Item 4, Finance Report No. 14 – Page 4

Attachment 1 provides a summary of the awards by Portfolio.

Departments processed an additional \$2.8 million in Low Value Procurements

To provide the City employees with the flexibility to conduct day-to-day business, departments have the authority to purchase goods and services using Purchasing Cards (P-Cards) and Low Dollar Module (LDM) purchase orders. As of September 30, 2017, there were 281 P-Card holders throughout the City of Vaughan and Vaughan Public Libraries, while during the same quarter last year, there were 143 P-Card Holders.

During the third quarter, departments processed 2,787 P-Card transactions worth \$1.1 million, averaging \$398 per transaction. Analysis shows that nearly 50 percent of the P-Cards transactions are primarily for low value operating supplies, professional memberships, training, seminars and travel-related services.

The P-Card program provides a revenue sharing opportunity where the City is eligible for a 1% rebate based on minimum performance requirements, such as, on-time monthly payments, meeting both a minimum annual transaction value threshold and minimum average transaction value.

For the 12 months ending September 30, 2017, the City earned a \$39,177.94 rebate.

During the same reporting quarter, there were 1,798 LDM purchase orders issued, totaling \$1.7 million with an average of \$953 per transaction. Over 50 percent of the LDM procurements were for materials and supplies. Procurement Services staff are reviewing these transactions with departments to determine if alternative procurement methods could be considered.

The introduction of LDM Purchase Orders through JDE has provided a more robust reporting tool, allowing the distribution of monthly reports to departments with information on their LDM purchases. It also provides Procurement Services with the ability to review the types of procurements made, and engage in meaningful conversations with departments regarding spend patterns and alternate procurement methods that could be exercised. Alternate procurement methods could include the creation of Vendors of Record to help facilitate the departments procurement needs while leveraging the City's buying capacity to obtain the best value for the money spent.

Any employee with the appropriate delegated approval authority and authorized to use a Purchasing card may purchase low-value goods and services, in accordance with the rules and guidelines detailed in the Corporate Procurement Policy and Purchasing Card Policy. Single purchases are limited to a maximum of \$5,000, with a monthly maximum accumulation outlined in the Appropriate Delegated Authority Approval, Section 5.1.1.

For Low Dollar Module Purchase Orders, single purchases are also limited to a maximum of \$5,000, with no monthly maximum.

Three (3) Co-operative contracts valued at \$417,993 were awarded

The City may participate with other levels of government, municipalities, boards, agencies, commissions or public-sector entities where such plans are determined to be in the best interests of the City. If the City participates with another organization, the City shall adhere to the policies of the organization calling the Co-operative bid. The award of the contract will also be issued in accordance with the lead organization's policies. During the third quarter, the City participated in 3 Co-operative contracts with the York Purchasing Co-operative (YPC), bringing the total number of active Co-operative contracts to 13.
