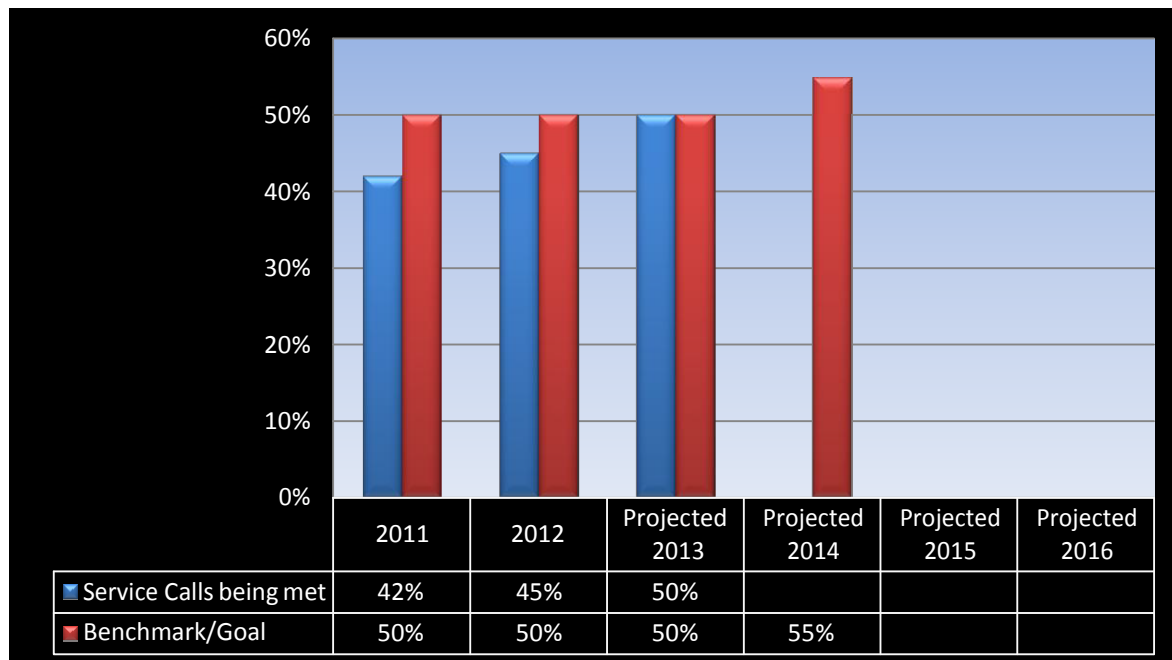

Notes:

With increased public awareness and improved marketing of the program, increases are anticipated beyond the above projections. In addition, larger corporate initiatives including development of parking strategy may have an unknown effect on the volume of violations and related online payments. Similarly the continual increase of the number of temporary visitor parking permits issued and the possible future on street parking initiative for residents may also have an unknown effect on future outcomes.

Though it is anticipated that the fine revenue realized for specific violations may decline due to enhanced outreach and education commencing this coming year, calls for service relating to emerging demands for other types of parking violations are expected to continue to increase.

Service Standard Response

Definition: The percentage of complaints responded to within established service standard of 5 – 10 business days. Response includes initiation of an investigation and initial contact with complainant.

Key Conclusion:

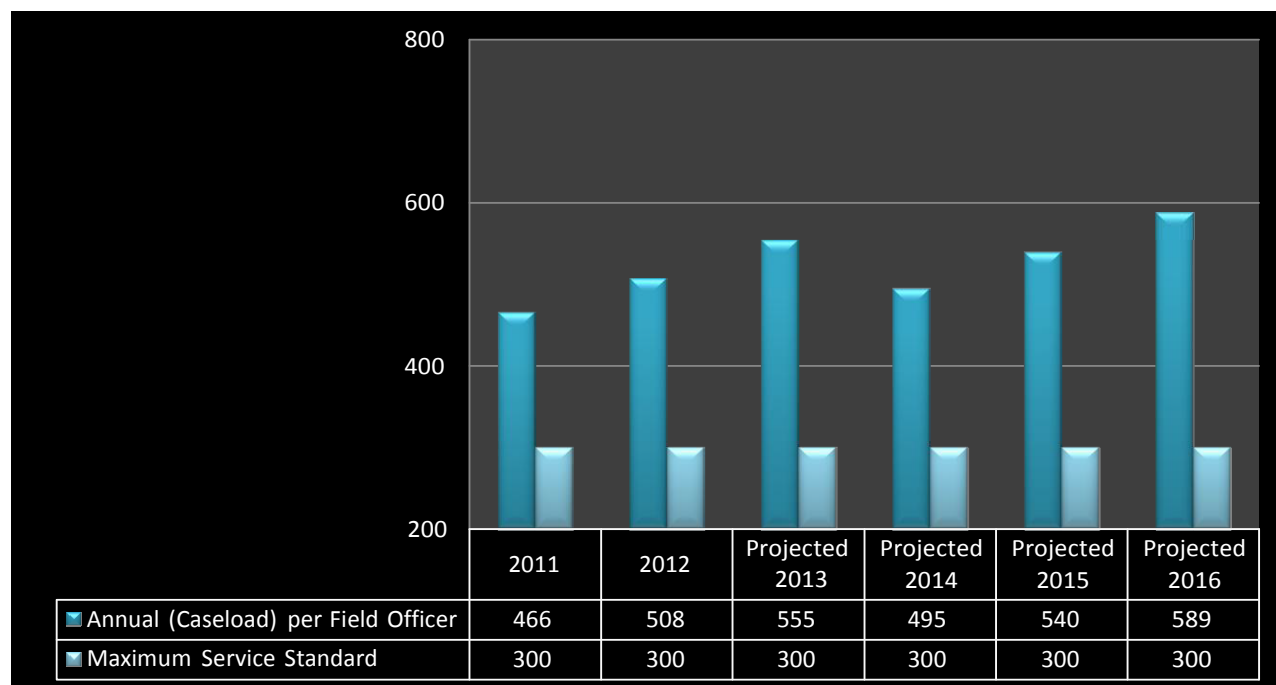

The ability for staff to initially respond to a call for service within 5–10 business days is reliant on the number of calls to officer ratio and the nature of the calls. By-law investigations are becoming increasingly more complex, more time consuming, requiring greater effort and extending the duration of time in reaching compliance. Increasing calls for service and other factors such as seasonal demands may also affect service standards adversely. Traditionally, the Department has realized an improvement in service standards of approximately 10% per year since 2011. Future projections and enhanced service delivery will be reliant on implementation of recommendations and findings of the departmental operational review currently underway. **NOTE:** All calls regarding urgent or unsafe matters result in dispatching of an officer within the same day.

Notes:

Although the Department will continue to strive for 100% achievement of service standards, it will be extremely challenging for service standards to improve if the appropriate resources and tools are not provided in response to the growth and increasing expectations. The purpose of the departmental operational review is to identify gaps, required efficiencies and investment in tools (e.g. IT solutions) and resources, along with providing recommendations for process and service level improvements. Through implementation of these recommendations the Department expects to improve service delivery.

Number of Complaint Driven Service Requests per By-law / Property Standards Field Officer

Definition: The number of complaint driven service request per Field Officer.

Key Conclusion:

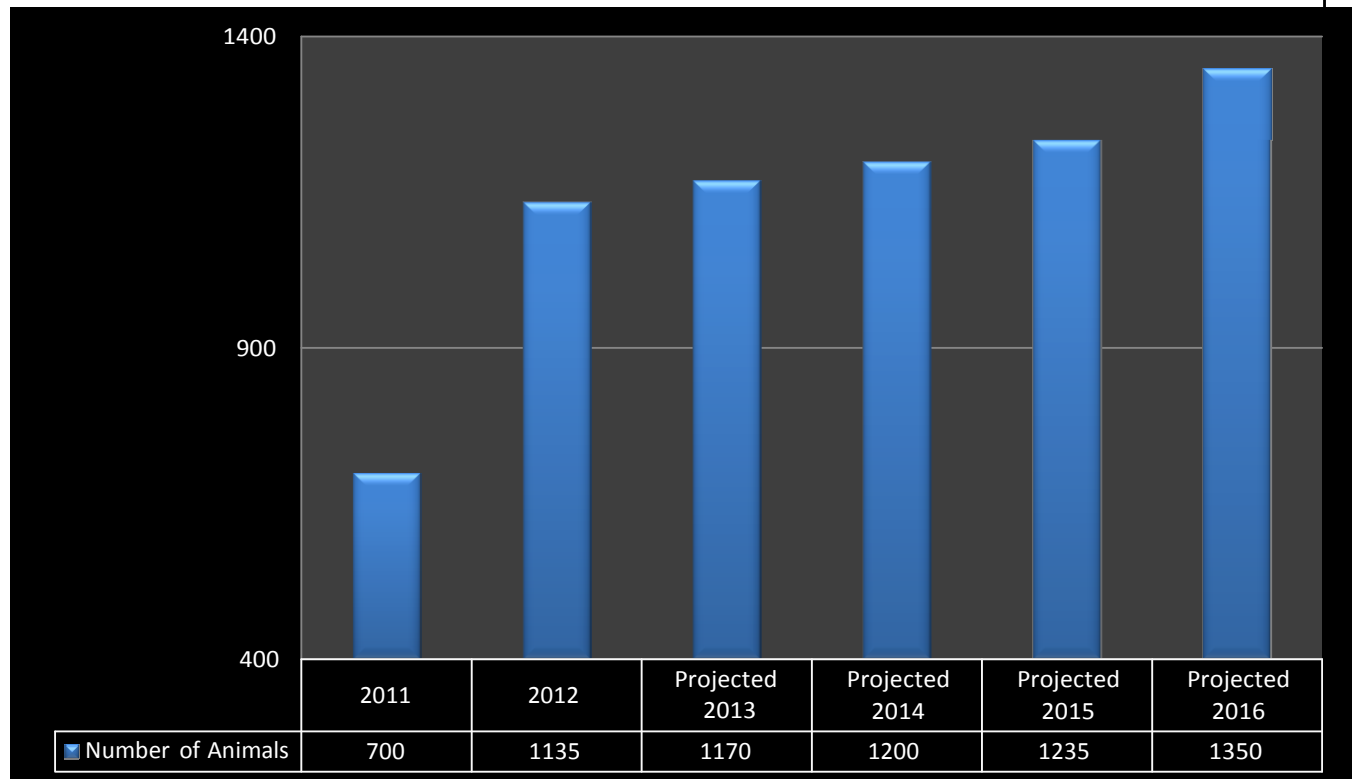

There is a group of 11 staff in the By-law & Compliance Department responsible for property standards and general by-law compliance and enforcement. The majority of by-laws relating to property maintenance and standards have a compliance component built in, supported by the applicable governing legislation (e.g. Property Standards & Building Code Act, Zoning & Planning Act, etc.). With a legislated framework and focus on achieving compliance, investigations can be complex, necessitate multiple site visits, research and the need for collaboration with sister departments (e.g. Planning & Building Standards) before compliance can be achieved and in some cases extending for months, carrying forward into the next year. The number of calls for service each Field Officer is required to investigate continues to grow as demands and population increase. Traditionally, the Department previously established a caseload standard of a maximum 300 investigation files per officer annually. The above projections are based solely on baseline historical data and the anticipated increase in staffing to include two additional property standards officers in 2014 (recognized through the ARR process). However, with increased complexity of investigations, current and future growth within the community, demands will continue to outpace staffing growth, leading to an increase in annual carry-over, decrease in files resolved in a timely manner and a decline in service delivery.

Notes:

Each officer is working beyond the maximum established standard capacity averaging a caseload of an expected 454 files by the end of 2013, increasing to a projected 463 per officer by the end of 2016; subject to the approval of the 2 recognized property standards officers positions (ARR's) in 2014. The above figures directly correlate to projected complaint driven service requests shown on page 9, and do not include pro-active /staff initiated investigations or previous year carry-over.

Number of Animals Passing Through the System

Definition: The number of dogs and cats that have entered into the Animal Services system

Key Conclusion:

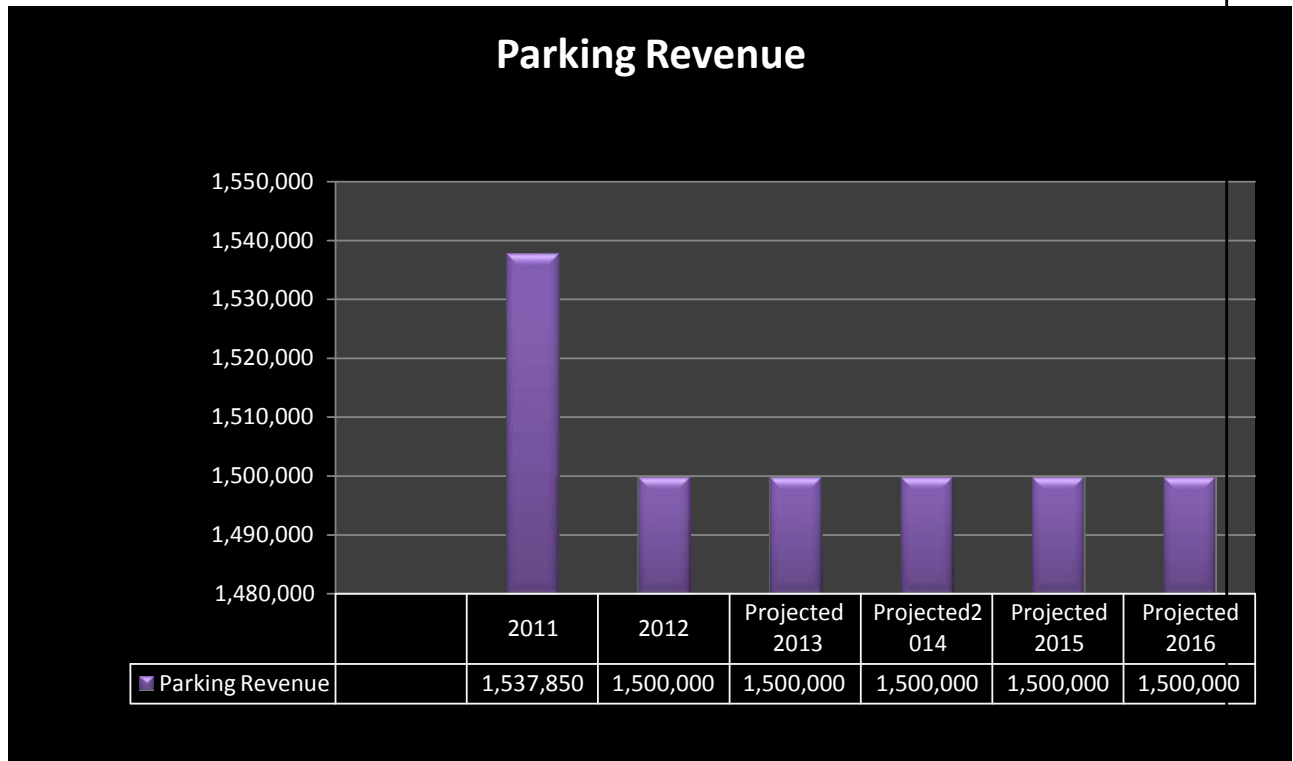

As growth in Vaughan continues so will the number of animals passing through the system. Current data from 2011, 2012 and 2013 suggests a projected increase of approximately 10% per year by 2016. Year to date for 2013, 707 animals have passed through the shelter. Past and current volume of animals has doubled the designed shelter capacity. Though contract services provided to two sister municipalities increases the number of animals in care at the shelter, the revenues realized (\$368,000.00 for 2014) exceeds the expense of the services delivered and assists in off-setting a third of overall operating costs. Though public outreach and education has shown a steady increase in adoptions, service demands continue to outpace resource limitations. Departmental operational review will include holistic review of the service, inclusive of the service contracts.

Notes:

City of Vaughan assumed carriage and service delivery of Vaughan Animal Services in May 2011, including shelter operations. As reflected in historical data, 700 animals passed through the service from May to Dec 2011 in comparison to 707 year to date in 2013. In utilizing this baseline data and given the expected continued population growth, it is reasonable to conclude that the demands for animal services will continue to increase.

Revenue Generated from Parking per Annum

Definition: The value of the penalty notices issued and actual revenue received

Key Conclusion:

Projected numbers take into account possible future changes in parking restrictions, including the possibility of increased on-street parking permissions, lessening the number of related violations found. While methodologies focused on enhanced public education and awareness have a greater likelihood of achieving increased voluntary compliance and potentially decreasing violations / revenues, a more educated public and overall future growth of the City may have the opposite effect, causing increases in calls for service and the need for traditional tagging. Projections above for 2014 to 2016 are reflected as a baseline expectation consistent with 2013 data as the future impacts on parking revenue from the above mentioned unknown factors cannot accurately be assessed at this time.

Notes:

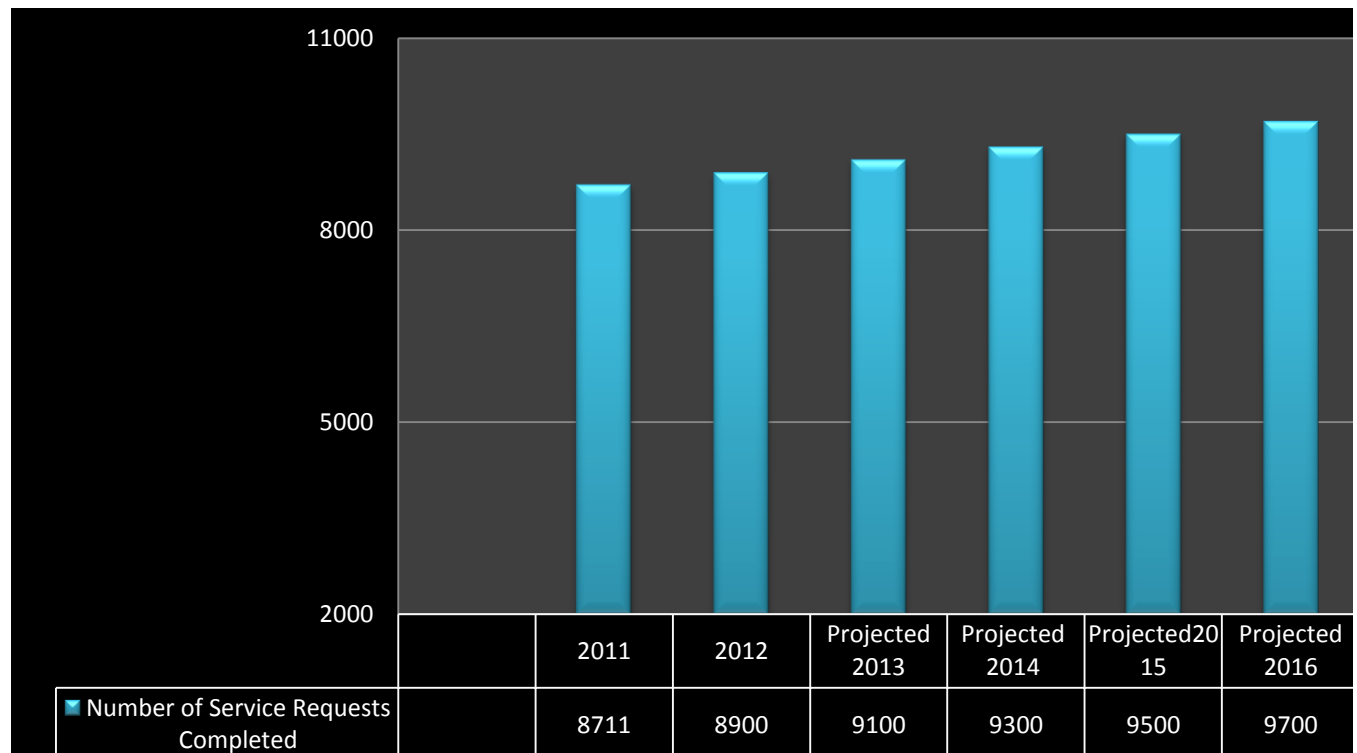

Revenue generated from parking tickets is incorporated within departmental annual revenues used to offset annual operating budget / costs.

The future implementation of recommendations being developed through the new "Urbanism" parking strategy will have an unknown effect on parking and parking related revenues across the City. As the development and implementation of the strategy is realized, impacts will need to be analyzed in respect of projected numbers for 2014.

Number of Service Requests Completed per Annum

Definition: The total of Service Requests initiated, completed and closed by By-Law and Compliance staff within the same calendar year.

Note: Completed requests do not include cases carried over from previous years.

Key Conclusion:

The number of service requests completed per year may vary from year to year based on a number of factors and variables, such as annual call volume, case loads, nature of the calls and number of prosecutions initiated. Though 2011 & 2012 revealed an estimated 10% increase in service requests completed within the same year, completion of an additional 10% in service requests through the coming years will be dependent on an increase in staffing through approval of the recognized ARR positions for two additional enforcement officers for 2014. Regardless of the expected 10% increase in closure rate within the same year, the projected 64% increase in demands for service by 2016 (reflected on pg. 9) will necessitate a greater carry-over of files (projected at a 30% increase) resulting in service decline. These projections are based on the established baseline from historical data and the ratio of increase in calls for service vs. projected case file completion annually.

Notes:

As the complexity of investigations continues to increase, leading to increased effort and greater duration of time files remain active and unresolved, greater number of cases are carried over per year, further exasperating compounding demands and deteriorated service delivery.

Overall Conclusion:

The By-law and Compliance Department is one of very few departments within the City that delivers front facing service to the public at large through direct public interaction, administration and enforcement of City by-laws and related Provincial legislation, driven primarily by ever increasing demands and complex community needs.

With the continued accelerated growth of our communities and ever increasing demands for service, successful implementation of this Business Plan will be reliant on balancing the development and growth of the City with those of the Department and its resources.

While the completion of the departmental operational review, anticipated at the end of 2013 in partnership with the Innovation and Continuous Improvement ("ICI") Department is expected to identify efficiencies to support a sustainable improved service delivery model, the ability to successfully implement future recommendations will be reliant on the Department's ability to adequately resource identified deliverables.

Through capture of limited historical statistical data and its use as a baseline to support developed projections and anticipate future demands, call volumes have shown a continued increase to a point where, despite on-going efforts, demands for service continue to outpace resources at an accelerated rate, eroding service to a level where established service standards cannot be sustained. Staff will continue to use all available resources and explore alternative methods in service delivery in an attempt to meet current and future demands.

Historically, between 40-60% of calls have been responded to, with the initiation of an investigation carried out, within the established 5-10 day service standard. Though the Department strives for 100% delivery, continual increase in demands for service prohibits its achievement. Efficiencies have been implemented in an attempt to increase investigational effectiveness, including integration of limited in-field IT solutions. Unfortunately, as the software and hardware ages, it is quickly becoming obsolete and incompatible with current and future technology. With current constraints and lack of a future strategic sustainment plan, additional challenges and limitations will result in a negative impact in delivery of our services. Current IT systems, limitations, hardware and software are under review.

With the increase in growth and diversity of our communities, administration and enforcement of current by-laws is becoming increasingly complex, complicated and time consuming. Investigation of public complaints is resulting in a significant increase in tasks, including necessary research and investigative time to achieve resolution. Many existing by-laws in their current state, may no longer be effective, relevant or suitable for the needs of today's communities. Sustaining these needs requires on-going review and renewal of by-laws; in some cases equating to passing of new or additional, more suitable ones. In addition, though compliance continues to be the ultimate goal, necessary prosecutions may continue to increase with the ever increasing demand for service and population growth. With an anticipated increase of 64% in caseloads by 2016, demands for service will continue to outpace the department's resource capabilities.

Service delivery of Animal Services to the citizens of the City of Vaughan, King Township and Bradford West Gwillimbury, which began in May 2011, continues to be monitored for service response times and general service delivery efficiencies. After two years of operation, the Animal Shelter routinely doubles its expected capacity. The potential risk for non-compliance with legislative requirements continues to increase due to the current challenges, including limitations of the shelter facility and lack of resources (both human and fiscal). Increasing service demands are a contributing factor to the possibility of increased risk of staff injury, absenteeism and lost time.

With an operational shift focused on enhanced public education, awareness and public outreach, a greater likelihood of achieving increased voluntary compliance can be realized. While this may lessen demands in some areas of compliance, a more educated public has been known to equate to increased demands for services (e.g. increased complaint volumes).

This three year Business Plan, its objectives and the Operational Services Review is intended to begin establishment of the necessary framework that will identify our current baseline from which efficiencies can be sought, creating greater opportunity for improvements, resulting in a more effective, efficient, economical and essential service delivery model with a greater focus on community safety, health, wellness and sustainable support of community growth.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Recreation

Recreation & Culture

2014-17 Business Plan

Business Overview

Service Statement:

Core Activities: *Describe your regular business functions and responsibilities.*

The Recreation & Culture Department is committed to providing quality recreation activities, community space, and cultural programs and events in an accessible, equitable and efficient manner. The Department strives to provide a variety of basic, value-added, and premium recreational and cultural programs that promote health, wellness and active living for all ages.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Provide access to programs and services for citizens to enhance their leisure opportunities and quality of life.
2. Continuously improve the range and quality of programs and services provided, in a cost effective manner.
3. Collaborate with community stakeholders and other levels of government to deliver services that meet the needs of a diverse community.

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Demonstrate Excellence in Service Delivery
 - Staff members provide a range of basic, value-added, and premium programming for all citizens. Additionally, the Department is responsible for maintaining service quality at community centres and other City-owned recreational facilities.
2. Promote Community Safety, Health & Wellness
 - The Department promotes community health, wellness and active living for all ages through its diverse recreational programming and services across the City.
3. Preserve our Heritage and Support Diversity, Arts & Culture
 - Partnerships with community organizations and groups assist the Department with delivering a wide array of cultural programs to support diversity, arts and culture.
4. Ensure Financial Sustainability
 - The Department manages program and service costs in a sustainable and user-friendly manner while pursuing cost recovery.

Recreation & Culture

2014-17 Business Plan

Service Profile

Current Service State:

- Service Delivery
 - The Department programs and permits a wide range of facilities and services (community centres, soccer fields, baseball diamonds, etc.) to meet the diverse needs of citizens
 - There is a high number of community services provided per capita
 - Benchmarking analysis of user fees has identified that Vaughan's fees are generally higher than municipal comparators
 - 2013 update of the *Active Together Master Plan* identifies future service and programming needs
- Resources
 - The Department maintains high cost-recovery without negatively impacting service delivery
 - Although the City operates and maintains larger parks, these facilities are not always conducive to large scale events due to a lack of necessary amenities such as parking, washroom facilities, electrical, and indoor structures.

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Service Delivery
 - Explore the development of a Neighbourhood hubs model in future intensification and growth areas in the City
 - Shift from structured to unstructured activities: decline in some organized sports for youth; opportunity for shorter term programs and workshops
- Resources
 - *Active Together Master Plan* 2013 update has identified greater financial need to meet service level and growth recommendations
 - There will be a decline in elementary school enrolment in some areas
 - Creating new sources of funding such as advertising and sponsorship opportunities
 - Find ways to mitigate operating costs via revenues generated from continuous improvement initiatives such as the expansion of partnerships
 - Balance between basic, value-added and premium program require ongoing assessment to ensure that the service needs of citizens are met
- External Environment
 - Demographic changes (e.g. aging areas, new Canadian population) will affect service demand
 - Increased focus on risk management at City-owned facilities
 - Final stages of the full-day kindergarten rollout will continue to impact preschool programs

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Pursue alternative funding streams in the future to reduce fee burdens
- Providing adequate service levels to the Vaughan Metropolitan Centre and other intensification areas will require greater planning and more resources
- Growing private sector competition offering quality programs at competitive prices will impact participation levels
- Completing key items from strategies or master plans may not be possible due to financial constraints

Recreation & Culture

2014-17 Business Plan

Work Plan

Business Plan Objectives:

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|---|----------|--------------------------------|
| 2014 Initiatives | | | |
| Provide access to programming, services, and facility space for all stakeholders | 1. Implement recommendations resulting from the <i>Active Together Master Plan</i> review | Q1-Q4 | |
| | 2. Pursue implementation of approved recommendations for MacMillan Farm | Q2-Q4 | |
| Support diversity, arts and culture through partnerships with community stakeholders | 1. Implement recommendations of the <i>Creative Together Plan</i> : Review potential partnerships in cultural programming initiatives, develop partnerships with community artists, etc. | Q1-Q4 | |
| | 2. Implement recommendations of the <i>Diversity Strategy</i> : Integrate activities showcasing culture and tradition of diverse groups, develop programs that facilitate cultural expression and participation, etc. | Q1-Q4 | |
| 2015 Initiatives | | | |
| Provide access to programming, services, and facility space for all stakeholders | 1. Implement recommendations resulting from <i>Active Together Master Plan</i> review | Q1-Q4 | |
| | 2. Plan for the opening of Block 11 Community Centre | Q3-Q4 | |
| Support diversity, arts and culture through partnerships with community stakeholders | 1. Update the Creating Together Plan | Q1-Q4 | |
| | 2. Implement recommendations of the <i>Diversity Strategy</i> : Establishing in cooperation with schools and other agencies/groups, a program and teaching materials on diversity and human rights. | Q1-Q4 | |
| 2016 Initiatives | | | |
| Provide access to programming, services, and facility space for all stakeholders | 1. Implement recommendations resulting from <i>Active Together Master Plan</i> review | Q1-Q4 | |
| | 2. Plan for the opening of Block 11 Community Centre | Q1-Q4 | |

Recreation & Culture

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Buildings and Facilities

Building & Facilities

2014-17 Business Plan

Business Overview

Service Statement:

Core Activities:

The Building and Facilities Department is responsible for managing the new building construction program and the renovation of existing buildings; Maintaining and providing plant services in City buildings as well as Community Centre operations; Providing office accommodations in City buildings; sportfield lighting and walkways; Providing security for employees, residents and users.

Key Outcomes & Results:

1. Provide safe and clean facilities for all users of City-owned facilities.
2. Support all City Departments by maintaining the facilities from which they provide services to the public.
3. Maintain approved services standards while ensuring operational efficiency and effectiveness.
4. Promote environmental sustainability through operational practices and building enhancements.

Link to Vaughan Vision 2020:

1. Demonstrate Excellence in Service Delivery
 - City-owned facilities operate according to a high standard of cleanliness and safety.
2. Promote Community Safety, Health & Wellness
 - The Department provides security for employees, residents, and users of City buildings, and ensures that construction, renovation and maintenance activities are performed in a safe manner.
 - The Department maintains the facilities from which other departments operate programs that provide safety, health and wellness to City residents.
3. Lead & Promote Environmental Sustainability
 - The Department pursues new programs to make City buildings more energy efficient and reduce the environmental impact of operations.
4. Manage Corporate Assets
 - Collaborating with stakeholders to develop and implement the corporate Asset Management Strategy.

Staffing Profile:

Full Time, Part Time and Overtime – Budgeted Amounts:

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|----------|-----------|------------------------------|---------|---------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 104 | 104 | 3 | 10.0 | 10.0 | |
| Part Time | 5.0 | 5.0 | | 0.6 | 0.6 | |
| Overtime | \$56,097 | \$56,097 | | \$5,000 | \$5,000 | |

Building & Facilities

2014-17 Business Plan

Service Profile

Current Service State:

- Project Management
 - Staff are knowledgeable in all aspects of facility construction, maintenance and repairs.
 - Project Management technology support is based on the Microsoft suit of products: Excel; MS Project; Outlook.
 - Project Management skills are based on best practices and staff's considerable experience in the field.
 - Communication with project stakeholders could be strengthened.
 - Staff is challenged with managing numerous projects.
- Service Quality
 - Maintaining service levels when expanding & repairing existing facilities with only limited or minor inconvenience to service users remains a challenge both logistically and financially.
 - The lack of a lifecycle database makes forecasting future replacement needs very difficult. This may lead to down time in high importance buildings as a result of unpredictable failures.
 - B&F follows maintenance guidelines in maintaining equipment. A work order system is in place to handle work requests.
- Staffing
 - Staff is trained to handle job responsibilities, and to meet code/law requirements.
 - Meeting training requirements for existing and new staff, while handling regular assignments is challenging.
 - Annual turnover of new facility staff has been reduced, but remains a challenge.
 - The position of Asset Management Coordinator (deferred beyond 2016) is critical for initiating and implementing a Lifecycle Management Plan database.
- Environmental Sustainability
 - An energy audit has been initiated in 2013.
 - Energy reduction measures are being pursued and purchasing more energy efficient equipment is a consideration in the replacement of energy consuming building components (lighting; HVAC; pumps).
 - Reporting on energy use in City facilities was completed in 2013 in collaboration with the Environmental Sustainability Division.

Future Direction for the Service:

- Project Management
 - Implement project management software as a common reporting tool, as well as for project tracking and project control.
 - Building on staff's existing expertise and experience, increase training in project management methodology; develop an internal consistent and documented methodology for project delivery.
 - Manage the project management work load to deliver successful projects.
- Environmental Sustainability
 - Work with the Environmental sustainability division to research new energy-efficient technologies that will enable cost-savings and promote environmental sustainability.
 - Develop an energy optimization plan that will prioritize the implementation of measures based on parameters such as: financial viability (ROI), correlation with programs that operate from the facility that is being upgraded; reduction in GHG; etc.
 - The implementation of energy reduction measures may not significantly reduce the City's future hydro bills, as the fixed cost of transmission, and the increasing cost of the Global Adjustment

Building & Facilities

2014-17 Business Plan

factor, increase as the percentage of the overall Hydro bill. However, without implementing these measures, the City will pay even more for its Hydro consumption.

- **Service Quality**
 - Implement Maintenance Management Software to increase the effectiveness of the preventative maintenance program.
 - Increase automation to reduce the need for staff to manually access and adjust various features in City parks and facilities, thereby expediting response time to customer needs.
 - Continuously improve customer service through: additional training; customer satisfaction surveys; increased and seamless cooperation with internal stakeholders.
 - The growing volume of health & safety regulatory controls and standards, requires that staff be proactive and vigilant in preventing potential hazards in City facilities.
 - The need to document issues in an increasingly litigious environment means that less staff time is devoted to core work.
- **Asset Management**
 - Develop the Lifecycle Management Plan (LMP) for B&F, in conjunction with the City's development of the Asset Management program. The LMP will allow B&F staff to prioritize preventative maintenance work so that down time in facilities is reduced to a minimum; it will assist in forecasting the need for future City resources, and it will provide current information of the amount and cost of deferred maintenance.
 - As part of the LMP, B&F will initiate a Building Condition Audit (BCA) program to develop a lifecycle database.
 - All of the above will be done in unison with the development of the City's Asset Management initiative.

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- The overall cost of constructing and renovating facilities continues to rise. Contributing factors are: the increasingly litigious nature of the construction industry; increasing legislative requirements; cost of new technologies.
- The long term funding allotment for the maintenance and operation of City facilities will need to increase as additional facilities are constructed.
- The service levels that will be developed as part of the Asset Management initiative are likely to have a financial impact.

Building & Facilities

2014-17 Business Plan

Work Plan

Business Plan Objectives:

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|---|--|----------|--|
| 2014 Initiatives | | | |
| Increase Project Management Capabilities | Work with ITM to implement Eclipse Portfolio Management software in B&F. | Q2 | Requires the implementation of Project Management software |
| | Provide project management training to Staff that manage projects. | Q4 | |
| Promote Environmental Sustainability by Reducing Energy Consumption | Continue to implement 2013 energy audit recommendations. | Q1-Q4 | Capital and operating funding, possibility of energy grants from Powerstream |
| | Install solar panels at community centres. | Q3 | |
| | In conjunction with Fire and Rescue Services, research the opportunity to enable certain high importance buildings to run on backup power. | Q4 | |
| | Assist Manager, Environmental Sustainability in developing the Energy Management Plan for the City as mandated by On. Reg. 397/11. | Q2 | |
| | With the Environmental sustainability division, develop an energy optimization plan. | Q4 | |
| Effectively Manage Corporate Assets | Begin the development of the Lifecycle Management Plan (LMP). | Q4 | ARR for asset management coordinator submitted. |
| 2015 Initiatives | | | |
| Promote Environmental Sustainability by Reducing Energy Consumption | Act on the "low hanging fruit" in the energy optimization plan. | Q4 | |
| | Review and update the City's Green Building strategy. | Q2 | |
| Effectively Manage Corporate Assets | Implement an electronic asset maintenance program in collaboration with the corporate Asset Management Initiative. | Q3 | |
| | Conduct building condition audits and continue the development of the LMP. | Q4 | |

Building & Facilities

2014-17 Business Plan

| | | | |
|---|---|----|--|
| Increase Project Management Capabilities | Project Management staff to obtain PMP designations. | Q4 | |
| | Document internal project management delivery standards | Q2 | |
| 2016 Initiatives | | | |
| Effectively Manage Corporate Assets | Train staff on the electronic Asset Management system and software. | Q2 | |
| | Create the path for the information generated by Facility Operators to be incorporated into the Lifecycle Database. | Q1 | |
| | Continue to perform building condition audits to populate the Lifecycle Database. | Q4 | |
| Promote Environmental Sustainability by Reducing Energy Consumption | Review the energy optimization plan and update if necessary. | Q2 | |
| Increase Project Management Capabilities | Seek to benchmark B&F Project Management proficiency with similar organizations. | Q4 | |
| 2017 Initiatives | | | |
| Effectively Manage Corporate Assets | Achieve a state in which the lifecycle database is up to date and captures all relevant building information. | Q2 | |

Building & Facilities

2014-17 Business Plan

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|-----------|----------------------------|----------------------------|----------------------------|----------------------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Building Square Footage Maintained and Annual Cost | 1,433,201 | 1,729,103; \$19,726,233 | 1,737,903; \$20,280,610 | 1,686,903; \$20,235,775 | 1,691,903; \$20,701,669 |
| Number of Building Square Feet Maintained per FTE | 18,734 | 22,168 | 16,872 | 21,086 | 21,148 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Utilities Consumption per Square Foot for all Major Buildings | N/A | \$34 | \$34 | \$34 | \$36.70 |
| SERVICE QUALITY: Is anyone better off? | | | | | |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- Staff continue to maintain a high level of service using available resources.
- Utilities consumption is expected to increase marginally over time.
- Opportunities to improve service quality measurement via customer service feedback.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Fleet Management

Fleet Services

2014-17 Business Plan

Business Overview

Service Statement:

Core Activities:

Fleet Services is responsible for administering a proactive and cost effective maintenance program to ensure that vehicles and equipment are operating in a safe and reliable manner, and for ensuring that the guidelines of all government legislation and that of government agencies are met.

Key Outcomes & Results:

1. City vehicles and equipment operate in a safe and reliable manner
2. Enable City staff to deliver timely and effective services
3. Promote environmental sustainability by continuously improving fleet assets

Link to Vaughan Vision 2020:

- Demonstrate Excellence in Service Delivery (Service Excellence)
 - *Key Outcome:* City vehicles and equipment operate in a safe and reliable manner
- Lead & Promote Environmental Sustainability (Service Excellence)
 - *Department Objective:* Promote environmental sustainability by reducing vehicle emissions
- Ensure a High Performing Organization (Organizational Excellence)
 - *Department Objective:* Effectively manage the City's fleet assets
- Attract, Retain & Promote Skilled Staff (Staff Excellence)
 - *Department Objective:* Support the professional development of City staff
- High performance through continuous improvement (Organization Excellence)
 - *Departmental Objective:* Continuous assessment of City's fleet assets to improve vehicle life cycle

Staffing Profile:

Full Time, Part Time and Overtime – Budgeted Amounts

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|----------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 9 | 9 | 1 | - | - | - |
| Part Time | 0 | 0 | - | - | - | - |
| Overtime | \$27,555 | \$27,555 | - | - | - | - |

Fleet Services

2014-17 Business Plan

Service Profile

Current Service State:

- Fleet Management
 - Manage the repair cost of aging vehicles
 - Vehicle Reserve Fund not adequate to sustain the replacement of aging vehicles
 - Vehicle lifecycles are prolonged due to lack of capital funds for replacement vehicles
 - Perform timely maintenance to increase vehicle life cycle
 - Develop policies to help reduce repairs prolong the vehicle life cycle
- Staff Excellence
 - Train drivers to improve driving skills
 - Control/reduce the accident rate
 - Ensure the City's CVOR demerit points are within MTO guidelines
 - Enhance driver training for temporary drivers to promote vehicle safety and reduce costs

Future Direction for the Service:

- Fleet Management
 - Improve control of surplus equipment
 - Improve measurement of productivity and service delivery
 - Improve Efficiency of record keeping, PSAB compliance and data collection for asset management
 - Improve efficiencies in maintenance
 - Safeguard the environment by implementing green directions initiatives
 - Reduce the backlog of training activities by advancing the recruitment of a full-time driver trainer
- Staff Excellence
 - Train drivers to improve their driving skills
 - Controlling/reducing the accident rate
 - Ensuring the City's CVOR demerit points are within MTO guidelines

Financial Impact:

- The Vehicle Reserve Fund is limited, causing increased maintenance costs by prolonging the service life of current vehicles. Future operational costs are expected to rise as a result.
- Actual number of work orders will increase along with repairs required on each vehicle which leads to additional resources being required.
- Additional Resource is required for a driving trainer

Fleet Services

2014-17 Business Plan

Work Plan

Business Plan Objectives:

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|---|--|----------|--------------------------------|
| 2014 Initiatives | | | |
| Effectively manage the City's fleet assets | Support Engineering Services in procuring an Asset Management System | Q3,14 | Funding for Software |
| Promote environmental sustainability by reducing vehicle emissions | Review and update the City's Green Fleet strategy for new vehicle acquisition | Q2,14 | Funding |
| Review the fleet's acquisition to acquire more hybrid vehicles | Engage with the City's Environmental Sustainability Office to develop new fleet programs | | |
| Continuous support to the professional development of staff through vehicle operation and safety training | Provide training to City of Vaughan staff | Q1,14 | Funding |
| 2015 Initiatives | | | |
| Effectively manage the City's fleet assets | Support Engineering Services in implementing the Asset Management System | Q1,15 | Funding |
| Continuous support to the professional development of staff through vehicle operation and safety training | Provide training to City of Vaughan staff | Q1,15 | Funding |
| Promote environmental sustainability by reducing vehicle emissions | Review and update the City's Green Fleet strategy for new vehicle acquisition | Q1,15 | Funding |
| | Engage with the City's Environmental Sustainability Office to develop new fleet programs | | |
| 2016 Initiatives | | | |
| Effectively manage the City's fleet assets | Support Engineering Services in developing a sustainable financial plan based on AMS | Q1,16 | Funding |

Fleet Services

2014-17 Business Plan

| | | | |
|---|--|-------|---------|
| Continuous support to the professional development of staff through vehicle operation and safety training | Provide training to City of Vaughan staff | Q1,16 | Funding |
| 2017 Initiatives | | | |
| Continuous support to the professional development of staff through vehicle operation and safety training | Continuous review of the vehicle operations including safety training activities and the city's Commercial Vehicle Operators Records in accordance with the MTO Legislations | Q1,17 | Funding |
| | | | |

Business Performance

Key Performance Indicators:

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|-----------|-----------|-----------|-------------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Total costs for Preventative Maintenance (A, B & C) services for vehicles | \$140,557 | \$154,123 | \$175,776 | \$200,384 | \$228,438 |
| Number of Work Orders per Clerical FTE | 2,705 | 2,699 | 2,754 | 2,606 | 2,691 |
| Number of Work Orders per Mechanical FTE | 466 | 495 | 496 | 522 | 538 |
| General Repair Costs annually per vehicle | \$594,711 | \$834,012 | \$974,973 | \$1,072,470 | \$1,179,717 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| | | | | | |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| | | | | | |

Key Performance Indicators Conclusion:

- Annual repair costs, preventative maintenance costs, and work orders per clerical and mechanical staff continue to increase annually as vehicles age and with the addition of new vehicles/equipment

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Parks & Forestry Operations

Parks Operations

2014-17 Business Plan

Business Overview

Service Statement:

Core Activities: *Describe your regular business functions and responsibilities.*

The Parks Operations Department maintains parks, sports fields, playgrounds, cemeteries, trails, storm water management ponds and trees in order to achieve aesthetic beauty throughout our City, as well as provide consistent service delivery for our residents. The Department is also responsible for reconstructing infrastructure that needs to be replaced, snow removal from sidewalks and city-owned facilities, and rental equipment delivery to citizens for events.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Deliver aesthetically clean and safe parks
2. Maintain approved service standards while ensuring operational efficiency & effectiveness
3. Promote environmental sustainability through daily operations

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Demonstrate Excellence in Service Delivery
 - Meet approved service standards
2. Lead and Promote Environmental Sustainability
 - Continue to implement environmentally sustainable operational practices and processes
3. Ensure a High Performing Organization
 - Continuous improvement to deliver efficient and effective operations
4. Manage Corporate Assets
 - Collaborate with stakeholders to implement the Corporate Asset Management initiative

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|-----------|-----------|------------------------------|-----------|-----------|-----------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 42 | 42 | 4 | | 4 | |
| Part Time | 32.5 | 32.5 | | | | 4 |
| Overtime | \$152,924 | \$152,924 | \$152,924 | \$152,924 | \$152,924 | \$152,924 |

Parks Operations

2014-17 Business Plan

Service Profile

Current Service State:

Maintaining Service Standards in:

- Sports fields
- Park maintenance
- Grass cutting rotation
- Improve Staff response time for service requests
- Difficulty in maintaining service levels and managing continuous growth with limited resources
- Opportunities for Continuous Improvement
 - Sidewalk and facilities snow removal (Operational Review)
- Communication
 - Continue to promote department programs and services
 - Identify opportunities to improve communication, motivation and engagement
 - Continue to focus on enhancing training & professional development opportunities
- Resources & Tools
 - Identify resources & staff needs and present through the budget process
 - Expand on available technology (GPS/ Park Inventory, CTS Mobile Handhelds)

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Business Processes
 - Collaborate with stakeholders to support the Corporate Asset Management initiative
 - Explore new technologies and innovation to enhance service delivery and increase efficiency
 - Exploring opportunities for alternate delivery methods
- Sustainable Practices
 - Weed cover has increased due to provincial pesticides ban and requires more cuts to manage weed growth (lack of resources)
 - Collaborate with Purchasing Services to implement the Green Purchasing Strategy
 - Identify continuous improvement opportunities
 - Identify the impacts of climate change

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Resources will be required to support the Corporate Asset Management initiative and to replace aging infrastructure identified in the lifecycle replacement schedule
- The pesticides ban will necessitate increased expenditure on more costly but environmentally sustainable pest-control alternatives
- Continued growth within the City will require more resources to maintain parks to existing service standards
- New accessibility standards will require facilities retrofits

Parks Operations

2014-17 Business Plan

Work Plan

Business Plan Objectives:

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|---|--|----------|-----------------------------------|
| 2014 Initiatives | | | |
| Ensure service standards are met in an efficient and effective manner | Collaborate in the Corporate Performance Measurement initiative to review key performance indicators | Q3 | Funding requests may be submitted |
| | Implement the service standards manual | Q1 | |
| | Research and Development Funding for Future CTS Mobile Initiative – Phase 1 | Q4 | |
| Promote environmentally sustainable practices and processes | Develop and implement Environmental Sustainability initiatives | Q4 | |
| | Collaborate with Purchasing Services on the implementation of the Green Purchasing Strategy | Q2 | |
| Value and encourage a highly motivated and engaged workforce | Continue to identify opportunities to improve staff communication, morale and engagement | Q2 | |
| Pursue and implement continuous improvement opportunities | Develop an innovation and technology strategy to support operations | Q4 | |
| | Collaborate with stakeholders to develop and implement a Corporate Asset Management System | Q4 | |
| 2015 Initiatives | | | |
| Promote environmentally sustainable practices and processes | Continue to develop and implement Environmental Sustainability initiatives | Q4 | |
| Pursue and implement continuous improvement opportunities | Continue to collaborate with stakeholders to develop and implement a Corporate Asset Management System | Q4 | |
| | Equip all vehicles with GPS for tracking operations | Q4 | |
| | Collaborate with stakeholders to develop and implement a Maintenance Management System | Q4 | |
| Ensure service standards are met in an efficient and effective manner | Pilot Project / Filed Trials for handheld CTS mobile application units – Phase 2 | Q4 | Funding request may be submitted |

Parks Operations

2014-17 Business Plan

2016 Initiatives

| | | | |
|---|--|----|-----------------------------------|
| Pursue and implement continuous improvement opportunities | Continue to collaborate with stakeholders to develop and implement a Corporate Asset Management System | Q4 | |
| Ensure service standards are met in an efficient and effective manner | Implementation of CTS Mobility Project – Phase 3 | Q4 | Funding requests may be submitted |

Parks Operations

2014-17 Business Plan

Business Performance

Key Performance Indicators:

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|--------------------------------|--------------------------------|--------------------------------|-----------------------------|-------------------------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Park Turf Hectares Maintained Per Crew | 50ha, 18.6 surplus ha per crew | 50ha, 14.6 surplus ha per crew | 50ha, 14.2 surplus ha per crew | 60ha, 5 surplus ha per crew | 60ha, 6.1 surplus ha per crew |
| Number of sidewalk snow clearing kilometers per plow route | 24km, 2km surplus per route | 24km, 3.6km surplus per route | 24km, 1.7km surplus per route | 24km, 0km surplus per route | 24km, 0km surplus per route |
| EFFECTIVENESS: How well do we do it? | | | | | |
| SERVICE QUALITY: Is anyone better off? | | | | | |

Key Performance Indicators Conclusion: *Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.*

- Park turf and sidewalk kilometres maintained per crew is anticipated to increase in the years ahead
- Key Performance Indicators will be further evolved through the corporate performance measurement initiative

Parks Services: Horticulture, Forestry & Contract Services

2014-17 Business Plan

Business Overview

Service Statement:

Core Activities: *Describe your regular business functions and responsibilities.*

Parks Services maintains streetscapes, SWM pond/open space cutting, horticulture features and the urban forest to achieve an aesthetically beautiful environment and consistent service delivery for our residents. In so doing, we strive to use resources in an environmentally responsible and sustainable manner.

The Forestry, Community Safety, Horticulture and Contracts units facilitate a healthy, sustainable and safe community and urban forest ecosystem by providing a motivated staff committed to service excellence, community engagement and information sharing utilizing the latest technology.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Deliver aesthetically clean and safe parks
2. Maintain approved service standards while ensuring operational efficiency & effectiveness
3. Promote environmental sustainability through daily operations

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Demonstrate Excellence in Service Delivery
 - Staff maintain streetscapes and urban forest in accordance with approved service standards while ensuring operational efficiency & effectiveness
2. Promote Community Safety, Health and Wellness
 - Ensure an aesthetically beautiful and safe environment for citizens
3. Lead and Promote Environmental Sustainability
 - Staff maintain the health of the urban forest ecosystem and promote environmentally sustainable horticultural practices
4. Manage Corporate Assets
 - The Department regularly acquires and maintains streetscape, open spaces (ie SWM Ponds) and urban forest assets
5. Support the Professional Development of Staff
 - Continue to invest in staff development, promoting a culture of continuous learning

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | Additional Resource Requests | | | | | |
|-----------|------------------------------|-----------------------|------------|---------|----------------------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 20 | 22 | 1 Forestry | 1 Admin | | |
| Part Time | 9 winter 20 summer | 9 winter 20 summer | | | 4 Hort 1 Contacts | |
| Overtime | \$16,877.19* | | | | | |

*Parks Services winter Overtime is included with Parks Operations

Parks Services: Horticulture, Forestry & Contract Services

2014-17 Business Plan

Service Profile

Current Service State:

Service Delivery

- Revised specifications of tenders and contracts
- Develop and Implement high quality Landscaping and Boulevard Maintenance programs
- Maintaining service standards regarding staff response time to requests
- Improve the subdivision assumption process
- Continue to ensure that safety protocols are followed (tailboards, recordkeeping)
- Communication
 - Continue to promote department programs and services (Adopt-a-Park, Curb Appeal, etc.)
 - Increase partnerships, volunteer management and public engagement (Park Ambassador)
 - Identify opportunities to improve communication
 - Continue to focus on enhancing training & professional development opportunities
- Resources & Tools
 - Identify resources & staff needs and present through the budget process
 - Expand on available technology (GPS/Forest Inventory, CTS Mobile Handhelds)
 - Continue to pursue grant opportunities and other sources of funding
- Continuous Improvement
 - Continue to evolve performance indicators and service standards
 - Identify opportunities to expand communication and marketing of department initiatives
 - Identify opportunities to update job descriptions

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Business Processes
 - Continue to meet municipal industry standards
 - Identify opportunities to better protect of the Urban Forest
 - Collaborate with other departments on the Corporate Asset Management initiative
 - Growth and intensification will continue to impact service delivery (more resources)
- Environmental Sustainability
 - Decline of Ash trees due to the Emerald Ash Borer continues to present operational, operating and capital budget challenges
 - Provincial pesticides ban continues to present operational challenges for control of weeds
 - Impacts of Climate Change are yet to be realized; however the challenges could be extreme as related to winter maintenance/salting, invasive species and overall urban forest adaptability

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Managing the City's aging urban forest and streetscapes while adding newly assumed service areas
- Increased costs associated with combatting the Emerald Ash Borer and other invasive species
- Provincial pesticides ban may require increased expenditure on environmentally sustainable alternatives
- Implementation of the Woodlot Management Strategy will have financial impacts
- Future capital request regarding replacement of planters/hanging baskets and shrub beds that have reached their lifespan and require removal and replacement

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Parks Development

Parks Development

2014-17 Business Plan

Business Overview

Service Statement:

The Parks Development Department is responsible for the planning, design and construction of the City's parks, open space and trail systems. Through collaboration with residents and stakeholders, the department is committed to providing the City with innovative, functional, accessible and safe outdoor recreational facilities that foster physical activity, health and wellness for all citizens.

Key Outcomes:

1. Acquisition of suitable park and open space properties to meet current and future needs
2. Development of plans and studies to guide parks planning and approvals process
3. Implementation of the outdoor recreation component of the Active Together Master Plan
4. Support for the environmental sustainability recommendations of Green Directions Vaughan

Link to Vaughan Vision 2020:

1. Enhance and Ensure Community Safety, Health & Wellness
 - The provision of safe and accessible parks and open spaces encourages physical activity and promotes healthy lifestyles
2. Lead and Promote Environmental Sustainability
 - The protection and acquisition of parkland, natural areas and woodlots increases the City's urban forest canopy and reduces the impact of urban development
3. Ensure Financial Sustainability
 - The development of asset management plans and quality standards for products reduces operating costs and provides tools for long-term financial planning

Staffing Profile:

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|---------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 10 | 11 | - | - | - | - |
| Part Time | 1 | 1 | - | - | - | - |
| Overtime | \$7,491 | \$7,491 | | | | |

Parks Development

2014-17 Business Plan

Service Profile

Current Service State:

- Strengths and Achievements
 - Project management of capital design and construction projects
 - Completed update of the Active Together Master Plan
 - Recipient of over \$300,000 in C.I.I.F. Grant funding for parks-related projects
 - Planning process initiated for North Maple Regional Park
- Current Challenges
 - Quantity of parks planning and development initiatives relative to staff resources
 - Need to consolidate development approval standards and planning processes
 - Parkland acquisition strategy required to assess and prioritize acquisition opportunities
 - Workload and financial impact of required infrastructure repair and replacement
- Growth Management
 - Development intensification pressures on parkland provision and service levels
 - Potential workload impacts associated with Official Plan appeals

Future Direction for the Service:

- Service Constraints
 - Sustainable funding strategy required for park redevelopment and revitalization projects
- Opportunities for Business Improvement
 - Increased collaboration with Planning, Engineering and Parks Operations
 - New contract staff position will advance VMC planning, design and parkland acquisition
 - Asset management data collection to assist with park redevelopment strategies

Financial Impact:

- Financial implications of the Corporate Cash-in-Lieu of Parkland policy are to be determined
- Significant design and construction costs for major projects such as North Maple Regional Park, Civic Centre, VMC and urban intensification areas
- Implementation of the Active Together Master Plan recommendations
- Parkland acquisition costs for District Parks and public realm in urban intensification areas

Parks Development

2014-17 Business Plan

Work Plan

Business Plan Objectives:

| Department Objectives | Initiatives | Timeline | Additional Required? | Resources |
|--------------------------------|--|----------|--|-----------|
| 2014 Initiatives | | | | |
| Parks Planning and Acquisition | Review and revise park development standards and approvals process | Q1-Q4 | Planning, Engineering | |
| | Establish VMC planning team with Planning and Engineering | Q1 | Planning, Engineering | |
| Major Parks Development | Advance design process for North Maple Regional Park | Q1-Q3 | Consultant, Parks Operations | |
| Active Together Master Plan | Develop a Parkland Acquisition Strategy | Q1-Q3 | Planning, Real Estate | |
| | Develop a Pedestrian and Bicycle Implementation Strategy | Q1-Q3 | Consultant, Engineering | |
| 2015 Initiatives | | | | |
| Parks Planning and Acquisition | Parkland Acquisition/Conveyance for VMC Park #1 | Q3-Q4 | Planning, Real Estate | |
| Major Parks Development | Phase 1 Construction at North Maple Regional Park | Q2-Q4 | Consultant | |
| | VMC Park #1 Design | Q1-Q2 | Consultant, Planning, Engineering | |
| | Develop a Park Redevelopment Strategy | Q2-Q4 | Consultant, Parks Operations, Recreation | |
| | Civic Centre Public Realm Development | Q2-Q3 | Consultant, Buildings & Facilities | |
| Active Together Master Plan | Phase 1 Conversion of Surplus Ball Diamonds to Soccer Fields | Q2-Q3 | Parks Operations, Recreation | |
| | Develop Skatepark Strategy | Q1-Q2 | Consultant, Recreation | |
| 2016 Initiatives | | | | |
| Parks Planning and Acquisition | Parkland Acquisition/Conveyance for District Parks | Q1-Q4 | Planning, Real Estate | |
| Major Parks Development | Complete Phase 1 Construction at North Maple Regional Park | Q2-Q3 | Purchasing | |
| | Continue to advance park design and construction in the VMC | Q1-Q4 | Planning, Engineering | |

Parks Development

2014-17 Business Plan

| | | | |
|--------------------------------|--|-------|------------------------------|
| Active Together Master Plan | Initiate Public Consultation Process for an Off-Leash Dog Park | Q1-Q2 | Parks Operations |
| 2017 Initiatives | | | |
| Parks Planning and Acquisition | Participate in Updating the Development Charges Background Study | Q4 | Finance, Planning |
| Major Parks Development | Phase 2 Design for North Maple Regional Park | Q1-Q4 | Consultant, Parks Operations |
| | Continue to advance park design and construction in the VMC | Q1-Q4 | Planning, Engineering |
| Active Together Master Plan | Develop Community Gardens Policy Framework | Q1-Q2 | Parks Operations |

Business Performance

Key Performance Indicators:

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|-------------------------------|-------------------------------|-------------------------------|--------------------------------|--------------------------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Total Annual Capital Budget Expenditures for Parks Development projects(\$Million)*YTD | 5.79 | 10.80 | 4.40 | 4.64 | 1.55 |
| Total Area of new Neighbourhood Parks developed (hectares) **projected | 2.37 | 4.86 | 8.54 | 2.50 | 13.4** |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Average length of time to develop a typical Neighbourhood Park from the date contract award is approved by Council to Substantial Completion (months) *projected | 8.0 | 6.6 | 6.6 | 6.5 | 6.3** |
| QUALITY OF SERVICE: Is anyone better off? | | | | | |
| CTS response time to public inquiries (number of cases Green, Yellow, Red) | 41 Green 0 Yellow 0 Red | 44 Green 2 Yellow 0 Red | 43 Green 0 Yellow 0 Red | 145 Green 0 Yellow 0 Red | 100 Green 1 Yellow 0 Red |

New Facilities To Be Added in 2013:

Woodrose Park - mini soccer field, accessible playground
 Forest View Park – half-court basketball, accessible playground
 Village Green- senior soccer field, skateboard zone, accessible playground
 Pioneer Park- half-court basketball, accessible playground
 Heritage Park - exercise equipment, accessible playground

Parks Development

2014-17 Business Plan

Spring Blossom Park - mini soccer field, full-court basketball, accessible playground
 Millrace Park – tennis courts (2), 9v9 soccer field, full-court basketball, accessible playground

Facilities Renovated Year-to-Date in 2013:

Old Fire Hall Parkette – accessibility improvements
 Maple Airport Playground – accessibility improvements
 Rimwood Park - tennis court resurfacing
 Bindertwine Park - tennis court resurfacing
 Mackenzie Glen Park – splash pad resurfacing, playground rubber surfacing
 Maple Lions Park – splash pad resurfacing
 McClure Meadows Park – splash pad resurfacing
 Vaughan Crest Park - bocce court resurfacing
 Riviera Park - retaining wall improvements
 Thornhill Woods Park and Open Space - walkway extension

Facilities Projected to be renovated by end of 2013:

Mackenzie Glen Park – playground rubber surfacing
 Maple Community Centre Park – baseball close-out fencing
 Sonoma Heights Park – baseball close-out fencing
 Yorkhill Park - tennis court resurfacing
 Dufferin District Park - tennis court redevelopment
 Marita Payne Park – pedestrian bridge replacement
 Glen Shields Park - playground redevelopment and hardscape improvements
 Rainbow Creek Park – accessible swings, accessibility upgrades
 West Maple Creek Park – accessible swings, accessibility upgrades
 Vellore Heritage Square – accessible swings, accessibility upgrades
 York Hill District Park – accessible swings, accessibility upgrades

Key Performance Indicators Conclusion:

- CTS response times continue to be well within acceptable service standards
- The length of time required to plan, design and construct a typical Neighbourhood Park from date of Council Approval is co-dependant upon the workload of Purchasing Services
- Continuous improvements to park development processes and procedures continue to be made in order to increase ability to deliver park projects in a timely manner.
- The volume of work compared to staff resources will continue to be monitored to minimize delays in project delivery and/or service to other departments and external agencies

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Development Planning

Development Planning

2014-17 Business Plan

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Development Planning Department manages the growth and physical form of the City through the comprehensive analysis and review of development applications submitted by private landowners, and provides a public service function by facilitating input from the public, agencies, City departments, and other levels of government into the planning process and by providing information to the public.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Promote adherence to the Vaughan Official Plan to maintain a well-planned community
2. Facilitate responsible growth through administration of the development application process

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Demonstrate Excellence in Service Delivery
 - Staff engage in the comprehensive analysis and review of development applications to ensure a high quality of service
2. Lead and Promote Environmental Sustainability
 - The Department ensures adherence to the principles of the Vaughan Official Plan for all development applications, promoting responsible and sustainable development
3. Manage Growth and Economic Well-being
 - Staff facilitate development by working collaboratively with developers, the public, and other key stakeholders

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|----------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 28 | 29 | - | - | - | - |
| Part Time | 0 | 0.3 | - | - | - | - |
| Overtime | \$36,365 | \$30,129 | - | - | - | - |

Development Planning

2014-17 Business Plan

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Staff Resources
 - Work load quantity and complexity constraints create a continuous need for more staff and resources, including technology upgrades and training.
 - DTA coordinator position will assist with streamlining and improving the DTA process, creating operational efficiencies within the Department. Associated training and technology upgrades are still required.
- Work Complexity
 - Level of complexity of development applications is increasing as the City pursues intensification in future development and as new regulations (i.e. ODA, Species At Risk) are promulgated.
 - The OMB appeals process for VOP 2010 and site-specific applications continues to place a significant burden on existing resources through increases in the quantity and length of appeals, particularly in light of intensification and complex development applications.
 - Streetscape implementation & financial strategy is under way.
 - Close cooperation and reliance on other departments (i.e. Engineering, Real Estate) for comments impacts service level.

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Growth Management
 - Complexity of development applications specifically resulting from the Provincial Growth Plan, which mandates the City to intensify and accommodate growth within its existing urban boundary.
 - Collaboration with other City Departments to manage growth in the VMC including ensuring that the area surrounding the VMC Subway Station is ready to facilitate opening in late 2016.
- Zoning By-law Review
 - The current Zoning By-law must be reviewed and approved within 3 years of the new Official Plan and does not currently contain the progressive zoning provisions required to implement the intended forms of development anticipated under the new Official Plan.

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Sustaining revenue levels collected from development applications will be difficult if there is an economic slowdown or if major infrastructure projects including intensification projects (i.e. VMC projects), entertainment facility and hospital do not for some reason proceed to the site plan stage.

Development Planning

2014-17 Business Plan

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|---|--|--------------|--------------------------------|
| 2014 Initiatives | | | |
| Ensure adherence to the City's Official Plan through the development application process | Facilitate the review of draft plan of subdivision and zoning applications to allow for the timely construction of the Vaughan Hospital building and infrastructure for abutting lands in consultation with the Province and stakeholders. Support the Building Standards initiative to engage in a comprehensive city-wide review of Zoning By-law 1-88. | Q4 Q4 | |
| Facilitate development by working collaboratively with developers, the public, and other key stakeholders | Develop a City-Wide Urban Design Manual to support development within intensification areas. | Q4 | |
| Support the timely development of the Vaughan Metropolitan Centre | Implement the VMC Secondary Plan through review of development applications, managing VMC Development Implementation Group Meetings and by completing urban design studies. Support the resolution of VMC Secondary Plan appeals where development applications are present. Release RFP to design and develop digital and physical three-dimensional models of the VMC. | Q4 Q4 | |

Development Planning

2014-17 Business Plan

| 2015 Initiatives | | | |
|---|--|----|--|
| Facilitate development by working collaboratively with developers, the public, and other key stakeholders | Undertake the 2015 Urban Design Awards. | Q4 | Utilize existing resources jointly with Economic Development Department. |
| Ensure adherence to the City's Official Plan through the development application process | Continue to facilitate the planning and construction of the Vaughan Hospital building and abutting lands in consultation with the Province and stakeholders. | Q4 | |
| | Continue to support the Building Standards initiative to engage in a comprehensive city-wide review of Zoning By-law 1-88. | Q4 | |
| Support the timely development of the Vaughan Metropolitan Centre | Implement the VMC Plan through review of development applications and urban design studies. | Q4 | |
| 2016 Initiatives | | | |
| Ensure adherence to the City's Official Plan through the development application process | Continue to facilitate the planning and construction of the Vaughan Hospital building and abutting lands in consultation with the Province and stakeholders. | Q4 | |
| | Continue to support the Building Standards initiative to engage in a comprehensive city-wide review of Zoning By-law 1-88. | Q4 | |
| Support the timely development of the Vaughan Metropolitan Centre | Implement the VMC Plan through development applications and urban design studies. | Q4 | |
| 2017 Initiatives | | | |
| Ensure adherence to the City's Official Plan through the development application process | Continue to facilitate the planning and construction of the Vaughan Hospital building and abutting lands in consultation with the Province and stakeholders. | Q4 | |
| Support the timely development of the Vaughan Metropolitan Centre | Implement the VMC Plan through development applications and urban design studies. | Q4 | |

Development Planning

2014-17 Business Plan

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|---|------|------|------|---------------|

| SERVICE QUALITY: Is anyone better off? | | | | | |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- Number of development applications, reports, Official Plan and Zoning By-law amendments, Site Plan and Condominium agreements, and consent and variance applications continues to increase annually
- Departmental staffing remains at or below levels found in comparable municipalities
- OMB hearings require an increasingly larger dedication of staff time and departmental resources
- The complexity and time commitment required to process development applications has increased

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Policy Planning

Policy Planning

2014-17 Business Plan

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Policy Planning Department promotes the creation of quality communities in the City of Vaughan by providing Council with *Planning Act* based policy tools to guide the growth and physical development of the City. The department also provides a public service by facilitating citizen input into the planning process and by providing needed information to the public by way of public hearings, reports, workshops, counter and telephone inquiries, written correspondence and web content.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Promote sustainable development and plan for the City's future by engaging in detailed policy planning studies and projects through all applicable stages of the approval process.
2. Develop actionable policy based on best professional practice fulfilling all pertinent legislative requirements.

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Demonstrate Excellence in Service Delivery
 - Staff members produce policy tools, planning studies and reports that engage and inform stakeholders and support the physical development of the City.
2. Manage Corporate Assets
 - Staff members effectively manage the future viability of corporate assets through the completion of projects, studies and plans that serve to allocate and optimize the City's investment in infrastructure and services.
3. Manage Growth & Economic Well-being
 - The Department is an integral partner in the development process, setting out a vision for the City's long-term growth and enabling public input into the development process by way of public hearings, reports, and workshops.
 - By supporting the creation of sustainable communities with a high quality of life that will attract the businesses and work force that reflect the evolving economy.

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 11 | 11 | 1 | - | - | - |
| Part Time | .69 | .69 | - | - | - | - |
| Overtime | 7205 | 7205 | - | - | - | - |

Policy Planning

2014-17 Business Plan

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Vaughan Official Plan
 - Due to recent policy changes to Vaughan Official Plan (VOP) 2010 approved by the City of Vaughan and Region of York Councils there is a need to make preparations to undertake the New Community Areas Secondary Plans in 2013 in concert with the Natural Heritage Network work.
 - During 2014-2015 the defense of VOP 2010 and Secondary Plans at the Ontario Municipal Board (OMB) will continue to place a heavy load on limited staff resources. In addition to the OMB appeals our project workload will increase in number and complexity.
- Resources
 - The Policy Planning Department is reliant on information to provide the basis for plan preparation and monitoring of performance and results. Currently, the Policy Planning Department has limited capacity to do this type of work. In addition, there is no City-wide strategy to effectively assemble data and to retrieve, organize and analyze City and externally derived data to meet the needs of the Policy Planning Department and the broader Corporate needs.
- Professional Development
 - Due to having 5 staff members in relatively new positions further pressures and opportunities lie in the Department's commitment to train and develop staff to complement their skills particularly as they relate to policy development, OMB, project management and communications work.

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Vaughan Official Plan
 - Conducting a 5-year comprehensive review of the Official Plan as part of the Growth Management Strategy 2031 is a high priority for the City of Vaughan. There are a number of projects that are adjuncts or follow up work to the Official Plan.

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Explore grant funding as a potential alternative source of revenue for funding planning studies

Policy Planning

2014-17 Business Plan

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|---|----------|--|
| 2014 Initiatives | | | |
| Achieve an approved Official Plan framework | Continue with appeals process for approval of VOP 2010 (Volumes 1 and 2) | Q4 | ARR for extension of a contract Senior Policy Planner |
| Engage and respond to all public & regulatory stakeholders to conduct planning studies and projects in support of sustainable growth | Finalize Secondary Plan Studies and OPA's begun in 2012 and 2013, including Vaughan Mills Centre, Concord GO Centre, Dufferin – Centre study and Natural Heritage Network, etc. | Q4 | ARR for Manager or Senior Planner (TBD) subject to Public Service Renewal strategy |
| | Continue the review and preparation of OPAs and Block Plans for greenfield and whitebelt communities 34E, 34W, 55, 59, 40, 47, 62, and Rizmi Holdings. | Q1 - Q4 | |
| | Retain consulting services and the preparation of the New Community Areas Secondary Plans (Blocks 27 and 41) and initiate the consulting studies | Q1 - Q4 | |
| | Undertake a retail and urban design policy study including sign by-law and guidelines for VMC, subject to outcome of casino | Q3 – Q4 | |
| | Initiate a City-wide Public Art Policy | Q4 | |
| | Continue work on secondary suites | Q1 | |
| Improve Data Management Capability | Participate in the development of the Corporate Data Management Strategy | Q1 - Q4 | |
| 2015 Initiatives | | | |
| Achieve an approved Official Plan framework | Continue with appeals process for approval of VOP 2010 (Volumes 1 and 2) | Q4 | |
| Conduct planning studies and policy development to support sustainable growth | Continue the New Community Areas Secondary Plans (Block 27 and 41) and Block Plans | Q1 – Q4 | |

Policy Planning

2014-17 Business Plan

| | | | |
|------------------------------------|--|----|-----|
| | Undertake Places of Worship Study | Q4 | |
| | Update Heritage Conservation District update studies | Q4 | |
| Improve Data Management Capability | Implement Corporate Data Management Strategy | | tbd |

2016 Initiatives

| | | | |
|---|---|----|--|
| Achieve an approved Official Plan framework | Preparation for 5-year Official Plan Review. | Q4 | |
| Conduct planning studies and policy development to support sustainable growth | Ongoing implementation of VOP 2010 Ongoing Block Plan work re: New Communities | | |

2017 Initiatives

| | | | |

2014-17 Business Plan

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|------|------|------|------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Total Number of Active Projects | 25 | 26 | 21 | 24 | 29 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| SERVICE QUALITY: Is anyone better off? | | | | | |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- The number and complexity of projects is expected to increase in 2014 and beyond. The number of projects and their rate of progression may be affected by the number of Official Plan appeals undertaken in a given year and the increasing complexity of community consultation.
- Key Performance Indicators will be further evolved in accordance with the corporate performance measurement initiative

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Building Standards

Building Standards

2014-17 Business Plan

BUSINESS OVERVIEW

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Building Standards Department ensures compliance with the health and safety requirements of the Ontario Building Code Act and its regulation and municipal requirements such as the City's Zoning, Site Plan Controls, and Fencing By-laws, and provides application plans review and inspection services.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Ensuring reasonable compliance with the O.B.C. and the applicable laws mandated by the Ontario Building Code Act.
2. Contribute to community safety by promoting safe and accessible structures
3. Timely response on development applications.
4. Provide guidance to residents in understanding and interpreting the provisions of the City's zoning bylaw.

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Demonstrate Excellence in Service Delivery
 - Staff members provide application plans review and building inspection services to promote adherence to provincially mandated standards set out in the *Building Code*
2. Ensure a High Performing Organization
 - Staff members collaborate with other City Departments to effectively deliver the development application process. Additionally, the Department is committed to effectively managing and continuously improving processes for issuing building permits within the City
3. Promote Community Safety, Health & Wellness
 - The Department ensures compliance with the health and safety requirements of the *Ontario Building Code Act*, contributing to community safety by promoting safe and accessible structures

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|-----------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 61 | 63 | 0 | 1 | 0 | 0 |
| Part Time | 1.6 | 1.6 | - | - | - | - |
| Overtime | \$241,070 | \$262,224 | - | - | - | - |

Building Standards

2014-17 Business Plan

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Legislative Framework
 - New energy requirements initiated by the Provincial Government are placing a burden of responsibility and risk on the department. The department currently lacks the knowledge and skills required to meet these challenges, though ARRs have been approved to provide the expertise necessary.
 - New accessibility requirements will place additional pressure on existing staff resources
- Resources
 - Participation in various corporate initiatives will have a direct impact on existing department resources

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Vaughan Official Plan
 - Once approved, the new Official Plan will require a full review of the City's current zoning by-law. This project is anticipated to take approximately three years to complete.
- Service Level
 - Building Standards may become responsible for all plans review related to fire safety issues in the future.
 - Increasing pressures to provide additional/improved services.
 - Permit volumes in the future are largely unknown and are dependent upon external influences and market factors.
- Technology
 - Future move to web-based permit applications and permit review processes

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- The department does not anticipate any major financial impacts to affect the delivery of services in the future

Building Standards

2014-17 Business Plan

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|--|----------|--|
| 2014 Initiatives | | | |
| Maintain provincially mandated standards established in the <i>Building Code</i> | Ontario Building Code By-law Review (New Building Permit Classifications & Fees) City Composite Zoning By-Law Project: Hire a consultant to review the project | | Finance/Budgeting Resources may be required. Resources to procure a consultant |
| Effectively manage and continuously improve processes for issuing building permits within the City | Improvements to the AMANDA Database: implementation of tablets and potentially web-based permit applications Determine future resource needs of the department to service development growth in support of the VMC corporate initiative and other intensification areas | Q4 | Capital Budget & New ARR's proposed for 2014 Re-org of Department – Confirmation of resources |
| 2015 Initiatives | | | |
| Effectively manage and continuously improve processes for issuing building permits within the City | Improvements to the AMANDA Database: Implement web-based permit applications, web-based permit review processes, and system software upgrade Engage in a Fleet Review to determine type of vehicle, financial costs, and replacement schedule | | Capital Budget & New ARR's proposed for 2015 Public Works/Finance Resources may be required. |
| Maintain provincially mandated standards established in the <i>Building Code</i> | City Composite Zoning By-Law Project: Develop and implement the findings of the consultant | | Potentially 1 FTE for 2015 |
| 2016 Initiatives | | | |
| Effectively manage and continuously improve processes for issuing building permits within the City | Continuous improvements to the Departments automated systems. (Amanda Database) | | Capital Budget & New ARR's proposed for 2016 |

| EFFECTIVENESS: How well do we do it? | | | | | |
| Percentage of Inspection Requests Responded to within 48 hours | 99% | 99% | 99% | 99% | 99% |
| Number of Outstanding Permits | 14,000 | 13,000 | 12,500 | 11,500 | 10,000 |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| | | | | | |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- Permit and inspection request processing times continue to remain within provincially mandated service standards. The Department frequently exceeds provincially mandated service standards by responding to 97% of all requests within 24 hours.
- The number of outstanding permits has steadily declined

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Strategic Planning

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Strategic Planning department is responsible for the management and implementation of the Vaughan Vision 2020 strategic plan in coordination with Council, Senior Management Team (SMT), and staff. This includes managing the Corporate Planning Process, strategic and operational performance measurement, facilitating departmental planning, corporate performance measurement dashboard management, strategic planning coordination, education, training, and stakeholder consultation with all City departments.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Facilitate with Council, senior management and staff in the implementation and management of a) Vaughan Vision 2020 strategic plan, b) Corporate Performance Measurement, and c) Corporate Planning Process

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Ensure a High Performing Organization
 - o Work with Council, Senior Management and staff in all departments to ensure alignment between the Vaughan Vision 2020 and departmental operations
 - o Facilitate the development and on-going management of a Corporate Planning Process and Corporate Performance Measurement framework which will ensure the Corporation sets clear strategic goals and mechanisms to measure success
2. Demonstrate Excellence in Service Delivery
 - o Work with all departments to ensure alignment between the VV 2020 strategic plan and operational service delivery
 - o Add value to departmental operations by providing them with key, up to date, information for business planning, corporate planning and performance measurement purposes.

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | Additional Resource Requests | | | | | |
|-----------|------------------------------|-----------|------|------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 1 | 2 | - | 1 | - | - |
| Part Time | - | - | - | - | - | - |
| Overtime | - | - | - | - | - | - |

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Resources
 - Hiring of a Strategic Business Analyst in 2013 will improve the organization's ability to engage in departmental business planning, long-range strategic planning and performance measurement
 - ARR for an additional business analyst in 2014 to support priority strategic initiative: Further evolve performance indicators and upcoming renewal and planning for updated VV2020
- Corporate Planning
 - Shift of departmental business plans to earlier in the year will position the corporation to do more effective planning and better inform the budget process
- Corporate Initiatives
 - Coordination and completion of the corporate performance measurement dashboard. This includes development of a Request for Proposal (RFP) for the acquisition of performance measurement dashboard software will position the corporation to measure strategic and operational success and establish a system of use
- Performance Measurement
 - Review and update operational performance measures for all departments that include outputs, outcomes and efficiencies metrics; and develop corporate strategic performance measures for VV2020

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Resources
 - Western Management Consultants report identified that the Strategic Planning department provides a needed service but is under-resourced
 - A second Strategic Business Analyst ARR was approved in 2013 but deferred and will be submitted in the 2014 budget process to assist in the Corporate Performance Measurement project
- Business Planning
 - Continued opportunities to enhance the department business planning framework through facilitated planning meetings, and performance measurement
 - Development of Key Performance Indicators and management of the Corporate Performance Measurement dashboard in conjunction with all departments will be a priority in 2013/14
- Vaughan Vision 2020
 - Opportunity to build off of the synergies between Strategic Planning and Environmental Sustainability in revising the Vaughan Vision 2020 and Green Directions strategy in plan revision in 2015

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- ARR for a second Strategic Business Analyst was recognized in 2013 however still outstanding
- Future costs associated with revising the Vaughan Vision 2020, conducting community surveys and deploying other data collection tools have been noted in an ARR for 2015

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|--|----------|--|
| 2014 Initiatives | | | |
| Optimize the City's ability to measure Corporate and operational performance | Implementation of performance measurement dashboard system including collaboration with all City departments in software training and establishment of reporting processes | Q4 | |
| Manage the Vaughan Vision 2020 strategic planning process | Preparation for revision of Vaughan Vision 2020 strategic plan in 2015. Investigate synergies between strategic planning and environmental sustainability in preparation of the RFP for consulting support | Q4 | |
| Effectively facilitate the management of the Corporate Planning process | Continue redesign of Corporate Planning Process including having business plan meetings earlier in the year and implementing regular departmental review meetings | Q2 | |
| Continually improve the range and quality of service provided | Public sector renewal recommendations implementation | Q1 | |
| 2015 Initiatives | | | |
| Manage the Vaughan Vision 2020 strategic planning process | Redesign of Vaughan Vision 2020 utilizing an external consultant to design and implement a stakeholder engagement process | Q2 | Vaughan Vision 2020 ARR |
| Optimize the City's ability to measure corporate and department performance | Management of performance measurement dashboard system in collaboration with City departments | Q4 | Business Analyst ARR submission recognized in 2013 operating budget, requested in 2014 |
| 2016 Initiatives | | | |
| Manage the Vaughan Vision 2020 strategic planning process | Ongoing implementation of various components of revised Vaughan Vision 2020 | Q4 | Vaughan Vision 2020 ARR |

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|------|------|------|------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| # of Departmental Business Planning Meetings Held Annually | | | | | TBD |
| EFFECTIVENESS: How well do we do it? | | | | | |
| % of business plans completed on time | | | | | 95% |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| Council satisfaction with strategic planning process | | | | | TBD |
| Staff satisfaction with the value and leadership provided by Strategic Planning department staff | | | | | TBD |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- New indicators for the Strategic Planning Department will be developed through the Corporate performance measurement strategic initiative.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Environmental Sustainability

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

Environmental Sustainability is responsible for championing the implementation of *Green Directions Vaughan*, the Community Sustainability and Environmental Master Plan, inclusive of its goals, objectives, ethics and principles. Environmental Sustainability works in partnership with internal and external stakeholders to achieve a healthy natural environment, vibrant communities and a strong economy. This is achieved through support for residents and businesses resulting in increased awareness and local action on key environmental issues such as climate change. Further, Environmental Sustainability supports research, policy and program development activities that address environmental priorities and implements coordinated activities across the City's departments.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Enable the City to become a leader in environmental sustainability
2. Promote a culture of environmental sustainability

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Lead & Promote Environmental Sustainability
 - The Department is responsible for championing *Green Directions Vaughan*, the Community Sustainability and Environmental Master Plan.
2. Demonstrate Excellence in Service Delivery
 - The Department regularly engages City staff and the public to support environmental sustainability services and initiatives. Staff provide support for residents and businesses to increase awareness of environmental issues and support local action.

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | Additional Resource Requests | | | | | |
|-----------|------------------------------|-----------|------|------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 2 | 2 | - | - | - | - |
| Part Time | - | - | - | - | - | - |
| Overtime | - | - | - | - | - | - |

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Green Directions Vaughan
 - Most (96%) of the eighty five actions in Green Directions Vaughan have been initiated.
 - Six action items which have established time frames are fully completed.
- Information Requests
 - In 2012, the number of requests for information/support received and addressed within the Environmental Sustainability Office was 61, exceeding the service standard of 58.
- Corporate Initiatives
 - Challenges to further progress include competing priorities and catalyzing behavioral change.
 - Departments leading an action under Green Directions Vaughan may experience slow progress if it is not strategically aligned with their core business. Additional time may be required if the action involves initiating a significant process change which would alter current norms or behaviors.
 - Engagement of external stakeholders is not progressing as effectively as possible as human resources issues within these stakeholders have resulted in delays

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Strategic Direction
 - Continuing to emphasize the value of services provided
 - Maintaining momentum for existing environmental sustainability programs, initiatives and campaigns
 - Ensuring that environmental sustainability remains a priority with key decision makers
 - Keeping *Green Directions Vaughan* current in a changing political and economic environment
 - Successful implementation of actions under *Green Directions Vaughan* will help foster a corporate culture that embraces environmental sustainability
- Internal and External Partnerships
 - Assisting departments in addressing competing priorities, financial resource limitations and time constraints as the implementation of *Green Directions Vaughan* continues
 - Generating enthusiasm and awareness of external stakeholders such as business and citizens on actions they can take to contribute to a more sustainable Vaughan
 - Catalyze actions on environmental sustainability issues that will enable traction of this topic with key stakeholders
 - Achieving measureable results in environmental sustainability will enable Vaughan to be recognized as a leader and raise the bar for other community leaders to follow
- Resources
 - Obtaining sufficient financial and organizational support from external partners to be able to execute key initiatives
 - Securing financial support to execute activities related to climate change adaptation in a time of fiscal restraint
 - Building a strong foundation to push for continued progress as *Green Directions Vaughan* is renewed in subsequent years

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Future potential regulatory pressure to report on emerging environmental trends could require re-directing resources to support compulsory reporting. Should this occur, a re-prioritization of projects and financial resources may be required to achieve compulsory reporting.

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|--|----------|--|
| 2014 Initiatives | | | |
| Pursue alternative approaches to environmental/energy improvements | Investigate the potential to direct a portion of energy savings back into energy related initiatives. | Q3 | No additional resources |
| Evaluate and measure progress towards environmental sustainability | Benchmark the implementation of the community sustainability and environmental management plan with respect to other cities of similar size and complexity. | Q3 | No additional resources |
| Develop and promote a climate change strategy | Initiate collection of baseline data that will address vulnerability to climate change and actions to adapt to climate change impacts. | Q4 | \$ 25 k for consultant support, additional funds would be leveraged with other municipal partners. |
| Integrate sustainability into the core culture of the City | Develop and implement an approach to ensure environmental sustainability project plans are completed at a Commission level during the annual business planning and budget approval process | Q4 | No additional resources |
| 2015 Initiatives | | | |
| Evaluate and measure progress towards environmental sustainability | Seek approval for a renewed Community Sustainability and Environmental Master Plan and communicate to internal/external stakeholders. | Q3 | Capital project funding request for \$ 40K |
| Develop and initiate a climate change strategy | Implement climate change action plan to ensure progress is being made to achieve greenhouse gas emission reduction targets. | Q3 | No additional resources |
| Integrate sustainability into the core culture of the City | Initiate a study to document the attitudes and behaviours of Vaughan citizen towards the environment in order to respond effectively with core programming. | Q3 | Consultants cost would be covered by existing resources. |
| 2016 Initiatives | | | |

| | | | |
|--|--|----|-------------------------|
| Integrate sustainability into the core culture of the City | Explore the synergies between Green Directions and Greening Vaughan as well as any Region of York environmental promotion activities in order to potentially better align messaging, resources and other activities. | Q3 | No additional resources |
| Evaluate and measure progress towards environmental sustainability | Complete a Statement of the Environment Report to report to the community on changes in Sustainability/Environmental Indicators | Q3 | No additional resources |
| Pursue alternative approaches to environmental/energy improvements | Undertake an internal review in partnership with ITM to determine how the Environmental Sustainability Office could better leverage technology to deliver programs to internal and external clients. | Q2 | No additional resources |
| 2017 Initiatives | | | |
| Pursue alternative approaches to environmental/energy improvements | Research the cost and benefits of existing renewable energy projects and determine what can be implemented to achieve further advancement in this area. | Q3 | No additional resources |
| Integrate sustainability into the core culture of the City | Conduct a gap analysis of the portfolio of practices designed to integrate sustainability into the core culture of the City of Vaughan staff | Q4 | No additional resources |

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|------|------|------|------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Number of requests for information/support received and addressed per FTE | N/A | N/A | 60 | 65 | 70 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Percentage of requests resulting in subsequent projects | N/A | N/A | N/A | 6% | 9% |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| Number of participants involved in activities intended to embed sustainability into organizational core culture | N/A | N/A | N/A | N/A | 400 |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- The number of requests for environmental sustainability information and support per FTE is expected to increase as the City explores intensification and more complex forms of growth.
- It is anticipated that these requests will yield a greater number of projects in the future.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Innovation & Continuous Improvement

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Innovation and Continuous Improvement department is responsible for enabling an environment within the City that is comfortable with dealing with constant change. The department facilitates change throughout the organization by supporting departments in change initiatives that impact the service experience of both external and internal customers.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Facilitate and support departmental and organizational continuous improvement initiatives
2. Develop organizational capability to engage in continuous improvement activities and promote a culture of learning and continuous improvement

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Service Excellence
 - Demonstrate Excellence in Service Delivery – ICI department will work with all City departments to implement and track organizational / operational changes which improve departmental service delivery efficiency and effectiveness
2. Staff Excellence
 - Support the Professional Development of Staff – Through secondments and engagement with departmental staff, the ICI department will help develop change management skillsets throughout the organization.
3. Organizational Excellence
 - Ensure a High Performing Organization – By developing tools and skillsets across the organization and supporting departmental (and cross-departmental) change initiatives, the ICI department will help foster an environment comfortable in dealing with constant change.

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | Additional Resource Requests | | | | | |
|------------|------------------------------|-----------|------|------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 4 | 4 | 0 | 0 | 0 | |
| Part Time | 0 | 0 | 0 | 0 | 0 | |
| Overtime | - | - | - | - | - | |
| Secondment | 1 | 1 | | | 1* | |

* In 2015 and 2016, the scope and number of continuous improvement initiatives may warrant additional secondment resources.

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- The department is in the process of being staffed and workplans created in 2013. Current projects will focus on assisting departments to be better positioned to deal with growth and changes in program/service delivery requirements and customer expectations.
- Until staffed with its approved complement, ICI initially is a department of one – will need to be judicious about focus

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Establishing the Department
 - ICI is a new department and needs to “earn the right” to be invited to engage with departments – will work on building relationships and trust and demonstrating value while also leveraging tools such as Vaughan On-Line to promote and encourage engagement
- Change Management
 - While the City has undertaken many change initiatives there is a concern that an inconsistent approach is taken to identifying, analyzing, justifying, planning, implementing and tracking the portfolio of initiatives (particularly those that have broad cross-departmental impact). The department will develop an approach that will facilitate the management of change initiatives.
 - As ICI is about institutionalizing an environment of change, there may be a natural antipathy to engaging with the department – it is important to identify “early adopters” and/or challenged areas in order to prioritize early win opportunities and demonstrate value to all stakeholders
- Technology
 - Several business systems remain silos of data – there are opportunities to leverage system functionality to streamline / align business processes and reduce duplicate data entry and building on the Data Architecture framework currently being developed by ITM
- Service Delivery and Operational Reviews
 - Service delivery and operational reviews may be requested by Council, recommended by Internal Audit or departmental management or be required to meet annual service delivery review guidelines.

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Operational costs will increase over time as the department achieves its full staff complement

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|---|---|----------|--------------------------------|
| 2014 Initiatives | | | |
| Develop, implement and monitor ICI projects within specified timeframes | Develop a results realization tracking framework for continuous improvement initiatives | Q2 | Secondments may be required |
| | Update listing of potential improvement initiatives (identification) | Q3 | |
| | Support/Drive three operational reviews: <ul style="list-style-type: none"> • Fire & Rescue Services • Recreation Programs Management • Vaughan Public Libraries | Q4 | |
| Promote a culture of learning and continuous improvement | Work with Learning & Development to update and deliver continuous improvement and change management training | Q2 | |
| Implementation of Public Sector Renewal Recommendations | Support implementation of Public Sector Renewal recommendations | Q3 | |
| | Identify and track savings | Q3 / Q4 | |

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|------|------|------|------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Continuous Improvement initiatives completed | | | | | TBD |
| # of staff trained/engaged/seconded by ICI | | | | | TBD |
| # of Operational Reviews Completed | | | | | TBD |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Continuous Improvement Capabilities (Change Maturity) | | | | | TBD |
| Continuous Improvement Initiative Delivery (Project Performance) | | | | | TBD |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| Client Satisfaction | | | | | TBD |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- Key Performance Indicators will be further evolved through the implementation of the corporate performance measurement initiative and throughout 2013 as the Department begins operations

Access Vaughan

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

Access Vaughan is the contact centre for the City of Vaughan, offering patrons access to information and assistance through the call centre and via face-to-face assistance at the Information Desk located at City Hall. Access Vaughan handles general inquiries as well as detailed inquiries for integrated departments. On average the call centre receives 185,000 calls a year and handles over 25,000 inquiries at the Information desk per year.

The call centre is integrated with the following departments:

- Public Works – Waste Department
- Tax Department
- Recreation & Culture Department
- Enforcement Services Department
- Parks & Forestry Operations Department
- Animal Services

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Provide information about City services to residents in a timely and effective manner
2. Support City departments through customer service and the provision of information

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Demonstrate Excellence in Service Delivery
 - *Department Objective:* Continuously improve the range and quality of services provided
2. Ensure a High Performing Organization
 - *Department Objective:* Provide information and customer service support for City departments

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | Additional Resource Requests | | | | | |
|-----------|------------------------------|-----------|------|------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 7 | 7 | | | | |
| Part Time | 4.57 | 4.59 | 1.62 | | | |
| Overtime | \$8,305 | \$8,360 | | | | |

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Service Delivery
 - Averages an 80/20 service level on a monthly basis (80% of calls answered within 20 seconds or less); however there has been extended wait times and numerous callers waiting in queue.
 - Access Vaughan was unable to meet the service level mandate for most months of the year in 2012 and the average maximum wait time for callers was 23 minutes.
 - In 2013 with the addition of 2 PTE staff, the service level has increased by approximately 5 % in the first 6 months of the year. Maximum wait times have decreased by approximately 4 minutes.
 - On average the call centre resolves 60% of the inbound calls, resulting in improved service for the caller as first call resolution was provided for that 60%
- Staffing
 - Staffing shortages challenge Access Vaughan's ability to meet the 80/20 service level and uphold quality standards.
 - The Call Recording Quality Monitoring system was improved in the last year which has assisted with performance coaching
- Integration
 - Successful integration since launch with Parks & Forestry, Animal Services and Enforcement Services
 - Further integration with Enforcement Services occurred in 2013 and staff have taken on additional call types

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Continued Integration
 - Continue expansion and service integration with other departments
 - Access Vaughan will be able to address general inquiries, eliminate misdirected calls and overall allow for a more inclusive service to callers
 - Further integration is planned for Elections 2014 and Public Works
- Extended Hours of Service
 - Extending the hours of operation once Access Vaughan has integrated with more departments will increase the service quality for all stakeholders and support a more inclusive service
- Enhanced Resources
 - In order to expand and integrate with other departments effectively, Access Vaughan needs to ensure that proper staffing levels are in place so that the department can provide efficient service
- Strategic Planning
 - To be successful, the department needs to appropriately plan which call types and services would benefit the caller
 - Access Vaughan has numerous performance measurements in place and monthly call quality coaching is completed with each staff member to address any concerns

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- The major financial impacts on the department are staffing costs. Access Vaughan is expected to hire more staff as hours of operation are extended and the workload is increased. It is also anticipated that an additional Supervisor will be required as the team grows.

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|---|--|----------|--|
| 2014 Initiatives | | | |
| Continuously improve the range and quality of services provided | Access Vaughan Phase II – Step D: Increased expansion with Public Works. Further integration with Public Works will allow for extension of Access Vaughan hours of operation | Q2 | 2 Permanent Part Time Equipment (hardware/software) Textnet – license fee CC7- license fee Call Pilot CRQM JD Edwards – Support Person ITM – Project Leader/Business Analyst |
| | Develop and update Accessibility Plan for Access Vaughan | Q4 | |
| Provide information and customer service support for City departments | Support the City Clerk's Office throughout the Municipal and School Board Elections process for 2014 | Q3 | |
| Continuously improve the range and quality of services provided. | Public Sector Renewal recommendations and implementation | Q1 | |
| 2015 Initiatives | | | |
| Continuously improve the range and quality of services provided | Access Vaughan Phase II – Step E Integration or expansion with another department | Q4 | Equipment (hardware/software) Textnet – license fee CC7- license fee Call Pilot CRQM JD Edwards – Support Person ITM – Project Leader/Business Analyst |
| | Develop and update Accessibility Plan for Access Vaughan | Q4 | |

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|-----------|-----------|-----------|-----------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Aggregate number of calls offered monthly by average number of FTE/CSR | 2255 | 2401 | 2538 | 2660 | 2790 |
| Aggregate number of calls answered monthly by average number of FTE/CSR | 2098 | 2216 | 2011 | 2381 | 2500 |
| Call Volume Monthly | J: 12,135 | J: 12,724 | J: 12,939 | J: 13,210 | J: 14,194 |
| Average Year-over-Year | F: 12,225 | F: 12,919 | F: 13,582 | F: 13,253 | F: 15,292 |
| | M: 15,487 | M: 16,651 | M: 17,419 | M: 18,074 | M: 14,793 |
| | A: 14,827 | A: 15,978 | A: 15,617 | A: 15,563 | A: 15,264 |
| | M: 14,670 | M: 15,402 | M: 18,896 | M: 18,595 | M: 17,861 |

| | D: 9,723 | D: 10,003 | D: 10,011 | D: 9,487 | D: |
| Information Desk Inquiries | 19,472 | 17,253 | 31,828 | 28,000 | 24,500 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Monthly Service Level | J: 92 | J: 92 | J: 94 | J: 84 | J: 84 |
| | F: 94 | F: 86 | F: 90 | F: 80 | F: 69 |
| | M: 92 | M: 92 | M: 85 | M: 72 | M: 76 |
| | A: 90 | A: 89 | A: 78 | A: 79 | A: 80 |
| | M: 91 | M: 90 | M: 74 | M: 69 | M: 82 |
| | J: 87 | J: 86 | J: 72 | J: 68 | J: 75 |
| | J: 78 | J: 75 | J: 68 | J: 56 | J: |
| | A: 87 | A: 80 | A: 80 | A: 57 | A: |
| | S: 89 | S: 81 | S: 85 | S: 74 | S: |
| | O: 91 | O: 85 | O: 87 | O: 73 | O: |
| | N: 95 | N: 97 | N: 82 | N: 75 | N: |
| | D: 94 | D: 91 | D: 79 | D: 76 | D: |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| First Call Resolution is 60%. For approximately 60% of incoming calls, callers receive a response/resolution or are assisted without the need to transfer the caller to another department. First call resolution is a driver for customer satisfaction. | | | | | |

Key Performance Indicators Conclusion: *Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.*

- Aggregate calls answered monthly per FTE continues to increase annually
- Monthly average call volumes and information desk inquiries have increased year over year
- The percentage of calls handled within the 80/20 service level has continuously declined overall and in particular during the months of peak service demand between April and September.
- In 2013 calls handled within the 80/20 service level has improved by approximately 5% over the previous year.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Information Technology Management

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Information & Technology Management (ITM) Department enables City departments to achieve strategic and business objectives through effective use of information and technology resources. The ITM department is structured into three (3) business units:

- **Information Systems** – this unit is focused on collaboration with City departments in identification of business and functional requirements for information and systems and their effective implementation, maintenance and support;
- **Information Technology (IT) Operations** – this unit is focused on engineering, implementation, security, maintenance and support of City-wide technology and communications infrastructure, including data centre facilities, and data/voice networks;
- **Client Support Services** – this unit is focused on supporting internal clients in the daily use of technology and communications devices through HelpDesk services, on-site support and training. This unit is also responsible for maintenance of desktop technology assets, including personal computers hardware and software.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Support departments' continuous improvement initiatives by enabling implementation and effective use of information and technology;
2. Maintaining existing technology infrastructure and services to established standards;
3. Protecting the security and integrity of information assets;

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

Service Excellence – Service levels consistent with citizen needs

Demonstrate Excellence in Service Delivery – ITM manages the City's information technology & telecommunications infrastructure, which is a key enabler for delivery of service excellence to citizens by City departments (i.e. J.D. Edwards Enterprise Resource Planning (ERP) system, AMANDA (Building Permits, Licensing, etc.), AppTrack (Development Tracking), Geographic Information System (GIS), Access Vaughan (Knowledge Tool), Case Tracking Systems (CTS), VTAX (Property Taxation) and Vaughan Online).

Organizational Excellence – High performance through continuous improvement

Ensure a High Performing Organization – ITM supports City departments' continuous improvement initiatives by enabling implementation and effective use of technology-based business solutions. The ITM department continuously researches, prototypes and introduces new and innovative technology, methods, and practices to enable internal City departments achieve their performance objectives (i.e. speech recognition (Synthia), business knowledge tool, integration and geo-enablement of systems, deployment of applications on BlackBerry devices, GPS assets tracking and consolidation of voice and data networks (VoIP)).

Manage Corporate Assets – ITM is directly responsible for the maintenance and sustainable revitalization of City information technology and telecommunications infrastructure, valued at approximately \$5.5 million.

Staff Excellence – People supporting each other

Demonstrate Effective Leadership – ITM works with internal City departments, as well as York Region and neighbouring municipalities to develop collaborative solutions to operational and business needs and to facilitate information exchange. Such initiatives include the development of geographic information systems (GIS) standards, group purchases of goods and services, and sharing of knowledge and expertise.

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|--------------|------|-----------|------------------------------|------|------|------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 37 | 42 | 4 | 4 | - | - |
| Part Time | 2.69 | 2.69 | - | - | - | - |
| F/T Contract | 2 | | - | - | - | - |
| Overtime | | | - | - | - | - |

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Service Delivery
 - Staff are well trained and highly competent and productive
 - Internal processes are strong and consistently applied to deliver services
 - Service delivery targets are established, measured and met regularly
 - Production environment for critical information systems is stable and consistently meets established service targets
- Resources
 - Insufficient staff capacity to meet new service requests for technology implementation
 - Need to budget additional ITM resources to meet demand for IT services
 - ITM resources are often not considered by business and budget plans when planning business improvement initiatives that have IT components

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Resources
 - Staffing constraints caused by multiple factors; more ITM resources are allocated towards support functions as the City implements more computer-based business solutions. Additionally, as the City intensifies its efforts to achieve business improvements, more departments are initiating projects requiring ITM support
 - Large projects such as Asset Management and EDMS will soon increase pressure on existing resources as well.
- Opportunities for Improvement
 - Business improvement initiatives in City departments that have IT requirements should be budgeted inclusive of additional IT resources required to implement and support new information systems and technology

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Corporate initiatives such as Asset Management and Electronic Documents Management Systems (EDMS) will have a significant impact on ITM department resources. These large initiatives should have necessary provisions in their budgets for IT resources necessary to implement and maintain these large enterprise systems.

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|---|----------|---|
| 2014 Initiatives | | | |
| Collaborate with City departments to advance strategic corporate initiatives | Planning and Scoping phase of Asset Management systems | Q3 | ARR's recognized for EDMS Business Analyst & EDMS Technical SME |
| | Planning and Scoping phase of Electronic Document Management Systems (EDMS) | Q3 | |
| | Further evolve performance indicators | Q4 | |
| Continuously improve IT security controls to achieve ISO27001 compliance | Implement Data Loss Prevention controls | Q3 | |
| Continuously improve data and information management framework | Implement Data Governance and Data Management practices | Q3 | |
| 2015 Initiatives | | | |
| Collaborate with City departments to advance strategic corporate initiatives | Implementation phase of Asset Management systems – multi-year implementation | Q4 | ARR's recognized for EDMS Business Analyst & EDMS Technical SME |
| | Implementation phase of Electronic Documents Management System (EDMS) – multi-year implementation | Q4 | |
| Continuously improve IT security controls to achieve ISO27001 compliance | Implement Identity Management controls | Q4 | |
| Continuously improve data and information management framework | Implement Master Data Management framework | Q4 | |

| 2016 Initiatives | | | |
|--|---|----|--|
| Collaborate with City departments to advance strategic corporate initiatives | Implementation phase of Asset Management systems – multi-year implementation | Q4 | |
| | Implementation phase of Electronic Documents Management System (EDMS) – multi-year implementation | Q4 | |
| Continuously improve IT security controls to achieve ISO27001 compliance | Implement encryption and digital signatures standards and controls | Q4 | |
| Continuously improve data and information management framework | Implement Data Analysis and Business Intelligence (BI) tools | Q4 | |
| 2017 Initiatives | | | |
| Collaborate with City departments to advance strategic corporate initiatives | Implementation phase of Asset Management systems – multi-year implementation | Q4 | |
| | Implementation phase of Electronic Documents Management System (EDMS) – multi-year implementation | Q4 | |
| Continuously improve IT security controls to achieve ISO27001 compliance | Implement security key performance indicators (KPI's) | Q4 | |
| Continuously improve data and information management framework | Introduce Knowledge Management and Business Automation Management framework | Q4 | |

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|-------------------------------|-------------------------------|-------------------------------|------------------------------|------------------------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Resource Capacity vs. Demand | Approved: 12 Required: +19 | Approved: 14 Required: +20 | Approved: 14 Required: +12 | Approved: 15 Required: +8 | Approved: 15 Required: +6 |
| Number of supported applications | 105 | 111 | 126 | 136 | ~146 |
| ITM Helpdesk avg. monthly caseload | 570 | 550 | 750 | 800 | ~850 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Network availability during normal business hours | 99.999% | 99.999% | 99.999% | 99.999% | ~99.999% |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| ITM Helpdesk service effectiveness | 99.1% service satisfaction | 99.3% service satisfaction | 99.0% service satisfaction | 99.1% service satisfaction | ~99% service satisfaction |

Key Performance Indicators Conclusion: *Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.*

- ITM department operations are in good shape and meet established performance targets. In key operational areas of security, reliability, performance and infrastructure maintenance, the department performs at or above previously established performance targets.
- As new applications, systems, technologies and underlying infrastructure is introduced, more ITM resources are being absorbed in operational activities related to support and maintenance. This reduces the department's capacity to partner with internal stakeholders and undertake new initiatives.
- Additional ITM resources are being requested to keep pace with the growing demand for new projects and initiatives.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Human Resources

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Human Resources Department provides services that encompass multiple professional specialties. Specifically, the Department's focus is to create an environment of mutual respect through the transparent and consistent application of Human Resources policies, practices, and procedures; provide strategic partnership, consultation, and organizational resources; provide personal and professional growth opportunities, and improve and sustain employee engagement.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Promote fair and transparent application of City HR policies and procedures
2. Ensure a high level of employee engagement

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Value and Encourage a Highly Motivated and Engaged Workforce
 - The Department strives to provide a quality work environment that motivates and engages staff. The Department regularly measures staff engagement using internal surveys to gauge success.
2. Attract, Retain & Promote Skilled Staff
 - The Department is committed to attracting, training and promoting skilled staff and consistently and transparently applies Human Resources policies, practices and procedures to ensure fairness in the application of all business processes.
3. Support the Professional Development of Staff
 - The Department supports the professional development of staff by providing personal and professional growth opportunities. Through these actions, staff members promote a learning organizational culture among all employees.

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | Additional Resource Requests | | | | | |
|-----------|------------------------------|-----------|------|------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 15 | 16 | 1 | - | 3 | 1 |
| Part Time | - | - | - | - | - | - |
| Overtime | - | - | - | - | - | - |

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Service Delivery
 - Opportunity to improve HR partners' profile & organizational understanding of HR roles by encouraging calls for assistance through the HR partners
 - Developing a Performance Management system is a priority initiative
- Training and Education
 - Learning & Development strategy currently in early implementation phases; needs more resources to implement later phases
- Labour Relations
 - Ongoing negotiations with CUPE and VPFFA
- Technology
 - Manual data entry and reporting processes limit available resources
- Strategic Planning
 - The Department continues to move towards a proactive model for Organizational Development and service delivery, facilitated by the HR partners
 - Requires more needs assessments to identify gaps for Learning & Development

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Labour Relations
 - Economic slowdown has impacted the Department's ability to negotiate with bargaining partners
 - Collective agreement renewal – possible strikes – salary compression issues.
 - Outstanding arbitration with Fire Association
- Human Resources Strategy
 - The Implementation of the Human Resources Strategy will require additional resources to deliver the initiatives. There is an opportunity for the City to continue to work towards its goal to become an employer of choice
- Growth Management
 - Population growth continues to strain resources to deliver services
 - VMC and other developments bring unique human resources challenges that do not conform with current collective agreements
- Technology
 - Opportunity to reduce administrative burden through technology and expand value-added business support

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Collective agreement negotiations
- Cost of technological infrastructure, which is partially offset by savings in automation of tasks
- Costs associated with upcoming retirements
- Sustainability of benefits packages

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|--|----------|--------------------------------|
| 2014 Initiatives | | | |
| Become a strategic partner that empowers our people to create a high performing organization | Revise the corporate performance management process as part of a quality work environment | Q1 | |
| | Explore opportunities to develop an HR internal staff survey | Q2 | |
| | Implement the bi-annual Staff Engagement Survey | Q4 | |
| Promote a learning organizational culture | Develop and implement Individual Learning Plans (ILPs) templates to support the L&D Strategy | Q2 | ARR submitted |
| Leverage technology to improve organizational efficiency and effectiveness | Implementation of Attendance Management system for the entire organization (including VFRS) | Q4 | ARR for Funding |
| 2015 Initiatives | | | |
| Become a strategic partner that empowers our people to create a high performing organization | Identify and Develop a Leadership Development Program (internal succession planning) | Q4 | |
| Leverage technology to improve organizational efficiency and effectiveness | Upgrade HRIS infrastructure to support e-recruit Key Features <ul style="list-style-type: none"> ✓ Automate the recruit-to-hire process ✓ Store company-specific information such as applicant test scores or competencies in a user-defined database increase collaboration among Human Resources, managers and recruiters and streamline recruiting. ✓ Use Multi-Skill search to identify qualified applicants and match to jobs ✓ Produce reports over applicant data and demographics ✓ Track costs associated to the hiring process ✓ Quickly convert hired applicants to Employees ✓ Incorporate EnterpriseOne's eRecruit to extend your hiring process to candidates via the Web | Q4 | 1 FTE |

| | | | |
|--|--|----|---------------------|
| Promote a learning organizational culture | Enhance the City's Occupational Health and Safety Program (additional training / supporting departments / auditing) | Q3 | 1 additional FTE |
| 2016 Initiatives | | | |
| Become a strategic partner that empowers our people to create a high performing organization | Procure an actuary/consultant to review future costs and sustainability of benefits packages and retirements | Q2 | External Consultant |
| Improve Staff Engagement | Develop programs that encourage and recognize staff who promotes Vaughan through their leadership in professional and other organizations outside the City. | Q3 | Existing resources |
| 2017 Initiatives | | | |
| Improve Staff Engagement through knowledge transfer | Develop a mentoring program where senior employees are responsible for the professional and personal development of one or two junior/intermediate employees. | Q2 | Existing resources |
| Leverage technology to improve organizational efficiency and effectiveness | <p>Upgrade Position Control Module in JD Edwards to help with the following:</p> <p>Key Features:</p> <ul style="list-style-type: none"> ✓ Track employee activity against position budgets and monitor budget to actuals ✓ Automatically generate next year position budgets from employee data or prior budgets ✓ Incorporate approvals for better control over budget allocation ✓ Project year-end costs for headcount, FTEs, salary amounts and hours ✓ Establish position relationships according to organizational hierarchy | Q4 | 1 FTE |

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|------|-------|-------|----------|---------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Gross Turnover Rate | | 4.39% | 3.18% | | 1.2% |
| Number of Training Days | | | 75 | 100 | 136 |
| Return on Investment for L&D expenditures | | | | | |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Number of city FTEs per HR FTE | | | | 79.4 | 102.3 |
| HR costs per employee | | | | \$328.00 | \$530.00 |
| Labour costs per FTE | | | | \$27,698 | \$28,620.00 |
| Labour cost percent | | | | 34.8% | 49.5% |
| % of employees engaged | 40% | | | 53% | |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| Percentage of engaged employees increase (i.e. % change) | | | | | 13% change |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- Key Performance Indicators will be further evolved through the corporate performance measurement initiative

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Development & Transportation Engineering

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Development & Transportation Engineering Department (DTE) is responsible for the long-range planning of the City's new municipal infrastructure required for the principal Public Works lines of business; transportation, water, wastewater, storm water and solid waste collection service; and the review, approval and construction inspection of all new municipal services assumed through residential, industrial and commercial development in the City.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Residents and business owners in new developments will be provided with well planned, designed and constructed municipal infrastructure (road, sewer, watermain and storm water management facilities) that are sustainable and meet City standards;
2. Development industry will be provided with an expeditious and collaborative engineering review and approval process for development applications within defined service standards;
3. Managed and coordinated expansion of the City's municipal infrastructure in accordance with City standards and policies and good engineering practices to support urban growth;
4. A local transportation network in new development that provides for all modes of sustainable travel while supporting the upper tier government transportation and transit initiatives; and
5. Competent knowledgeable staff that are accessible and responsive to needs of its stakeholders.

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Demonstrate Excellence in Service Delivery
 - DTE Staff undertake comprehensive review of development applications in accordance with defined service standards, facilitating the timely implementation of well-planned, designed and constructed communities.
2. Manage Growth & Economic Well-Being
 - DTE supports growth and economic well-being by reviewing and commenting on development applications and ensuring that new development is adequately serviced by City infrastructure.
 - DTE staff facilitates urban development by working collaboratively with the public, landowners, developers, agencies and upper tier governments.
 - DTE administers the engineering component of the Development Charges and cost recovery agreements
3. Manage Corporate Assets
 - DTE staff ensures the design and construction of new municipal infrastructure meets City engineering standards and criteria, effectively managing the City's linear infrastructure.
 - DTE objective is to optimize the use of existing City infrastructure to support urban growth
4. Lead and Promote Environmental Sustainability
 - DTE staff ensures that sustainability principles and measures are considered in the design and construction of new municipal services.
 - DTE pursues innovative approaches and techniques to address construction related activities

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | | | Additional Resource Requests | | | |
|-----------|-------------|-------------|------------------------------|------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 38 | 41 | 5 | | | |
| Part Time | 0.06 | 0.06 | - | - | - | - |
| Overtime | \$45,422.00 | \$45,422.00 | - | - | - | - |

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- **Staff Resources**

- Reduced staffing level over the last two years has had a significant impact on service delivery and limited the Departments ability to advance new initiatives and projects.
- OMB appeals continue to put strain on key staff in the department
- Additional resources are needed to meet expected service levels, new regulatory requirements and to implement the City's Transportation and Servicing Master Plans.
- Effective teamwork and collaboration within the department is good
- Continuous need for staff professional development to keep ahead of the learning curve associated with new forms of development and regulatory changes

- **Service Delivery**

- DTE assumed the responsibility for the administration of lot grading and pool enclosure permits in July 2013 to facilitate the building permit process and complaint tracking and resolution
- Completed a comprehensive update of the Engineering Design Criteria & Standards document and the Environmental Site Assessment policy to streamline the design and development process.
- The complexity of development applications has increased with the introduction of more intensified forms of development
- Staff is evolving its work processes to be more collaborative and facilitative with the development industry.
- Working to improve communication and collaboration is required for complex cross-departmental projects

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- **Growth Management**

- Transition work processes and staff competencies from traditional forms of residential development (low density) to a higher density/intensification built form
- Realign the City's allocation strategy to reflect growth management in the New Official Plan
- Collaborate with other City Departments and Region to manage and facilitate development in the Vaughan Metropolitan Centre and other intensification corridors
- Implementation of the City-wide water, wastewater and stormwater Master Plans
- Work with upper tier governments to facilitate highway extensions/improvements (Hwy 427, GTA West, 407, etc.)
- Implement the City-wide Transportation Master Plan in partnership with other governments and agencies including facilitating the design and construction of the TYSSE and VivaNext BRT
- Review Block Plans & MESP for Blocks 40/47, 55 and 59.

- Participate in OMB mediation and hearings associated with the City's new Official Plan, Secondary Plans and development applications
- **Continuous Improvement**
 - Enhance current work processes such as subdivision agreements, lot grading and others
 - Be an industry leader by collaborating effectively with internal and external partners and expanding liaison role with external agencies
 - Improve prioritization of tasks and responsibilities to enhance department service delivery
 - Encourage learning, training & professional development opportunities
- **Service Delivery**
 - The complexity of development applications has increased with the introduction of more intensified forms of development
 - Opportunities need to be explored to improve flexibility in approval processes, quality control systems, delegation of duties and administrative processes to realize efficiencies in work processes
 - Respond to future changes in Regional and Provincial policies and legislation

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Need to undertake a comprehensive review of fees and charges related to Development/Transportation Engineering activities to ensure that development pays for development

Work Plan

Business Plan Objectives: *List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.*

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|--|----------|----------------------------------|
| 2014 Initiatives | | | |
| Implement the City's Transportation Master Plan | <ul style="list-style-type: none"> ○ Commence the Class EA for the planned Colossus Bridge, Kirby Road Link, Portage Pkwy extension and Huntington Road widening ○ Commence the preparation of a new City-wide Pedestrian and cycling strategy | Q4 | ARR request for additional FTE |
| Collaborate with other levels of government to continue to support the expansion of the GO System and public/rapid transit | <ul style="list-style-type: none"> ○ Continue to coordinate and facilitate the design and construction of the rapid transit projects and construction of the Spadina Subway Extension and the Highway 7 BRT | Q4 | Existing complement & Consultant |

| | | | |
|---|--|----|--|
| Effectively manage the City's infrastructure | <ul style="list-style-type: none"> ○ Complete the city-wide water, wastewater and SWM master plan | Q2 | Existing complement & Consultant |
| Support the plan to build a dynamic Vaughan Metropolitan Centre | <ul style="list-style-type: none"> ○ Complete the Class EA for the Black Creek Channel ○ Commence the design of the Black Creek SWMP Retrofit ○ Commence the development of a parking strategy for the VMC ○ Coordinate the design of the widening and reconstruction of Millway Avenue north of Applemill Road in conjunction with the YRT Bus Terminal project ○ Work with the Region, MTO and stakeholders to implement the findings of the Highway 7/400 Joint Transportation Study ○ Establish an inter-municipal working group to discuss issues related to high density development | Q4 | ARR request for additional FTE plus existing complement & Consultant |
| 2015 Initiatives | | | |
| Implement the City's Transportation Master Plan | <ul style="list-style-type: none"> ○ Commence the Hwy400/OPA637/GTA West connectivity study in partnership with the Region. ○ Develop a City-wide Transportation Demand Management Strategy for new development ○ Continue to work on the Class EA's for the planned Colossus Bridge, Kirby Road Link, Portage Pkwy extension and Huntington Road widening | Q4 | Existing staff plus consultant and/or contract staff |

| | | | |
|--|---|----|------------------------------------|
| | <ul style="list-style-type: none"> ○ Complete the preparation of a new City-wide Pedestrian and cycling strategy | | |

| Effectively manage the City's infrastructure | <ul style="list-style-type: none"> ○ Update the City's water and wastewater models | Q4 | Existing Complement |
| Support the plan to build a dynamic Vaughan Metropolitan Centre | <ul style="list-style-type: none"> ○ Commence the design of the Black Creek Channel ○ Complete the development of a parking strategy for the VMC ○ Continue to coordinate the design of the widening and reconstruction of Millway Avenue north of Applemill Road in conjunction with the YRT Bus Terminal project | Q4 | ARR request for additional FTE |
| 2016 Initiatives | | | |
| Implement the City's Transportation Master Plan | <ul style="list-style-type: none"> ○ Continue to work on on-going road environmental assessment studies | Q4 | Existing Complement and consultant |
| Collaborate with other levels of government to continue to support the expansion of the GO System and public/rapid transit | <ul style="list-style-type: none"> ○ Continue to coordinate and facilitate the design and construction of the rapid transit projects | Q4 | Existing Complement |
| Support the plan to build a dynamic Vaughan Metropolitan Centre | <ul style="list-style-type: none"> ○ Advance the design and construction of the Black Creek Channel and SWMP | Q4 | Existing Complement and consultant |
| 2017 Initiatives | | | |
| Implement the City's Transportation Master Plan | <ul style="list-style-type: none"> ○ Continue to work on on-going road environmental assessment studies | Q4 | Existing Complement and consultant |

| | | | |
|--|---|----|------------------------------------|
| Collaborate with other levels of government to continue to support the expansion of the GO System and public/rapid transit | <ul style="list-style-type: none"> Continue to coordinate and facilitate the design and construction of the rapid transit projects and construction of the Highway 7 BRT | Q4 | Existing Complement |
| Support the plan to build a dynamic Vaughan Metropolitan Centre | <ul style="list-style-type: none"> Advance the design and construction of the Black Creek Channel and SWMP | Q4 | Existing Complement and consultant |

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|------------------------------|------------------------------|------------------------------|----------------------------|--------------------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| # of executed agreements / FTE | 6.4 | 8.8 | 4.6 | 5.4 | 3 |
| # of site plans and Committee of Adjustment applications per FTE | Dev apps: 25.9 CoA: 172.5 | Dev apps: 30.1 CoA: 133.5 | Dev apps: 24.3 CoA: 183.5 | Dev apps: 31.8 CoA: 180 | Dev apps: 28 CoA: 185 |
| Construction value for processed subdivision agreements / FTE | \$91M | \$57M | \$19M | \$98M | \$49M |
| # of grading permits / FTE | 818 | 768 | 750 | 408 | 618 |
| # of studies / FTE | Eng: 8.5 Trans: 11.6 | Eng: 8.5 Trans: 9 | Eng: 9 Trans: 18.5 | Eng: 9.5 Trans: 21 | Eng: 9.2 Trans: 18.3 |
| # of complaints resolved | 608 | 817 | 543 | 665 | 665 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| SERVICE QUALITY: Is anyone better off? | | | | | |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- Number of executed agreements, site plans, CoA applications, grading permits, and studies per FTE are steady or in decline
- Construction value of processed subdivision agreements continues to fluctuate
- Number of complaints resolved annually is expected to remain consistent with previous years

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Engineering Services

Engineering Services

2014-17 Business Plan

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Engineering Services Department manage the assets that provide the delivery of City services within the roads, water, sanitary sewer and storm water business areas. Infrastructure renewal and replacement is also carried out to ensure the optimum performance of the assets that support these four lines of business. Within the Department, the Traffic Engineering division focuses on the safety of pedestrians, cyclists and drivers on City owned roads, sidewalks and walkways by conducting traffic assessments and managing the traffic signal network, pavement markings and roadway signage.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Manage the municipal transportation network to ensure safe operations
2. Monitor and assess the assets to ensure they are meeting service standards within the business areas of roads, water, sanitary sewers and storm water service delivery

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

1. Manage Corporate Assets
 - Engineering Services is responsible for guiding the development of a Corporate Asset Management Strategy
2. Ensure Financial Sustainability
 - The Department routinely delivers capital infrastructure projects on-time and on-budget
3. Promote Community Safety, Health & Wellness
 - The Department conducts traffic assessments and manages traffic control devices (signals, signs and pavement markings) to promote safe usage of the City's transportation network
4. Demonstrate Excellence in Service Delivery
 - Staff members respond promptly to service requests and inquiries, and are developing proactive approaches to customer service

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | Additional Resource Requests | | | | | |
|-----------|------------------------------|-----------|------|------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 34.33 | 35 | 1 | - | - | - |
| Part Time | 2 | 2 | - | - | - | - |
| Overtime | \$61,230 | \$63,407 | | | | |

Engineering Services

2014-17 Business Plan

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Communication
 - Effective communication within the department
 - Opportunity to enhance communication between departments within the Commission
- Staff Excellence
 - Strong project management systems and skills that target infrastructure renewal/replacement
 - Effective leadership to guide delivery of services within the roads, water, sanitary sewer and storm water business areas
- Strategic Planning
 - Opportunity to improve visioning and developing future priorities to support the four business areas
 - Proper benchmarking with other municipalities is difficult due to resource constraints and limited data

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Technology
 - New technologies will enable improved decision making and more effective service delivery
- Education
 - Explore opportunities to improve public awareness and understanding regarding delivery of services within the four business areas
- Project Management
 - Optimize project prioritization to enhance positive impacts on the community
 - Implementation of the Transportation Master Plan and the Pedestrian and Cycling Master Plan will challenge the Transportation and Traffic Engineering Divisions to create new infrastructure solutions
- Future Infrastructure Needs
 - Asset Management System will require extensive collaboration with a variety of internal stakeholders
 - Providing appropriate infrastructure to accommodate development and intensification will become more difficult in the future
 - Effective planning, delivery, and funding of the capital program continues to be a challenge as linear infrastructure ages and climatic conditions change

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- Further refinement and identification of costs for the Corporate Asset Management initiative & associated impacts on capital and operating budgets
- Future costs associated with asset rehabilitation and replacement are expected to increase
- It is anticipated that there will be reduced availability of gas tax funds for conducting engineering projects
- Develop programs to ensure condition assessment of all linear infrastructure is routinely undertaken

Engineering Services

2014-17 Business Plan

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|---|----------|--------------------------------|
| 2014 Initiatives | | | |
| Vaughan Healthcare Centre | Assist in development of the City lands to create an urban healthcare precinct | Q4 | |
| Effectively manage traffic on the City's roads and sidewalks | Develop and implement programs to improve pedestrian safety | Q3 | |
| | Continue implementation of the <i>Active Routes are the Way to Go</i> program | Q2 | |
| | Develop a program to manage traffic data | Q4 | |
| Develop the Corporate Asset Management Strategy | Obtain Council approval for a specific Asset Management Strategy and implementation framework for this initiative | Q1 | |
| Deliver capital projects on-time and on-budget | Develop and deliver projects in conformity with a multi-year capital budget plan for all City-owned linear infrastructure | Q4 | |
| Enhance customer service | Establish department guidelines for responses to traffic and construction related inquiries | Q4 | |
| 2015 Initiatives | | | |
| Develop the Corporate Asset Management Strategy | Issue RFPs for implementation of Computerized Work Management System and Asset Management System | Q2 | |
| Effectively manage traffic on the City's roads and sidewalks | Report on effectiveness of the <i>Active Routes are the Way to Go</i> program | Q2 | |
| 2016 Initiatives | | | |
| Develop the Corporate Asset Management Strategy | Develop and begin implementation of strategy to address data gaps for asset classes within the Commission | Q4 | |

Engineering Services

2014-17 Business Plan

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|--|----------------------|----------------------|----------------------|----------------------|----------------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Watermain Metallic Pipe Remaining (km) | N/A | 116 | 112.5 | 109 | 107.9 |
| # of Traffic Studies Completed | 205 | 285 | 213 | 300 | 325 |
| Total Capital Budget Expenditures | \$22,197,614 | \$7,433,487 | \$12,735,567 | \$14,000,000 | \$18,000,000 |
| Number of Road Occupancy Permits and Municipal Consents | MC: 187 ROP: 2769 | MC: 172 ROP: 3120 | MC: 195 ROP: 4071 | MC: 238 ROP: 4200 | MC: 240 ROP: 4200 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| % of Budgeted Design Completed Within Current Budget Year | 73% | 91% | 92% | 93% | 95% |
| Final Contract Price as a % of Tendered Price and # of Projects that Exceed Purchase Order | 99% | 104% / 1 | 100% / 2 | 100% / 1 | 100% / 1 |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| Pavement Management Program – Level of Service (PCI score) | 92.22 | 89.28 | 88.19 | 87.13 | 86.44 |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- Continued investment in infrastructure renewal and replacement will be needed to support the delivery of services within the roads, water, sanitary sewer and storm water business areas
- The Department continues to deliver the majority of capital infrastructure projects on-budget and on-time
- The population growth has resulted in an increase in the number of traffic studies, year over year
- The number of ROP permits issued has increased, placing greater demands on managing the municipal right-of-way

2014 Budget Variance Comments

3574 - Rev from Recov. Exp Increase reflects Council Approved user fee rates
3618 - Dept Misc Revenues Increase reflects Council Approved user fee rates

Revenue and Expenditure Summary

2014-17 Operating Budget

| | |
|------------------------------------|---|
| 7010 - Full Time | Decrease due to vacancies |
| 7012 - Overtime | Increase in relation to salaries |
| 7015 - Part Time | Increase due to market adjusted rate increases |
| 7017 - Benefits | Increase in relation to salaries and budget guideline increases |
| 7018 - Benefits - Part Time | Reallocation to Benefits to correct error |
| 7105 - Memberships/Dues/Fees | Reallocation to Meals & Meal Allowances and Computer Hardware/Software |
| 7110 - Meals & Meal Allowances | Reallocation from Memberships/Dues/Fees |
| 7210 - Office Equip. & Furniture | Decrease due to one time funding removal of 2013 ARR |
| 7211 - Computer Hardware/Software | Increase due to reallocations from various accounts, offset by one time funding removal of 2013 ARR |
| 7220 - Copiers, Faxes and Supplies | Reallocation to Computer Hardware |
| 7331 - Contractor & Contract. Mat. | Decrease due to reallocation to Professional fees, offset by price increase |
| 7520 - Professional Fees | Reallocation from Contract & Contract. Mat. |
| 7630 - Wireless/Internet Commun. | Reallocation to Computer Hardware/Software |

Service Statement: (Describe the core responsibilities for your department)

Public Works Administration is committed to providing exceptional customer service and the delivery of concise and accurate information on programs and services to residents, the public, developers, builders and regulatory agencies.

The day time clerical staff support the operations in the principal Public Works lines of business: transportation, water, wastewater, stormwater/drainage and solid waste collection. Our work order system provides investigation and tracking of each inquiry within each division of the Public Works Department. Front line staff conducts the sale of blue boxes, green bins, garbage tags, appliance collection and disposal, bulk water, curb cuts, municipal service connections, culverts and water meters. Staff also performs time entry and process weekly deposits for front counters sales, as well as monies from Vaughan Fire & Rescue Services, Water Turn Off/On, Water Flow Tests and Cafeteria sales. Staff schedule appointments with the public, developers, builders and engineering consultants for such things as: appliance collections, road maintenance issues, water/sewer investigations, account inquiries, testing of existing and new water mains, water meter repairs and replacements, water turn/off, and various other water and sewer related activities.

The After Hours Dispatchers are responsible for answering calls from citizens, York Regional Police, The Region of York and other customers after hours for the Public Works Department and all other City departments. This level of service now covers the answering and dispatching of calls for Animal Control Services including municipalities outside of the Vaughan area (King Township and Bradford).

Service Profile: (Provide the Organizational Chart for your department)

Full Time, Part Time and Overtime – Budgeted Amounts**Administration:**

| | Additional Resource Requests | | | | | |
|-----------|------------------------------|-----------|---------|---------|---------|---------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 4* | 4* | 0 | 0 | 0 | 1 |
| Part Time | 0 | 0 | 0 | 0 | 0 | 0 |
| Overtime | \$1,065 | \$1,097 | \$1,097 | \$1,130 | \$1,164 | \$1,199 |

Included in this section are Director, Manager of Environmental & Technical Services, Supervisor of Public Works Administration and Administrative Assistant

* Admin Supervisor is funded 50% from Admin & 50% from Water/Wastewater

** ARR – Operational Review Analyst

Front Counter & Customer Service:

| | Additional Resource Requests | | | | | |

| Overtime | \$7,128 | \$7,341 | \$7,561 | \$7,788 | \$8,021 | \$8,261 |

* 1 FTE Environmental & Technical Assistant funded from Water/Wastewater Budget.

* 5 FTE's funded from Administration Budget

*** 1 Position is funded 69% from Admin & 31% from Water/Wastewater (as a result of Water/Wastewater Budget approval of conversion of P/T to F/T. As a result P/T compliment has been reduced and is reflected in 2013 Base Budget.**

Key Stakeholders: (list major internal and external stakeholders and briefly describe why they are key stakeholders)

- Citizens
- Mayor and Members of Council
- City Departments
- York Regional Police
- Regional Municipality of York
- ON1Call
- City Contractors
- Developers
- Consultants

Internal Departments

Engineering, Building Standards, Parks & Forestry Operations, Enforcement Services, Fire, Planning Finance, Building & Facilities, Parks Planning, Urban Design.

External

Citizens, PowerStream, Environment Canada, Ontario Ministry of the Environment, Toronto & Region Conservation Authority, Department of Oceans and Fisheries, Ontario Ministry of Labour, Region of York, York Region Health Units, York/Durham Lab, York Region Police, Region of Peel, City of Toronto, York Region Municipalities, Developers, Consultants, Contractors, Ratepayer Groups.

Work Plan:

Link to Vaughan Vision 2020: (list the Vaughan Vision strategic goals which links with the departments core responsibilities)

Service Excellence:

- Deliver Service Excellence through Effectiveness, Efficiency, Economy, Expectations, Education and Engagement
- Demonstrate Excellence in Service Delivery

Future Pressures and Opportunities: (list the initial and future challenges facing the department as well as potential opportunities to improve the business)

Challenges

- Increase in population and demand for increased service levels will put additional pressures on our staff. The introduction of compostable bags and subsequent enforcement for the green program will see an increase in the volume of calls received.
- As the City's Development of residential Blocks become assumed subdivisions, maintenance and service demands will increase for all areas within Public Works Operations. Dispatch will become increasingly busier, unable to sustain the same level of service with one Dispatcher.
- ON1Call Legislation - Has increased the amount of locate requests and the workload to process the requests. The current system is time consuming and there is a wireless program that is being explored that will increase the service level, and create less paper work. Training for Administration and Operations staff will be required. The locate requests require a dedicated staff to administer the daily requests received.
- Currently, there is 1 Dispatcher to administer the ON1Call Locates, answer daily calls through Dispatch, process payments and make appointments for Water Turn Off/On and Water Flow Tests.
- Each point of sale transaction requires a handwritten receipt.

Opportunities

Implementation of improved service delivery and processes to ensure service excellence in daily customer service delivery. This includes the automation of forms, eliminating handwritten receipts, and implementing a wireless program for processing locate requests.

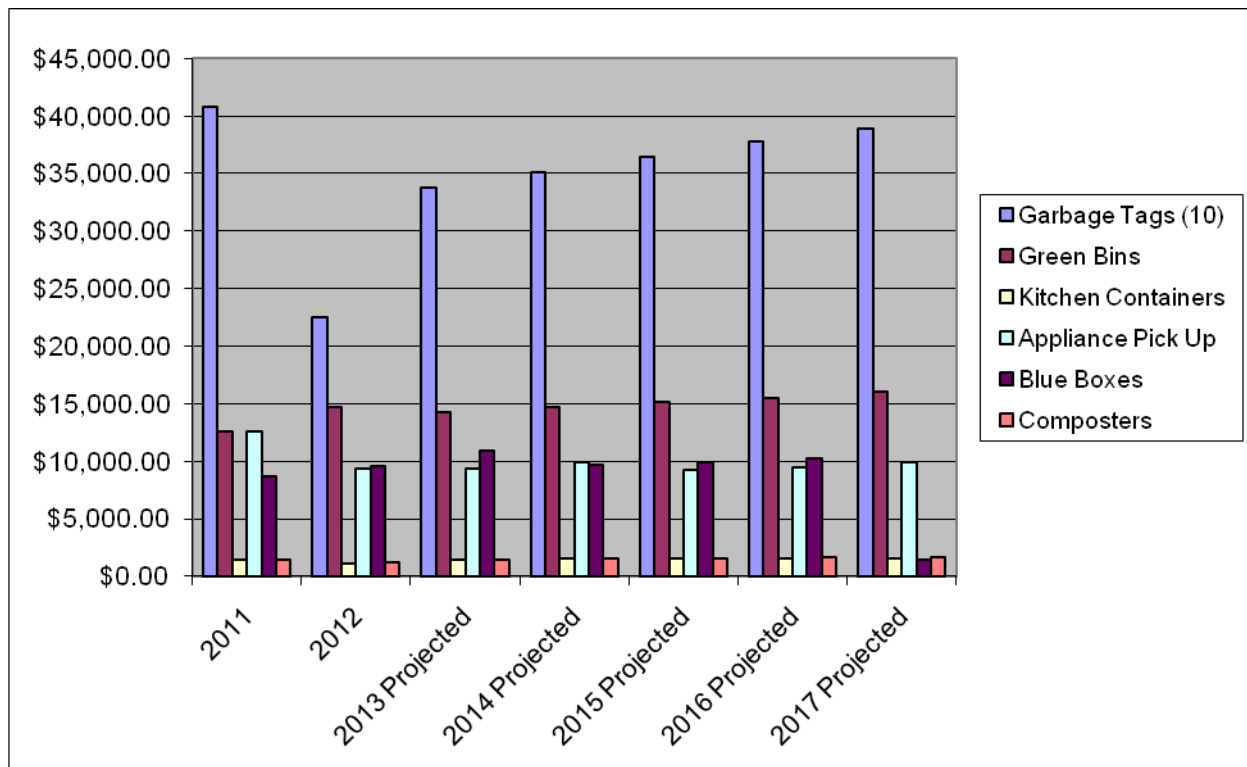

| <u>Business Plan Objectives:</u> | Timeline | Outcome | Resources |
|---|-----------------|--|------------------|
| Streamlining of processes. Implement automated forms and receipts. Implement wireless program for processing locate requests. | 2013-2014 | Automation of customer service delivery to residents. Implementation of automated forms | IT, Purchasing |
| Reduce number of abandoned calls - | Ongoing | Decrease in number abandoned calls | None |
| | | | |

2013-16 Business Plan Objectives: (You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.)

| | | | |
|---|------------------|---|---|
| | | | |
| 2013 - 2016 (Top 3 Objectives) | | | |
| 1. Create Implement the automation of Public Works Service Application Forms | Winter 2013/2014 | Automation of customer service delivery to residents. Implementation of automated forms | Access/Web Based Tools IT Dept. |
| 2. Research and Selection of Point of Sale System and automation of front counter, elimination of handwritten receipts. | 2013/2014 | Automation of customer service delivery to residents. Implementation of automated forms | IT & Finance |
| 3. Research and Selection of automated program for processing Locate requests. | 2013/2014 | Introduce a wireless, paperless program for processing locate requests. | IT & Purchasing |
| | | | |
| 2014 - 2016 (Top 3 Objectives) | | | |
| 1. Map costs of various Public Works activities against funding source and tying into levels of services. | | | Approval of ARR-Operational Review Analyst – Deferred for approval for 2014 Budget Year |
| 2. Add an additional Dispatcher | 2015/2016 | Ensure the service levels and demands are met. | Approval if ARR - Dispatcher |
| | | | |
| | | | |

Key Performance Indicators: (List relevant high level performance measures which provide information on the department's efficiency and effectiveness- focus should validate pressures, support Additional Resource Requests (if any), and assess budget. The Performance Indicators and associated benchmarks should range from 2011 to 2017, with a forecast for the rest of 2013 to 2017).

Revenue
Front Counter Sales & Services – Solid Waste Management

| Blue Boxes | \$8,732.00 | \$9,566.00 | \$10,888.00 | \$9,644.00 | \$9,934.00 | \$10,232.00 | \$1,450.00 |
| Composters | \$1,398.00 | \$1,256.00 | \$1,483.00 | \$1,527.00 | \$1,573.00 | \$1,620.00 | \$1,700.00 |

BUSINESS OVERVIEW:

Notes about the Measure:

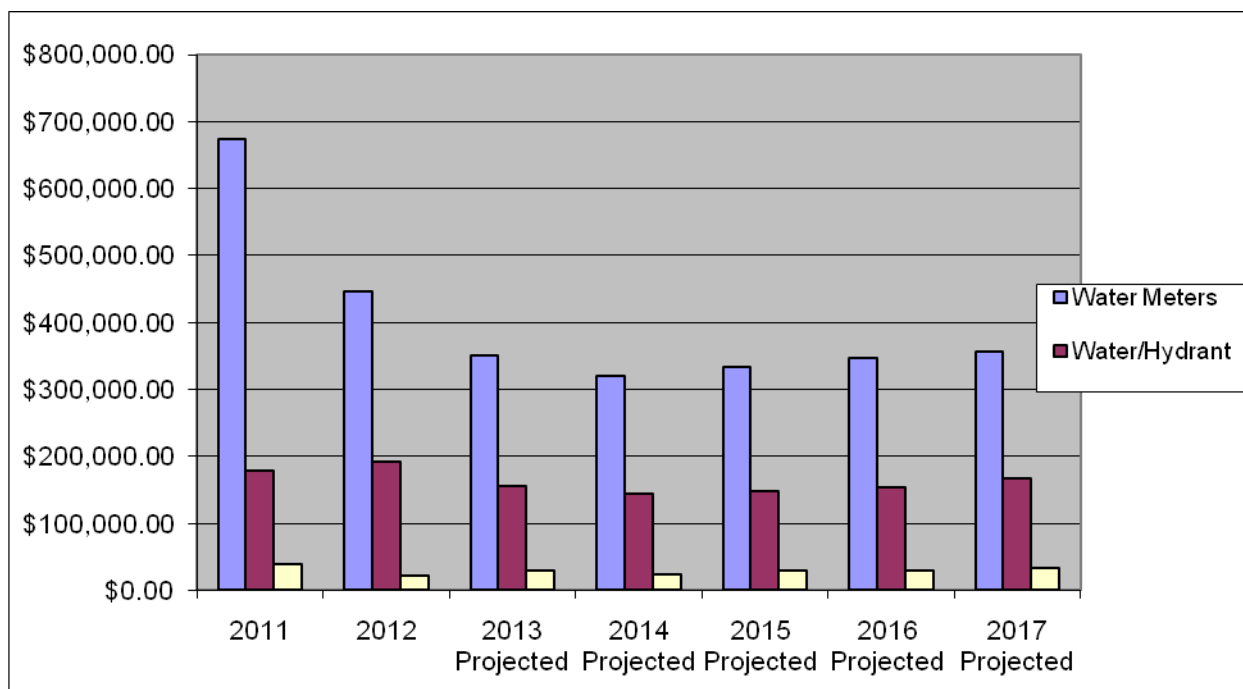

The economy, program maturation (Greening Vaughan) and the opening of the CEC in 2010 have been accounted for. Increase in sales attributed to inflation, increased population and waste generated.

Key Conclusion: (Explanation of the trend on the performance measure graph)

Green Bin and Blue Bin Containers sales at the JOC are down. As of July 2009 the sale of these items was introduced at local community centres, and figures in the graph are reflective of this.

Key Performance Indicators: (List relevant high level performance measures which provide information on the department's efficiency and effectiveness- focus should validate pressures, support Additional Resource Requests (if any), and assess budget. The Performance Indicators and associated benchmarks should range from 2011 to 2017, with a forecast for the rest of 2013 to 2017).

Revenue Front Counter Sales & Service - Water

| | 2011 | 2012 | 2013 Projected | 2014 Projected | 2015 Projected | 2016 Projected | 2017 Projected |
|-----------------|--------------|--------------|----------------|----------------|----------------|----------------|----------------|
| Water Meters | \$674,583.00 | \$446,006.00 | \$350,000.00 | \$320,470.00 | \$333,084.00 | \$346,077.00 | \$356,200.00 |
| Water/Hydrant | \$179,261.00 | \$192,758.00 | \$155,000.00 | \$144,097.00 | \$148,420.00 | \$153,872.00 | \$167,800.00 |
| Temporary Water | \$38,406.00 | \$22,478.00 | \$28,687.00 | \$23,500.00 | \$29,000.00 | \$30,000.00 | \$33,000.00 |

BUSINESS OVERVIEW:

Notes about the Measure: (Provide assumptions/explanation of significant trend variance in the graph)

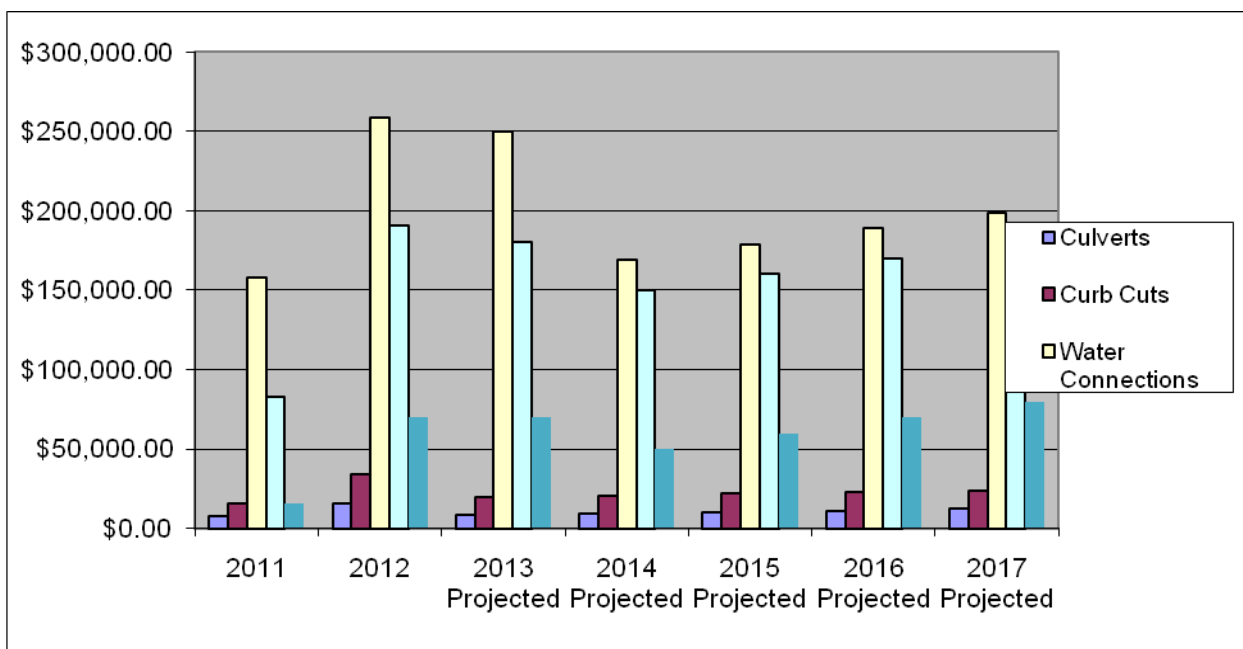

Assumptions are based on population growth and services provided.

Key Conclusion: (Explanation of the trend on the performance measure graph)

Water meter sales are tied into population growth and new home sales. Meter installations are on the decline as a result of reduced sales. Meter installations are on the decline as a result of reduced sales of ground level housing. This is reflective of the decrease in low density housing supply and increase of higher density housing supply.

Key Performance Indicators: (List relevant high level performance measures which provide information on the department's efficiency and effectiveness- focus should validate pressures, support Additional Resource Requests (if any), and assess budget. The Performance Indicators and associated benchmarks should range from 2011 to 2017, with a forecast for the rest of 2013 to 2017)

Revenue
Front Counter Sales & Service – Service Connections
Curb Cuts/Culverts/Water, Sewer & Storm Connections

| | 2011 | 2012 | 2013 Projected | 2014 Projected | 2015 Projected | 2016 Projected | 2017 Projected |
|-----------------------------|--------------|--------------|----------------|----------------|----------------|----------------|----------------|
| Culverts | \$7,300.00 | \$15,419.00 | \$8,108.00 | \$9,108.00 | \$10,108.00 | \$11,108.00 | \$12,108.00 |
| Curb Cuts | \$15,382.00 | \$34,346.00 | \$19,750.00 | \$20,750.00 | \$21,750.00 | \$22,750.00 | \$23,750.00 |
| Water Connections | \$157,988.00 | \$258,781.00 | \$250,000.00 | \$169,000.00 | \$179,000.00 | \$189,000.00 | \$199,000.00 |
| Sanitary Connections | \$82,769.00 | \$190,599.00 | \$180,000.00 | \$150,000.00 | \$160,000.00 | \$170,000.00 | \$180,000.00 |
| Storm Connections | \$15,384.00 | \$69,662.00 | \$70,000.00 | \$50,000.00 | \$60,000.00 | \$70,000.00 | \$80,000.00 |

BUSINESS OVERVIEW:

Notes about the Measure: (Provide assumptions/explanation of significant trend variance in the performance measure graph)

It is anticipated that as more subdivisions are assumed, requests for curb cuts will increase. Water, Sewer and Storm connections are tied into the number of infill or site plan developments.

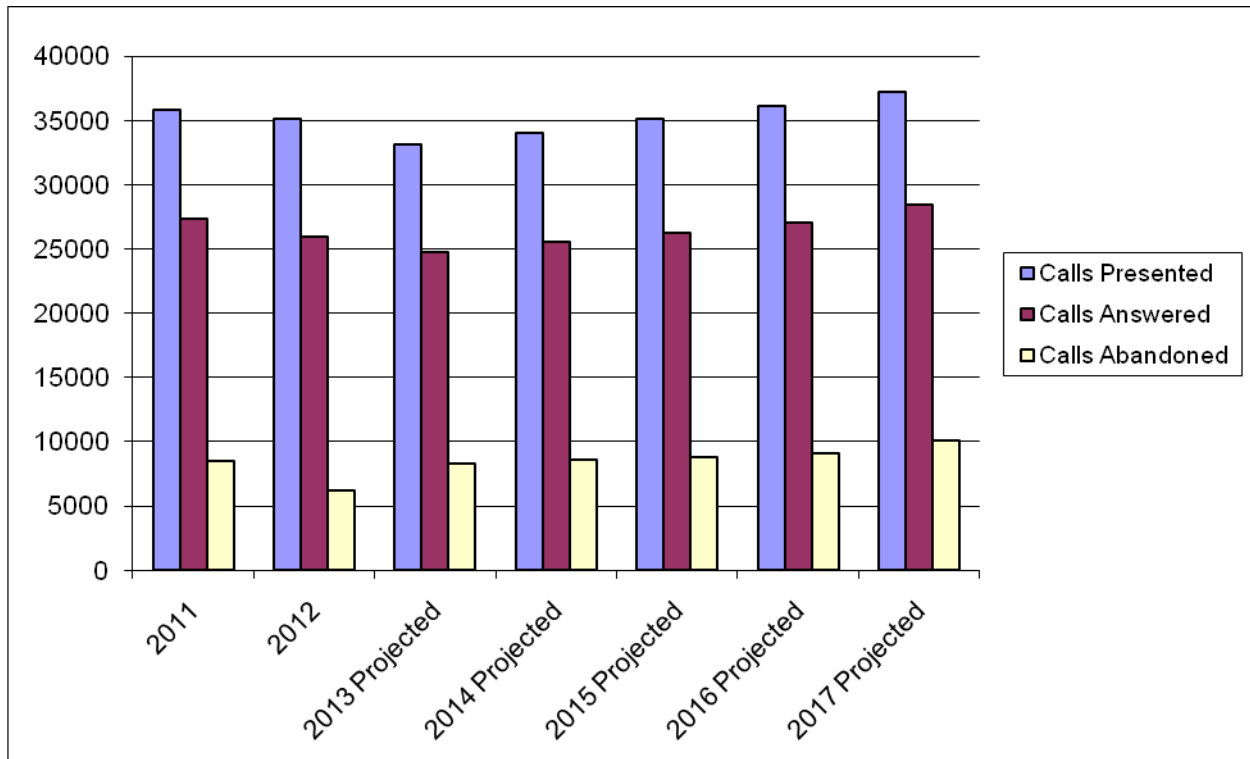

Key Conclusion: (Explanation of the trend on the performance measure graph)

Assumptions are based on population growth and services provided, and are hard to predict.

Urbanization of City and demand for culverts may flatline or decrease. Infill housing is expected to remain consistent for service connections.

Key Performance Indicators: (List relevant high level performance measures which provide information on the department's efficiency and effectiveness- focus should validate pressures, support Additional Resource Requests (if any), and assess budget. The Performance Indicators and associated benchmarks should range from 2011 to 2017, with a forecast for the rest of 2013 to 2016)

Phone Calls Received

| | 2011 | 2012 | 2013 Projected | 2014 Projected | 2015 Projected | 2016 Projected | 2017 Projected |
|-----------------|-------|-------|----------------|----------------|----------------|----------------|----------------|
| Calls Presented | 35803 | 35121 | 33077 | 34069 | 35091 | 36145 | 37250 |
| Calls Answered | 27327 | 25934 | 24761 | 25504 | 26269 | 27057 | 28400 |
| Calls Abandoned | 8476 | 6229 | 8316 | 8565 | 8822 | 9088 | 10100 |

BUSINESS OVERVIEW:

Notes about the Measure: (Provide assumptions/explanation of significant trend variance in the performance measure graph)

Assumptions are based weather, population growth and services provided.

Key Conclusion: (Explanation of the trend on the performance measure graph)

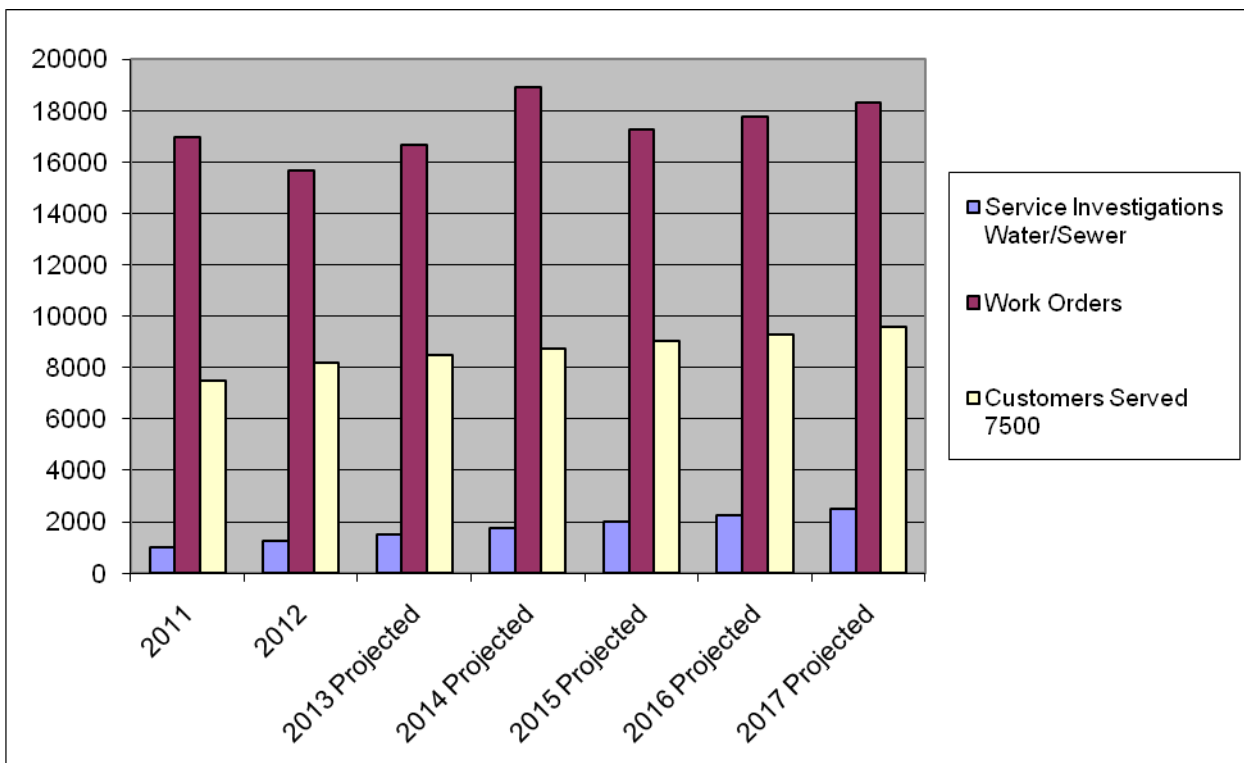

The call volumes have increased significantly since May 1, 2011 as a result of the number of calls being received After Hours for Animal Services related calls and include resident outside of the Vaughan boundary (Bradford and King). 2012 calls increased due to extra snow accumulations over the winter period. These numbers will continue to increase as the population grows and aging infrastructure.

New services introduced for 2012-2013 are payment processing for Water Shut Off/On and Water Flow Test appointments.

Weather, population growth and new services introduced will always dictate to volumes and delays that may be experienced at any given time.

Key Performance Indicators: (List relevant high level performance measures which provide information on the department's efficiency and effectiveness- focus should validate pressures, support Additional Resource Requests (if any), and assess budget. The Performance Indicators and associated benchmarks should range from 2011 to 2017, with a forecast for the rest of 2013 to 2017)

Service Investigations/Works Orders & Customers Served At Counter

| | 2011 | 2012 | 2013 Projected | 2014 Projected | 2015 Projected | 2016 Projected | 2017 Projected |
|------------------------|-------|-------|----------------|----------------|----------------|----------------|----------------|
| Service Investigations | 1250 | 1500 | 1750 | 2000 | 2250 | 2500 | 2600 |
| Work Orders | 15659 | 16645 | 18895 | 17236 | 17753 | 18285 | 19250 |
| Customers Served | 8200 | 8500 | 8755 | 9020 | 9290 | 9570 | 10150 |
| Total | 15659 | 16645 | 18895 | 17236 | 17753 | 18285 | 19250 |

BUSINESS OVERVIEW:

Notes about the Measure: (Provide assumptions/explanation of significant trend variance in the performance measure graph)

Assumptions are based weather, population growth, current and new services provided.

Key Conclusion: (Explanation of the trend on the performance measure graph)

Work orders created and counter customers served will increase as the population grows and service expectations from residents' increases.

Overall Conclusion: (An executive summary providing a clear and concise overview of the performance measures and the general departmental situation)

Funding sources from Administration salaries have been realigned over the past several years to better reflect section activities. For example, staff assigned to water and wastewater activities are funded from the Water and Wastewater Budget. As well, the Supervisor of Public Works Administration is equally funded from the Water and Wastewater budget and taxation, and one Public Works Citizen Service Representative position is funded from the Solid Waste Management Budget.

Activities and demand for service from the public remains consistent and increasing in most areas. These trends are expected to continue in response to a growing population, growing/aging infrastructure, and demand for improved levels of service.

Business Overview

Service Statement: *Describe the core activities and key outcomes and results for your department and how your department contributes to the quality of life of the citizens of Vaughan and/or how your department supports other departments.*

Core Activities: *Describe your regular business functions and responsibilities.*

The Roads Maintenance Division of the Public Works Department supports the Engineering & Public Works Commission's responsibility for Transportation Management by maintaining roads and sidewalks throughout the City of Vaughan in accordance with provincial Minimum Maintenance Standards (MMS) and Vaughan Council Policy. The Division's main objective during snow events is to keep Primary roads clear for emergency and transit vehicles, with operations commencing on Secondary roads upon completion of Primary roads.

Key Outcomes & Results: *Describe the outcomes your department strives to achieve for residents and/or other departments.*

1. Contribute to the cleanliness and safety of all City roads
2. Promote environmental protection and sustainability

Link to Vaughan Vision 2020: *Explain how your department links with the Vaughan Vision 2020 strategic goals and themes.*

Service Excellence:

Demonstrate Excellence in Service Delivery

- *Department Objective:* Provide efficient and effective service delivery within ministry guidelines and standards

Promote Community Safety, Health and Wellness

- *Key Outcome:* Contribute to the cleanliness and safety of all City roads

Lead and Promote Environmental Sustainability

- *Key Outcome:* Promote environmental protection and sustainability

Organizational Excellence:

Manage Corporate Assets

- *Department Objective:* Effectively manage the City's road infrastructure

Staff Excellence:

Support the Professional Development of Staff

- *Department Objective:* Enroll staff in ongoing training and promote certification through industry associations

Staffing Profile: *Full Time, Part Time and Overtime – Budgeted Amounts*

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|-----------|-----------|------------------------------|------|------|------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 39 | 42 | 3 | - | 2 | - |
| Part Time | 6.87 | 6.87 | - | - | - | - |
| Overtime | \$150,074 | \$150,074 | \$150,077 | - | - | - |

Service Profile

Current Service State: *Outline departmental strengths/weaknesses, current challenges or constraints, risk issues and major successes. Where applicable, assess department's ability to meet expected service levels.*

- Staff Excellence
 - Knowledgeable staff, strong leadership
 - Effective training & development programs
- High Service Level & Standards
 - High level of service delivery, including winter operations
 - The department is working effectively within existing resource limitations
 - Operations consistently meet or exceed ministry minimum maintenance standards
- Resource Constraints
 - Infrastructure is aging, requiring funding for key maintenance activities and capital projects
- Policies and Processes
 - The winter maintenance operational review will provide a clear vision for moving forward over the next 5-10 years.
- Communication
 - Communication with other City departments is essential for an operations division. These can be improved through every department understanding the needs of their customers.
 - Enhanced communication with the public to provide information on service levels will be part of the Operational review.
- Technology
 - Service efficiencies and documentation can be realized by updating technology used by the department. Funds have been requested for this.
 - Activity prioritization and tracking can be enhanced utilizing a maintenance management system. This will be part of the City's overall Asset Management Strategy.

Future Direction for the Service: *Outline anticipated constraints, emerging issues, threats and/or potential opportunities to improve the business.*

- Efficiencies
 - Ideas generated through ongoing Continuous Improvement meetings may improve efficiency and reduce costs
 - Operational review of winter maintenance strategies will identify opportunities to improve efficiency and reduce costs that can be implemented in new winter maintenance contract
 - Newer equipment will increase productivity (i.e. acquisition of new gradall excavator will allow ditching to be scheduled and completed in-house)
 - Changeover to high efficiency street lighting will reduce energy consumption
- Service Levels
 - Demand for service consistently exceeds existing resources
 - The size and age of the City's road network are increasing over time
- Legislative Changes
 - Increased threat of litigation over time; environmental and safety regulations present new challenges
- Human Resources/Training
 - Aging workforce will require succession planning and more training for new staff

Financial Impact: *Scope out major financial impacts on the department currently and in the future.*

- With the acquisition of a new gradall excavator, contracted equipment rental costs will be reduced for various activities (i.e. ditching, channel work, grading, material loading)
- Service delivery will have difficulty keeping pace with growth and may require more resources for staffing and equipment, or contracted services.
- Increasing contract and material costs and demand for higher levels of service
 - Cost of road platform maintenance activity contracts continue to rise due to increase in price of asphalt products, fuel and labour
 - Lack of snow storage space in the winter and increased demand for snow removal
 - Winter maintenance contract is entering its sixth winter season (beginning of last two year extension period)

Work Plan

Business Plan Objectives: List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|---|--|----------|---|
| 2014 Initiatives | | | |
| Provide efficient and effective service delivery within ministry guidelines and minimum maintenance standards | Implement computerized road patrol programs – Route Patrol Manager and Winter Route Patrol Manager | Q1 | Capital Funding for software & hardware purchase (approx. \$32,000) |
| Promote environmentally sustainable practices and processes | Implement changeover to high efficiency LED street lighting | Q4 | Consultant and contracted services |
| Effectively manage the City's road infrastructure | Collaborate with Engineering Services to support the corporate Asset Management initiative | Q4 | In-house |
| Ensure service standards are met in an efficient and effective manner | Research and Development Funding for Future CTS Mobile Initiative – Phase 1 | Q4 | Funding request may be submitted |
| 2015 Initiatives | | | |
| Provide efficient and effective service delivery within ministry guidelines and minimum maintenance standards | Prepare and implement new contract for winter maintenance services commencing in November | Q4 | In-house and contracted services |
| Ensure service standards are met in an efficient and effective manner | Pilot Project / Filed Trials for handheld CTS mobile application units – Phase 2 | Q4 | Funding request may be submitted |
| 2016 Initiatives | | | |
| Provide efficient and effective service delivery within ministry guidelines and minimum maintenance standards | Review service delivery following implementation of new winter maintenance contract | Q2 | In-house |
| Ensure service standards are met in an efficient and effective manner | Implementation of CTS Mobility Project – Phase 3 | Q4 | Funding request may be submitted |
| 2017 Initiatives | | | |
| Effectively manage the City's road infrastructure | Review and implement maintenance and rehabilitation program for surface treated roads | Q2 | In-house and contracted services |

Business Performance

Key Performance Indicators: List up to three relevant performance measures which provide information on the department's efficiency, effectiveness and quality of service. The performance indicators should range from 2009 to 2012, with a forecast for 2013.

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|----------------------|----------------------|----------------------|----------------------|----------------------|
| EFFICIENCY: What/How much do we do? | | | | | |
| Number of Winter Events & Total Salt Usage (Tonnes) | 37 Events 30,618T | 35 Events 24,166T | 41 Events 32,000T | 27 Events 20,392T | 43 Events 23,248T |
| SERVICE QUALITY: Is anyone better off? | | | | | |
| Average Response Time (Days) for a Pothole Repair & No. of Pothole Service Requests (SR's) Vs. MMS Response Time of maximum 7 days for a collector road (Class 3) | 4.5 Days 415 SR's | 4.9 Days 193 SR's | 4.1 Days 200 SR's | 4.8 Days 138 SR's | 3.9 Days 100 SR's |

| 2012 Performance | 1 st Round | 2 nd Round | 3 rd Round | 4 th Round | 5 th Round | 6 th Round |
|---|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| EFFECTIVENESS: How well do we do it? | | | | | | |
| Number of Working Days to Sweep Total Lane Kilometres & No. of Sweeping Service Requests (SR's) in Period | 18.5 Days 5 SR's | 24 Days 3 SR's | 20.5 Days 4 SR's | 24.5 Day 4 SR's | 25 Days 1 SR | 25 Days 21 SR's |

Key Performance Indicators Conclusion: Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values.

- Although the number of winter events increased between 2011 and 2013, total salt usage declined significantly (31%). This can be attributed to procedural controls and salt conservation strategies implemented by staff and contractors, and the use of alternative deicing material in place of normal rock salt. Total salt usage will increase slightly with growth in future years, but even with an increase in the number of winter events, overall salt usage should remain relatively constant.
- The average response time to patch a pothole has remained relatively constant or slightly declined over the past five years. Our response time is also well below that dictated by the provincial Minimum

Maintenance Standards (MMS). During the same period, the number of service enquiries for potholes declined by approximately 75%. This decline can be attributed to proactive road maintenance and rehabilitation strategies implemented by Roads and Engineering Services.

- In 2012, the number of days to sweep the City's total lane kilometres remained within the 20 to 25 day cycle or service objective. With the addition of a fifth sweeper to the Roads fleet in late 2013 or early 2014, this sweeping cycle time may be further reduced. In addition, the number of sweeping service requests recorded in JD Edwards for the first 5 rounds of sweeping remained relatively constant; however for the last round, sweeping enquiries spiked as the volume of leaves increased. Service requests or enquires generally relate to the timing of sweeping on a particular street.

Business Overview

Service Statement:

The Solid Waste Management Division of the Public Works Department, supports the Engineering & Public Works Commission's overall responsibility for managing residential waste collection through the following core activities:

Core Activities:

- To ensure effective collection of residential (including limited non-residential and mixed-use establishments) residual waste (garbage) and resource materials (household organics, recyclables large appliances and leaf and yard materials).
- To effectively monitor and evaluate the success of the Greening Vaughan initiative and to assess and develop other programs that may further enhance current programs or provide additional avenues for waste diversion / reduction.
- To inform and involve the citizens (and staff) of Vaughan through ongoing educational and promotional initiatives of the City's comprehensive waste management plan and the waste management priorities as established by the Mayor and members of Council.
- To review site plans circulated from the City's Planning Dept. to the Public Works Dept. to ensure submission meets the requirements set forth in the City's Waste Collection Design Standards Policy.
- To listen, investigate, resolve, and respond to, escalated residents' complaints on matters relating to residential waste collection.

Key Outcomes & Results:

- Ensure the safe and efficient removal of waste
- Promote environmental protection and sustainability

Link to Vaughan Vision 2020:

Service Excellence

- Demonstrate Excellence in Service Delivery:
 - Department Objective: Provide efficient and effective service delivery within Council approved service standards
- Lead and Promote Environmental Sustainability:
 - Key Outcome: Promote environmental protection and sustainability

Staffing Profile:

Full Time, Part Time and Overtime – Budgeted Amounts:

| | | | Additional Resource Requests | | | |
|-----------|-------------|------------------|-------------------------------------|-------------|-------------|-------------|
| | 2012 | 2013 Base | 2014 | 2015 | 2016 | 2017 |
| Full Time | 5 | 5 | -1 | | | |
| Part Time | 1.03 | 1.03 | | | | |
| Overtime | \$4,020 | | | | | |

Notes:

1. FTE includes 4 waste staff plus one Public Works front office staff 'Public Works Customer Service Representative'
2. Assumes no significant program change.
3. 2014 ARR transfer to Water/Wastewater division
4. Additional ARRs may depend on the findings of both the City's Solid Waste Program Review and the Region's Interim Waste Management Plan

Service Profile

Current Service State:

- Service Delivery
 - Knowledgeable staff, strong leadership; good training & development opportunities
 - Survey results indicate that residents very satisfied (over 90%) with waste collection services
 - Staff members are aware of and respond to daily issues effectively
 - Management has a strong relationship with contractors and monitors contractor performance
 - Strong protocols for collections impacted by capital works undertakings and in new subdivisions
 - Deploying two parallel programs for the distribution of blue boxes and green bins is inefficient
- Communication
 - Effective promotion and education program to residents and staff
 - Residents have difficulty differentiating City program from that of Toronto's
- Technology
 - Dependency on external/third party suppliers for hosting various applications or information
 - An electronic point of sale transaction system is needed to improve efficiency
 - Lack of an asset management tool that meets the needs of Public Works
- Resources
 - Lack of resources to develop and implement new programs
 - Waste-related infractions are often not dealt with in a timely manner by Enforcement staff
- Performance Measurement
 - Traditional method of measuring diversion (total tonnes diverted) does not account for light-weighted materials. Consider alternate ways to measuring waste diversion (tonnes per hhd)
 - Ability to meet and maintain expected waste diversion levels (curbside 68%)
- Partnerships
 - Staff are working with the Region on a long term strategy which may impact the City's programs
 - Adapting to the Region's operational changes at their various facilities is challenging
 - Continued efforts to be a resource for Parks and/or Building and Facilities for the development and implementation of waste diversion programs is challenging due to limited resources

Future Direction for the Service:

- Solid Waste Program Review
 - On January 21, 2012, Council recommended a Program Review of Solid Waste Operations to identify further areas of opportunity and/or efficiencies
 - Potential service level changes from the Program Review include increasing the cost of garbage tags, reducing allowable "free" garbage items, eliminating the provision of the 4 annual double up events, reviewing services to multi-residential establishments, implementing a ban on designated electric and electronic waste curbside, alternate service delivery models, and assessing the efficiency of annual Environmental Days
 - Region's Interim Waste Management Master Plan will be incorporated into future Business Plans
- Technology
 - One system for point of sale transactions; elimination of handwritten receipts
 - Appliance appointments are made online
 - Language tool that could translate VOL information to an alternate language

Financial Impact:

- Financial Impacts will depend upon the direction provided by council on the conclusion and findings of the City's Program Review and the Region's Interim Waste Management Master Plan.
- Service delivery is impaired by the backlog of ARRs (i.e. Litter containers at Canada Post mailboxes)

Work Plan

| Department Objectives | Initiatives | Timeline | Additional Resources Required? |
|--|---|--------------------|--|
| 2014 Initiatives | | | |
| Provide efficient and effective service delivery within Council approved service standards | Revise/update Waste Collection Design Standards Policy | Q4/2013 to Q1/2014 | Collaboration with Building Standards, Planning, Engineering |
| | Implement the recommendations of the City's 2013 Solid Waste Program Review and the Region's Interim Waste Management Master Plan | Q4 | Unknown at this time. Dependant upon Waste Master Plan |
| 2015 Initiatives | | | |
| Provide efficient and effective service delivery within Council approved service standards | Continue implementation of the City's Solid Waste Program Review and the Region's Interim Waste Management Master Plan | Q4 | Unknown at this time. Dependant upon Waste Master Plan. |
| 2016 Initiatives | | | |
| Provide efficient and effective service delivery within Council approved service standards | Monitor effectiveness of changes made as a result of the City's Solid Waste Program Review and the Region's Interim Waste Management Master Plan. Implement additional programs as determined by the Interim Waste Management Master Plan | TBD | Unknown at this time. Dependant upon Waste Master Plan. |
| 2017 Initiatives | | | |
| Provide efficient and effective service delivery within Council approved service standards | Monitor effectiveness of changes made as a result of the City's Solid Waste Program Review and the Region's Interim Waste Management Master Plan. Implement additional programs as determined by the Interim Waste Management Master Plan | TBD | Unknown at this time. Dependant upon Waste Master Plan. |

Business Performance

Key Performance Indicators:

| Performance Measures | 2009 | 2010 | 2011 | 2012 | 2013 Estimate |
|---|------|---|--|---|---|
| EFFICIENCY: What/How much do we do? | | | | | |
| Number of households collected | | 83,860 | 84,219 | 85,569 | 87,569 |
| # of Site plan reviews | | Approx. 120 + resubmissions | Approx. 120 + resubmissions | Approx. 120 + resubmissions | Approx. 120 + resubmissions |
| Waste generation rate (tonnes per household per year) | 1.06 | 1.08 | 1.11 | 1.13 | 1.14 |
| # of Works Orders generated* | | 2,829 | 2,560 | 2,300 | 2,249 |
| EFFECTIVENESS: How well do we do it? | | | | | |
| Average response time to service requests | | Same day, but may carry over to the next collection cycle | Same day, but may carry over to the next collection cycle. | Same day, but may carry over to the next collection cycle | Same day, but may carry over to the next collection cycle |
| Diversion Rate(s)** | | Local: 68% Interim: 53% Landfill: 65% | Local: 68% Interim: 63% Landfill: 85% | Local: 68% Interim: 56% Landfill: 63% | Local: 68% Interim: 56% Landfill: 63% |
| SERVICE QUALITY: Is anyone better off? | | | | | |

***Number of Work Orders Generated:** Refers to how many work orders were generated specific to waste management. It is not a performance measure for how well the waste contractor is performing.

****Diversion Rate terminology:**

Local is the capture rate of recyclable curbside materials quantified by incoming weigh scale tickets.

Interim is the Local Diversion Rate reduced by processing loss, based on inbound tonnes to processing facilities.

Landfill includes waste materials taken to Dongara for processing into energy pellets.

Key Performance Indicators Conclusion:

- The diversion rate has remained relatively stable at approximately 68-69% for the past several years
- Although waste diversion has remained steady, average waste generation per household is increasing
- Despite the increase in the number of households serviced, the number of work orders is decreasing. Customer service response time is usually within 24-48 hours.

DRAFT 2014 BUDGET AND 2015-2017 PLAN

Vaughan Public Libraries

Vaughan Public Libraries

2014-17 Business Plan

Business Overview

Service Statement:

VPL Vision: Enrich, Inspire, and Transform.

Core Activities:

VPL Mission: offer welcoming destinations that educate, excite and empower our community.

Key Outcomes & Results:

Empower People, through:

- Meeting citizens' needs
- Promoting the organization and customer service
- Fostering staff engagement

Inspire Opportunities, through:

- Nurturing lifelong learning
- Increasing community knowledge
- Incorporating new technologies

Build Community, through:

- Establishing gathering places
- Constructing new libraries
- Improving accessibility and convenience

Link to Vaughan Vision 2020:

Service Excellence

- Pursue excellence in service delivery
- Administer corporate assets and proactively engage in planning for future amenities
- Promote community safety, health and wellness

Organizational Excellence

- Strive to be a high performing, responsive and innovative organization
- Demonstrate leadership and promote effective governance
- Enhance productivity, cost effectiveness and innovation
- Plan and manage growth and economic vitality

Staff Excellence

- Foster staff commitment to provide excellence in library services
- Support professional development of staff
- Be the employer of choice for library professionals, para-professionals and workforce community in Vaughan

Vaughan Public Libraries

2014-17 Business Plan

Staffing Profile:

Full Time, Part Time and Overtime – Budgeted Amounts

| | 2012 | 2013 Base | Additional Resource Requests | | | |
|-----------|---------|-----------|------------------------------|---------|---------|-------|
| | | | 2014 | 2015 | 2016 | 2017 |
| Full Time | 83 | 83 | 83 | 103 | 106 | 106 |
| Part Time | 67.31 | 67.31 | 67.31 | 85.61 | 91.61 | 91.61 |
| Overtime | \$2,008 | \$6,048 | \$6,048 | \$6,048 | \$6,048 | 6,048 |

Service Profile

Current Service State:

Strengths

- Approximately 47% of Vaughan residents have a library card indicating a strong support for public library services.
- High levels of support for VPL library services reflected in the citizen survey used for creation of revised Master Plan, Active Together
- YTD performance indicators demonstrate increase across service levels provided to Vaughan residents
- Ongoing re-evaluation of collection, programs and services to respond to evolving community needs
- Current and up-to-date with technological advances
- Library initiatives involve collaboration with other City departments

Challenges

- Current library facility space provision service levels per capita below industry standards. Currently, VPL offers 0.39 square feet of library space per capita, falling behind the established industry rate of 0.61 square feet per capita. Ongoing facility construction is key in addressing rapid community growth and evolution
- Providing current and relevant services to Vaughan's growing community

Future Direction for the Service:

Managing Growth

- Population of Vaughan continues to increase at a very rapid rate, increasing demand for services and resources
- Use established library services provision industry measure as a target to accommodate growth

Resources & Facilities

- Construction of branch library attached to the North Thornhill Community Centre initiated and anticipated completion and opening in 2014
- Planning for a Resource Library located in the Civic Centre Campus under way.
- Anticipate two additional library facility projects between 2013-2017 – Vellore Village and Block 11.
- VPL's Board Vision and Plan for future facility development in place
- Technology
 - ♦ Prevalence of social media and electronic communication result in ongoing demand for additional ways to communicate with customers
 - ♦ Constant changes in technology, concerns about digital literacy, e-book publishing challenges have huge impacts on staff and customers

Vaughan Public Libraries

2014-17 Business Plan

- ♦ Ability to meet customer expectations of technological innovations and provide introduction to new technologies
- ♦ Ensuring staff are knowledgeable with emerging technologies

Financial Impact:

- Construction of branch library located in North Thornhill Community Centre pending. Operating budget previously approved.
- Construction of resource library at City Hall pending. Operating budget impact on Civic Centre Library
- Anticipate two additional library facility projects between 2013-2017 – Vellore Village and Block 11. Operating budget impact of future libraries
- Anticipated five to six new library facility projects between 2018-2031. Operating budget impact on future libraries
- Ongoing revitalization of existing facilities between 2013-2031. Operating budget impact on ongoing renovation project.

Work Plan

Business Plan Objectives: (List up to three departmental initiatives and objectives for each year 2014-17 respectively. You can refer to the Strategic Initiatives list, master plans, or other corporate initiatives.)

| Department Objectives & Priorities | Initiatives | Timeline | Additional Resources Required? |
|--|--|----------|--------------------------------|
| 2014 | | | |
| Promote organization and customer service by developing advocacy efforts with key stakeholders | <ul style="list-style-type: none">• Extensive Community Engagement with stakeholders including focus groups and citizen surveys. | Q2 | Existing Operating Funds |
| Investigate new channels for delivering library collections and services | <ul style="list-style-type: none">• Floating collections implemented. | Q1 | Existing Operating Funds |
| Establish Library as a vibrant community place central to community life | <ul style="list-style-type: none">• New branch library attached to North Thornhill Community Centre fully operational; serves as a community hub.• Initiate construction of Civic Centre Resource Library• Conduct feasibility study for branch library co-located in the Vellore Village Community Centre | Q4 | Existing Operating Funds |
| | | Q3 | Approved Capital Funds |
| | | Q3 | Existing Operating Funds |
| 2015 | | | |

Vaughan Public Libraries

Vaughan Public Libraries

2014-17 Business Plan

Key Performance Indicators Conclusion: (Provide an overall conclusion based on the indicators listed above in terms of current and estimated future performance and expected/target values)

Citizens of Vaughan continue to use their public library collections, facilities and services at an increasing rate, recognizing Vaughan Public Libraries as a vibrant community hub. The construction of additional locations is welcomed and much anticipated by the community. A new branch library attached to North Thornhill Community Centre will open in 2014 and a third resource library located adjacent to City Hall is scheduled to open in 2015. A branch library is planned for construction in 2015-2016 as an addition to the existing Vellore Village Community Centre in Block 39, and an additional branch library will be co-located with a community centre in Block 11 with anticipated construction timeline between 2017-2018. Renovations and reconfiguration of existing branches continues to improve efficiencies and increase customer satisfaction.

VPL greatly enhances early literacy development among children with a plethora of early literacy programs, high quality collections, expert staff, early literacy workstations and significant partnerships with schools and daycare centres.

VPL also introduces customers to the transformational power of technology through the provision of next generation equipment, skilled staff sharing expertise, integration of technological innovation to improve efficiency, a vast array of digital resources, and an active presence in social media.

Vaughan Public Libraries embraces a community-led approach to planning and development. Community engagement and collaboration with citizens to identify the unique needs of all user groups in the multifaceted community, contribute to the continued success of VPL. Strategic alliances and partnerships are integral to continuing to meet the needs of Vaughan citizens. The library provides services, resources and technologies that are relevant and of high caliber to a growing and increasingly multicultural community. VPL facilitates new Canadians' transition into Canadian society.

2014, 2015, 2016 and 2017 budget requests will enable VPL to accomplish our annual Business Plan objectives of providing more library facilities for our customers, empowering our staff and improving service to those previously underserved. VPL is firmly committed to continuing its pivotal role in the community improving community success and enhancing the quality of life for Vaughan citizens.

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input checked="" type="checkbox"/> Corporate | | | | | | | |
| Key drivers of satisfaction for callers based on guiding principals are access to accurate and timely information and minimal wait times. The additional 2 PPT will allow Access Vaughan to extend the hours of operation. Synergies and savings by this joint effort whereby we can offer extended hours from 8 am to 8 pm to support Access Vaughan, Public Works, Animals Services and By-law & Compliance. It will allow for a more enhanced service to our residents. Access Vaughan has experienced an increase in call volume and handle time year over year. In 2013 with the addition of 2 PPT staff, A/V was able to increase the overall service level by 5% in the first 6 months and the wait times have decreased by 4 minutes on average. Access Vaughan will require additional staffing to meet the increased call volume and the extension of hours. Access Vaughan Phase II - next stage of integration is Step D with Public Works and By-Law & Compliance - the extension of hours for the call centre. In order to extend the hours the additional 2 PPT are required, in addition we are increasing the Net FTE count for 4 current PPT that are currently at .63 to a .69 to ensure we are able to provide extension of hours without a negative impact to service level. Partially offset by 60K from Strategic Planning, Professional Fees. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | Timelines | Comments | | | | | |
| Access Vaughan Phase II - Step A | Q1 2011 | Parks & Forestry Operations | | | | | |
| Access Vaughan Phase II - Step B | Q2 2012 | Animal Services | | | | | |
| Access Vaughan Phase II - Step C | Q2 2013 | Enforcement - Bylaw | | | | | |
| Access Vaughan Phase II - Step D and E | 2013 / 2014 | Public Works / By-law & Compliance/Animal Services - After Hours/Extensions Hrs | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |
| Department Impacted | Describe Impact (Cost/time/benefit) | | | | | | Were they Consulted? |
| Building & Facilities / Purchasing | Accommodations / Desk Area / Building / New Workstation | | | | | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| ITM | Licensing / Cabling / Telephones / Computers / Set-up / Textnet / CC7 | | | | | | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| Public Works | Time - resources required for the integration with Access Vaughan | | | | | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| Other comments: | | | | | | | |
| Access Vaughan office space will require two additional cubicles to accommodate the additional resource request, new workstations, telephones, wiring, computers, headsets and wiring. Access Vaughan service impacts a variety of departments (Tax, Enforcement, Animal Services, Public Works, Parks & Forestry Operations) and with increasing call volumes, call complexity, handle times and a decrease in service level the overall service that is offered to the integrated departments will be negatively impacted as the caller will experience a longer wait time in queue. | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Citizen Service Representative | | | | |
|--|--|---|---------------------|--|-----------------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| Organizational Goals | Ensure a High Performing Organization | Review and redesign as appropriate, a communications strategy to ensure its effectiveness throughout the organization | 13 | Q4/12 Revised Q3/13* | Medium | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| The corporation has made a commitment to provide service excellence to residents, businesses, community groups and staff. A critical component of this framework is Access Vaughan which was established to ensure stakeholders receive accurate/timely information and communications in an efficient/effective way from courteous/professional staff. Access Vaughan's operating context is to be the consistent corporate voice/face for the significant majority of inquiries. To continue to deliver service excellence for the corporation Access Vaughan requires additional staff to support its significant & increasing use by clients (internal & external). Such resources enable the City to meet its goal of being a high performing organization and meeting its service level target which it can no longer sustain given the workload drivers and existing resources. The ARR staff request will also facilitate the department in supporting the communications strategy initiative (i.e. external component). | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | Monthly Average Service Level | | 80/20 | 70/30 | 80/20 | |
| 2) | Maximum Average Wait Time | | 2 minutes | 11 min | 2 minutes | |
| 3) | Calls Abandoned | | 0.06 | 0.155 | 0.06 | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| The core focus of Access Vaughan is to provide efficient, courteous and correct information to callers and patrons. One key performance indicator is to meet the service level of 80/20 (80% of the calls answered within 20 seconds or less). In year 2011 & 2012 Access Vaughan did not meet the service level for over 5 months and the maximum average wait time for callers was over 14 minutes. Addressing the department's pressures and seizing new opportunities requires the FTE complement be linked with the increasing volume of calls, handle time, integration and extended hours. The key initiatives moving forward are further integration while ensuring that the quality and efficiency of service is improved and extending hours. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Realize Future Benefits |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| User Satisfaction: Service level on a daily basis would be more consistent. Daily service level goal is to achieve 80/20, allowing for most callers to be attended to by a "live agent" in twenty seconds or less. Future Benefits - additional staffing allows for Access Vaughan to continue expansion/integration with departments without negatively impacting the caller experience. Call abandonment rate will be reduced as well as the average maximum wait time for inbound callers. Extending the hours of operation will allow for an enhanced experience/service to our clients. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| No alternatives. Not increasing the staffing complement will run the risk of increasing the wait time for callers, increase in the average maximum wait time and increase in the number of calls abandoned, overall reducing the service level and overall providing a negative caller experience. Further without adequate resources, Access Vaughan faces an increased risk of staff burnout, turnover and work related injuries. By approving the ARR for the 2 PPT, Access Vaughan will be better able to manage risk and retain its skilled staff as well as extend the hours of operation and better support the corporation. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input type="checkbox"/> Departmental <input checked="" type="checkbox"/> Corporate | | | | | | | |
| <p>A senior financial analyst is required in our department to meet earlier deadlines required for monthly, quarterly and annual reporting & to handle the increased volume of financial analysis, general journal entries & financial statement preparation required for the Hydro Companies, Vaughan Business Enterprise Centre and the KBIA. There is a structural employment issue in our area. The department is divided into the Accounts Payable and Accounting areas each under a Supervisor. There is currently one Senior Analyst that provides analytical work for the Tax department but does not support the Accounting department in a major way. This situation forces the manager to become a "doer" & not a Manager. The Manager currently prepares financial statements, prepares the FIR, prepares journal entries, & performs financial analysis because there is no qualified staff to delegate these tasks. Various projects come up from time to time like Systems Improvements & Freedom of Information & Internal Audit requests that our current complement cannot handle without putting other regular work aside resulting in delays to the monthly, quarterly & annual processes & Council and Departmental Reporting.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | | Timelines | Comments | | | |
| Meeting Advanced Deadlines for Annual Financial Statements | | | End of May | | | | |
| Meeting Advanced Deadline for Annual Financial Information Return | | | End of May | | | | |
| Advanced monthly Closing | | | 2nd or 3rd week | | | | |
| | | | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |
| Department Impacted | Describe Impact (Cost/time/benefit) | | | | | Were they Consulted? | |
| All | Advanced monthly closing will impact all departments requiring increased A/P accruals and lack of completeness at year end and a risk that auditors will find unrecorded liabilities which will be relayed to Council in their audit report. | | | | | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No | |
| | | | | | | <input type="checkbox"/> Yes <input type="checkbox"/> No | |
| | | | | | | <input type="checkbox"/> Yes <input type="checkbox"/> No | |

Appendix A - Additional Resource Request Submissions

| Request Title | Accounting Services - Senior Analyst | | | | | |
|--|--|---------------------------------|---------------------|--|-----------------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| This position will allow Accounting Services to "Pursue Excellence in Service Delivery" by meeting & advancing deadlines in future years. Prompt financial reporting allows the City to "Ensure Financial Sustainability" & "Plan & Manage Growth & Economic Vitality". Additional qualified staff will "Enhance Productivity & Cost Effectiveness" in the Accounting Department by relieving the Manager to devote attention to innovation & Public Sector Renewal & by providing qualified staff for the additional tasks added to the accounting services deliverables as well as special projects that come up as a result of internal audit & freedom of information requests. In addition, an additional body could act as a departmental SME in supporting technological innovation that will be occurring in the immediate future ie Point of Sale system implementation, Capital Asset Management integration with the General Ledger, integration of new tax system to the General Ledger & future JDE upgrades. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | No Negative Findings in Auditor's Mgmt Report | | None | None | None | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| The key outcome for the Accounting department is "Effective Accounts Receivable & Payable process & accurate financial reporting. The addition of this position will permit the department to meet additional government mandated reporting requirements on a timely basis, process freedom of information and internal audit requests on a timely basis with minimal effect on monthly process and ensure optimal segregation of duties. An additional analyst will allow the department to respond to future technological initiatives resulting from current initiatives and Public sector renewal. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Leverage Innovation/Creativity |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| An additional analyst can respond quicker to other department requests for Freedom of Information & internal audit requests without delaying the timing of current processes. The analyst will service our internal VBEC client and the Board of Directors of the Hydro Companies by providing timely financial information & feedback. The analyst can function as a SME for the future technological initiatives that will leverage innovation and creativity. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2014 | Output/Service Quantity | | | On time or earlier presentation of Financial Statements to Council | | No |
| 2014 | Output/Service Quantity | | | On time reporting of FIR May 31, 2014 | | No |
| 2014 | Time/Capacity | | | Better value by allowing Manager to focus on PSR instead of F/S completion | | No |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| The status quo is an option but the Accounting Manager cannot do an effective job of managing and developing department staff, implementing process improvement and proactively managing future initiatives if she is the subject matter expert in annual financial statement preparation, monthly journal entry preparation and annual FIR preparation. The department will continue to be reactive to important new initiatives forcing a delay in regular processes and and increased risk of not meeting normal deadlines for monthly and financial processes. With the current work load, staff is burning out and the reduced morale and increased stress level reduces optimal work performance and increases the risk of health issues for our current complement. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| A Full-Time Asset Management Coordinator is required in order to inventory all City buildings' assets. This information will also be easily accessed for PSAB and MPMP reporting. This position will be responsible to gather all inventory data including all maintenance and replacement information that exists on various documents and in various formats across the City, and perform site verifications. Currently, there is no central database or software that houses this information in any one place. Once a Corporate-wide system is adopted, this position will be responsible to collaborate and share information. Until then, a stand-alone process and system is required by this Department. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | Timelines | Comments | | | | | |
| Collect inventory data from available documents and develop classifications | Q3-2013 | Currently, assets and inventories are not stored in a consistent format or location. | | | | | |
| Perform physical verification and obtain additional information at all sites | Q2-2014 | Accurate cataloguing is critical to ensure accuracy for the success of this program | | | | | |
| Ensure information is shared with the various divisions to ensure proper maintenance | Q3-2013 | The various maintenance divisions need to ensure all assets are on their planned | | | | | |
| Obtain software requirements and implement a thorough asset maintenance program | Q3-2014 | An integrated system containing inventories, real-time maintenance data, financial | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |
| Department Impacted | Describe Impact (Cost/time/benefit) | Were they Consulted? | | | | | |
| Budgeting and Financial Planning | Access to and integration of the existing PSAB and LRFP databases | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | | | | | |
| ITM | To assist with development of short-term database during inventorying and cataloging phase | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | | | | | |
| Commissioner of Public Works and Engineering | As the identified Lead in the development of a corporate asset management program, consultation and alignment is necessary for continuity of progress for success in the overall mandate. | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Building and Facilities Asset Management Coordinator | | | | |
|--|---|--|---------------------|--|-----------------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| Organizational Goals | Manage Corporate Assets | Develop and implement a Corporate-wide Asset Management System | 3 | Q2/16 | High | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| <p>ORGANIZATIONAL EXCELLENCE: "Ensure Financial Stability" – A sound asset management system will ensure that assets are cataloged and tracked to achieve maximum lifecycle replacements, and that future budgeting forecasts are accurately provided to Budgeting and Financial Planning. "Manage Corporate Assets" - Through this initiative, Assets and Infrastructure for all City buildings are inventoried and receive the necessary maintenance to ensure efficiencies of equipment and staff effectiveness. SERVICE EXCELLENCE: "Demonstrate Excellence in Service Delivery" – Efficient coordination of asset maintenance and replacements will ensure the residents and all key stakeholders utilizing same can do so reliably and safely. Although the overarching Corporate-wide system is yet to be developed, the Department requires its own stand-alone process to properly operate and maintain the assets it is responsible for. Once the Corporate-wide system is established, the Departments info can be fed in collaboratively to enhance the systems.</p> | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | As this is a new position, performance measures will be developed | | | | | |
| 2) | to establish a baseline, and future targets. | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| <p>The departments' Business Plan clearly outlines a staged-in approach to Asset Management. Beginning in 2013 and continuing through to 2016, a methodical, planned approach is outlined. This includes integration of data, implementation of maintenance through appropriate software, merging information electronically with other departments for efficient access to corporate information through adopted and standardized processes, and training of staff in order to obtain full-value of the system and financial efficiencies.</p> | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Realize Future Benefits | | Secondary | | Improve Corp. Image |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| <p>This technology will house asset information, monitor run times in real-time, generate work orders based on established requirements and produce reports to monitor performance. Through sound asset management, premature failures will be reduced, equipment will operate more efficiently, staff will have the required information to be effective and utilities consumption will be at the minimum possible. The department will have access to the data necessary to ensure performance criteria is met, and that also feeds into the measures in its' business plan for regular review and status reporting.</p> | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2013 | | | | Inventory data will be used to schedule staff work to gain maximum work quantity per shift | | No |
| 2013+ | | | | Longer lifecycle replacements will reduce Capital expenditure requirements | | No |
| 2013+ | | | | Identification of assets will provide for a more accurate and detailed list for budgeting purposes | | No |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| <p>The status-quo is no longer an option moving forward. Individual lists of inventories schedules are not readily accessible, functional for efficiency and are best-guesses when tracking items based on run-time. Records are kept in a variety of formats and locations. The sheer size of the City, with the quantity of buildings and sq.ft. ever increasing, demands a system that is universal across all applications to ensure thoroughness, efficiency and the sharing/transfer of information. Work needs to be done now to start pulling all data sources together as this project will take years to be fully functional and integrated into the day-to-day operations.</p> | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | Facility Operator 1 | | | | | |
|---|-------------------------------------|-------------------------------------|---------------|--|----------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| Service Excellence-Pursue excellence in service delivery. Ensure and enhance community safety and wellness. Management Excellence-Maintain Assets and Infrastructure. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| Name/description of service level target: | | Target Level | Current Level | Level with ARR | | |
| 1) | Number of sq.ft. maintained per FTE | 20000 | 27500 | 20000 | | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Service to key stakeholders will be negatively impacted - Recreation and Culture, residents/facility users, sports groups in Vaughan. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve User Satisfaction |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| This is a service-related initiative to respond to the increased square footage of the addition, and increased patron usage of the new Fitness Center. The full time placement is to assist the existing staff complement with servicing and maintaining the new Fitness Expansion. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| No, as more buildings are brought into ownership of the city, the existing staff complement cannot dedicate any more work time without serious service loss to existing buildings. | | | | | | |

| Associated Capital Costs | \$ - | \$ - | \$ - | \$ - | \$ - | \$ - | \$ - |
| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>This maintenance request is essential for the interior and exterior sections of City buildings. There are over 60 buildings across the City that can be occupied daily. These aging buildings require frequent repairs so that there are no delays in the everyday operation of the building. Unplanned maintenance repairs to the pools, arenas, fitness centres can result in a loss of revenue to the Recreation Department and cause major inconvenience to the residents. Other key stakeholders at City buildings can also be negatively impacted. There are constant requests by the public to repair/update the older buildings. These are individual projects and when they occur and are identified, are under the threshold amount for Capital requests, and when treated as a repair there is no ability to forecast one year + in advance. As indicated in the department's Business Plan, current pressures are funding levels for infrastructure repair and replacement, accessibility upgrades, and maintaining current standards and services.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | Timelines | | Comments | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |
| Department Impacted | Describe Impact (Cost/time/benefit) | | | | | Were they Consulted? | |
| recreation department | loss of revenue, dissatisfied residents will take their business elsewhere, improvements will increase program usage, and less downtime | | | | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | |
| | | | | | | <input type="checkbox"/> Yes <input type="checkbox"/> No | |
| | | | | | | <input type="checkbox"/> Yes <input type="checkbox"/> No | |
| Other comments: | | | | | | | |
| Increase in the budget will allow for programmed and pro-active minor enhancements, and short-notice repair projects to occur with the intended goal of an increase in revenue. | | | | | | | |

Appendix A - Additional Resource Request Submissions

| | | | | | | |
|---|---|--|---------------------|---|-----------------------|---|
| Request Title | Building and Facilities City-wide Maintenance and Repairs | | | | | |
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| Service Excellence- Demonstrate Excellence in Service Delivery. If we are able to maintain our facilities at a high level the public's satisfaction will increase and complaints will decrease. Organizational Excellence - Manage Corporate Assets. Programmed and pro-active repairs ensure longevity of assets and reduce future Capital expenditures. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | customer service-service quality, customer satisfaction | | high | medium to high | high | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Implement Electronic Work Order System into the Facilities, • Infrastructure Repair and Replacement with Limited Funds • Maintaining current standards and services with limited resources • Accessibility Modifications- new accessibility requirements requiring funds for low-cost modifications | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Sustainability |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Safe, clean and rejuvenated facilities will experience increased use. Repairing and updating increases the lifespan of the amenities. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2013 | | | | Cannot define a cost. Future Capital funding will be reduced by performing minor enhancements and repairs increasing lifecycles | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>The Building and Facilities department administration section scope of work has increased over the years due to growth and demands and continues with future expansions needs. The administrative section compliment has remained the same and continues to be performed by one full time staff and one part time staff. There has been increase in buildings, maintenance, construction, security issues, staff needs, dispatch duties, responding to residents and staff inquires, processing of work orders, purchase requisitions and filing. This workload is impeding staff to perform the regular duties and affects the level of service provided and increase in overtime. This position is required asap as there is not sufficient staff to perform the duties and to allow for staff to maintain appropriate service levels and security to resident, users, and staff appropriately. This position will also be providing clerical services to the staff involved in construction projects, performing minute taking, facilitating correspondence, scanning and filing of construction documents and record-keeping.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | Timelines | Comments | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |

| Request Title | Clerk Typist A | | | | | |
|---|---|-------------------------------------|---------------|---|--------------------------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| Service Excellence - Demonstrate excellence in service delivery; As the City continues to grow in the quantity of buildings and staff, Work Orders for service are increasing proportionately. The ability to process these in a timely fashion, and input the data upon completion is being delayed. Organizational Excellence - Manage Corporate Assets; Logging of information pertinent to record-keeping on the City's buildings is critical for proper maintenance, repair and risk management. The current resources cannot maintain this workload. Staff Excellence - Attract, Retain and Promote Skilled Staff | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |

| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Service levels and security issues will impact the operation of City wide departments and buildings. • Maintaining current standards and services with limited resources has been identified as a present and future pressure. Number of Work Orders per FTE is a measure that is to be developed, and this will demonstrate over time the volume increase. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| | Primary | Improve Corp. Image | Secondary | Improve User Satisfaction | | |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Timely response to Work Orders is critical to the successful operation of all City Departments' efficiency and effectiveness. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | Incl. in offsets (Section #9)? | |
| 2014 | | | Units | save on overtime and additional Part-time hours | | |
| 2014 | | | | Providing clerical services to staff will clear time for better attention to their projects | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| No, there are not sufficient staff resources to perform this duty. Existing staff complement cannot dedicate any more time without serious loss to existing services or overtime being expended. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>The mechanical/electrical and plumbing systems in the new City Hall and other City buildings are becoming more complex as technology increases. The City currently has only one Part-Time position to handle the broad range of the associated maintenance, operation, troubleshooting, training and guidance to maintenance personnel. It is proposed to have this position become Full-Time in order to safely and efficiently ensure that these systems and assets are operated and maintained appropriately. The mechanical engineering consultants, and the mechanical contractor for the new City Hall strongly encouraged the Building and Facilities Department to employ an individual who is a qualified Stationary Engineer for the overall control of the building.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | Timelines | | Comments | | | |
| Review, enhance & implement a thorough Preventive Maintenance Program | | Q4-2013 | | A single source of documents that encompasses all PM requirements | | | |
| Develop a complete Operations Manual for all systems at City Hall | | Q1-2014 | | A guidebook for training and reference, for contractor referencing and succession staff | | | |
| | | | | | | | |
| | | | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |

| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| ORGANIZATIONAL EXCELLENCE - Manage Corporate Assets. STAFF EXCELLENCE - Attract, Retain & Promote Skilled Staff. SERVICE EXCELLENCE - Demonstrate Excellence in Service Delivery, Lead & Promote Environmental Sustainability. Without this position, the City's assets cannot be fully and reliably maintained for day-to-day efficiency and ensure that full life-cycles are achieved. Maintenance and operation of the City's buildings' infrastructure systems are critical to the reliable, safe and efficient operation of these complex systems. Only a skilled tradesperson who has the skills, training, credentials and experience on these diverse systems can competently maintain and operate these systems to full efficiency and standards. Maintenance personnel require regular training and monitoring to ensure that appropriate maintenance, recording and reporting is completed on a regimented, scheduled basis. The inter-connection of today's systems both mechanically and technically require overseeing by a properly educated and skilled position (i.e. Stationary Engineer). | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | As this is a new position, baselines need to be established, and | | | | | |
| 2) | performance measures be developed. | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| The costs relating to maintenance of the City's buildings is not insignificant. In order to maintain minimal budget increases as the infrastructure ages and costs of materials and supplies increase, opportunities for efficiencies must be enacted. This can be done through thorough maintenance programs that will reduce premature failures, increase staff efficiency, and keep equipment finely-tuned to reduce run-times and verify that systems are operating at peak efficiency, thereby reducing utilities consumption. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve Sustainability | | Secondary | | |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| A preventative maintenance program provides for assurances that life cycles of equipment and assets are met. Maintenance will be performed exactly when required, and not over-done which may result in wastage of supplies and labour. Utilities will not be overused through unnecessary run-times and equipment that is running inefficiently. Staff who have a clear outline and direction will not feel overburdened in their workload, and accomplish more tasks per shift eliminating back-logs of duties. Staff working in the building will have a safe and reliable environment. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2013 | | | | Skilled staff can perform the tasks quickly and efficiently. | | No |
| 2013 | | | | Existing staff will be able to have more time to maintain other City buildings appropriately. | | No |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| By utilizing contractors to perform regular testing and maintenance we pay a premium for their services over the cost of having employees perform those tasks. Staff performing the tasks must be educated and trained and that is best served by a person(s) who are on the same jobsite and have the responsibility and authority to ensure service levels are met. When contractors are required it will only be done after thorough troubleshooting and diagnostics are performed in order to minimize contractor labour, and ensure that the correct repair/replacement materials are brought to the site to minimize downtime and any disruption to the core business. Currently this does not happen in the majority of cases. The staff who are performing the routine maintenance tasks are often performing it on overtime, as they have their regular scheduled duties to perform and so as not compromise the service to other buildings and their users. | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Facility Operator 1 | | | | |
|--|---|-------------------------------------|--------------|---|----------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| Service Excellence-Pursue excellence in service delivery. Ensure and enhance community safety and wellness. Management Excellence-Maintain Assets and Infrastructure. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | | | | | | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Sustainability |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| This is a service-related initiative to respond to the increased square footage of the addition, and increased patron usage of the new Facility. The full time additions are to ensure the clean and safe opening of this new user friendly Facility. They will service and maintain the needs of all users and staff. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2016 | | | Units | overtime not required as staff are able to maintain the facility. | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| No, as more buildings are brought into ownership of the city, existing staff complement cannot dedicate any more time without serious service loss to existing buildings. | | | | | | |

| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| Upon completion of the new Multi Purpose/Double Rink Facility Block 11, an additional Assistant Foreperson is required to ensure proper operation of this new addition. This new building is an additional 150,000 square feet matching the Al Palladini C.C. This position is required to formulate the Daily Duties, Preventative Maintenance Programs, Risk Managemnt Program, Pool Training, Olympia and Compressor Training etc. This position is requested to be full time and on going. This will allow for staff to maintain appropriate service levels to the residents, users and maintain the building appropriately. | | | | | | | |

Appendix A - Additional Resource Request Submissions

| | | | | | | |
|---|--|---|---------------------|--|--|---|
| Request Title | <div style="border: 1px solid black; padding: 2px;">Assistant Foreperson</div> | | | | | |
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| Service Excellence-Pursue excellence in service delivery. Ensure and enhance community safety and wellness. Management Excellence-Maintain Assets and Infrastructure. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | | | | | | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| | Primary | <div style="border: 1px solid black; padding: 2px;">Improve Corp. Image</div> | | Secondary | <div style="border: 1px solid black; padding: 2px;">Improve Sustainability</div> | |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| This is a service-related initiative to respond to the increased square footage of the addition, and increased patron usage of the new Facility. The full time addition is to provide service excellence and to oversee the daily operation of the new Facility. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2016 | | | Units | preventative maintenance program and daily duties will assist for a safe operation | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| No, as more buildings are brought into ownership of the city, the existing staff complement cannot dedicate any more time without serious service loss to existing buildings. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| In Jan. 2011, Building and Facilities assumed the duties of administering and programming and maintaining of card access for the City. This includes managing, processing and code programming security levels, id cards & photos city wide. This duty had been performed by 2 full-time staff persons in the Human Resources Department. No additional staff was provided to Building and Facilities. Currently this requires the Building and Facilities Superintendent and the Buildings Manager to perform these duties in addition to their regular workload. This position will process card access modification requirements, ensuring security processes are not compromised. The position is required to protect the City from security threats that are inherent with loss of card and/or keys and staff no longer employed. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | | Timelines | Comments | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |

|--|---|-------------------------------------|--------------|--|----------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| Service Excellence-Pursue excellence in service delivery. Ensure and enhance community safety and wellness. Management Excellence- Maintain Assets and Infrastructure. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | | | | | | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Service levels and security issues will impact the operation of City wide departments and building. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve Corp. Image | | Secondary | | Improve User Satisfaction |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2013 | | | Units | More timely response to security modifications | | No |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| No, there are not sufficient staff resources to perform this duty. Existing staff complement cannot dedicate any more time without serious loss to existing services or overtime. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| A Senior Capital and Reserve Analyst will be required to support additional capital division workload and complexity resulting from the growth of the City (PSAB asset inventory, statement reporting, reserve & debt planning, funding strategies, etc). In addition, the City is undertaking the VV2020 Asset Management strategic initiative, which will involve major changes to business processes and require integration with capital planning and ERP accounting systems for budgeting and financial reporting purposes. In addition, there are a number of initiatives underway e.g. performance measurement, forecasting, VMC, etc) that will place pressure on processes and reporting requirements. As a result it is anticipated that a resource will be required in 2016. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | Timelines | Comments | | | | | |
| Corporate Asset Management System | 2016 | | | | | | |
| | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Senior Capital and Reserve Analyst | | | | |
|--|---|--|---------------------|--|-----------------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| Organizational Goals | Manage Corporate Assets | Develop and implement a Corporate-wide Asset Management System | 3 | Q2/16 | High | General Correlation |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| This request directly linked to the Vaughan Vision 2020. A capital analyst will be required at the end of the project to assist with the integration of the asset management system to the ERP Accounting program for annual financial reporting purposes and continued PSAB compliance. In addition, the capital portfolio group will need to be expanded to continue servicing corporate departments efficiently and effectively with building and refining capital projects, multi-year capital plans, reserve funding forecasts, collecting and maintaining tangible capital asset inventory and developing asset renewal plans. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | Tangible Capital asset Growth. (Billions of assets) | | 8.9 | 7 | N/A | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| PSAB system enhancement planned for 2015 will result in improved information/efficiency. Tangible Capital Asset Inventory has been growing and is expected to grow at 6% per year and an additional senior capital reserve analyst will be required at the end of the corporate capital asset management project to handle the maintenance of the assets without a loss in efficiency. This additional capital analyst will be required at the end of the project to assist with the integration of the asset management system to the ERP accounting program for annual financial reporting purposes and continued PSAB compliance. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Sustainability |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Adding a complement will better align staff workloads and improve efficiency and effectiveness, better positioning the department to meet key objectives of PSAB system enhancement. Meeting these objectives will provide better information for department, SMT, Committee, and Council decision making. In addition, the added resource will better position the department to focus on department needs and assist them in the capital budget and asset management process. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| There isn't an alternative. Diminishing service levels is not recommended. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| This request is for a Budget Analyst to support future pressures and a corresponding increase in activity complexity. Over the past number of years there has been constant pressure to evolve the budgeting activity, which includes multi-year budgeting, corporate planning process, program review, asset management, consolidated budget book, user fee costing, more in-depth analysis, reporting, and adhoc projects. In addition, historical statistics illustrate staffing additions occurred on a four year cycle, which correlates with the City's operating budget size and complexity. This trend is expected to accelerate based on the rapid evolution of department based demands. This request is to support the anticipated future demand in this division allowing it to focus on department needs and assist them develop financial plans. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | Timelines | Comments | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | Sr. Budget Analyst | | | | | |
|---|---------------------|-------------------------------------|---------------|--|----------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| Name/description of service level target: | | Target Level | Current Level | Level with ARR | | |
| 1) | City Budget per FTE | 32m/FTE | 34m/FTE | 29m/FTE | | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| The department business plan speaks to the number of escalating objectives and illustrates City budget dollars & submissions per FTE trends. Its important to note the above measure serve as an indicator of workload and ensuing complexity. Although not a perfect measure there is a correlation between these trends and the timing of staffing requests due to workload. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Adding a complement will better align staff workloads and improve staff moral, efficiency and effectiveness, better positioning the department to meet key objectives i.e. multi-year budgeting, financial reporting, more in-depth analysis, greater department assistance, etc. Meeting these objectives will provide better information for department., SMT, Committee, and Council decision making. In addition, the added resource will better position the department to focus on department needs and assist them develop business and financial plans. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| One alternative is to continue with the same level of resources, which will inadvertently erode service levels, increase staff frustration, compromise product and service quality, and risk achieving department and strategic goals. | | | | | | |

1A) Request Description: Please provide a brief description of the request.

Please check one: ☒ Departmental ☐ Corporate

The Additional Resource Request is for an additional Plans Examiner (Zoning) who will be responsible for high volume processing the department's zoning comments and clearances for Site Plan Agreement and Committee of Adjustment Applications.

In order to continue to provide services to internal departments, particularly Planning, it is necessary to incorporate a zoning plans examiner that is dedicated to the review of site plan applications and amendments as well as Committee of Adjustment applications. The complexity of current applications such as applications in the Intensification Areas, TTC lands, and applications within the Vaughan Metropolitan Centre, all of which are Council priorities, has seen response times to site plan developments applications where detailed zoning input is required increase dramatically. There is a high volume of workload that is expected to continue. As a result of the increase in high rise mixed use applications it has now become necessary to allocate specific resources to complex high rise mixed use development applications.

1B) If this request is part of a project with multiple milestones then please fill in the following table:

| Milestones or Deliverables | Timelines | Comments |
|----------------------------|-----------|----------|
| | | |
| | | |
| | | |
| | | |

1C) Impact on other departments (cost/time/benefit):

| Department Impacted | Describe Impact (Cost/time/benefit) | Were they Consulted? |
|----------------------|---|---|
| Development Planning | Maintain turn-around times for Department's comments respecting Site Plan applications. | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| Clerks | Maintain turn-around times for Department's comments respecting Committee of Adjustment applications. | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| | | <input type="checkbox"/> Yes <input type="checkbox"/> No |

Other comments:

This Additional Resource Request indirectly affects the ability of the Development Planning and Clerk Departments to meet their application processing time-frames.

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| To develop a specialized position required for sustainable service delivery in the By-Law and Compliance Dept. Reporting to the Director of By-Law & Compliance, the Business Analyst / Policy and Research Co-ordinator will be responsible to co-ordinate, research, develop and implement policy, prepare and write by-laws, amendments and related reports, prepare Council and Committee reports, develop business processes, assist in development of strategic plans through research and analysis, develop and sustain quality assurance initiatives for improved service delivery, assist in developing training for staff for a highly skilled workforce, prepare Council reports, coordinate public consultation process, develop and implement public education and outreach campaigns for sustainable long term service delivery in support of the goals and objectives of the department and the Corporation as a whole. While this newly proposed position will facilitate significant improvement of By-Law and Compliance services delivery model, the service improvements will be realized on a more global platform due to the direct linkages with various other departments, legal and admin services; and Council as a whole. Approval of this request will provide a specialized position, will realize immediate improvement and efficiencies by re-aligning required tasks currently undertaken by a City solicitor, allowing relief for more effective use their time. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | Timelines | Comments | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |
| Department Impacted | Describe Impact (Cost/time/benefit) | | | | | Were they Consulted? | |
| Legal | Currently much of the analysis, research and report writing is conducted by a solicitor in addition to other duties. | | | | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | |
| City Clerks Dept | Many of the linkages between the two departments include mutual benefits that can be realized; and are currently addressed by using by-law and compliance staff to assist in the Clerk's dept. | | | | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | |
| Any other depts | Linkages between By-law and Compliance exist with most depts including but not limited to Planning, Building Standards, Engineering Services, etc... adoption of this position can provide a "shared" resources in circumstances that require the attention of | | | | | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No | |
| Other comments: | | | | | | | |
| Though the position will report directly to By-law and Compliance ("B&C"), as new by-laws and regulatory policies are established in support of Vaughan Vision 20/20, ("B&C") must continually develop supporting strategies through research and analysis, development of community trends to identify current and future service needs, develop public education and outreach initiatives, undertake review of current by-laws for suitability and relevance to ensure effective, efficient, economical and sustainable service delivery to match increasing demands of our ever growing communities. | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Business Analyst Policy and Research Coordinator | | | | |
|---|--|--|---------------------|--|-----------------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| As new by-laws and regulatory policies are established in support of Vaughan Vision 20/20, B&C must continually develop supporting strategies through research and analysis, development of community trends to identify current and future service needs, develop public education and outreach initiatives, undertake review of current by-laws for suitability and relevance to ensure effective, efficient, economical and sustainable service delivery to match increasing demands of our ever growing communities. This requires a specialized discipline, including the dedicated resources, internal investment and commitment necessary to undertake and implement goal oriented strategies. This role is vital in ensuring that Council is provided highest quality recommendations, supported by comprehensive analysis of any matter brought forward. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | Service Standard Responses | | 100% | less than 70% | | |
| 2) | Number of Service Request completed per annum | | 90% | 90% | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Throughout the 4 year departmental business plan, current and future commitments, this position is vital in ensuring mandates are met and improved service delivery to the community and Council is realized. Key function of the position will include quality assurance, including establishing benchmarks, trend and data and performance analysis to ensure progression, tracking and monitoring of all program functions and initiatives. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Sustainability |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| With the vastly increasing calls for service and related demands associated with corporate strategic initiatives, expected to double from a current 6700 to a projected 13,000+ calls for service by 2016 greatly outpacing the departments ability and resource capability to sustain service, this proposed position will play an vital role in achieving broad based benefits, through partnering and supporting sister departments for mutual gains, ensuring continued development of staff and will be functionally reliant in sustaining an improved service delivery model more in line with the City's expectations of Service Excellence, Staff Excellence and Management | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2014 | Time/Capacity | | | More effective use of existing resources (eg Solicitor) | | |
| 2014 | Time/Capacity | | | More effective use of existing resources (eg By-law and Compliance Enforcement Officers) | | |
| 2014 | | | | More effective use of existing resources (eg By-law and Compliance Management staff) | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| There are no equivalent alternatives. The position is vital in supporting the 4 year departmental business plan. Not realizing this minimal resource will have negative impact on the departments abilities to sustain current service delivery, adding to continued increased erosion of services. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>Currently, all calls after 4:30 pm and on wknds are directed through Public Works after hours dispatch up until midnight, and by an external answering service. Though we have partnered with Access Vaughan to maximize our cleint service delivery during daytime core hours, information provided by after hours by dispatch, is limited. The additional 2 FTE's will allow By-law and Compliance (B&C) to extend the hours of operation for recieving calls (eg: to 8 pm in line with Access Vaughan potential expanded services). This service level enhancement offers improvements in resolving issues at our point of contact, providing callers with more relevant and detailed information (public education), assisting in triaging priority calls (eg: urgent priority calls) for improved responsiveness, and will work more closely with Public Works dispatch to explore opportunities to reduce related call volumes; potentially realizing a benefit of dispatch resources being better utilized. The improved services would included data entry of case files in real time providing a measureable performance indicator and improved tracking, currently not being realized through our dispatch/answering service. Additionally can be used for improved client service and coverage at the Animal shelter (eg vacations, illness, etc..).</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | Timelines | Comments | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |
| Department Impacted | Describe Impact (Cost/time/benefit) | Were they Consulted? | | | | | |
| Public Works | Reduction in call volume to dispatch during our extended service hours, further reducing the need to manually document complaints and provide through faxes, the following day. | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No | | | | | |
| Access Vaughan | Potential ability to access to our staff during extended proposed hours being sought by Access Vaughan, leading to increased point of contact resolutions where possible. | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | | | | | |
| | | <input type="checkbox"/> Yes <input type="checkbox"/> No | | | | | |
| Other comments: | | | | | | | |
| The potential improved level of service anticipated includes additional clerical support duties better suited for attention, beyond core day time hours, inclusive of providing additional coverage for vacations and emerging needs (eg Animal Shelter). | | | | | | | |

| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| By-law and Compliance is a front line core service, much of which includes providing service through direct interaction with residents, businesses, community groups and staff. The addition of 2 staff would provide an opportunity to sustain a core service delivery model, offer possibility of improved accurate/timely information sharing, increased point of contact resolutions, where possible and over-all greater service through having staff available to engage clients beyond daytime core hours. As our demands continue to increase, By-law and Compliance is realizing increased challenges in sustaining the service needs of clients, and anticipates erosion of services as the growing need outweigh current resource compliments. Minimal expansion of services and hours of operation can move towards sustained delivery and supports Service and Organization Excellence. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| Name/description of service level target: | | | Target Level | Current Level | Level with ARR | |
| 1) | Average time for initial response to clients | | | | | |
| 2) | Calls received through Access Vaughan or Dispatch | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Supports the over-all operation and objectives of the business plan, including improved service delivery, customer service and increase in response times. Many of the newly developed performance indicators for 2014 and beyond are focused on improved services, with limited historical data available to provide accurate assessment of current deliverables. Accuracy will be a future realization allowing for qualitative data to be used accordingly. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Corp. Image |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Improved service to the public through access to services currently restricted to core daytime hours, improved staff morale better work distribution, timely and accurate information sharing with clients (eg improved public education) and potential for improved point of contact resolution (where possible). | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| Continue with current service levels to the extent possible, with an expected reduction as service demands outpace resource capabilities. In addition, forego these positions and support Access Vaughan's request for two part time CSR's through the ARR process with a possible limited increase in service through enhanced partnership. Note: Access Vaughan's core business does not incorporate additional duties such as call triage and assignment to the extent that could be realized with expansion of our core service hours. | | | | | | |

| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>The creation of a new Registered Veterinary Technician position. This position plays an integral role in supporting our core public service and the needs of our communities. The role will serve to address many key service requirements within the unit, including but not limited to, responsibility for various aspects of veterinary care, functional guidance for kennel staff in the performance of their duties, assisting in development of client outreach and education in the interest of animal care, community engagement, increased adoptions and responsible pet ownership; intended to support the realization of additional efficiencies, effective use of fiscal resources (human and financial) supporting responsible public service. The position will bring the level of expertise required to provide the needed direct support and assistance in over-all supervision and managing of staff with a mandated 24/7 day per week shelter operation; further providing direct required over-site in the absence of the Animal Services Supervisor. The role will also include an enhanced level of expertise offering technical support to the public, improved educated responses to public complaints and inquiries.</p> | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Animal Services - Registered Veterinary Technician | | | | |
|---|---|--|--------------|---|----------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | 1. Animal Services Complaint-Driven Requests | | | | | |
| 2) | 5. Number of animals passing through the system | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Animal Services complaint driven requests - limited services lead to complaints. Expanded business hours to full days on Saturday and one evening during week will provide higher level of customer service as well as increased revenue generation opportunities through animal adoptions and redemptions. More efficient animal care results in shorter length of stay in shelter and resultant cost savings. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve Corp. Image | | Secondary | | Realize Future Benefits |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| This position will provide a central role in support of the health maintenance and flow of shelter animals, be a resource for staff training and public education, through the attendance of special events and/or co-ordination of related staffing resources. This position is vital in the interest of our core service delivery and is considered a fundamental base line position, established as a recognized industry standard across similar public service; found in neighbouring municipal animal shelters. Improved animal health care, public education and outreach will support core service delivery for future improvements and may also serve to mitigate potential liability stemming | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2014 | Budget \$\$\$ | | | Reduction in overtime cost, animal care and veterinary expenses | | No |
| 2014 | Output/Service Quantity | | | Increased customer service and facility maintenance | | No |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| No alternatives. The proposed position is vital in delivery of our core public service; is recognized as an minimal industry standard for the effective, efficient and essential operation of an animal shelter facility / program, will provide much needed additional knowledge and expertise; currently restricted by the limited staffing complement and expertise. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>Increase of compliment in the Bylaw Enforcement (property standards) staff to address increased call volumes and work volumes. Call volumes have risen dramatically in the past several years with the growth in population.</p> <p>The number of complaint driven service requests for the department have increased 20% over the 2007 to 2010 period. Call volumes increase by 500 per year. Year-to-date 2011, staff have only been able to respond to 60 % of calls within the established service standard. This leaves 40% of calls that were not responded to within 5-10 days. This is despite initiatives to increase efficiency, and adjusting work hours to increase investigational effectiveness.</p> <p>In 2010 1 additional staff member was added to this unit in order to lower the case load per officer to below 300 each, which would translate into a workload that would permit a call response within the established guidelines. The caseload still exceeds 300 per officer (321) and is projected to increase to 340 in 2012.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Property Standards Officer | | | | |
|--|--|-------------------------------------|---------------------|--|-----------------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| 1. Pursue Excellence in Service Delivery – To deliver a high quality of services within approved service standards to all City stakeholders e.g. staff, citizens and businesses. 2. Enhance and Ensure Community Safety, Health & Wellness – To advocate for, protect and enhance community safety, health and wellness through education, design and enforcement. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | Service Delivery (Call Response) in 5-10 days | | 80% of the time | 60% of the time | 70% of the | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| This unit is responsible for enforcing the provisions of 41 Bylaws, including Property Standards, Zoning, and Noise Bylaws. This is directly tied to the service delivered to a group of Key Stakeholders. Also, the Key Performance Indicators of: Number of Complaints Concluded, Response Time. As indicated above, the volume of calls for service continued to rise in 2011 and the unit's ability to address resident complaints in 5 to 10 business days is impossible to achieve. The additional resources will allow a timely response to resident complaints. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Sustainability |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Staff are required to respond to call for service in a timely manner. Without sufficient staff call response is slow causing complaints and dissatisfaction. By responding timely the users will be more satisfied and will ultimately provide for the service delivery to be sustainable. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2012 | | more timely response | Units | | | |
| 2012 | | increased public service | Hrs. | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| All options and alternative delivery models have been reviewed and implemented where possible. Efficiencies cannot create time savings sufficient to keep up with the escalating call volume. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>This position will report to the Manager By-Law and Compliance. Responsible for co-ordinating, over-seeing and supervising the activities of various enforcement officers, clerical support staff and over-all provide support of departmental operations; including but not limited to field operations, court proceedings, hearings and quasi-judicial matters, in accordance with all applicable legislation. In addition, will provide direct over-site on staff activities including Occupational Health & Safety matters, human resources, quality assurance, direct customer and client services, etc... This position is vital in sustaining current service level commitments, including allowing for supervision beyond day time hours to ensure the necessary support for staff (various shifts). In addition, will allow for improved service for a supervisor to be "in field" and attending to clients needs when the need arises. This will also tie into future service expansions to be realized through mirroring services of Access Vaughan.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | Timelines | | Comments | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |
| Department Impacted | Describe Impact (Cost/time/benefit) | | | | | Were they Consulted? | |
| Access Vaughan | Availability of supervisor to assist and be available for afterhours / weekend calls and ensure quality of service through direction of field staff. Discussions initiated with Access Vaughan, exploring benefits. | | | | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | |
| | | | | | | <input type="checkbox"/> Yes <input type="checkbox"/> No | |
| | | | | | | <input type="checkbox"/> Yes <input type="checkbox"/> No | |
| Other comments: | | | | | | | |
| Given the connectivity of By-Law and Compliance Dept to many other departments who deliver frontline services, an enhancements in our ability to deliver services, improves over all corporate image and leads to realization of global benefits. | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | By-Law & Compliance Supervisor | | | | | |
|--|--|-------------------------------------|----------------------|--|--------------------------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| By-law and Compliance Dept is driven by front line services, direct interaction with our Citizens. The addition of a supervisor allows for greater ability to over-see all work product and activities, ensure quality assurance of service being delivered, assist in development of high performing staff, through coaching, mentoring and supporting staff and client needs. Ensuring a high performing organization requires the necessary resources to support and sustain delivery of service and establishment of improved departmental and corporate image. The By-Law and Compliance dept is required to continually adapt to the changing needs of communities, businesses and stakeholders, this continued adaptation requires quality assurance functions including but not limited to direct supervision and over-site of staff activities, training and staff development, operational reviews, and support of performance metrics in place to ensure our core services. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | Target Level | Current Level | Level with ARR | | |
| 1) | % of service calls responded to in 5 Days | 70% | | | | |
| 2) | % of service calls responded to in 10 Days | 70% | | | | |
| 3) | No. of recipients of education and outreach | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Supports the over-all operation and all objectives of the business plan, including all established performance measures and intended improved service delivery. Benchmarks are being established to incorporate a marked and measureable 10% increase in improved response times and compliance rates, supported by education, outreach, improved staff abilities and skilled workforce. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Corp. Image |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Improved service to clients, improved staff morale with more direct support, improved sustainability of educational and outreach initiative, afterhours coverage where currently non-existent, over-all better resources model to sustain core public service delivery. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | Incl. in offsets (Section #9)? | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| There are no alternative in lieu of continuing with current compliment. This may negatively impact dept's ability to sustain service, leading to continued erosion and reduction in ability to delivery services. Calls for service are expected to increase by 104% by the year 2017. Current staff compliment continues to decline service deliverables and can only become more challenging over time. Though demands have increased, as has staffing slightly, supervisory positions have remained at current levels since 2010 (and prior). The current span of control of staff to Supervisors, is insufficient given the nature of the work, including no availability for in-field supervision after hours. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| The current fulltime staff complement of 2 attendants does not compare to industry benchmarks in relation to human/animal populations. The addition of one fulltime Shelter Attendant will address this and relieve the current staff burden to care for the approximately 200 animals each day that reside in the shelter. Additionally, expanded business hours to increase customer service will not be feasible with current staff complement. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Animal Services - Shelter Attendant | | | | |
|---|---|-------------------------------------|--------------|---|----------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | 1. Animal Services Complaint-Driven Requests | | | | | |
| 2) | 5. Number of animals passing through the system | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Animal Services complaint driven request - insufficient services lead to complaints. Expanded business hours to full days on Saturday and one evening during week will provide higher level of customer service as well as increased revenue generation opportunity. Additional staff complement is the only way to allow for expanded service hours at the animal shelter. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Corp. Image |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Expanded animal shelter hours will improve customer satisfaction and public education opportunities, and boost revenues from adoptions and redemptions. Adequate shelter staff complement ensures facility sanitation and image, which directly improves health of animals and disease mitigation. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2013 | | | | Reduction in overtime budget | | |
| 2014 | | | | Increased customer service and facility maintenance | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| | | | | | | |

| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| The creation of a new part-time Shelter Clerk position. Currently the animal shelter is open to the public from 9am-2pm on Saturdays (which is mandated provincially), but there is no clerk/receptionist to assist customers during that time. Shelter will be unable to expand shelter hours without related clerical support. | | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input checked="" type="checkbox"/> Corporate | | | | | | | |
| <p>This request is to address work volumes that impact the ability to provide timely service to those residents using the administration section of this department. This group has not had any complement increase since 1994. The call volume has tripled since 1995. The population has increased by 175,000 in the same time frame.</p> <p>Currently 2 positions are responsible for answering in excess of 20,000 telephone calls per year, with an average call length of 4:30 minutes. This is equivalent to over 1400 hours of talk time. The number of incoming calls will increase in 2012 due to the increasing population. In addition to the telephone line, these two staff are required to open approximately 9000 complaints in the CTS, book 3400 appointments for Ticket Screenings, manage 1400 walk in disabled ticket disputes, and manage all walk in customers.</p> <p>The workload for these two positions is such that customers are left on hold on the phone or waiting for extended periods at the front counter.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | Timelines | | Comments | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Enforcement - Clerk D | | | | |
|---|--|-------------------------------------|---------------|--|----------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| This request clearly speaks to Service Excellence and Staff Excellence. | | | | | | |
| Residents are not being properly served due to the extended wait times for service, be it making a complaint, booking appointments, seeking responses to By-law questions, are seeking to be re-directed. | | | | | | |
| Staff that are overburdened will reach the burn out stage very quickly. There has been staff turn over and absences in these positions that may be attributed to workload and work conditions. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | Customer Service - Minimal Hold/Wait Times | | max. 1 minute | 4-10 minutes | 1 minute | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| 1. Enforcement Services Complaint Driven Requests - These staff must receive the calls and then input the calls for service; 2. Number of online Ticket payments - These staff are required to audit payments received in the previous 24 hours and ensure tickets are available to be paid online | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Corp. Image |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| The volume of work performed by this small group has a direct impact on stakeholder satisfaction and corporate image. This request will improve customer response times at the initial call, or walk in. Reduced telephone hold times, and reduced waiting times at the front counter will result if staff are added. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2012 | Output/Service Quantity | | Units | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| There are no other alternatives or options. There are no remaining staff members that can be re-assigned to this function. There is no way to reduce the growing call volumes. Dispersing workload to an expanded work group is the only option | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>The Licencing Division employs 3 full time staff that are responsible for the processing and issuance of over 6000 licences, serving over 13000 enquiries at the front counter and inspection of more than 650 vehicles. The Division is also responsible to undertake mandatory obligations dictated by various provincial agencies and supplements Enforcement Services with court related matters and fine collection. Up until 2007, Licencing employed 3 full time and one part time Licencing staff members. A reorganization reduced staffing, while workload increased. In 2011, vacation, sick time and personal days accounted for 926 hours (18%) out of 5205 total work hours of Union Staff. Special projects often take either or both management and front line staff away from regular duties, thus increasing the strain on staff left to service customers. Lunch hours, vacations and sick time coverage is provided by the Manager and Supervisor, which usually results in reduced or missed lunch periods and an extended workday to minimize backlogs and other work. The Supervisor is presently allocating more than one half of his time to Staff related back up workload activities. Although measures have been implemented to streamline operations with much success, the reduction in staff and increase in license issuance, inspections and other related duties has proved to have limited the Licencing Division's ability to manage the workload or provide for succession. Lack of staff has resulted in increased pressure on the Division to complete tasks, which has led to increased pressure on the Division to complete tasks, which has led to increased pressure on the Division to complete tasks.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | Timelines | | Comments | | | |
| | | | | | | | |
| | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Licencing Officer | | | | |
|---|--|-------------------------------------|---------------------|--|-----------------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| The addition of this position will provide excellent service delivery and an organizational environment which fosters staff excellence, Enhance Productivity, Cost Effectiveness and Innovation, and demonstrate Leadership & Promote Effective Governance. Minimizing the fragmentation of work processes allows for Customers needs to be expedited in a professional and efficient manner. It allows management the opportunity to explore innovative measures linked to Vaughan Vision objectives mentioned above | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | Average Issuance Time | | 4 business days | 8+ business days | 4 business | |
| 2) | Fine Recovery not noted as a performance measure | | 0 | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Allows a reallocation of mangement's time spent on back up of staff's duties to undertake departments business plan objectives, such as online renewals and payment.P/T position will increase efficiency and improve the quality of work | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Staff Moral |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Licenses are issued in a timely manner. Staff moral will improve because there will be more opportunity to further their skills and knowledge through educational opportunities and attendance at professional symposiums. Management will be able to direct more of their time towards management duties and projects rather than coverage for duties of Staff. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 2013 | Output/Service Quantity | Change/Savin | | Enhanced Fine Recovery from Licencing Fine recovery program | | No |
| 2013 | Time/Capacity | Change/Savin | | Cost reduction and Fine collection by Enforcement Services. | | No |
| | | | | Average Issuance time during renewal periods will be reduced | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| N/A | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| Back up cashiering services are key for the City to ensure customer service excellence and continuity of services exist during peak periods, vacations or unscheduled time such as sick leave or as required. This FTE will be shared between Cashiering and Water 40/60 as 1 full time position or 35 hours per week. Cashiering functions include processing payments received from customers for City services, products, utility bills or for departmental requirements. Waterwastewater/storm related functions (.60 FTE) will be funded from the Water reserve. This position will not be hired until approved through the 2014 water budget process. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | Timelines | Comments | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Manager of Corporate Asset Management | | | | |
|---|---|--|--------------|--|----------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| Organizational Goals | Manage Corporate Assets | Develop and implement a Corporate-wide Asset Management System | 3 | Q2/16 | High | General Correlation |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| <p>MANAGEMENT EXCELLENCE - "Enhance Productivity, Cost Effectiveness and Innovation" - The Manager of Corporate Asset Management will provide overview for all asset management and ensure consistency throughout the organization. Efficiencies will be gained as the Asset Management Office will become a "centre of excellence" within the City, that will ensure all asset management activities (capital planning and maintenance) will be coordinated and and consistent. This approach differs from the "siloed" approach that exists today. SERVICE EXCELLENCE: "Pursue Excellence in Service Delivery" - Coordination of capital and maintenance activities as a result of improved asset management processes will ensure that all assets are operating as intended to ensure the efficient delivery of services to the citizens of Vaughan.</p> | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | | | | | | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve Sustainability | | Secondary | | Improve Corp. Image |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| <p>"IMPROVE SUSTAINABILITY" - By ensuring corporate assets are effectively managed as a whole. "IMPROVE CORP. IMAGE" - By ensuring corporate assets are being inventoried and proactively maintained within its lifecycle, the City will project a positive image to residents, business owners and visitors alike.</p> | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |

| Associated Capital Costs | \$ - | \$ - | \$ - | \$ - | \$ - | \$ - | \$ - |
| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| The request is to convert the position of Election Coordinator from contract to permanent status. The scope, magnitude and complexity of election administration in a large municipality like Vaughan requires full time, dedicated resources. The Election Coordinator works exclusively on election and election-rated activities (such as rebates, ward boundary issues, etc.) throughout the term of Council. Conversion of the contract position to permanent status is consistent with Council's previous decisions which recognize the requirement for full-time resources to support the planning and execution of the municipal election and post-election activities [ref CW(WS) 29(2) May 24, 2011]. Election planning and administration is a permanent responsibility of the City Clerk's Office and permanent staff resources are needed to ensure the sustainability of this activity. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | Timelines | | Comments | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |

Appendix A - Additional Resource Request Submissions

| | | | | | | |
|---|--|--|---------------|---|---------------------------------------|---|
| Request Title | Election Coordinator - Conversion to Permanent | | | | | |
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| Demonstrate Excellence in Service Delivery - It is the responsibility of the Election Coordinator to manage expenditures and other resources in a manner which contributes to the financial and operational sustainability of the municipality. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| Name/description of service level target: | | Target Level | Current Level | Level with ARR | | |
| 1) | | | | | | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| As outlined in the Office of the City Clerk (CCO) Business Plan, the CCO is responsible for ensuring open, accessible and accountable government. The administration of fair elections in an impartial manner is a fundamental statutory responsibility of the City Clerk. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve Sustainability | | Secondary | | |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Converting this position from contract to permanent recognizes that the Election Coordinator is a core position required throughout the 4 year Council cycle. The position is currently funded out of the Election Reserve; this is not a sustainable way of funding a permanent staff position. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | Incl. in offsets (Section #9)? | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| 1. One alternative is to continue to maintain the position as a contract position. This approach is not recommended as it does not provide for consistent, sustainable support to the Election. In addition, it is not prudent to fund permanent staff positions from the Election Reserve. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>The request is to convert the position of Council Office Administrator from contract to permanent full-time status. This position administratively represents the City Clerk within the Council Offices, including Corporate budget preparation and monitoring, corporate policy compliance as well as purchasing administration. The duties of the Council Office Administrator also include: providing assistance to members of Council; promoting and enhancing the image of the Council Office at all levels of contact, providing reception services for the Council Office, exercising tact and diplomacy in greeting dignitaries, receiving and directing visitors to Councillors and/or their Executive Assistants, and handling and securing of confidential/sensitive information,</p> <p>The staffing of this position was formerly subject to considerations made following general municipal elections. The position has evolved to primarily a corporate role and is independent of Council's political offices. As such it should be recognized as a permanent member of the City Clerk's Office complement. The job was recently re-classified in recognition of the corporate functions carried out.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | Timelines | Comments | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |

| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| Demonstrate Excellence in Service Delivery - as the first point of contact for many citizens, businesses and other levels of government in relation to the Council Offices, the Council Office Administrator plays a key role in ensuring service excellence. The Council Office Administrator maintains confidentiality and demonstrates tact and diplomacy while ensuring that inquiries are directed to the appropriate offices in a timely manner. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| Name/description of service level target: | | Target Level | Current Level | Level with ARR | | |
| 1) | | | | | | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| The Council Office Administrator is the City Clerk's corporate presence on the Council floor and should not be subject to considerations flowing from electoral results. As outlined in the Office of the City Clerk (CCO) Business Plan, the CCO is the primary point of contact for Vaughan's citizens and businesses and is also an information and service focal point for Members of Council and City Staff. Within the Council Office area, the Council Office Administrator performs this key function. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve Sustainability | | Secondary | | |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Converting this position from contract to permanent recognizes that the position has evolved to primarily a corporate role and is independent of Council's political offices. It would also recognize the key corporate functions performed by this position in ensuring the efficient and effective administration of the Council Offices. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| 1. One alternative is to continue to maintain the position as a contract position. This approach is not recommended as it does not provide for consistent, sustainable support to the Council Offices. | | | | | | |

| 1A) Request Description: Please provide a brief description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>This request is for a part-time Information Processor to be responsible for posting Council and Committee documents (agendas, reports, extracts, by-laws, communications and attachments) to VOL. The implementation of VOL allows the public and internal staff to rapidly find and search Council documents and has greatly enhanced citizen access to meeting documents relating to Council, Standing Committees and other Committees/Task Forces but has created a commensurate burden on staff resources. The time frames for posting documents are very restrictive and must be in compliance with notice requirements set out in the City's Procedure By-Law 7-2011. In the first six months of 2013, the two full-time Information Processors responsible for posting Council and Committee meeting agendas, minutes and extracts on VOL have incurred a significant increase in overtime, (a five-fold increase compared with the same period in 2012.) We are also experiencing a 1 to 2 month back log in posting consolidated meeting extracts. The part-time Information Processor will be dedicated to the task of preparing and posting agendas, agendas, minutes and extracts on VOL (Vaughan On-Line) to ensure that statutory time frames and service standards are met.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Part-time Information Processor - Level F | | | | | 42 |
|---|--|--|--------------|---|----------------|--|----|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) | |
| Organizational Goals | Ensure a High Performing Organization | Ensure citizen-focused communication initiatives: Establish and implement a more effective model for community engagement and enhance our public consultation strategy | 14 | Q1/13 Revised Q3/13** | Medium | General Correlation | |
| | | | | | | | |
| | | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | | |
| The timely availability of Council-Committee documents on-line supports citizen access to the decision-making process and broader community engagement. Citizens can easily and conveniently access agendas, reports and past Council decisions without the need to visit City Hall. | | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | | |
| 1) | Average time to publish consolidated meeting extracts. | | 1 week | 1 to 2 months | 1 week | | |
| 2) | | | | | | | |
| 3) | | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | | |
| One of the key objectives of the City Clerk's Business Plan is to ensure legislative compliance and adherence to Council procedures, and encourage public participation and community engagement. The use of VOL supports legislative compliance by ensuring that agendas are posted in compliance with the notice requirements under the City's Procedure By-law. The posting of comprehensive meeting extracts supports community engagement by providing the public with timely, easy and convenient access to Council agendas and decisions. | | | | | | | |
| 4) Value Proposition | | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Corp. Image | |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | | |
| 1. Publishing comprehensive meeting extracts within 1 week increases user satisfaction - for the public, Council and City staff. End users are able to obtain this information through self-service rather than having to contact Secretariat staff for visit the Clerk's Office in-person. 2. The timely availability of Council-Committee documents on-line improves the corporation's image by promoting openness and transparency, and making it easier for citizens to engage in civic matters. | | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? | |
| 2014 | Budget \$\$\$ | 100 | 12 | Reduce monthly overtime costs (12 months @ \$100 per month) | | Yes | |
| 2014 | Budget \$\$\$ | 200 | 12 | Cost to reduce backlog | | No | |
| | | | | | | | |
| 5) Alternatives | | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | | |
| 1. One alternative is to continue to incur overtime costs. This approach is not recommended due to the impact on staff and the loss of the main benefit of VOL which is timeliness and comprehensiveness of posting of Council extracts. 2. The second option is to not produce a comprehensive Council extract which will require City staff and other users to research and compile the complete record of Council's decision. This option is not recommended as it will result in a disproportionate increase in staff time across the corporation and will not resolve the issues impacting staff in the City Clerk's office. | | | | | | | |

| 1A) Request Description: Please provide a brief description of the request. | | | | | | | |
| Please check one: <input type="checkbox"/> Departmental <input checked="" type="checkbox"/> Corporate | | | | | | | |
| The mandate of the consultant will be to identify and assess the City's risk exposures in a variety of categories, make recommendations on how to address such risk on a strategic basis, and design a programmatic response to reducing risk at an operational level. Included in the Consultant's deliverables will be a framework/tool to be used to evaluate risk exposure. A residual component of the services provided will be education to staff on risk awareness, mechanisms to evaluate policies and programs for attendant risk, and other added-value recommendations. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | Timelines | Comments | | | | | |
| Assessment and development of recommendations | 2014 | | | | | | |
| Implementation | 2015 | Implementation plan to be determined upon receipt of Consultant's recommendations | | | | | |
| | | | | | | | |
| | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Strategic Risk Consultant | | | | | 25 |
|---|---|--|--------------|--|----------------|--|----|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) | |
| Organizational Goals | Ensure a High Performing Organization | Develop an Integrated Risk Management Strategy | 12 | Q2/14 | High | General Correlation | |
| | | | | | | | |
| | | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | | |
| Ensure a High Performing Organization: The City is exposed to a variety of risks which range from traditional exposures (slips, trips and falls) to governance exposures (are appropriate oversight mechanisms in place? Are adequate skills in place). Further, in a political environment, issues must be monitored from a strategic perspective and action plans developed as rapidly as possible. | | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | | |
| 1) | | | | | | | |
| 2) | | | | | | | |
| 3) | | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | | |
| The department is responsible for insurable risk management. Strategic risk management is a new initiative that requires further refinement before it can be articulated in the department business plan. | | | | | | | |
| 4) Value Proposition | | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | | |
| Primary | | Improve Sustainability | | Secondary | | Realize Future Benefits | |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | | |
| An integrated strategic risk management strategy will lead to decisions and practices which lower exposure to risk on an ongoing basis. | | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| 5) Alternatives | | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | | |
| Maintaining the status quo will miss opportunities to manage risk. A strategic approach to risk management will identify risk, and respective solutions, in a cost- and effort-effective way. | | | | | | | |

| 1A) Request Description: Please provide a brief description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>This request is for a part-time Clerk-Typist to provide clerical support to the Administrative Assistant to the City Clerk and associated departmental staff. In addition to providing executive support to the City Clerk and the Deputy City Clerk, the Administrative Assistant is responsible for a broad range of functions, including: drafting reports, logging mail and email and forwarding as req'd, booking appointments, certifying pension documents, compiling and analyzing data, responding to requests from Mayor's Office, Council Offices and SMT, time-sensitive research in support of Council/Committee meetings, support to internal staff committees, preparing public versions of Closed Session meeting agendas, supervising front counter staff, purchasing, payroll (for both the City Clerk's Office and Council Support Staff), burial permit issuance and death registration. The workload is such that the Administrative Assistant is not able to perform all of these functions without incurring a significant amount of overtime (currently averaging 10 hours per week). In addition, there will be significant workload as a result of bookings for civil marriage ceremonies. The part-time Clerk-Typist would be assigned specific functions to alleviate the workload of the Administrative Assistant to the City Clerk.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | Timelines | | Comments | | | |
| | | | | | | | |

| Request Title | | Part-time Clerk-Typist - Level 3 | | | | | 32 |
|---|---|-------------------------------------|--------------|---|----------------------|--|-----|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | | 426 |
| Demonstrate Excellence in Service Delivery - the City Clerk's Office is the primary point of contact for Vaughan's citizens and businesses and is an information and service focal point for Members of Council and City staff. The Administrative Assistant to the City Clerk function is a key contributor to the CCO's ability to perform these roles but requires additional clerical support to ensure timely and responsive service. | | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | | |
| 1) | | | | | | | |
| 2) | | | | | | | |
| 3) | | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | | |
| As outlined in the Office of the City Clerk (CCO) Business Plan, the CCO is the primary point of contact for Vaughan's citizens and businesses and is also an information and service focal point for Members of Council and City Staff. | | | | | | | 232 |
| 4) Value Proposition | | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | | |
| Primary | | Improve Sustainability | | Secondary | Improve Staff Morale | | |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | | |
| 1. Transferring some of the clerical duties from the Administrative Assistant to the Clerk-Typist allows the Administrative Assistant more time to provide executive support to the City Clerk and Deputy City Clerk (improves sustainability). It will also allow the Administrative Assistant to take on the additional activities generated by civil marriage ceremonies and performance measure tracking. 2. The support provided by the part-time Clerk-Typist will reduce the amount of overtime incurred by the Administrative Assistant (improve staff morale). | | | | | | | 553 |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? | |
| 2014 | Budget \$\$\$ | 100 | 12 | Reduce monthly overtime costs (12 months @ \$100 per month) | | Yes | 58 |
| | | | | | | | 0 |
| | | | | | | | 0 |
| 5) Alternatives | | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | | |
| 1. One alternative is to continue to incur overtime and the associated overtime costs. This approach is not recommended due to the impact on staff morale. | | | | | | | 156 |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input type="checkbox"/> Departmental <input checked="" type="checkbox"/> Corporate | | | | | | | |
| The new full-time position of Communications Specialist, Web Content Management, will support the full deployment of the City's new website under the Vaughan Online (VOL) program. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | Timelines | Comments | | | | | |
| Launch of new City website | Dec. 2011 | Content Management System provided to all departments | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |
| Department Impacted | Describe Impact (Cost/time/benefit) | Were they Consulted? | | | | | |
| All | Substantial impact on departments as Corporate Communications has been assigned responsibility to review and approve posting of all website content generated by departments. | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | | | | | |
| | | <input type="checkbox"/> Yes <input type="checkbox"/> No | | | | | |
| | | <input type="checkbox"/> Yes <input type="checkbox"/> No | | | | | |
| Other comments: | | | | | | | |
| With the Dec 2011 launch, all departments become directly responsible for creating and posting information to the website (a role currently performed by ITM and Corp Comm). Once the new website is launched with its Content Management System, Corp Comm will not have the staff resources to provide website communications support to departments. | | | | | | | |

| Request Title | | Communications Specialist, Website Content Management | | | | |
|---|---|--|--------------|--|----------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| Organizational Goals | Ensure a High Performing Organization | Ensure citizen-focused communication initiatives: Establish and implement a more effective model for community engagement and enhance our public consultation strategy | 14 | Q1/13 Revised Q3/13** | Medium | General Correlation |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | | | | | | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| The corporate website is the primary communications vehicle for the City. Corporate Communications has overall management responsibility for website content. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Leverage Innovation/Creativity | | Secondary | | Improve User Satisfaction |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| With the launch of the Vaughan Online website in 2011, each department will be responsible for posting all web content relating to their projects and activities. In order to maintain professional content and presentation, the Content Management System will include a mandatory approval and review mechanism managed by Corporate Communications. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| A full-time permanent website team could be established to manage the new corporate website but this would require several new hires. | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>This is a request for a conversion of one existing FTE (Communications Specialist, Media Relations M239) to be replaced by two (2) Communications Coordinator positions. This arrangement is currently in place with the hiring to two Communications Coordinator under contract (the FTE of Communications Specialist is vacant). The results to date have been higher productivity in the department, freeing up more senior staff to focus on project management in support of all City departments. The junior position of Communications Coordinator assists with the delivery of media relations (press releases, research, monitoring) eCommunications (social media, website content) and supports the implementation of communication plans for the corporation. In addition, the Communications Coordinator assists in researching and tracking issues, maintains media and issue management files, produces briefing notes relating to City projects and initiatives, and ensures information on the City's website is timely, accurate and accessible to the public.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | Timelines | Comments | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |
| Department Impacted | Describe Impact (Cost/time/benefit) | | | | | Were they Consulted? | |
| All Commissions | Support all departments that maintain a major presence on the City's website, utilize e-communications, or require other communications support. | | | | | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No | |
| ITM | The required computer equipment and associated programs for two coordinator positions have been installed under the 2013 departmental budget. | | | | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | |
| Buildings & Facilities | The workstations and all associated equipment for two coordinator positions have been established (covered by 2013 where applicable). | | | | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | |
| Other comments: | | | | | | | |
| The two requested junior positions of Communications Coordinator will assume day-to-day operational responsibilities that will allow the more senior Communications Specialists to better manage the corporation's communications requirements. | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Conversion to Communications Coordinator | | | | |
|--|---|--|---------------------|--|-----------------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| Organizational Goals | Ensure a High Performing Organization | Ensure citizen-focused communication initiatives: Establish and implement a more effective model for community engagement and enhance our public consultation strategy | 14 | Q1/13 Revised Q3/13** | Medium | Mandatory |
| Organizational Goals | Ensure a High Performing Organization | Review and redesign as appropriate, a communications strategy to ensure its effectiveness throughout the organization | 13 | Q4/12 Revised Q3/13* | Medium | General Correlation |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| The Corporate Communications Department provides high quality strategic communications and services to both internal and external stakeholders (Demonstrate Excellence in Service Delivery) which includes content management support for the website, media relations, and marketing communications. The Department also is committed to being a leader in providing effective and proactive communications and support (Demonstrate Effective Leadership) which includes effectively communicating the City brand to key stakeholders. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | Increase % residents aware of selected City services, initiatives, or | | 65% of residents | | | |
| 2) | Increase social media activity. | | 20% Increase in # | | | |
| 3) | Increase online subscriptions to the City's e-newsletter | | 20% more | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Supports the Business Plan objective to leverage technology to more effectively tell the Vaughan story. These activities will have a positive outcome in providing effective strategic messaging and two-way communication between the City and stakeholders. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Leverage Innovation/Creativity | | Secondary | | Improve User Satisfaction |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| A primary focus of the two Communications Coordinators is eCommunications, particularly social media, video and other multimedia, and eNewsletters which will provide the City with expanded capabilities in this area. In addition, the scope of news and media monitoring (critical to the informational needs of Council, SMT and other departments) is expanded. All of the activities are tracked and measured. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| The alternative to this FTE conversion is to hire into the vacant Communications Specialist, Media Relations, position. However, this senior position does not support several key objectives in the department's 2014-17 Business Plan, including the need to become more involved in the new eCommunications vehicles such as social media, eNewsletters and the use of multimedia and video. The Coordinator positions are structured to directly address this requirement. | | | | | | |

| Please check one: <input type="checkbox"/> Departmental <input checked="" type="checkbox"/> Corporate | | | | | | | |
| <p>An Events Coordinator position is being requested. This position will report to the Manager (or Supervisor if approved under separate ARR) of Events and will be responsible for supporting and sharing the workload of the current Events coordinator to produce events such as Winterfest, Concerts in the Park, Canada Day, Mayor's Gala, Mayor's Golf Classic, Volunteer Recognition, Official Openings, Park Openings, City of Vaughan Toy Drive, Menorah Lighting Ceremony, Christmas Tree Lighting Ceremony, staff events and related departmental initiatives. The volume of events and the expectation to produce them at the current standard has become increasingly difficult and challenging given the resources. The growth in promotion for events, number of contracted suppliers, events, participants, activities, caliber of performers and expectations of sponsors including promotional sponsors has been a challenge to manage. The new resource will enable the effective management of risks, liability and related issues when staging large events with anticipated attendance of close to 10,000 residents and visitors and assist to manage the overall function more effectively.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | Timelines | Comments | | | | |
| Plan and produce internal and external events | | Year round | | | | | |
| Assist in providing sponsorship support for a variety of assigned events | | Year round | | | | | |
| Administer event protocols and policies | | Year round | | | | | |
| Manage program costs and budgets | | Year round | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |
| Department Impacted | Describe Impact (Cost/time/benefit) | | | | | Were they Consulted? | |
| Parks Operations | Services in Kind | | | | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | |
| Building and Facilities | Work Orders and Security | | | | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | |
| Corporate Communications | Communications support | | | | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | |
| Other comments: | | | | | | | |
| <p>The collaboration of many departments across the corporation to meet corporate objectives is required. The Events Coordinator will liaise with all related departments including Corporate Communications, Legal, Parks Operations, Parks Development, Building and Facilities, Enforcement, City Clerk's Office, Roads, Engineering, VPL and Vaughan Fire. Requirements for other departments may include work orders, permits, review of contracts, communications support and related services in kind.</p> | | | | | | | |

| | | | | | | | | | | | | | | | | | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | | | | | | | | | | | | | | | | | |
| City organized and supported events support the strategic goal of providing service excellence to citizens, with the objective to preserve our heritage and support diversity, arts and culture. The new Events Coordinator will work diligently to produce events that support the strategic vision of staff excellence. Events such as the Staff BBQ and Holiday Luncheon recognize, appreciate and thank employees for their exceptional hard work and dedication to the corporation. Staff events increase staff morale and promote increased productivity. The new Events Coordinator will play an important role in managing these initiatives. The new coordinator will also work to support the strategic initiative of Management Excellence by assisting to produce events that engage corporate citizens and celebrate national pride while maintaining the integrity of the City's corporate brand. | | | | | | | | | | | | | | | | | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | | | | | | | | | | | | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | | | | | | | | | | | | | | | | | |

| 3) Event Attendance | 20000 | 15000 | 20000 | | | | | | | | | | | | | | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | | | | | | | | | | | | | | | | | |
| The function of the Events Coordinator supports Council, Senior Management and the corporation by producing special events in support of corporate initiatives. The request for a new Events Coordinator is required to effectively maintain the performance measures for all assigned City events. As sponsorship is key to the production of events such as Winterfest, Concerts in the Park and Canada Day, the Events Coordinator will play a vital role in assisting to secure the much-needed funding for this program. This funding is crucial to maintaining the caliber of the events that the residents have become accustomed to including all related services associated with the production of the event. | | | | | | | | | | | | | | | | | | | | | | |
| 4) Value Proposition | | | | | | | | | | | | | | | | | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | | | | | | | | | | | | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | | | | | | | | | | | | | | | | | |
| Primary Improve Corp. Image Secondary Improve User Satisfaction | | | | | | | | | | | | | | | | | | | | | | |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | | | | | | | | | | | | | | | | | |
| The Events Coordinator will contribute to strategically showcasing City initiatives and programs and to promoting positive relations with corporate stakeholders, suppliers, residents and the community at large by engaging residents and fostering civic pride. The position will ensure that the needs and expectations for the events function continue to be met and will work to maintain established levels of efficiency in their staging. The position will continue to maintain the level of service and meet expectations of the Mayor and Members of Council, City Manager and Senior Management Team. | | | | | | | | | | | | | | | | | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | | | | | | | | | | | | | | | | | |

| 2013 | | | | Increase staff morale | | | | | | | | | | | | | | | | | | |
| | | | | | | | | | | | | | | | | | | | | | | |
| 5) Alternatives | | | | | | | | | | | | | | | | | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | | | | | | | | | | | | | | | | | |
| Currently, the number of mandated events exceed the available event management resources. There is no indication that the City may reduce the number of events held. In reality the request for new events continues each year and the resources and funding are not in place to be able to accommodate these requests. The alternative of contracting out event management services will have a negative impact on the timely production of events due to the lack of experience and knowledge that the supplier has of the corporation and of the City's internal and external stakeholders. | | | | | | | | | | | | | | | | | | | | | | |

| Please check one: <input checked="" type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| <p>The Creative Together Cultural Plan and Diversity Strategy was approved by Council in June 2010. The Plans, developed as part of the Vaughan Vision 20/20 strategic plan, identifies key action items to develop arts, culture and heritage in the Vaughan community. The Plans' initiative 2.3 includes developing new programs and initiatives as it relates to arts, culture and cultural heritage. This request would go towards printing and programming costs of materials to help promote and educate on arts, diversity and culture in our community i.e. cultural heritage walking tour (reprint of four heritage conservation districts), the promotion of exhibits and events at the new arts and culture centre (approved by Council in April 2011) at the Maple community centre, community newsletters and cultural mapping directory. Although we will be looking towards our new website to promote and educate, printing material is still a preferred option for our community.</p> | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | | | Timelines | Comments | | | |
| Arts and Culture programs/services. | | | 2012 | Culture Plan and Diversity Strategy approved in June 2010 by Council | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Arts & Culture Marketing Material | | | | |
|--|---|-------------------------------------|--------------|---|----------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | ↓ Initiative (Use drop down list) ↓ | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| The request directly supports diversity, arts, culture and cultural heritage by promoting programs and services related to diversity, arts, culture and cultural heritage. Vaughan Vision's goal is to preserve our heritage & support diversity arts and culture. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | Attendance at events | | 8000 | 3000 | 8000 | |
| 2) | Participation of Community Artists and Partners | | 800 | 400 | 800 | |
| 3) | Number of Programs/events | | 25 | 6 | 25 | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Implement Creative Together Cultural Plan approved in June 2010 by Council. Implement Diversity Strategy approved by Council in June 2010. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Corp. Image |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| An increase in programs, services and their communication and marketing in the community will increase user satisfaction and improve corporate image as it relates to arts and culture. The Culture Plan findings identified that we were one of the lowest per capita expenditure for arts and culture in Ontario. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| 1 | | services | \$ | total cost will help fill resources where required -make programming more efficient | | No |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| Sponsorship, fees and partnerships are options which are currently utilized, but time is needed to develop and promote programs that sponsors/partners want to contribute and support. This investment will assist in promoting and branding our programs so that people know about them and come and in turn sponsors and partners would want to support due to the attendance and popularity of programs and services. | | | | | | |

| <p>The Diversity Strategy was approved by Council in June 2010. A key action item in the strategy was to "Develop a communication plan that includes flyers, posters at key customer services areas that promotes diversity and inclusivity (initiative 1.2) This is print, signage (Braille as well), translation costs and a community roundtable (initiative 1.1). A one-time cost of \$60,000 will go towards Braille signage at our 9 community centres. An annual \$15,000 cost is for the print and other materials as it relates to diversity.</p> | | | | | | | |

| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| Will support the approved Diversity Strategy (see above) and help implement key action items. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | Accessible signage at service areas | | provide | No accessible signage | provide | |
| 2) | Make service areas more diversity inclusive | | provide | None | provide | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| Implementation of Diversity Strategy. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve User Satisfaction | | Secondary | | Improve Corp. Image |
| Briefly explain how this request helps achieve the actions selected above. How does this request make a difference in these areas? Can improvements be defined (i.e. surveys, measures, etc.)? | | | | | | |
| Services levels will improve and also the City's image to our community -making residents feel more inclusive at our centres. | | | | | | |
| Quantitative: Please provide explanation of how this request improves efficiency. Note that performance measures are captured in section 3. This section is for efficiency improvements. | | | | | | |
| Year | Type | Change/Saving | Units | Detail of Cost Reductions/Budget Savings | | Incl. in offsets (Section #9)? |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| 5) Alternatives | | | | | | |
| Are there alternatives or options? Please explain what they are and why they are not the primary approach. | | | | | | |
| None | | | | | | |

| 1A) Request Description: Please provide a <u>brief</u> description of the request. | | | | | | | |
| Please check one: <input type="checkbox"/> Departmental <input type="checkbox"/> Corporate | | | | | | | |
| Additional funding is required to produce the Staff Appreciation BBQ, the Staff Holiday Luncheon and Volunteer Recognition Awards Ceremony/Program at the current standards, as well as new events in the Civic Square at the new City Hall to showcase the building to the community. To maintain the existing service levels for the above programs, additional funds are required. The Volunteer program requires frames, certificates and catering for more recipients and their guests. With the move of staff to the new City Hall, additional funds are also required to produce the Staff BBQ and Holiday Luncheon. New events at the Civic Square have been identified as a desired feature to promote the new City Hall to residents. | | | | | | | |
| 1B) If this request is part of a project with multiple milestones then please fill in the following table: | | | | | | | |
| Milestones or Deliverables | Timelines | Comments | | | | | |
| Staff BBQ | June | | | | | | |
| Staff Holiday Luncheon | December | | | | | | |
| Volunteer Recognition Awards Ceremony | April | | | | | | |
| Future Events in the Civic Square | June - August | | | | | | |
| 1C) Impact on other departments (cost/time/benefit): | | | | | | | |
| Department Impacted | Describe Impact (Cost/time/benefit) | Were they Consulted? | | | | | |
| Building & Facilities | work orders | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | | | | | |
| Corporate Communications | communications support | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | | | | | |
| Parks Operations | services in kind | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | | | | | |
| Other comments: | | | | | | | |
| The collaboration of many departments across the corporation to meet corporate objectives is required. Liaison with all related departments including Building & Facilities, Parks Operations, Corporate Communications, VPL, HR, By-law, Vaughan Fire, Clerks, Roads and Engineering. Requirements for other departments may include work orders, permits, related services in kind and communications support. | | | | | | | |

Appendix A - Additional Resource Request Submissions

| Request Title | | Additional Funding for Special Events | | | | |
|--|--|---------------------------------------|---------------------|--|-----------------------|--|
| 2) Relationship to Vaughan Vision 2020 - Goals / Objectives / Initiatives | | | | | | |
| A) Identify the <u>specific initiative</u> on the Vaughan Vision 2020 initiative list this resource request supports (new or implementation of): Choose an Initiative from the drop down list and then choose the relationship with the initiative in the Green cell using the drop down provided. | | | | | | |
| Theme | Goal | Initiative (Use drop down list) | Ref # | Date | Priority | Request/Initiative Relationship (choose 1) |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| B) Describe and clearly demonstrate how the request links to the Vaughan Vision 2020: | | | | | | |
| City organized and supported events support the strategic goal of providing service excellence to citizens with the objective to preserve our heritage and support diversity, arts and culture. Staff events support the strategic initiative of staff excellence by encouraging and recognizing employees through their participation in a wide variety of events such as the Staff BBQ and Holiday Luncheon. As civic engagement is vital to achieving management excellence, celebrating with and engaging our citizens is also an important component of the strategic vision. Approved funding for possible future events in the Civic Square will welcome our diverse community to a central location where they can feel at home. Note that additional events are contingent on the additional resource requests. | | | | | | |
| 3) Related Performance Indicators & Business Plan Link | | | | | | |
| Please provide information on top 3 performance measures: | | | | | | |
| | Name/description of service level target: | | Target Level | Current Level | Level with ARR | |
| 1) | Sponsorship Revenue | | | | | |
| 2) | | | | | | |
| 3) | | | | | | |
| Describe how this request relates to Departmental Business Plan: | | | | | | |
| The request for additional funding is required to effectively maintain the performance measures for the events named. (Approximately \$13 per employee for the Staff BBQ and Holiday Luncheon; an approximate increase of 50 award recipients for the Volunteer Recognition Awards Ceremony). In addition, the increase in funds for these initiatives will continue to maintain the level of service and meet expectations of Members of Council, City Manager and Senior Management Team, City departments, staff, residents and corporate partners. Twelve thousand dollars is requested for events at the new Civic Square for hosting 2 to 3 additional concerts. | | | | | | |
| 4) Value Proposition | | | | | | |
| Please detail both qualitative and quantitative benefits of the request | | | | | | |
| Qualitative: Please select up to 2 actions which best describe this request | | | | | | |
| Primary | | Improve Corp. Image | | Secondary | | Improve User Satisfaction |
